ERRATUM

Subsequent to the tabling of the *Public Accounts of Canada*, a correction was made in Volume I, Section 3, Revenues, Expenses and Accumulated Deficit, Table 3.7, Major Transfer Payments by Province and Territory on page 3.11. The revised information is highlighted.

To His Excellency

The Right Honourable David Johnston,
C.C., C.M.M., C.O.M., C.D.,
*Governor General and
Commander-in-Chief of Canada*

May it please your Excellency:

I have the honour to present to Your Excellency the *Public Accounts of Canada* for the year ended March 31, 2010.

All of which is respectfully submitted.

Stockwell Day, P.C., M.P.
*President of the Treasury Board and
Minister for the Asia-Pacific Gateway*

Ottawa, October 28, 2010

To The Honourable Stockwell Day, P.C., M.P.
*President of the Treasury Board and
Minister for the Asia-Pacific Gateway*

Sir:

In accordance with the provisions of section 64(1) of the *Financial Administration Act*, I have the honour to transmit herewith the *Public Accounts of Canada* for the year ended March 31, 2010, to be laid by you before the House of Commons.

Respectfully submitted,

Rona Ambrose, P.C., M.P.
Receiver General for Canada

Ottawa, October 28, 2010

To The Honourable Rona Ambrose, P.C., M.P.
Receiver General for Canada

Madam:

I have the honour to submit the *Public Accounts of Canada* for the year ended March 31, 2010.

Under section 64(1) of the *Financial Administration Act*, the *Public Accounts of Canada* for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the President of the Treasury Board on or before the thirty-first day of December next following the end of that year, or if the House of Commons is not then sitting, within the first fifteen days next thereafter that the House of Commons is sitting.

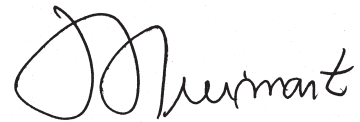

This annual report is presented in three volumes:

Volume I—The financial statements of Canada on which the Auditor General has expressed an opinion and provided her observations; a discussion and analysis of the financial statements and a ten-year comparison of financial information; analyses of revenues and expenses, and of asset and liability accounts; and various other statements;

Volume II—Details of the financial operations of the Government, segregated by ministry; and

Volume III—Additional information and analyses.

Respectfully submitted,

François Guimont
Deputy Receiver General for Canada

Ottawa, October 28, 2010

INTRODUCTION TO THE *PUBLIC ACCOUNTS OF CANADA*

Nature of the *Public Accounts of Canada*

The *Public Accounts of Canada* is the report of the Government of Canada prepared annually by the Receiver General, as required by section 64 of the *Financial Administration Act*. It covers the fiscal year of the Government, which ends on March 31.

The information contained in the report originates from two sources of data:

- the summarized financial transactions presented in the accounts of Canada, maintained by the Receiver General; and
- the detailed records, maintained by departments and agencies.

Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the *Public Accounts of Canada*

The *Public Accounts of Canada* is produced in three volumes.

Volume I presents the audited financial statements of the Government, as well as additional financial information and analyses;

Volume II presents the financial operations of the Government, segregated by ministry; and

Volume III presents supplementary information and analyses.

NOTE TO READER

An overview of the financial operations of the Government of Canada is provided in the *Annual Financial Report* prepared by the Department of Finance. This Report also includes condensed financial statements.

Accompanying this Report are historical fiscal reference tables and related fiscal indicators for the federal government and the provinces.

The *Annual Financial Report* is available on the Internet at <http://www.fin.gc.ca/>.

FINANCIAL STATEMENTS DISCUSSION AND ANALYSIS

Introduction

The *Public Accounts of Canada* is a major accountability report of the Government of Canada. This section, together with the other sections in this volume and in Volumes II and III of the *Public Accounts of Canada*, provides detailed supplementary information in respect of matters reported in the audited financial statements in Section 2 of this volume. Further discussion and analysis of the Government's financial results can be found in the *Annual Financial Report of the Government of Canada – Fiscal Year 2009-2010*, available on the Department of Finance's website.

The financial statements have been prepared under the joint direction of the Minister of Finance, the President of the Treasury Board and the Receiver General for Canada. Responsibility for the integrity and objectivity of the financial statements rests with the Government. A glossary of terms used in this financial statement discussion and analysis is provided at the end of this section.

2009-2010 Financial Highlights

- The Government posted a budgetary deficit of \$55.6 billion for the fiscal year ended March 31, 2010, compared to a budgetary deficit of \$5.8 billion in 2008-2009. Roughly \$21 billion of the \$55.6-billion deficit was attributable to actions taken under Canada's Economic Action Plan.
- The Canadian economy has been significantly affected by the global economic recession. The weaker economy has resulted in more support being provided to Canadians through higher Employment Insurance (EI) benefits, as well as lower tax collections. In addition, as part of Canada's Economic Action Plan, significant additional support has been provided to Canadians in the form of personal income tax reductions, enhanced EI benefits, new infrastructure and housing funding, support for industries and communities, and actions to improve access to financing.
- The March 2010 budget set out a three-point plan for returning to budget balance over the medium term. First, the Government will follow through with the exit strategy built into the Economic Action Plan. Second, the Government will put in place targeted measures to reduce the growth rate of direct program spending. Third, the Government will undertake a comprehensive review of government administrative functions and overhead costs in order to identify opportunities for additional savings and improve service delivery.
- The \$55.6-billion deficit in 2009-2010 was \$1.8 billion higher than forecast in the March 2010 budget. Revenues were \$4.7 billion higher than forecast. However, program expenses were \$6.9 billion higher than forecast, due primarily to the accrual of \$5.6 billion in Harmonized Sales Tax (HST) transitional assistance payments to the provinces of Ontario and British Columbia to be paid in 2010-2011 and 2011-2012. In the March 2010 budget forecast, transitional assistance payments were expensed in annual instalments over the 2009-2010 to 2011-2012 period, consistent with the payment schedules set out in the agreements with the provinces. Considerable judgment is required to interpret eligibility criteria surrounding transfer payments. When met, eligibility criteria establish a recipient's entitlement to receive a transfer payment, and are therefore a key element in determining the appropriate accounting treatment. In the process of finalizing the financial statements, and following discussions with the Office of the Auditor General of Canada, it was determined that the total amount of transitional assistance should be expensed in 2009-2010 as the provinces have met all eligibility criteria to receive the transfers. Absent the impact of this accounting change, the deficit would have been \$3.8 billion lower than forecast in the March 2010 budget.
- The accumulated deficit (the difference between total liabilities and total assets) stood at \$519.1 billion at March 31, 2010. The accumulated deficit-to-GDP (gross domestic product) ratio was 34.0 percent, up 5.0 percentage points from a year earlier. Despite this increase, the accumulated deficit-to-GDP ratio at March 31, 2010 stood at roughly half of its peak of 68.4 percent at March 31, 1996.
- According to the Organisation for Economic Co-operation and Development (OECD), Canada's total government net-debt-to-GDP ratio stood at 28.9 percent in 2009. This is the lowest level amongst G7 countries, which the OECD estimates will record, on average, a net-debt-to-GDP ratio of 60.3 percent for that same year.

Discussion and Analysis

Economic Highlights ⁽¹⁾

The Canadian economy has been significantly affected by the deepest and most synchronized global economic recession since the 1930s. The global financial crisis of late 2008 and early 2009, together with a sharp decline in global trade, reduced Canadian exports and weakened business and consumer confidence, significantly lowering employment and output. Employment in Canada fell by nearly 420,000 during that period, while the unemployment rate rose to 8.7 percent. Output also decreased significantly in the last quarter of 2008 and in the first half of 2009.

Nevertheless, Canada weathered the global recession better than most other major industrialized countries. This reflects Canada's financial, economic and fiscal strengths, together with substantial support provided by the Economic Action Plan. The decline in Canadian real GDP over the course of the global recession was the smallest of all G7 countries.

The economic recovery in Canada began in the third quarter of 2009, led by a solid recovery in domestic demand. Real GDP increased by 0.9 percent in the third quarter of 2009 and 4.9 percent in the fourth quarter of 2009. In the first quarter of 2010, real GDP growth strengthened further, increasing to 5.8 percent - the strongest quarterly growth rate in ten years. The recovery continued in the second quarter of 2010, as output grew by 2.0 percent.

As a result of Canada's stronger economic performance both during the recession and over the recovery, the level of output has virtually returned to its pre-recession level by the second quarter of 2010, the only G7 country to have done so.

This solid economic recovery has also supported a recovery in Canada's labour markets. Since July 2009, employment has increased by close to 430,000, offsetting all of the jobs lost during the recession, and the unemployment rate has declined from the peak of 8.7 percent to 8.1 percent in August 2010.

Despite this strong performance, the level of economic activity in 2009 was considerably lower than in 2008. Real GDP declined by 2.5 percent in 2009. Due to this decline in real GDP together with a sharp decline in global commodity prices, nominal GDP (the broadest single measure of the Government's tax base) fell by 4.5 percent in 2009. This sharply reduced government revenues and increased cyclically sensitive government expenditures, such as EI benefits, in 2009-2010.

⁽¹⁾ This section incorporates data available up to and including September 20, 2010.

Canada's Economic Action Plan

Canada's relative economic and fiscal strength has allowed the Government to put in place one of the most comprehensive economic stimulus packages in the world. To protect jobs and income of Canadians, the Government introduced Canada's Economic Action Plan (EAP) in January 2009—an extraordinary response, taken in co-operation with other G20 governments, to the deepest and most synchronized global recession since the 1930s. The Government also put in place measures to provide up to \$200 billion through the Extraordinary Financing Framework to support lending to Canadian households and businesses. The EAP:

- Reduces taxes permanently.
- Helps the unemployed through enhanced EI benefits and training programs.
- Avoids layoffs by enhancing the EI work-sharing program.
- Provides a massive injection of infrastructure spending and provided additional support to the housing sector through the Home Renovation Tax Credit.
- Helps create the economy of tomorrow by improving infrastructure at colleges and universities and supporting research and technology.
- Supports industries and communities most affected by the global downturn.
- Improves access to and the affordability of financing for Canadian households and businesses.

These measures are being implemented across a large number of departments, agencies and Crown corporations including: Canada Mortgage and Housing Corporation (investments in social housing for Canadians); the Canada Revenue Agency (tax relief for Canadians including personal income tax reductions and the Home Renovation Tax Credit); Foreign Affairs and International Trade (support for the automotive sector); Human Resources and Skills Development (increased investments in labour market training delivered by provinces and territories, and enhancements to EI benefits, such as the extension of regular benefits by an extra five weeks); Indian Affairs and Northern Development (construction and renovation of schools, water systems, housing and other critical infrastructure); Industry (investments in knowledge infrastructure and community transition funding); and Office of Infrastructure of Canada (investments in provincial, territorial and municipal infrastructure, including the Infrastructure Stimulus Fund and the Green Infrastructure Fund).

Given the importance of timely stimulus, the Government has taken unprecedented action to implement the EAP as quickly and effectively as possible, while ensuring the effective stewardship of taxpayer dollars.

Progress in Implementing Canada's Economic Action Plan

	2009-2010 Impact of EAP
	(accrual basis – in billions of dollars)
Reducing the tax burden for Canadians.	3.1
Helping the unemployed.	3.7
Building infrastructure to create jobs.	5.4
Creating the economy of tomorrow.	1.9
Supporting industries and communities.	6.8
Total - Federal support.	21.0

Note: Totals may not add due to rounding.

Actions taken in the first year of the EAP account for roughly \$21 billion of the 2009-2010 deficit of \$55.6 billion. Of the amounts recorded under the EAP, tax reductions account for \$7.7 billion, while expenditure measures account for \$13.3 billion.

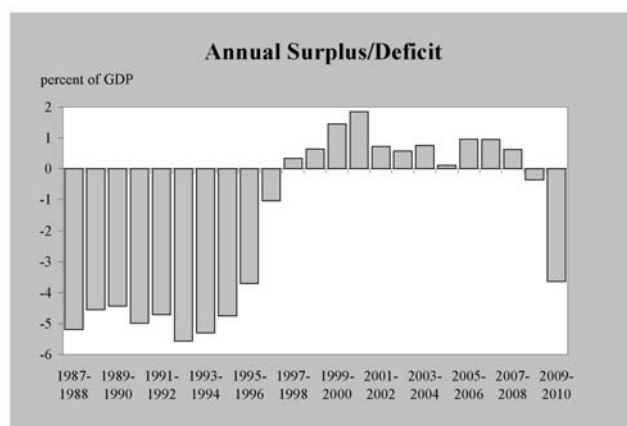

The \$21 billion of EAP measures in 2009-2010 are recorded on an accrual basis. This amount is lower than the cash value of the EAP due largely to investments in federal assets (for which budgetary costs are amortized over a number of years), loans to third parties (for which budgetary costs are only recorded to the extent there is a risk of loss), and the timing of the Home Renovation Tax Credit. The five reports to Canadians on the EAP have focused on the cash value of the Plan because this is the best measure for assessing the impact of the stimulus on the economy.

The Government has reported regularly to Canadians on the implementation of the Plan. Canadians can learn more about individual elements of the Plan and follow implementation progress at www.actionplan.gc.ca.

The Budgetary Balance

Reflecting the impact of the global economic recession and the stimulus measures introduced to help mitigate its impact, the Government posted a budgetary deficit of \$55.6 billion in 2009-2010.

The following graph shows the Government's budgetary balance since 1987-1988. To enhance the comparability of results over time and across jurisdictions, the budgetary balance and its components are often presented as a percentage of GDP.

The 2009-2010 budgetary deficit of \$55.6 billion compares to a deficit of \$5.8 billion in 2008-2009. Revenues were down \$14.5 billion, or 6.2 percent, from the prior year. Personal income tax revenues fell \$12.1 billion, reflecting weak growth in personal income and significant tax reductions under the EAP, including the Home Renovation Tax Credit. Declines were also recorded in non-resident income tax revenues, which decreased \$1.0 billion, customs import duties, which decreased \$0.5 billion, and other program revenues, which decreased \$2.7 billion. These decreases were partially offset by a \$0.9-billion increase in corporate income tax revenues and a \$1.2-billion increase in Goods and Services Tax (GST) revenues.

2009-2010 Financial Highlights

	2009-2010	2008-2009
	(in billions of dollars)	
Statement of Operations		
Revenues	218.6	233.1
Expenses—		
Program expenses	244.8	207.9
Public debt charges	29.4	31.0
Total expenses	274.2	238.8
Annual deficit	55.6	5.8
Percentage of GDP	3.6%	0.4%
Statement of Financial Position		
Liabilities—		
Interest-bearing debt	762.8	710.2
Other	120.5	114.0
Total liabilities	883.3	824.2
Financial assets	300.8	298.9
Net debt	582.5	525.2
Non-financial assets	63.4	61.5
Accumulated deficit	519.1	463.7
Percentage of GDP	34.0%	29.0%

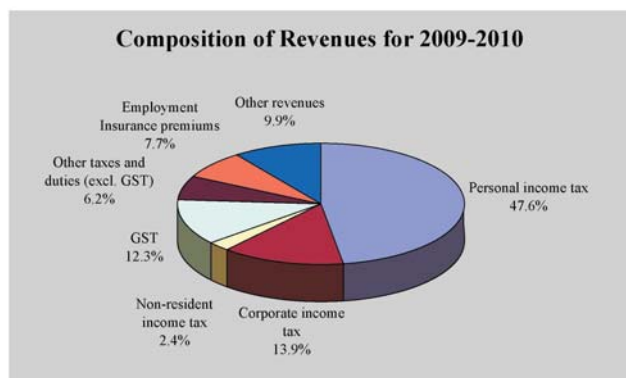

Note: Totals may not add due to rounding.

Expenses were up \$35.4 billion, or 14.8 percent, from the prior year. This increase is largely attributable to measures directly related to the recession, such as the EAP and the impact of a weaker economy on cyclically sensitive expenses such as EI benefits, as well as increased transfers to other levels of government, which includes HST transitional assistance to the provinces of Ontario and British Columbia and legislated growth in the Canada Health Transfer, the Canada Social Transfer and Equalization. The growth in expenses was also attributable to increased pension and other benefit expenses, reflecting the amortization of estimation losses arising from the 2008-2009 annual actuarial valuations of the Government's obligations for public service pensions and other employee future benefits, as well as the reclassification of Canadian Commercial Corporation from an enterprise Crown corporation to a consolidated Crown corporation. For 2009-2010, this reclassification has resulted in increases to both Crown corporation revenues and Crown corporation expenses, with no overall impact on the budgetary balance. This reclassification is considered to better reflect the substance of the operations of the Canadian Commercial Corporation.

Budget 2010 set out a three-point plan for returning to budget balance over the medium term. First, the Government will follow through with the exit strategy built into the EAP. Second, the Government will put in place targeted measures to reduce the growth rate of direct program spending. Third, the Government will undertake a comprehensive review of government administrative functions and overhead costs in order to identify opportunities for additional savings and improve service delivery.

Revenues

The largest source of federal revenues is personal income tax revenues, which accounted for 47.6 percent of total revenues in 2009-2010. Corporate income tax revenues accounted for 13.9 percent of revenues in 2009-2010, up from 12.6 percent in 2008-2009, but well below the levels reached in the years immediately preceding the recession, due both to the weaker economy and significant corporate income tax relief. EI premium revenues represented 7.7 percent of revenues in 2009-2010. The Government has kept the EI premium rate stable at \$1.73 per \$100 of insurable earnings for 2009 and 2010. Other taxes and duties averaged about 20 percent of total revenues between 1990-1991 and 2005-2006, but began to decline as a share of total revenues in 2006-2007, due to the impact of two consecutive 1-percentage-point cuts to the GST rate effective July 1, 2006 and January 1, 2008. In 2009-2010, other taxes and duties made up 18.6 percent of total revenues. Other revenues were 9.9 percent of total revenues in 2009-2010, down 0.7 percentage points from a year earlier. In 2008-2009, the share of total revenues represented by other revenues reached its highest level since 1992-1993, due largely to an increase in revenues related to the Extraordinary Financing Framework and the sharp decline in personal income tax revenues.

The revenue ratio - revenues as a percentage of GDP - compares the total of all federal revenues to the size of the economy. This ratio is significantly influenced by economic developments and, absent policy changes, tends to decline during economic downturns and to increase during recoveries, reflecting the progressive nature of the tax system and the cyclical nature of capital gains. The ratio has been declining gradually since 2001-2002, and is down significantly

from an average of 18 percent over the period 1996-1997 to 2000-2001. This decline is due primarily to tax reduction measures. The ratio stood at 14.3 percent in 2009-2010, down 0.3 percentage points from 2008-2009, reflecting a weaker economy and the impact of tax relief measures announced in the 2009 budget.

Revenues Compared to 2008-2009

The following table compares the actual results for revenues for 2009-2010 to 2008-2009.

Revenues

	Change			
	2009-10	2008-09	Absolute	Percent
	(in millions of dollars)			%
Income tax revenues—				
Personal	103,947	116,024	-12,077	-10.4
Corporate	30,361	29,476	885	3.0
Non-resident	5,293	6,298	-1,005	-16.0
Total	139,601	151,798	-12,197	-8.0
Other taxes and duties—				
Goods and services tax	26,947	25,740	1,207	4.7
Energy taxes	5,178	5,161	17	0.3
Customs import duties	3,490	4,036	-546	-13.5
Other excise taxes and duties	4,958	4,869	89	1.8
Total	40,573	39,806	767	1.9
Employment Insurance premiums .	16,761	16,887	-126	-0.7
Other revenues	21,665	24,601	-2,936	-11.9
Total revenues	218,600	233,092	-14,492	-6.2

Total revenues declined \$14.5 billion in 2009-2010, due primarily to lower personal income tax revenues, non-resident income tax revenues and other program revenues. These decreases were partially offset by higher GST and corporate income tax revenues.

Personal income tax revenues, the largest component of revenues, declined by \$12.1 billion, or 10.4 percent, in 2009-2010. This decline reflected significant tax reductions under the EAP, including the Home Renovation Tax Credit, as well as very weak growth in the tax base. In addition, 2008-2009 results were boosted by a refinement of the tax accrual estimation methodology to address an understatement of personal income tax revenues dating from the adoption of accrual accounting in 2002-2003. These refinements had a one-time impact of raising personal income tax revenues in 2008-2009 by about \$2.9 billion, which contributed to the decline in 2009-2010.

Corporate income tax revenues increased by \$0.9 billion, or 3.0 percent, in 2009-2010, in spite of a sharp contraction in corporate profits in 2009 and ongoing income tax reductions. The difference between lower profits and higher collections is only partly explained by some one-time factors. For example, whereas foreign exchange movements lowered corporate income tax liabilities last year, a strengthening of the Canadian dollar resulted in higher liabilities for 2009-2010.

Non-resident income tax revenues were down \$1.0 billion, or 16.0 percent, in 2009-2010, reflecting lower interest and dividend payments to non-residents.

Other taxes and duties increased \$0.8 billion, or 1.9 percent, from the prior year, driven by a \$1.2-billion, or 4.7-percent, increase in GST revenues, reflecting higher consumption. Other excise taxes and duties increased by \$0.1 billion, or 1.8 percent, energy taxes increased by \$17 million, or 0.3 percent, and customs import duties declined by \$0.5 billion, or 13.5 percent.

EI premium revenues decreased by \$0.1 billion, or 0.7 percent, from the previous year, reflecting the fall in employment and the fact that the premium rate was kept stable at \$1.73 per \$100 of insurable earnings for 2009 and 2010.

Other revenues declined by \$2.9 billion, or 11.9 percent, in 2009-2010. This decrease was driven by a decline of \$2.7 billion in other program revenues, due mainly to foreign exchange losses recorded on foreign currency loans in support of development and trade and to a decline in receipts under the Atlantic Offshore Revenue Accounts. Revenue under the Atlantic Offshore Revenue Accounts is transferred to Newfoundland and Labrador and Nova Scotia under the Atlantic Offshore Accords, such that there is no net impact on the budgetary balance. Crown corporation revenues decreased by \$0.1 billion, as increases in revenues resulting from the reclassification of Canadian Commercial Corporation and increased interest revenues on loans provided to Crown corporations under the Government's consolidated borrowing framework were more than offset by declines in the profits of enterprise Crown corporations and other government business enterprises. The decline in profits over the prior year is due in large part to an unrealized loss on derivatives held under the Insured Mortgage Purchase Program (IMPP) administered by Canada Mortgage and Housing Corporation (CMHC) and a decrease in investment revenues recorded by the Bank of Canada.

Expenses

The two largest major components of expenses in 2009-2010 were ministry expenses and major transfers to persons, which each accounted for roughly 25 percent of total expenses. Ministry expenses include the operating expenses of the more than 100 government departments and agencies, including National Defence. Major transfers to persons consist of elderly benefits, EI benefits, the Canada Child Tax Benefit and the Universal Child Care Benefit. Major transfers to other levels of government (Canada Health Transfer and Canada Social Transfer, fiscal arrangements and other transfers, transfers to provinces on behalf of Canada's cities and communities, and Alternative Payments for Standing Programs) made up 20.8 percent of total expenses in 2009-2010. Other transfer payments, which include transfers to individuals, businesses, and other organizations and groups, made up 14.6 percent of expenses, while Crown corporations accounted for 3.8 percent of total expenses. Public debt charges made up the remaining 10.7 percent of total expenses in 2009-2010, down from 13.0 percent in 2008-2009.

There has been a large shift in the composition of total expenses since the early 1990s. Public debt charges were the largest component for most of the 1990s, given the large and increasing stock of interest-bearing debt and high average effective interest rates on that stock of debt. With reductions in the stock of interest-bearing debt and a decline in interest rates over the 1997-1998 to 2007-2008 period, the share of public debt charges in total expenses fell over 15 percentage points from a high of nearly 30 percent of total expenses in 1996-1997. While the stock of interest-bearing debt increased significantly during 2008-2009 and 2009-2010 due to the surge in financial requirements stemming from the EAP, the Extraordinary Financing Framework, and borrowings for Crown corporations under the consolidated borrowing framework, the share of public debt charges fell a further 3.6 percentage points over the two years due to declines in interest rates.

The interest ratio (public debt charges as a percentage of revenues) has been decreasing in recent years, falling from 37.6 percent in 1990-1991 to 13.3 percent in 2008-2009. The ratio increased slightly to 13.5 percent in 2009-2010, reflecting lower government revenues. This ratio means that in 2009-2010, the Government

spent roughly 14 cents of every revenue dollar on interest on the public debt. This is money that is required to meet the Government's ongoing debt-financing obligations. The lower the ratio, the more flexibility the Government has to address the key priorities of Canadians. As well as lowering debt charges - which has freed up resources for more productive uses - past reductions in the public debt have given the Government flexibility to deal with the economic slowdown.

Expenses Compared to 2008-2009

Total expenses amounted to \$274.2 billion in 2009-2010, up \$35.4 billion, or 14.8 percent, from 2008-2009. The next table shows the sources of that increase.

Increases in Expenses in 2009-2010

	(in billions of dollars)
Measures directly related to recession	
Canada's Economic Action Plan	13.3
Increased Employment Insurance benefits (excluding Budget 2009 EAP enhancements)	3.5
	16.8
Transfers to other levels of government in support of health, social programs, Equalization and HST transitional assistance	10.5
Total support for Canadians and other levels of government	27.3
Other	
Increased pension and benefit costs related to amortization of losses	1.7
Reclassification of Canadian Commercial Corporation	1.5
Other expenses	4.8
	8.0
Total increase in expenses	35.4

Note: Totals may not add due to rounding.

The increase in expenses is largely attributable to measures directly related to the recession, such as the EAP and the impact of a weaker economy on cyclically sensitive expenses such as EI benefits, as well as increased transfers to other levels of government, which includes HST transitional assistance to the provinces of Ontario and British Columbia, and legislated growth in the Canada Health Transfer, the Canada Social Transfer and Equalization. The growth in expenses was also attributable to increased pension and other benefit expenses, reflecting the amortization of estimation losses arising from the 2008-2009 annual actuarial valuations, as well as the reclassification of Canadian Commercial Corporation. As previously mentioned, the reclassification of Canadian Commercial Corporation in 2009-2010 has resulted in increases to both Crown corporation revenues and Crown corporation expenses, with no overall impact on the budgetary balance. Other expenses only accounted for only \$4.8 billion or 14 percent of the increase in expenses.

The following table compares the actual results for total expenses for 2009-2010 to 2008-2009.

Expenses

	2009-10	2008-09	Change	
	(in millions of dollars)		Absolute	Percent
				%
Transfer payments—				
Major transfers to persons—				
Elderly benefits	34,653	33,377	1,276	3.8
Employment Insurance benefits ..	21,586	16,308	5,278	32.4
Children's benefits	12,340	11,901	439	3.7
Total	68,579	61,586	6,993	11.4
Major transfer payments to other levels of government—				
Federal transfer support for health and other social programs	35,678	33,327	2,351	7.1
Fiscal arrangements and other transfers	24,015	16,162	7,853	48.6
Alternative payments for standing programs	-2,703	-2,974	271	-9.1
Total	56,990	46,515	10,475	22.5
Other transfer payments	39,892	30,192	9,700	32.1
Total transfer payments	165,461	138,293	27,168	19.6
Other program expenses—				
Crown corporations	10,428	8,066	2,362	29.3
Ministries	68,895	61,498	7,397	12.0
Total other program expenses	79,323	69,564	9,759	14.0
Total program expenses	244,784	207,857	36,927	17.8
Public debt charges	29,414	30,990	-1,576	-5.1
Total expenses	274,198	238,847	35,351	14.8

Major transfers to persons increased by \$7.0 billion in 2009-2010, largely due to higher EI and elderly benefits. The \$5.3-billion increase in EI benefits reflects higher unemployment, as well as benefit enhancement measures announced as part of the EAP. The \$1.3-billion increase in elderly benefits reflects growth in

the elderly population and changes in consumer prices, to which benefits are fully indexed. Children's benefits, which consist of the Canada Child Tax Benefit and the Universal Child Care Benefit, increased \$0.4 billion, due in part to increases to the National Child Benefit and the Canada Child Tax Benefit announced in the January 2009 budget.

Major transfers to other levels of government increased by \$10.5 billion over the previous year, reflecting legislated growth in the Canada Health Transfer, the Canada Social Transfer and Equalization, \$5.9 billion in transitional assistance to the provinces of Ontario and British Columbia related to their decision to adopt the HST, as well as the doubling of the gas tax transfer to provinces and municipalities, as of April 1, 2009. Alternative Payments for Standing Programs, which are netted against major transfers to other levels of government, decreased by \$0.3 billion in 2009-2010, resulting in a corresponding increase in transfer payments. Alternative Payments for Standing Programs are a recovery from the Province of Quebec for an additional tax point transfer (13.5 points) above and beyond the Canada Health Transfer and Canada Social Transfer tax point transfers. The \$0.3-billion decrease in this recovery was due to a decrease in the value of personal income tax points in 2009-2010 compared to 2008-2009.

Other transfer payments, which include transfers to First Nations and Aboriginal peoples, assistance to farmers, students and businesses, support for research and development, and foreign aid and international assistance, increased by \$9.7 billion, or 32.1 percent, over the prior year. This growth mainly reflects increases in international assistance, increased support for students, workers and persons with disabilities, increased transfers related to health, and increased infrastructure funding and assistance for the automotive industry announced under the EAP. These increases were partially offset by a decrease in transfers to Newfoundland and Labrador and Nova Scotia under the Atlantic Offshore Accords.

Other program expenses increased from \$69.6 billion in 2008-2009 to \$79.3 billion in 2009-2010, up \$9.8 billion, or 14.0 percent. This spending component consists of operating expenses of Crown corporations, departments and agencies, including National Defence, as well as expenses related to the ongoing assessment of the Government's liabilities. The \$9.8-billion increase reflects investments in federal infrastructure projects under the EAP, the impact of previous budget measures, such as the Canada First Defence Strategy, growth in the ongoing cost of operations, as well as the first year of amortization of significant estimation losses arising from the 2008-2009 annual actuarial valuations of the Government's obligations for pension and other future benefit plans. Annual actuarial valuations are prepared using assumptions that are based on the Government's best estimates. Estimation gains and losses arise when actual experience varies from assumptions. The losses experienced in 2008-2009 are due in part to a decline in the market value of the Government's pension plan assets as a result of a deterioration in credit market conditions. These adjustments are amortized over the estimated average remaining service lives of plan members, which represent periods ranging from 5 to 23 years according to the plan in question. Crown corporation expenses increased by \$2.4 billion in 2009-2010, due primarily to the reclassification of Canadian Commercial Corporation and increased social housing assistance provided by CMHC under the EAP.

Comparison of Actual Results to Budget Projections

Comparison to March 2010 Budget Plan

The 2009-2010 deficit was \$1.8 billion higher than the \$53.8-billion deficit forecast in the March 2010 budget. Revenues were \$4.7 billion higher than expected, largely reflecting higher-than-expected corporate income tax revenues. Program expenses were \$6.9 billion higher than forecast, largely reflecting the accrual of \$5.6 billion in HST transitional assistance payments to Ontario and British Columbia to be paid in 2010-2011 and 2011-2012. In the March 2010 budget forecast, transitional assistance payments were expensed in annual instalments over the 2009-2010 to 2011-2012 period, consistent with the payment schedules set out in the agreements with the provinces. Considerable judgment is required to interpret eligibility criteria surrounding transfer payments. When met, eligibility criteria establish a recipient's entitlement to receive a transfer payment, and are therefore a key element in determining the appropriate accounting treatment. In the process of finalizing the financial statements, and following discussions with the Office of the Auditor General of Canada, it was determined that the total amount of transitional assistance should be expensed in 2009-2010 as the provinces have met all eligibility criteria to receive the transfers. Absent the impact of this accounting change, the deficit would have been \$3.8 billion lower than forecast in the March 2010 budget. The remaining difference between actual and forecast program expenses is due mainly to the reclassification of Canadian Commercial Corporation (CCC) and higher-than-expected bad debt expense related to tax receivables. These increases in expenses were partially offset by public debt charges which were \$0.5 billion lower than expected, due largely to lower-than-expected effective interest rates.

Comparison of 2009-2010 Outcomes to March 2010 Budget

	Budget	Actual	Difference
	(in billions of dollars)		
Revenues	213.9	218.6	4.7
Expenses —			
Program expenses —			
HST transitional assistance	0.3	5.9	5.6
Reclassification of CCC	0.0	1.5	1.5
Other program expenses	237.6	237.4	-0.2
Total program expenses	237.8	244.8	6.9
Public debt charges	29.9	29.4	-0.5
Total expenses	267.7	274.2	6.5
Annual deficit	53.8	55.6	1.8

Note: Totals may not add due to rounding.

Comparison to January 2009 Budget Plan

As mentioned above, the level of economic activity in 2009 was considerably lower than in 2008. It was also well below expectations at the time of the January 2009 budget. In light of the downside risks to the economic outlook in early 2009, the Government judged it appropriate, for budget planning purposes, to adjust downward by 1.2 percent the private sector forecast for nominal GDP, in Budget 2009. As a result, the planning assumption in Budget 2009 was for a contraction of 2.7 percent in nominal GDP in 2009. However, the 4.5-percent decline in nominal GDP in 2009 was larger than the de-

cline assumed in Budget 2009. As a result, the 2009-2010 budgetary deficit was \$21.9 billion higher than the \$33.7-billion deficit forecast in the January 2009 budget, primarily reflecting this larger-than-expected decline in economic activity.

Revenues were \$6.3 billion, or 2.8 percent, lower than forecast in the January 2009 budget, reflecting lower-than-projected personal income tax and other revenues, partially offset by higher-than-projected corporate income tax and GST revenues. The weakness in personal income tax revenues, which were \$6.3 billion lower than projected, reflects slower-than-projected growth in personal taxable income as a result of the recession. Other revenues were \$4.8 billion lower than projected, reflecting lower interest revenues from the IMPP than expected at the time of Budget 2009, resulting from lower-than-expected take-up of the program, foreign exchange losses recorded on foreign currency loans in support of development and trade, an unrealized loss on derivatives held under the IMPP, and lower-than-expected revenues under the Government's Corporate Asset Management Review. These decreases were partially offset by the increase in other revenues resulting from the reclassification of Canadian Commercial Corporation.

For 2009-2010, total expenses were \$15.6 billion higher than projected in the January 2009 budget, with program expenses \$15.7 billion higher than forecast and public debt charges \$0.1 billion lower than forecast. The higher-than-expected program expenses are largely attributable to an increase in transfer payments, primarily reflecting higher EI benefit payments, the accrual of transitional assistance to Ontario and British Columbia related to the provinces' decisions to adopt the HST framework, and support for the automotive industry. Other program expenses were \$2.3 billion, or 3.0 percent, higher than forecast. Within other program expenses, Crown corporation expenses were \$1.3 billion higher than expected, largely reflecting the reclassification of Canadian Commercial Corporation, while operating expenses of departments and agencies were \$1.0 billion higher than forecast, due mainly to increased pension and benefit costs, reflecting the amortization of estimation losses arising from the 2008-2009 annual actuarial valuations of the Government's obligations for public service pensions and other employee future benefits.

Comparison of 2009-2010 Outcomes to January 2009 Budget

	Budget	Actual	Difference
	(in millions of dollars)		
Revenues			
Income tax revenues	141,538	139,601	-1,937
Other taxes and duties	40,113	40,573	460
Employment Insurance premiums	16,795	16,761	-34
Other revenues	26,459	21,665	-4,794
Total revenues	224,905	218,600	-6,305
Expenses—			
Program expenses			
Major transfers to persons	66,350	68,579	2,229
Major transfer payments to other levels of government	50,065	56,990	6,925
Other transfer payments	35,694	39,892	4,198
Other program expenses	76,976	79,323	2,347
Total program expenses	229,085	244,784	15,699
Public debt charges	29,500	29,414	-86
Total expenses	258,585	274,198	15,613
Annual deficit	33,680	55,598	21,918

Accumulated Deficit

The accumulated deficit is the difference between the Government's total liabilities and total assets. The annual change in the accumulated deficit represents the annual budgetary balance plus any gains or losses recognized in other comprehensive income. Other comprehensive income represents certain unrealized gains and losses on financial instruments reported by enterprise Crown corporations and other government business enterprises. Based on the recommendations of the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants, other comprehensive income is not included in the Government's annual budgetary balance, but is instead recorded directly to the Government's Statement of Accumulated Deficit and Statement of Change in Net Debt.

Accumulated Deficit

	2009-2010	2008-2009	Difference
	(in millions of dollars)		
Accumulated deficit at beginning of year	463,710	457,637	6,073
Annual deficit	55,598	5,755	49,843
Other comprehensive income (-) or loss ...	-211	318	-529
Accumulated deficit at end of year	519,097	463,710	55,387

The accumulated deficit increased by \$6.1 billion in 2008-2009 and by \$55.4 billion in 2009-2010, reflecting the impact of the global economic recession and the stimulus measures introduced to help mitigate its impact. The \$55.4-billion increase in the accumulated deficit in 2009-2010 reflects the \$55.6-billion budgetary deficit, partially offset by \$0.2 billion in other comprehensive income. The \$0.2 billion in other comprehensive income reflects a \$0.4-billion increase in the market value of enterprise Crown corporations' and other government business enterprises' holdings of financial assets classified as available for sale, partially offset by a \$0.2-billion decrease in the fair value of derivative financial instruments used in hedging activities.

As a percentage of GDP, the accumulated deficit stood at 34.0 percent at March 31, 2010, roughly half of its post-World War II peak of 68.4 percent at March 31, 1996.

Canada Has the Lowest Total Government Net Debt Ratio Among G7 Countries

According to the OECD, Canada's total government net debt-to-GDP ratio stood at 28.9 percent in 2009. This is by far the lowest level amongst G7 countries, which the OECD estimates will record, on average, a net debt-to-GDP ratio of 60.3 percent for that same year.

Total government net debt as measured by the OECD includes the liabilities net of financial assets of the federal, provincial-territorial and local governments, and well as those of the Canada and Quebec Pension Plans. For international comparability, the OECD also excludes the estimated value of unfunded public sector pension liabilities.

As noted above, the accumulated deficit is the difference between the Government's total liabilities and total assets. Total liabilities include interest-bearing debt and accounts payable and accrued liabilities. Total assets include both financial and non-financial assets, the latter consisting primarily of capital assets. The following sections provide more detail on each of these components.

Statement of Financial Position

	2009-2010	2008-2009	Difference
	(in millions of dollars)		
Liabilities			
Accounts payable and accrued liabilities	120,525	113,999	6,526
Interest-bearing debt—			
Unmatured debt	559,126	514,020	45,106
Pension and other future benefits	197,070	190,220	6,850
Other liabilities	6,587	5,923	664
Total	762,783	710,163	52,620
Total liabilities	883,308	824,162	59,146
Financial assets			
Cash and accounts receivable	101,205	122,147	-20,942
Foreign exchange accounts	46,950	51,709	-4,759
Loans, investments and advances ⁽¹⁾	152,681	125,093	27,588
Total financial assets	300,836	298,949	1,887
Net debt	582,472	525,213	57,259
Non-financial assets	63,375	61,503	1,872
Accumulated deficit	519,097	463,710	55,387

⁽¹⁾ Includes \$211 million in other comprehensive income (-\$318 million other comprehensive loss in 2008-2009) reported by enterprise Crown corporations and other government business enterprises.

Interest-Bearing Debt

Interest-bearing debt includes unmaturing debt, or debt issued on the credit markets, liabilities for pensions and other future benefits, and other liabilities. Unmatured debt, which includes fixed-coupon marketable bonds, Real Return Bonds, treasury bills, retail debt (Canada Savings Bonds and Canada Premium Bonds), foreign-currency-denominated debt, as well as bonds issued to the Canada Pension Plan and obligations related to capital leases, amounted to 73 percent of interest-bearing debt at March 31, 2010. Liabilities for pensions and other future benefits include obligations for federal employee pension plans and other employee and veteran future benefits. Liabilities for federal public service pension plans made up 19 percent of interest-bearing debt and other employee and veteran future benefits accounted for an additional 7 percent of interest-bearing debt. The remaining 1 percent of interest-bearing debt represents other interest-bearing liabilities of the Government, which include deposit and trust accounts and other specified purpose accounts. The share of total interest-bearing debt represented by unmaturing debt had been declining since the mid-1990s, as the Government was able to retire some of this debt. This trend reversed in 2008-2009 due to the surge in financial requirements stemming from the Government's EAP, as well as an increase in borrowings under the consolidated borrowing framework introduced in 2008. Under the consolidated borrowing framework, the Government finances all of the borrowing needs of CMHC, the Business Development Bank of Canada and Farm Credit Canada through direct lending in order to reduce overall borrowing costs and improve the liquidity of the government securities market.

At March 31, 2010, interest-bearing debt totalled \$762.8 billion, up \$52.6 billion from March 31, 2009. The increase was largely attributable to an increase in unamatured debt, primarily reflecting financing requirements associated with the budgetary deficit. The increase in unamatured debt also reflects an increase in borrowings on behalf of Crown corporations under the consolidated borrowing framework, and in particular CMHC financing requirements for the purchase of insured mortgage pools under the IMPP to support the availability of longer-term credit. Borrowings undertaken by the Government to fund the IMPP operations do not increase the accumulated deficit, as they are offset by interest-bearing financial assets.

The Bank of Canada and the Department of Finance manage the Government's debt and associated risks. The fundamental objective of the debt management strategy is to provide stable, low-cost funding to meet the Government's financial obligations and liquidity needs. Details on the Government's debt management objectives and principles are tabled annually in Parliament through the Department of Finance's *Debt Management Strategy*. Further details on the pension plans are contained in Section 6 of this volume.

Foreign holdings of the Government's unamatured debt were estimated at \$91.1 billion at March 31, 2010. This represents approximately 16 percent of the Government's total unamatured debt, down significantly from an average of about 27 percent in the mid-1990s.

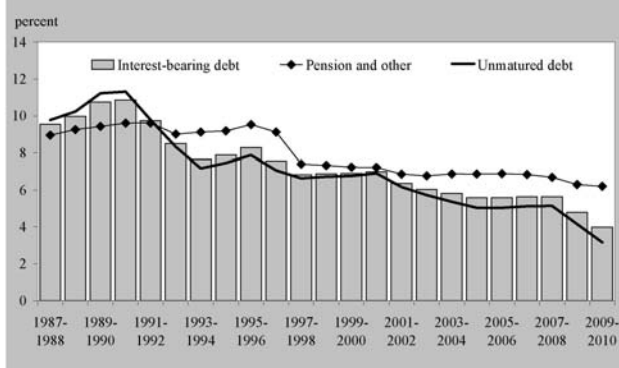

The average effective interest rate on the Government's interest-bearing debt in 2009-2010 was 4.0 percent, down from 4.8 percent in 2008-2009. The average effective interest rate on unamatured debt in 2009-2010 was 3.1 percent, down 1 percentage point from 2008-2009. The average effective interest rate on pension and other liabilities was 6.3 percent, down from 6.4 percent a year earlier. The average effective interest rate was higher on pension and other liabilities than on unamatured debt because the unfunded pension liability is primarily credited with interest at rates that are calculated as though the amounts in the plans were invested in a notional portfolio of Government of Canada 20-year bonds held to maturity, whereas unamatured debt includes both short- and long-term securities.

The debt structure of interest-bearing debt is usually described in terms of its fixed-rate share (that is the proportion of all interest-bearing debt that does not mature or need to be repriced within one year relative to the total amount of Government of Canada interest-bearing debt). It is calculated on a net basis by excluding components of the debt that are matched with financial assets of the same term, which therefore do not represent an exposure to interest rate risk. The federal liabilities netted out from the fixed-rate share calculation include liabilities funding the assets in the Exchange Fund Account; debt securities matched with corresponding loans to Crown corporations; Government of Canada debt securities held by the Bank of Canada; matched assets related to the IMPP; and the debt offset by Receiver General cash and deposit balances.

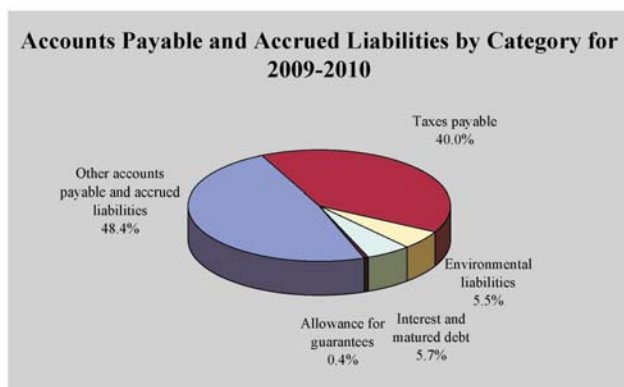

The fixed-rate share of interest-bearing debt increased from 61.0 percent in 2008-2009 to 63.3 percent in 2009-2010.

Average Effective Interest Rate on Interest-Bearing Debt

Accounts Payable and Accrued Liabilities

The following chart shows accounts payable and accrued liabilities by category for 2009-2010.

At March 31, 2010, accounts payable and accrued liabilities amounted to \$120.5 billion, up \$6.5 billion from March 31, 2009. The increase is largely attributable to an \$8.9-billion increase in other accounts payable and accrued liabilities, primarily reflecting the accrual of HST transitional assistance to the provinces of Ontario and British Columbia. This assistance will be paid out in 2010-2011 and 2011-2012 in accordance with the terms of the Comprehensive Integrated Tax Coordination Agreements with the provinces. The increase in other accounts payable and accrued liabilities also reflects the accrual of a liability to the Province of Ontario representing its one-third participation in the financial assistance provided to the automotive sector. These increases were partially offset by a \$2.6-billion decrease in taxes payable. Taxes payable include amounts payable to taxpayers based on assessments, as well as estimates of refunds owing for assessments not completed by year end.

Financial Assets

Financial assets include cash on deposit with the Bank of Canada, chartered banks and other financial institutions, accounts receivable, foreign exchange accounts, and loans, investments and advances. The Government's foreign exchange accounts include foreign currency deposits, investments in gold, and subscriptions and loans to the International Monetary Fund. Proceeds of the Government's foreign currency borrowings are held in the Exchange Fund Account to provide foreign currency liquidity and provide funds needed to promote orderly conditions for the Canadian dollar in the foreign exchange markets. Further details on the management of international reserves are available in the annual *Report on the Management of Canada's Official International Reserves*. The Government's loans, investments and advances include its investments and loans in enterprise Crown corporations, loans to national governments mainly for financial assistance and development of export trade, and loans under the Canada Student Loans Program.

Financial Assets by Category for 2009-2010

At March 31, 2010, financial assets amounted to \$300.8 billion, up \$1.9 billion from March 31, 2009. Within financial assets, cash and cash equivalents decreased \$18.5 billion, taxes receivable decreased \$2.8 billion, foreign exchange accounts decreased \$4.8 billion, and the Government's loans, investments and advances in enterprise Crown corporations and other government business enterprises increased \$25.5 billion. The decrease in cash and cash equivalents over the prior year mainly reflects increased cash balances held at the end of 2008-2009 to support the Bank of Canada's operations to provide liquidity to financial markets and to cover some of the Government's own funding needs for the IMPP. With improved conditions in financial markets and the winding down of purchases under the IMPP in March 2010, the Government's cash balances were reduced by the end of 2009-2010. The decrease in foreign exchange accounts is largely attributable to a decrease in the value of foreign-denominated marketable securities held in the Exchange Fund Account due to the appreciation of the Canadian dollar against the US dollar and the euro. The \$25.5-billion increase in loans, investments and advances in enterprise Crown corporations and other government business enterprises is due mainly to the issuance of loans to the Business Development Bank of Canada, CMHC and Farm Credit Canada under the consolidated borrowing framework. In particular, loans to CMHC

increased by \$10.6 billion, reflecting funding provided to finance purchases of insured mortgage pools under the IMPP. The \$25.5 billion increase also reflects net profits recorded by these corporations and enterprises during 2009-2010, as well as the acquisition of common and preferred shares in a restructured General Motors and membership interests in Chrysler as part of the Government's financial assistance agreements with these companies. The shares are held on behalf of the Government by two wholly owned subsidiaries of the Canada Development Investment Corporation.

Since the accumulated deficit reached its peak of \$562.9 billion at March 31, 1997, financial assets have increased by \$200.4 billion due to higher levels of cash and cash equivalents and accounts receivable (up \$48.4 billion), an increase in the foreign exchange accounts (up \$20.1 billion) and an increase in loans, investments and advances (up \$131.9 billion). The increase in cash and cash equivalents and accounts receivable is largely attributable to growth in taxes receivable, broadly in line with the growth in the applicable tax bases. The increase in the foreign exchange accounts reflects a decision by the Government in the late 1990s to increase its liquidity in these accounts. The increase in loans, investments and advances is attributable to several factors including the accumulation of net profits from enterprise Crown corporations, the Government taking over the financing of the Canada Student Loans Program from the chartered banks in 2000, and, more recently, the issuance of direct loans to Crown corporations under the Government's consolidated borrowing framework.

Net Debt

The Government's net debt – its total liabilities less financial assets – stood at \$582.5 billion at March 31, 2010. As a share of GDP, net debt was 38.1 percent, up 5.3 percentage points from a year earlier, but down 35.7 percentage points from its peak of 73.9 percent at March 31, 1996.

This ratio measures debt relative to the ability of the country's taxpayers to finance it. Total liabilities are reduced only by financial assets as non-financial assets cannot normally be converted to cash to pay off the debt without disrupting government operations.

Non-Financial Assets

Non-financial assets include the net book value of the Government's tangible capital assets, which include land, buildings, works and infrastructure such as roads and bridges, machinery and equipment, ships, aircraft and other vehicles. Non-financial assets also include inventories and prepaid expenses.

At March 31, 2010, non-financial assets stood at \$63.4 billion, up \$1.9 billion from a year earlier, primarily due to an increase in tangible capital assets. At March 31, 2010, roughly 59 percent of the original cost of the Government's depreciable tangible capital assets had been amortized, compared to 58 percent a year earlier. Depreciable tangible capital assets exclude land, and assets under construction, which are not yet available for use.

Cash Flow

The annual surplus or deficit is presented on an accrual basis of accounting, recognizing revenue in the period it is earned and expenses when incurred, regardless of when the associated cash is received or paid. In contrast, the Government's net cash flow measures the difference between cash coming in to the Government and cash going out.

In 2009-2010, the Government had a total cash requirement of \$71.9 billion before financing activities, compared to a total cash requirement of \$83.5 billion before financing activities in 2008-2009. Operating activities resulted in a net cash requirement of \$37.5 billion in 2009-2010, compared to a net cash requirement of \$6.1 billion in 2008-2009, primarily reflecting the deterioration in the budgetary balance. Cash used for capital investment activities increased by \$1.2 billion, from \$5.6 billion in 2008-2009 to \$6.8 billion in 2009-2010. Cash requirements from the Government's other investing activities totalled \$27.6 billion in 2009-2010, down \$44.1 billion from 2008-2009. This decrease is largely attributable to a reduction in financing requirements associated with the purchases of insured mortgage pools through CMHC under the IMPP.

Cash Flow

	2009-2010	2008-2009
	(in millions of dollars)	
Cash used by operating activities	-37,452	-6,111
Cash used by capital investment activities	-6,839	-5,641
Cash used by investing activities	-27,614	-71,743
Total cash requirement	-71,905	-83,495
Cash provided by financing activities	53,370	116,751
Net decrease (-) or increase in cash	-18,535	33,256
Cash and cash equivalents at beginning of year	46,985	13,729
Cash and cash equivalents at end of year	28,450	46,985

The Government financed this financial requirement of \$71.9 billion by increasing market debt by \$53.4 billion and by decreasing its balance of cash and cash equivalents by \$18.5 billion. The increase in market debt was achieved primarily through the issuance of marketable bonds.

Risks and Uncertainties

As noted in the budget and related documents, the Government's revenues and expenses are highly sensitive to changes in economic conditions – particularly to changes in real economic growth, inflation and interest rates. Current risks come primarily from risks to the Canadian economic outlook, as well as uncertainty as to how economic developments will translate into spending and tax revenues.

To illustrate the impact of changes in economic conditions, the Department of Finance publishes, on a regular basis, sensitivity impacts on the budgetary balance. These are “rules of thumb” as the actual impact will depend on many other factors as well. As published in Budget 2010, these show, for example, that:

- A 1-percentage-point decrease in real GDP growth would lower the budgetary balance by about \$3.1 billion in the first year, \$3.4 billion in the second year, and \$4.4 billion in the fifth year.
- A 1-percentage-point decrease in GDP inflation would lower the budgetary balance by about \$1.6 billion in the first year, \$1.5 billion in the second year, and \$1.6 billion in the fifth year.
- A sustained 100-basis-point increase in interest rates would lower the budgetary balance by \$1.0 billion in the first year, \$2.1 billion in the second year, and \$3.0 billion in the fifth year.

TEN YEAR COMPARATIVE FINANCIAL INFORMATION

This part provides a ten year comparison of financial information based on the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume.

TABLE 1.1

GLOSSARY OF TERMS

The following terms are used in this section and throughout the financial statements in Section 2 of this Volume. The definitions are taken from three primary sources:

- 1- TERMIUM at www.termiumplus.gc.ca/
 - 2- The *CICA Public Sector Accounting Handbook*.
 - 3- Glossary of Frequently-Used Terms, Finance Canada.
- Accounts of Canada –
The centralized record of the financial transactions of the Government of Canada, maintained by the Receiver General. The accounts of Canada summarize revenues, expenses, assets and liabilities transactions.
 - Accrued Benefit Obligation –
The value of future benefits attributed to services rendered by employees and former employees to the accounting date.
 - Accumulated Deficit –
The accumulated net total of all past federal deficits and surpluses since Confederation. The accumulated deficit is also equal to total liabilities less total assets – both financial and non-financial.
 - Actuarial Valuation for Accounting Purposes –
An assessment of the financial status of a benefit plan. It consists of the valuation of assets held to discharge the benefit liability and calculation of the actuarial present value of benefits to be paid under the plan. The valuation results in a calculation of the required future contributions or payments and a determination of any gains or losses since the last valuation.
 - Allowance –
Estimated potential losses on the realization of government financial claims or estimated financial obligations that would not otherwise be recorded in the financial statements.
 - Appropriation –
Any authority of Parliament to pay money out of the Consolidated Revenue Fund.
 - Capital Lease –
A lease that, from the point of view of the lessee, transfers substantially all the benefits and risks incident to ownership of property to the lessee.
 - Consolidated Revenue Fund –
The aggregate of all public moneys that are on deposit at the credit of the Receiver General for Canada.
 - Consumer Price Index (CPI) –
A measure of price changes produced by Statistics Canada on a monthly basis. The CPI measures the retail prices of a “shopping basket” of about 300 goods and services including food, housing, transportation, clothing and recreation. The index is “weighted”, meaning that it gives greater importance to price changes for some products than others – more to housing, for example, than to entertainment – in an effort to reflect typical spending patterns. Increases in the CPI are also referred to as increases in the cost of living.
 - Contingent Liability –
A potential debt which may become an actual financial obligation if certain events occur or fail to occur.
 - Contractual Obligation –
A written obligation to outside organizations or individuals as a result of a contract.
 - Defined Benefit Pension Plan –
A plan that specifies either the benefits to be received by employees after retirement or the method for determining those benefits.
 - Enterprise Crown Corporation –
A corporation which is not dependent on parliamentary appropriations and whose principal activity and source of revenues are the sale of goods and/or services to outside parties. An enterprise Crown corporation is ultimately accountable to Parliament, through a minister of the Crown, for the conduct of its affairs.
 - Financial Assets –
An asset on hand at the end of the accounting period, which could provide resources to discharge existing liabilities or finance future operations. Financial assets include cash and assets that are convertible into cash and are not intended for consumption in the normal course of activities.
 - Full Accrual Accounting –
The method of recording transactions by which revenues and expenses are reflected in the determination of results for the period in which they are considered to have been earned and incurred, respectively, whether or not such transactions have been settled finally by the receipt or payment of cash or its equivalent.
 - G7 (Group of Seven) –
The G7 consists of the world’s seven largest industrial market economies: the United States, Japan, Germany, France, Great Britain, Italy and Canada. The leaders of these countries meet annually to discuss political and economic issues of mutual concern. In addition, G7 finance ministers meet several times a year to discuss economic policy. Their work is supported by regular, functional meetings of officials, including the G7 Finance Deputies.

- **Gross Domestic Product (GDP) –**
The total value of all goods and services produced within Canada during a given year. It is a measure of the income generated by production within Canada. Also referred to as annual economic output or, more simply, output. To avoid counting the same output more than once, GDP includes only final goods and services – not those that are used to make another product. GDP would not include the wheat used to make bread, but would include the bread itself.
- **Net Book Value of Tangible Capital Assets –**
The cost of tangible capital assets less both accumulated amortization and the amount of any write-downs.
- **Net Debt –**
The total liabilities of the government less its financial assets.
- **Non-Financial Assets –**
An asset on hand at the end of the accounting period, which could not normally be converted to cash to pay off the debt, without disrupting government operations.
- **Operating Lease –**
A lease in which the lessor retains substantially all the benefits and risks of ownership.
- **Other comprehensive income :**
Other comprehensive income holds any unrealized gains and losses resulting from the change in market value on assets that are classified as available-for-sale or derivative instruments used in hedging activities.
- **Public Money –**
All money belonging to Canada received or collected by the Receiver General or any other public officer in his official capacity or any person authorized to receive or collect such money.
- **Real Return Bonds –**
These bonds pay semi-annual interest based on a real interest rate. Unlike standard fixed-coupon marketable bonds, interest payments on real return bonds are adjusted for changes in the consumer price index.
- **Retail Debt –**
Canada Savings Bonds, Canada Premium Bonds and Canada Investment Bonds.
- **Surplus –**
The amount by which government revenue exceeds expenses in any given year.
- **Swap –**
An agreement that exchanges one type of return or financial instrument for another (e.g. a fixed for a floating rate of interest).
- **Tangible Capital Asset –**
A non-financial asset having physical substance that:
 - (i) is held for use in the production or supply of goods and services;
 - (ii) has a useful economic life extending beyond an accounting period; and
 - (iii) has been acquired to be used on a continuing basis.
- **Transfer Payments –**
A transfer of money from a government to an individual, an organization or another government for which the government making the transfer does not:
 - (i) receive any goods or services directly in return as would occur in a purchase/sales transaction;
 - (ii) expect to be repaid in the future, as would be expected in a loan; or
 - (iii) expect a financial return, as would be expected in an investment.

PREFACE TO THE FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

The fundamental purpose of these financial statements is to provide information to Parliament, and thus to the public, to facilitate an understanding and evaluation of the full nature and extent of the financial affairs and resources for which the Government is responsible. These financial statements reflect the financial position of the Government at the reporting date, as well as its results of operations, accumulated deficit, change in net debt and cash flow for the year then ended.

The two fundamental concepts underlying the Government's accounting system are found in the Constitution Acts: first, that all duties and revenues received, other than those reserved to the provinces, "shall form One Consolidated Revenue Fund" (CRF); second, that the balance of the CRF, after certain prior charges, "shall be appropriated by the Parliament of Canada".

The right of Canada to raise taxes and revenues is contained in the Constitution Acts, and is given specific form in various Acts passed by Parliament. Revenues can be raised and moneys can be spent or borrowed by the Government only with the authority of Parliament. All receipts of money by departments and agencies must be deposited into the CRF. All disbursements from the CRF for spending on operations, for loans, investments and advances, and for the redemption of matured debt, must be authorized by Parliament, through annual appropriation acts and other statutes.

Wholly-owned Crown corporations that are agents of Her Majesty may also only borrow as authorized by Acts of Parliament. Such Acts usually place a ceiling on the amount of borrowings that can be outstanding at any one time. Non-agent Crown corporations and other government business enterprises can borrow without specific parliamentary authority, although such borrowings are sometimes guaranteed by the Government with the authority of Parliament.

The financial statements of the Government of Canada consist of four statements and accompanying notes.

The first is the **Statement of Operations and Accumulated Deficit**, which presents the Government's revenues, expenses, deficit, and other comprehensive loss or income for the year, and the net accumulation of the annual surpluses and deficits since Confederation.

The second is the **Statement of Financial Position**, which discloses the Government's cash balance and investments, amounts owing to and by the Government at the end of the year, and the Government's non-financial assets such as its tangible capital assets and inventories. It also presents both the accumulated deficit of the Government and its net debt which is the difference between the Government's total liabilities and its financial assets.

The third is the **Statement of Change in Net Debt**, which explains the difference between the Government's annual deficit and the change in the net debt for the year. It reports the extent to which revenues recognized in the year were sufficient to offset expenditures, as opposed to the expenses recognized in the annual deficit.

The fourth is the **Statement of Cash Flow**, which provides information on the Government's cash provided by or used for operating, capital investment, investing and financing activities.

Other sections in this volume together with Volume II and Volume III of the *Public Accounts of Canada*, provide more detailed supplementary information in respect of matters reported in the financial statements. The report of the Auditor General of Canada on the financial statements does not extend to this supplementary information.

STATEMENT OF RESPONSIBILITY

The financial statements in this section are prepared by the Government of Canada in accordance with the accounting policies set out in Note 1 to the financial statements, which are based on Canadian generally accepted accounting principles for the public sector, and on a basis consistent with that of the preceding year.

Responsibility for the integrity and objectivity of the financial statements rests with the Government. The financial statements are prepared under the joint direction of the President of the Treasury Board, the Minister of Finance, and the Receiver General for Canada in compliance with governing legislation. The financial statements are prepared on a full accrual basis of accounting whereby, assets include both financial and non-financial assets, revenues, including tax revenues are recorded when earned, and expenses include accrued expenses and amortization of tangible capital assets. The information included in these financial statements is based on the Government's best estimates and judgement, with due consideration given to materiality.

To fulfill its accounting and reporting responsibilities, the Government maintains systems of financial management and internal control which give due consideration to costs, benefits and risks. These systems are designed to provide reasonable assurance that transactions are properly authorized by Parliament, are executed in accordance with prescribed regulations, and are properly recorded so as to maintain accountability of public money and safeguard the assets and properties of Canada under Government administration. The Receiver General for Canada maintains the accounts of Canada, a centralized summary record of the Government's financial transactions. Additional information is obtained as required, from departments, agencies, Crown corporations, other government business enterprises, and other entities to meet accounting and reporting requirements.

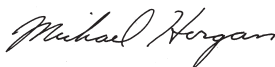

The Government presents the financial statements to the Auditor General of Canada who audits them and provides an independent audit opinion to the House of Commons. The duties of the Auditor General of Canada in that respect are contained in section 6 of the *Auditor General Act*. Additional information is provided in the observations of the Auditor General of Canada at the end of this section.

Annually, the financial statements are tabled in the House of Commons as part of the *Public Accounts of Canada*, and are referred to the Standing Committee on Public Accounts, which reports to Parliament on the results of its examination together with any recommendations it may have with respect to the financial statements and accompanying audit opinion.

On behalf of the Government of Canada.

MICHELLE D'ARAY
Secretary of the
Treasury Board of
Canada

MICHAEL HORGAN
Deputy Minister of
Finance

FRANÇOIS GUIMONT
Deputy Receiver General for
Canada

JAMES RALSTON
Comptroller General of
Canada

August 26, 2010

Auditor General of Canada
Vérificatrice générale du Canada

**REPORT OF THE AUDITOR GENERAL
ON THE
FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA**

To the House of Commons

OPINION ON THE FINANCIAL STATEMENTS

I have audited the statement of financial position of the Government of Canada as at 31 March 2010 and the statements of operations and accumulated deficit, change in net debt, and cash flow for the year then ended. These financial statements are the responsibility of the Government. My responsibility, as required by section 6 of the *Auditor General Act*, is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies used and significant estimates made by the Government, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Government as at 31 March 2010 and the results of its operations, the changes in its net debt and its cash flows for the year then ended in accordance with the stated accounting policies of the Government set out in Note 1 to the financial statements, which conform with Canadian generally accepted accounting principles. As required by section 6 of the *Auditor General Act*, I report that, in my opinion, these policies have been applied on a basis consistent with that of the preceding year.

OTHER MATTER FOR PARLIAMENT'S ATTENTION

I wish to draw your attention to significant changes to the accounts for the Employment Insurance program. As described in Note 4 to the financial statements, the legislation that Parliament approved in July 2010 to implement the March 2010 Budget included amendments to the *Employment Insurance Act*. One such amendment was the closure of the Employment Insurance Account, with a surplus of about \$57 billion.

ADDITIONAL INFORMATION

Additional information and comments on the financial statements and this Report are included in my Observations at the end of Section 2, Volume I of the *Public Accounts of Canada 2010*.

A handwritten signature in black ink that reads 'Sheila Fraser'.

Sheila Fraser, FCA
Auditor General of Canada

GOVERNMENT OF CANADA

Statement of Operations and Accumulated Deficit
for the Year Ended March 31, 2010

(in millions of dollars)

	2010		2009
	Budget (Note 2)	Actual	Actual
REVENUES			
<i>TAX REVENUES (Note 17) —</i>			
Income tax revenues —			
Personal	110,277	103,947	116,024
Corporate	26,386	30,361	29,476
Non-resident	4,875	5,293	6,298
<i>Total income tax revenues</i>	<i>141,538</i>	<i>139,601</i>	<i>151,798</i>
Other taxes and duties —			
Goods and services tax	25,785	26,947	25,740
Energy taxes	5,035	5,178	5,161
Customs import duties	4,150	3,490	4,036
Other excise taxes and duties	5,143	4,958	4,869
<i>Total other taxes and duties</i>	<i>40,113</i>	<i>40,573</i>	<i>39,806</i>
<i>TOTAL TAX REVENUES</i>	<i>181,651</i>	<i>180,174</i>	<i>191,604</i>
<i>EMPLOYMENT INSURANCE PREMIUMS</i>	<i>16,795</i>	<i>16,761</i>	<i>16,887</i>
OTHER REVENUES —			
Crown corporations	9,975	7,622	7,760
Other programs	14,959	12,396	15,105
Net foreign exchange	1,525	1,647	1,736
<i>TOTAL OTHER REVENUES</i>	<i>26,459</i>	<i>21,665</i>	<i>24,601</i>
TOTAL REVENUES	224,905	218,600	233,092
EXPENSES (Notes 3 and 17)			
<i>TRANSFER PAYMENTS —</i>			
Old age security benefits, guaranteed income supplement and spouse's allowance	35,160	34,653	33,377
Major transfer payments to other levels of government	50,065	56,990	46,515
Employment insurance benefits	18,920	21,586	16,308
Children's benefits	12,270	12,340	11,901
Other transfer payments	35,694	39,892	30,192
<i>TOTAL TRANSFER PAYMENTS</i>	<i>152,109</i>	<i>165,461</i>	<i>138,293</i>
OTHER PROGRAM EXPENSES —			
Crown corporations	9,108	10,428	8,066
Ministries	67,868	68,895	61,498
<i>TOTAL OTHER PROGRAM EXPENSES</i>	<i>76,976</i>	<i>79,323</i>	<i>69,564</i>
<i>TOTAL PROGRAM EXPENSES</i>	<i>229,085</i>	<i>244,784</i>	<i>207,857</i>

Cash used for interest	15,887	17,666

The accompanying notes are an integral part of these statements.
Details (unaudited) can be found in other sections of this volume.

Notes to the Financial Statements of the Government of Canada

1. Summary of Significant Accounting Policies

Reporting entity

The reporting entity of the Government of Canada includes all departments, agencies, corporations, organizations, and funds, which are controlled by the Government. For financial reporting purposes, control is defined as the power to govern the financial and operating policies of an organization with benefits from the organization's activities being expected, or the risk of loss being assumed by the Government. All organizations defined as departments and as Crown corporations in the *Financial Administration Act* are included in the reporting entity. Other organizations not listed in the *Financial Administration Act* may also meet the definition of control and they are included in the Government's reporting entity if their revenues, expenses, assets or liabilities are significant.

The financial activities of all of these entities are consolidated in these financial statements, except for enterprise Crown corporations and other government business enterprises, which are not dependent on the Government for financing their activities. These corporations are recorded under the modified equity method.

The Canada Pension Plan (the Plan) is excluded from the reporting entity because changes to the Plan require the agreement of two thirds of participating provinces and it is therefore not controlled by the Government.

Basis of accounting

These financial statements are prepared using the Government's accounting policies stated below, which are based on Canadian generally accepted accounting principles for the public sector. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian generally accepted accounting principles.

Revenues

The Government reports all revenues on an accrual basis. Tax revenues are non-exchange transactions, which are generally derived from exchange transactions between third parties. They are recognized in the period in which the event that gave rise to the revenue takes place. Income tax revenue is recognized when the taxpayer has earned the income subject to the tax. Domestic goods and services tax revenue is recognized at the time of the sale of goods or the provision of services and is presented on the Statement of Operations and Accumulated Deficit net of tax credits. Excise duties revenue is recognized when the taxpayer man-

ufactures goods taxable under the *Excise Act*. Excise taxes revenue is recognized when a taxpayer sells goods taxable under the *Excise Act*. Customs duties and goods and services tax revenue on imports is recognized when goods are authorized to enter Canada.

Tax revenues are measured from amounts assessed and from estimates of amounts not yet assessed based on cash received. Annual revenues also include adjustments between the estimated revenues of previous years and actual amounts, as well as revenues from reassessments relating to prior years. Revenues do not include estimates for amounts of unreported taxes, or the impact of future reassessments that can not yet be reliably determined.

Tax revenues that were not collected at year-end and refunds that were not yet disbursed are reported respectively as taxes receivable and taxes payable on the Statement of Financial Position. These amounts also include other receivables and payables for amounts collected through the tax system such as provincial and territorial taxes, Employment Insurance premiums and Canada Pension Plan contributions.

Other revenues are recognized in the period to which they relate. Employment Insurance premiums are recognized as revenue in the period the insurable earnings are earned.

Expenses

The Government reports all expenses on an accrual basis. Expenses for Government operations are recorded when goods are received or services are rendered. Transfer payments are recorded as expenses when the recipient has met the eligibility criteria or fulfilled the terms of a contractual transfer agreement or, in the case of transactions which do not form part of an existing program, when the Government announces a decision to make a non-recurring transfer, provided the enabling legislation or authorization for payment receives parliamentary approval prior to the completion of the financial statements. Public debt charges are recorded when incurred and include interest, servicing costs and costs of issuing new borrowings and amortization of premiums and discounts on market debt.

Expenses include provisions to reflect changes in the value of assets or liabilities, including provisions for bad debts, for loans, investments and advances, and for inventory obsolescence. Expenses also include amortization of tangible capital assets and utilization of inventories and prepaid expenses.

Cash and cash equivalents

Cash consists of public moneys on deposit and cash in transit less outstanding cheques and warrants. Cash equivalents consist mainly of term deposits usually not exceeding 31 days.

Foreign exchange accounts

Short-term deposits, marketable securities and special drawing rights held in the foreign exchange accounts are recorded at cost. Marketable securities are adjusted for amortization of purchase discounts and premiums. Purchases and sales of securities are recorded at the settlement date. Transaction costs are expensed as incurred for all classes of financial instruments.

Investment income earned with respect to foreign accounts as well as write-downs to reflect other than temporary impairment in the fair value of securities are included in net foreign exchange revenues on the Statement of Operations and Accumulated Deficit. Canada's subscriptions to the capital of the International Monetary Fund and loans to the International Monetary fund are recorded at cost.

Loans, investments and advances

Loans, investments and advances are initially recorded at cost and are adjusted to reflect the concessionary terms of those loans made on a long-term, low interest or interest-free basis and the portion of the loans that are expected to be repaid from future appropriations.

When necessary an allowance for valuation is recorded to reduce the carrying value of loans, investments and advances to amounts that approximate their net realizable value.

For loans to national governments, including developing countries, the allowance is determined based on the Government's identification and evaluation of countries that have formally applied for debt service relief, on estimated probable losses that exist on the remaining portfolio, and on changes in the economic conditions of sovereign debtors.

Non-financial assets

The costs of acquiring land, buildings, equipment and other capital property are capitalized as tangible capital assets and, except for land, are amortized to expense over the estimated useful lives of the assets. For certain tangible capital assets where the costs are not readily available, such as older buildings, estimated current costs have been extrapolated retrospectively in a systematic and rational manner to approximate original costs. Assets acquired under capital leases are recorded at the present value of the minimum lease payments using the Government's Consolidated Revenue Fund term lending rate at the inception of the leases. The cor-

responding lease obligations are recorded under unmatured debt on the Statement of Financial Position. These assets are amortized over the lease term or over the estimated useful life of the asset if the lease term contains terms that allow ownership to pass to the Government or a bargain purchase option.

Tangible capital assets do not include immovable assets located on reserves as defined in the *Indian Act*, the cost of works of art and museum collections and Crown land to which no acquisition cost is attributable. Intangible assets are also not recognized in the Government's financial statements.

Inventories are comprised of spare parts and supplies that are held for future program delivery including military activities and are not primarily intended for resale. They are valued at cost. Inventories that no longer have service potential are valued at the lower of cost or net realizable value. Items for which the costs are not readily available have been valued using management's best estimates of original cost based on available information.

Non-financial assets are not taken into consideration when determining the net debt of the Government, but rather are deducted from the net debt to determine the accumulated deficit.

Unmatured debt

Unmatured debt consists of market debt, cross currency swap revaluations and the obligation related to capital leases. Market debt is recorded at face value and is adjusted by discounts and premiums which are amortized on a straight line basis over the term to maturity of the respective debt instrument. The corresponding amortization is recorded as part of public debt charges. The Government's holdings of its own securities, if any, are deducted from market debt to report the liability to external parties.

Cross currency swap revaluations consist of unrealized gains or losses due to fluctuations in the foreign exchange value of the cross currency swaps entered into by the Government.

The obligation related to capital leases represents the present values of the remaining minimum lease payments under the capital lease arrangements using the Government's Consolidated Revenue Fund term lending rate at the inception of the leases with the corresponding assets under capital lease recorded under tangible capital assets on the Statement of Financial Position.

Public sector pensions and other employee and veteran future benefits

Employee entitlements to pension benefits and to other employee and veteran future benefits are reported on an actuarial basis. This process is intended to determine the current value of future entitlements and uses various estimates. When actual experience varies from estimates, the adjustments are amortized over the estimated average remaining service lives of the employees.

Contingent liabilities

Contingent liabilities, including provisions for losses on loan guarantees, are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur or fail to occur, and a reasonable estimate of the loss can be made, an estimated liability is accrued and an expense recorded. If the likelihood is not determinable or an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements.

For loan guarantees, the amount of the allowance is estimated by taking into consideration the nature of the loan guarantee, loss experience and current conditions. The allowance is reviewed on an ongoing basis and changes in the allowance are recorded as expenses in the year they become known.

Environmental liabilities

Environmental liabilities consist of the estimated costs related to the remediation of environmentally contaminated sites as well as estimated costs related to the Government's obligations associated with the future asset restoration costs.

The liability for remediation of environmentally contaminated sites is accrued and an expense recorded based on management's best estimates when the contamination occurs or when the Government becomes aware of the contamination and is obligated, or is likely obligated to incur costs associated with remediation and management of the contaminated site. The liability reflects the present value of estimated cash flows required to remediate the environmentally contaminated sites to an acceptable condition according to the current and intended use of the sites by the Government where such amounts can be reasonably estimated.

The liability for future asset restoration costs is accrued and the related costs are capitalized and amortized over the associated asset's estimated useful life based on management's best estimates of the cost to meet obligations imposed by legislation, regulation and/or contractual agreements. The liability reflects the present value of estimated future cash flows required to restore the assets where amounts can be reasonably estimated and is expected to be settled as the related sites, facilities and/or assets are removed from service.

The recorded liabilities are adjusted each year for the passage of time, new obligations, changes in management estimates and actual costs incurred.

If the likelihood of the Government's obligation is not determinable or if an amount cannot be reasonably estimated, a contingent liability is disclosed in the notes to the financial statements.

Foreign currency translation

Transactions involving foreign currencies are translated into Canadian dollar equivalents using rates in effect at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated using rates at March 31. Gains and losses resulting from foreign currency translation are reported on the Statement of Operations and Accumulated Deficit according to the activities to which they relate. Net gains and losses relating to the foreign exchange accounts, foreign debt and swap revaluations are presented with investment revenues from foreign exchange accounts under net foreign exchange revenues. Net gains and losses related to loans, investments and advances are presented with the return on investments from these loans, investments and advances under other program revenues. Net gains and losses relating to departmental sale or purchase of goods or services in foreign currency are reported in ministry expenses under other program expenses.

Use of estimates and measurement uncertainty

The preparation of financial statements requires the Government to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. By their nature, these estimates are subject to measurement uncertainty. These are based on facts and circumstances available at the time estimates and assumptions are made, historical loss experience and general economic conditions. The effect of changes to such estimates and assumptions in future periods could be significant to the financial statements. The significant estimates used in these financial statements affect the accrual of tax revenues and the related amounts receivable and payable, including the liabilities under provincial and territorial tax collection agreements, valuation allowances for loans, investments and advances, obligations for public sector pensions and other employee and veteran future benefits, contingent liabilities, environmental liabilities and transfer payments to other levels of government.

Other comprehensive income or loss

Other comprehensive income or loss, resulting from the accounting of enterprise Crown corporations and other government business enterprises under the modified equity method, is excluded from the calculation of the Government's annual deficit and is recorded directly to the Government's accumulated deficit and net debt.

Comparative information

Comparative figures have been reclassified to conform to the current year's presentation.

2. Spending and Borrowing Authorities

i. Spending authorities

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes. The Government uses the full accrual method of accounting to prepare its Budget and present its current financial statements. However, the spending authorities voted by Parliament remain on an expenditure basis, which uses only a partial accrual method of accounting. During the year, expenditures were made under the following authorities:

	(in millions of dollars)	
	2010	2009
Annual spending limits voted by Parliament	97,630	87,343
Expenditures permitted under other legislation	138,602	128,036
Total budgetary expenditures authorized	236,232	215,379
Less: amounts available for use in subsequent years and amounts that have lapsed, net of overexpended amounts	11,271	7,592
Total net expenditures	224,961	207,787
Effect of consolidation and full accrual accounting	49,237	31,060
Total expenses	274,198	238,847

The use of budgetary expenditure authorities reported in the preceding table differs from the total expenses reported in the Statement of Operations and Accumulated Deficit. The difference is due to various factors. Spending authorities are presented on a partial accrual basis, while the Statement of Operations and Accumulated Deficit is prepared on a full accrual basis. The transactions of certain accounts with separate non-budgetary authorities and of certain Crown corporations or other controlled entities are consolidated with the Government's financial statements but are not included in the budgetary expenditure authorities available for use. Transfer payments to organizations within the Government reporting entity are recorded against a budgetary expenditure authority in the year they are disbursed to the organization, but they are recorded as a consolidated expense only when they are disbursed to the ultimate recipient outside of the Government reporting entity. Provisions for valuation of assets and liabilities are also not included in spending authorities.

In addition to the authorities for budgetary expenditures, non-budgetary spending of \$306,204 million (\$244,061 million in 2009) was authorized for loans, investments and advances. A net amount of \$140,686 million was used (\$134,052 million in 2009), an amount of \$36,587 million lapsed (\$24 million in 2009) and an amount of \$128,931 million is available for use in subsequent years (\$109,985 million in 2009).

Details (unaudited) about the source and disposition of authorities and the details of ministerial expenditures are provided in Volume II of the *Public Accounts of Canada*.

ii. Over-expenditure of spending authorities

During the year, the Canadian Institutes of Health Research's grant authorities — Grants for research projects and personnel support was overspent by less than \$1,200,000 and Institute support grants was overspent by less than \$75,000.

In addition, the Canadian Heritage's grant authority — Grants to the Lieutenant-Governors of the provinces of Canada toward defraying the costs incurred in the exercise of their duties: Newfoundland was overspent by less than \$100.

Details (unaudited) of these overexpended authorities can be found in the ministerial sections of Volume II of the *Public Accounts of Canada*.

iii. Borrowing authorities

The Government may borrow only on the authority of Parliament which is contained in Part IV of the *Financial Administration Act*. Section 43.1 of the *Financial Administration Act* empowers the Governor in Council to authorize the Minister of Finance to borrow money on behalf of Her Majesty in right of Canada. In 2010, the Governor in Council specified \$370,000 million (\$296,000 million in 2009) to be the maximum aggregate amount of principal that may be borrowed during the fiscal year. The maximum aggregate amount of principal is the sum of *i)* the maximum stock of treasury bills anticipated to be outstanding during the year, *ii)* the total value of anticipated new issuances of marketable bonds and retail debt and *iii)* an amount to facilitate intra-year management of the debt and foreign exchange reserves. During the year, \$289,521 million (\$279,313 million in 2009) of the borrowing authority was used.

iv. Comparison of results against budget

The budget amounts included in the Statement of Operations and Accumulated Deficit and the Statement of Change in Net Debt are derived from the amounts that were originally budgeted for 2010 in the January 2009 Budget Plan (Budget 2009). Since actual opening numbers of the accumulated deficit and net debt were not available at the time of preparation of Budget 2009, the corresponding amounts in the budget column have been adjusted to the actual closing numbers of the previous year.

3. Expenses

Expenses in the Statement of Operations and Accumulated Deficit include:

i. Major transfer payments to other levels of government

	(in millions of dollars)	
	2010	2009
Canada health transfer	24,820	22,759
Canada social transfer	10,858	10,568
Fiscal arrangements	16,193	15,138
Other major transfers	7,822	1,024
Alternative payments for standing programs ⁽¹⁾	-2,703	-2,974
Total major transfer payments to other levels of government	56,990	46,515

Details (unaudited) can be found in Section 3 of this volume and in Section 1 of Volume II of the *Public Accounts of Canada*.

⁽¹⁾ These amounts represent amounts recovered from a province that has entered into an abatement arrangement with the Government of Canada for personal income tax payers of that province.

ii. Public debt charges

	(in millions of dollars)	
	2010	2009
Public debt charges related to unmatured debt —		
Interest on unmatured debt	14,023	13,422
Amortization of discounts on Canada and Treasury Bills	1,229	3,643
Amortization of premiums and discounts on all other debts	1,721	1,455
Cross currency swap revaluation	-438	-218
Servicing costs and costs of issuing new borrowings	32	28
Capital lease obligations	228	233
Total	16,795	18,563
Interest expense related to public sector pensions and other employee and veteran future benefits	12,343	12,120
Other	276	307
Total public debt charges	29,414	30,990

Certain comparative figures have been reclassified to conform to the current year's presentation.

Details (unaudited) can be found in Section 3 of this volume.

iii. Total expenses by segment

The Government has defined the segments as the Ministries and Crown corporations and other entities. Additional segmented information is provided in Note 17. The following table presents the total expenses by segment after the elimination of internal transactions:

	(in millions of dollars)	
	2010	2009
Ministries —		
Agriculture and Agri-Food	3,234	3,446
Atlantic Canada Opportunities Agency	377	290
Canada Revenue Agency	17,223	16,813
Canadian Heritage	2,291	1,824
Citizenship and Immigration	1,663	1,400
Economic Development Agency of Canada for the Regions of Quebec	343	258
Environment	1,838	1,796
Finance	85,447	77,604
Fisheries and Oceans	1,885	1,625
Foreign Affairs and International Trade	12,268	6,307
Governor General	19	20
Health	6,159	5,010
Human Resources and Skills Development	66,068	58,607
Indian Affairs and Northern Development	9,151	7,327
Industry	6,179	4,554
Justice	1,541	1,384
National Defence	21,137	19,009
Natural Resources	3,544	4,731
Parliament	581	548
Privy Council	359	561
Public Safety and Emergency Preparedness	9,951	9,132
Public Works and Government Services	2,792	2,428
Transport	5,532	3,669
Treasury Board	2,501	2,193
Veterans Affairs	1,024	1,018
Western Economic Diversification	408	237
Provision for valuation and other items	-335	-1,406
Total ministries	263,180	230,385
Crown corporations and other entities	11,018	8,462
Total expenses	274,198	238,847

Details (unaudited) providing total expenses by segment and type can be found in Section 3 of this volume.

iv. *Total expenses by type of resources used in the operations*

The Statement of Operations and Accumulated Deficit and the previous table present a breakdown of expenses by segment, which represent the expenses incurred for each of the main functions of the Government. The following table presents the detail of these expenses broken down by the main objects of expense:

Objects of expense	(in millions of dollars)	
	2010	2009
Transfer payments	165,461	138,293
Other program expenses —		
Crown corporations ⁽¹⁾	9,873	7,680
Personnel	41,009	35,593
Transportation and communications	3,098	3,224
Information	347	317
Professional and special services	8,148	7,450
Rentals	1,892	1,748
Repair and maintenance	3,205	2,892
Utilities, materials and supplies	3,117	3,071
Other subsidies and expenses	3,799	3,240
Amortization of tangible capital assets	4,418	4,176
Net loss on disposal of assets	417	173
Total other program expenses	79,323	69,564
Total program expenses	244,784	207,857
Public debt charges	29,414	30,990
Total expenses	274,198	238,847

Details (unaudited) reconciling objects of expense to objects of expenditure can be found in Section 3 of this volume and details (unaudited) on ministerial expenditures by object can be found in Section 1 of Volume II of the *Public Accounts of Canada*.

⁽¹⁾ This amount differs from the expense shown on the Statement of Operations and Accumulated Deficit due to the amortization of tangible capital assets and the net loss on disposal of assets of consolidated Crown corporations, which have been reclassified within their respective object of expense.

v. *Significant transactions**Financial assistance to the automotive sector*

The Government entered into agreements with Ontario to provide financial assistance to the automotive sector, whereby Ontario contributed one-third of the financial assistance and participates with the Government in any future economic benefit or loss resulting from these transactions. Amounts indicated below include both the Government and Ontario portion of the transactions except where specifically indicated.

The Government entered into agreements with various corporate entities of General Motors and Chrysler to provide loans to both companies and to acquire common and preferred shares in a restructured General Motors and membership interests in Chrysler. Disbursements to General Motors totalling \$10,846 million (nil in 2009) and to Chrysler totalling \$2,637 million (\$250 million in 2009) occurred during the year.

On July 10, 2009, the Government exchanged loans to General Motors totalling \$9,753 million for 16,101,695 series A preferred shares and 58,368,644 common shares, representing 4.5 percent and 11.7 percent of the outstanding preferred and common shares, respectively. At the exchange date, the fair value of the preferred and common shares was estimated to be \$3,149 million. This amount has been recorded as an increase in loans, investments and advances on the Statement of Financial Position. A net amount of \$4,402 million, representing the Government's two-thirds share of the difference between the face value of the loans and the fair value of the equity as at the exchange date has been recorded as a transfer payment expense on the Statement of Operations and Accumulated Deficit.

Principal repayments totalling \$401 million were received from General Motors during the year, reducing loans outstanding at March 31, 2010, to \$1,288 million (nil in 2009). A further principal repayment of \$1,096 million was received in April 2010.

At March 31, 2010, loans outstanding to Chrysler total \$2,902 million (\$250 million in 2009). Repayment of these loans is scheduled to be completed by 2017.

As additional consideration for providing loans to Chrysler, the Government acquired 24,615 class A membership interests, representing 2.5 percent of the membership interests in Chrysler on an undiluted basis (2 percent on a fully diluted basis), with an estimated fair value of \$20 million at the acquisition date. This amount has been recorded as an increase in loans, investments and advances on the Statement of Financial Position.

A liability to Ontario representing its one-third proportionate participation in the value of the loans receivable, membership interests and common and preferred shares as at March 31, 2010, has been recorded in accounts payable and accrued liabilities on the Statement of Financial Position.

Harmonized Sales Tax (HST) Transitional Assistance to Ontario and British Columbia

During the year, the Government signed Comprehensive Integrated Tax Coordination Agreements with the provinces of Ontario and British Columbia with the intent to harmonize the sales taxes in those provinces and the federal goods and services tax.

As part of the terms to these agreements, the Government agreed to provide transitional payments to both provinces in fiscal years 2011 and 2012. Ontario will receive \$4,300 million and British Columbia will receive \$1,599 million. An amount totalling \$5,899 million has been recorded in 2010 as a transfer payment expense on the Statement of Operations and Accumulated Deficit and is included in other accounts payable and accrued liabilities on the Statement of Financial Position. Of this amount accrued, \$4,019 million will be paid in fiscal year 2011 and \$1,880 million will be paid in fiscal year 2012.

4. Accumulated Deficit

The Government includes in its revenues and expenses, the transactions of consolidated Crown corporations and other entities controlled by the Government, and of certain accounts established for specified purposes. Legislation requires that the revenues of these specified purpose accounts be identified and that related payments be charged against such revenues. Except for the Employment Insurance Operating Account, any deficiency of payments over revenues must be met through future revenues from these accounts. The following table shows the balance of these consolidated accounts and the equity of the consolidated Crown corporations and other entities included in the accumulated deficit:

	(in millions of dollars)	
	2010	2009
Accumulated deficit, excluding consolidated specified purpose accounts and accumulated other comprehensive income	575,972	525,541
Adjustment: Closure of the Employment Insurance Account	-57,043	
	518,929	525,541
Consolidated specified purpose accounts —		
Employment Insurance Account		-57,171
Employment Insurance Operating Account	4,936	
Other insurance accounts	-444	-366
Other consolidated accounts	-344	-322
	523,077	467,682
Consolidated Crown corporations and other entities	-3,574	-3,777
Accumulated other comprehensive income	-406	-195
Accumulated deficit	519,097	463,710

Details (unaudited) can be found in Section 4 of this volume.

i. Employment Insurance

In July 2010, Parliament approved the *Jobs and Economic Growth Act* which includes amendments to the *Employment Insurance Act* that are legally deemed to have come into force on January 1, 2009.

The Act deems the former Employment Insurance Account to have been closed as of December 31, 2008 and the Employment Insurance Operating Account to have been established in the accounts of Canada as of January 1, 2009. As a result, the Employment Insurance Account has been incorporated into the accumulated deficit and removed from the accounts of Canada. The balance of both accounts is presented in the table above including the adjustment for the closure of the Employment Insurance Account in the current year to reflect the legislative changes approved in July 2010.

The audited financial statements of the Employment Insurance Operating Account can be found in Section 4 of this volume.

ii. Accumulated other comprehensive income

For enterprise Crown corporations and other government business enterprises recorded under the modified equity method, certain unrealized gains and losses on financial instruments are recorded as other comprehensive income or loss and are excluded from the calculation of profit or loss until realized. These unrealized gains and losses result from a change in market value of financial assets classified as available-for-sale or derivative instruments used in hedging activities.

Other comprehensive income or loss is also excluded from the calculation of the Government's annual deficit. It is instead recorded directly against the Government's accumulated deficit. Upon realization of these gains and losses, the associated amounts are recorded in the profit or loss of enterprise Crown corporations and other government business enterprises and, therefore, reflected in the Government's annual deficit.

The following table presents the different components of other comprehensive income or loss as well as accumulated other comprehensive income included in the Government's accumulated deficit:

	(in millions of dollars)	
	2010	2009
Accumulated other comprehensive income at beginning of year	195	513
Other comprehensive income or loss (-) —		
Net change in unrealized gains or losses (-) on available-for-sale financial instruments	414	-625
Net change in fair value of derivatives designated as hedges	-203	307
Total	211	-318
Accumulated other comprehensive income at end of year	406	195

5. Unmatured Debt

Unmatured debt includes:

	(in millions of dollars)	
	2010	2009
Market debt —		
Payable in Canadian currency	556,118	500,516
Payable in foreign currencies	8,243	10,381
Total	564,361	510,897
Cross currency swap revaluation	-4,233	3,690
Unamortized discounts and premiums on market debt	-5,092	-4,751
Obligation related to capital leases	4,090	4,184
Total unmaturing debt	559,126	514,020

Unamortized discounts result from Treasury bills and Canada bills which are issued at a discount in lieu of interest. Discounts or premiums also result from the Government's bond buy back program and from issuance of market debt when the face value of the instrument issued differs from the proceeds received. The unamortized portion represents the amount of premium and discount that has not yet been recorded to public debt charges.

i. Market Debt

The following table presents the contractual maturity of debt issues and interest rates by currency and type of instrument at gross value (in Canadian \$) and the effective average annual interest rates including swaps on foreign currency bonds and notes:

	(in millions of dollars)							
	Marketable bonds			Treasury bills	Retail debt ⁽¹⁾	Bonds for Canada Pension Plan	Canada bills US\$	Total
Maturing year	Canadian \$	US\$	Euro					
2011	26,033			175,900	857	425	2,453	205,668
2012	57,211				723	16		57,950
2013	40,256				1,246	11		41,513
2014	24,770				1,166			25,936
2015	40,754	3,047			753			44,554
2016 and subsequent ..	178,989	54	2,744		7,110			188,897
	368,013	3,101	2,744	175,900	11,855	452	2,453	564,518
Less: Government's holdings of unmatured debt ⁽²⁾	51	55		51				157
Total market debt	367,962	3,046	2,744	175,849	11,855	452	2,453	564,361
Nature of interest rate ⁽³⁾	Fixed ⁽⁴⁾	Variable	Fixed	Variable	Variable	Fixed	Variable	
Effective weighted average annual interest rates including swaps on foreign currency bonds and notes	3.87	2.49	3.50	0.40	1.32	11.19	0.13	
Range of interest rates	1.00 - 11.25	2.38 - 9.70	3.50	0.17 - 0.77	0.40 - 3.50	9.17 - 11.33	0.01 - 0.45	

Details (unaudited) can be found in Section 6 of this volume.

⁽¹⁾ Includes \$6,862 million of Canada savings bonds having fixed dates of maturity which are redeemable on demand.

⁽²⁾ Includes \$55 million of securities held for the retirement of unmaturing debt and \$102 million of consolidation adjustments.

⁽³⁾ Debt with maturity terms of less than one year is considered to have a variable interest rate. For marketable bonds and foreign currency notes, some of the fixed interest rates were converted into variable interest rates through swap agreements.

⁽⁴⁾ Includes real return bonds which have a variable component based on the consumer price index.

ii. Obligation related to capital leases

The Government's total obligation related to capital leases as at March 31, 2010 is \$4,090 million (\$4,184 million in 2009). Interest on this obligation of \$228 million (\$233 million in 2009) is reported in the Statement of Operations and Accumulated Deficit as part of public debt charges. Future minimum lease payments are summarized as follows:

Maturing year	(in millions of dollars)
2011.....	530
2012.....	469
2013.....	441
2014.....	463
2015.....	393
2016 and subsequent	4,387
Total minimum lease payments	6,683
Less: imputed interest at the average rate of 5.95 percent.....	2,593
Obligation related to capital leases	4,090

Details (unaudited) can be found in Section 6 of this volume.

6. Public Sector Pensions and Other Employee and Veteran Future Benefits

i. Pension benefits - plan overview

The Government sponsors defined benefit pension plans covering substantially all the employees of the Public Service, as well as Public Service corporations, members of the Canadian Forces including the Reserve Force, members of the Royal Canadian Mounted Police, federally appointed judges and Members of Parliament. In this note, the term "employees" is used in a general manner to apply to plan members of all of these groups.

The Public Service, Canadian Forces and Royal Canadian Mounted Police pension plans represent the three main public sector pension plans. For these plans, pension benefits generally accrue up to a maximum period of 35 years at a rate of two percent per year of pensionable service multiplied by the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Quebec Pension Plan benefits and they are indexed to inflation. Basic allowances provided under the Members of Parliament retiring allowances plan accrue at a rate of three percent per year of pensionable service multiplied by the average of the best five years of sessional indemnity. Pension benefits for federally appointed judges do not have an explicit accrual rate. Instead, they become payable once the member has completed 15 years of pensionable service and the sum of the member's age and years of service totals 80.

The Government has a statutory obligation for the payment of benefits relating to the pension plans.

The plans are generally funded from employee contributions, employer contributions, and investment earnings. Pursuant to pension legislation, the net amount of contributions less benefit and other payments related to post March 2000 service for the three main public sector pension plans and all service for the Reserve Force pension plan has been invested in capital markets. The net amount of contributions less benefit and other payments pertaining to the pre April 2000 service for the three main public sector pension plans and all service periods for the federally appointed judges and the Members of Parliament pension plans, are recorded in pension accounts within the accounts of Canada pursuant to pension legislation, but are not invested externally.

The following table presents a summary of pension contribution and benefit transactions in the year:

	(in millions of dollars)					
	2010			2009		
	Funded plans	Others	Total	Funded plans	Others	Total
Contributions —						
Employees	1,922	71	1,993	1,645	73	1,718
Public Service corporations	204	11	215	203	11	214
Government	3,653	198	3,851	3,285	185	3,470
Total	5,779	280	6,059	5,133	269	5,402
Benefits paid	654	7,609	8,263	505	7,353	7,858

Details (unaudited) can be found in Section 6 of this volume.

ii. Other future benefits - plan overview

The Government sponsors a variety of other employee and veteran future benefit plans from which employees and former employees can benefit, during or after employment or upon retirement. The cost of these benefits accrues either as employees render service or upon the occurrence of an event giving rise to the liability under the terms of the plans. The Government is liable for future payments for disability and other benefits paid to war veterans, current and retired members of the Canadian Forces and the Royal Canadian Mounted Police as well as the survivors and dependants of these groups. Other significant future benefits for which the Government is liable include the health care and dental plans available to retired employees and their dependants, severance benefits, and workers' compensation benefits.

All of these plans are unfunded. For retirees, the health care and dental plans are contributory plans, whereby contributions by retired plan members are made in the year in which the benefits are payable. These contributions amounted to \$127 million in 2010 (\$122 million in 2009). The Government's costs and benefits paid are presented net of these contributions.

iii. Future benefits liabilities

The pensions and other future benefits liabilities include the following components:

	(in millions of dollars)			
	Pensions		Other future benefits	
	2010	2009	2010	2009
Accrued benefit obligation	201,413	190,280	71,391	79,947
Less: Pension plan assets —				
Market related value of investments	44,893	37,155		
Contributions receivable from employees for past service	513	626		
Total	45,406	37,781		
	156,007	152,499	71,391	79,947
Unamortized estimation adjustments	-13,164	-12,590	-17,164	-29,636
Future benefit liability	142,843	139,909	54,227	50,311

Details (unaudited) can be found in Section 6 of this volume.

(a) Pension plan assets

Pension plan assets include marketable investments and contributions receivable from employees for past service buy back elections. The investments are valued at market related values and contributions receivable for past service are discounted to approximate their fair value.

The market related value of investments is established on the basis of an expected rate of return on investments, within a ceiling of plus or minus 10 percent of the market value of investments, whereby the fluctuations between the market value and expected market value are averaged over a five-year period. In 2009, fluctuations exceeding the ceiling resulted in a one-time increase of \$6,433 million to unamortized estimation adjustments that is being amortized over the estimated average remaining service lives of plan members. There was no one-time increase to unamortized estimation adjustments in 2010 as fluctuations did not exceed the ceiling. At March 31, 2010, the market value of the investments is \$46,270 million (\$33,777 million in 2009).

Changes in market related values from year to year are recognized in other program expenses on the Statement of Operations and Accumulated Deficit through the calculation of expected return on plan investments and the amortization of the fluctuation between expected market values and market values of plan investments over the estimated average remaining service lives of plan members. As a result, variations in market value may reverse, or change significantly, before they are fully recognized in the Statement of Operations and Accumulated Deficit.

iv. *Future benefits expense*

The pensions and other future benefits expense includes the following components:

	(in millions of dollars)			
	Pensions		Other future benefits	
	2010	2009	2010	2009
Benefits expense —				
Benefits earned, net of employee contributions	3,471	3,612	2,263	1,630
Amortization of estimation adjustments	1,064	315	3,007	2,056
Plan amendments			-254	
Recognition of net unamortized losses			445	
Total	4,535	3,927	5,461	3,686
Interest expense —				
Interest on average accrued benefit obligation	11,878	11,846	2,566	2,687
Expected return on average pension plan investments	-2,101	-2,413		
Total	9,777	9,433	2,566	2,687
Total future benefits expense	14,312	13,360	8,027	6,373

Details (unaudited) can be found in Section 6 of this volume.

(a) *Plan amendments*

In 2010, an amendment to veteran future benefits and an increase in the member contribution rate for pensioner dental benefits were approved resulting in the recognition of a one-time past service cost of \$196 million and a one-time past service cost reduction of \$450 million, respectively. In addition, these amendments resulted in the immediate recognition of accelerated amortization of unamortized estimation adjustment gains of \$5 million related to veteran future benefits and losses of \$450 million related to pensioner dental benefits.

In 2009, there were no amendments made to the pensions and other future benefits plans that resulted in the recognition of one-time estimated past service costs.

(b) *Interest expense*

The interest expense calculated on the average accrued benefit obligation for the year is reported as part of public debt charges. It is presented net of the expected return on the average market related value of pension plan investments for the year. During the year, the actual rate of return of marketable investments calculated on a time-weighted basis was 21.5 percent (negative 22.7 percent in 2009). The negative return experienced in 2009 resulted primarily from the turmoil and significant volatility in global financial markets. Given that the investment horizon of the pension plans is long-term in nature, the negative return is not expected to impact the long-term target return on the portfolio.

v. *Change in accrued benefit obligation and market related value of investments*

The changes in the accrued benefit obligation and in the market related value of investments during the year were as follows:

	(in millions of dollars)			
	Pensions		Other future benefits	
	2010	2009	2010	2009
Accrued benefit obligation at beginning of year	190,280	178,580	79,947	67,480
Benefits earned	5,653	5,516	2,263	1,630
Interest on average accrued benefit obligation	11,878	11,846	2,566	2,687
Benefits paid	-8,263	-7,858	-4,063	-3,918
Administrative expenses	-162	-147	-48	-45
Net transfers to other plans	-156	-291		
Plan amendments			-254	
Actuarial losses or gains (-)	2,183	2,634	-9,020	12,113
Accrued benefit obligation at end of year	201,413	190,280	71,391	79,947
Market related value of investments at beginning of year	37,155	38,691		
Expected return on average pension plan investments	2,101	2,413		
Contributions	5,779	5,133		
Benefits, transfers and others	-800	-702		
Actuarial gains or losses (-)	658	-8,380		
Market related value of investments at end of year	44,893	37,155		

vi. *Actuarial valuations and assumptions*

Actuarial valuations of the pension plans are performed every three years for funding purposes. The most recent valuations for the Public Service, Canadian Forces, Royal Canadian Mounted Police and Reserve Force pension plans were conducted as at March 31, 2008, while the valuations for the Members of Parliament and the federally appointed judges pension plans were conducted as at March 31, 2007.

The valuations for pensions and other future benefits, except for the veteran future benefits, are updated annually for accounting purposes based on the most recent or any in-progress triennial valuation. The valuation for the veteran future benefits is performed every year for accounting purposes.

All annual actuarial valuations are prepared using assumptions that are based on the Government's best estimates. The valuations are prepared using the projected benefit method prorated on service, except for the veteran future benefits and workers' compensation valuations, where benefits are accrued on an event driven basis. Assumptions required for this process include estimates of future inflation, interest rates, expected return on pension plan investments, general wage increases, work-force composition, retirement rates and mortality rates. Estimation adjustments arise when actual experience varies from these assumptions. These adjustments are amortized over the estimated average remaining service lives of plan members, which represent periods ranging from 5 to 23 years (5 to 15 years in 2009) according to the plan in question.

The assumptions for the long-term rate of inflation and long-term general wage increase used in the accounting valuations of all the plans are 2.0 percent and 2.9 percent respectively (2.0 percent and 2.9 percent in 2009). The discount rates used to value the accrued benefit obligation and the corresponding assumptions used in the cost of current service and in the interest expense are as follows:

	2010			2009		
	Accrued benefit obligation valuation		Expense valuation	Accrued benefit obligation valuation		Expense valuation
	Initial	Ultimate		Initial	Ultimate	
Discount rates - pensions —						
Expected rates of return on pension plan investments	5.8%	6.3%	5.3%	5.3%	6.3%	5.9%
Expected weighted average of long-term bond rates	6.5%	5.1%	6.8%	6.8%	5.0%	7.1%
Discount rates - other future benefits —						
Expected long-term bond rates	4.3%	5.0%	3.3%	3.3%	5.0%	4.1%
Cost increase rates - health care —						
Expected health care cost increase rates	8.3%	3.5%	8.3%	8.3%	3.5%	8.0%
Expected year to achieve ultimate rate		2024			2023	

Changes in assumptions can result in significantly higher or lower estimates of the accrued benefit obligation. The following table illustrates the possible impact of a one percent change in the main assumptions:

	(in millions of dollars)			
	Pensions		Other future benefits	
	2010	2009	2010	2009
Possible impact on the accrued benefit obligation due to:				
Increase of one percent in discount rate	-25,700	-24,500	-9,200	-11,300
Decrease of one percent in discount rate	32,600	31,100	12,000	15,000
Increase of one percent in inflation rate	25,000	23,700	10,700	13,200
Decrease of one percent in inflation rate	-20,600	-19,600	-8,300	-10,100
Increase of one percent in general wage increase	5,400	4,900	600	600
Decrease of one percent in general wage increase	-4,800	-4,200	-500	-500
Increase of one percent in health care cost increase			4,100	4,800
Decrease of one percent in health care cost increase			-3,100	-3,600

7. Other Liabilities

Other liabilities include:

	(in millions of dollars)	
	2010	2009
Due to Canada Pension Plan	175	90
Others —		
Government Annuities Account	243	267
Deposit and trust accounts	2,202	1,988
Other specified purpose accounts	3,967	3,578
	6,412	5,833
Total other liabilities	6,587	5,923

i. Due to Canada Pension Plan

As explained in Note 1, the financial activities of the Canada Pension Plan are not included in these financial statements.

The Plan is a federal/provincial program for compulsory and contributory social insurance. It operates in all parts of Canada, except for the Province of Quebec, which has a comparable program. The Plan is administered by the Government of Canada under joint control with the participating provinces. Payments of pensions and benefits from the Plan are financed from contributions by employers, employees and self-employed persons, and from the income earned on investments. As administrator, the Government's authority to spend is limited to the Plan's net assets. At March 31, 2010, the fair value of the Plan's net assets is \$131,420 million (\$110,022 million in 2009).

The Canada Pension Plan Account (the Account) was established in the Accounts of Canada to record the transactions of the Plan, as well as the amounts transferred to or received from the Canada Pension Plan Investment Board. The Plan's deposit with the Receiver General for Canada of \$175 million (\$90 million in 2009) corresponds to the balance in the Account and is reported as the Government's liability to the Plan at March 31, 2010.

Details (unaudited) and the audited financial statements of the Plan can be found in Section 6 of this volume.

ii. Others

The Government Annuities Account, the deposit and trust accounts and the other specified purpose accounts are liability accounts that are used to record transactions made under authorities obtained from Parliament through either the *Financial Administration Act* or other specific legislation. Details (unaudited) on these accounts can be found in Section 6 of this volume.

8. Cash and Cash Equivalents

Cash and cash equivalents are as follows:

	(in millions of dollars)	
	2010	2009
Cash	16,871	30,608
Cash equivalents	11,579	16,377
Total cash and cash equivalents	28,450	46,985

Details (unaudited) can be found in Section 7 of this volume.

9. Taxes and Other Accounts Receivable

Taxes receivable represent tax revenues that were assessed by year-end as well as amounts receivable due to the accrual of tax revenues as at March 31. These accrued receivables are not due until the next fiscal year. They also include other receivables for amounts collected through the tax system such as provincial and territorial taxes, Employment Insurance premiums and Canada Pension Plan contributions.

The Government has established an allowance for doubtful accounts of \$9,990 million (\$9,486 million in 2009) based on aging and a review of individually large receivable balances and has recorded a bad debt expense of \$2,873 million (\$3,216 million in 2009), which is charged against other program expenses. The details of the taxes receivable and allowance for doubtful accounts are as follows:

	(in millions of dollars)					
	2010			2009		
	Total taxes receivable	Allowance for doubtful accounts	Net	Total taxes receivable	Allowance for doubtful accounts	Net
Income taxes receivable —						
Individuals	40,303	4,925	35,378	42,233	4,356	37,877
Employers	15,010	822	14,188	14,396	725	13,671
Corporations	10,714	1,849	8,865	12,164	1,770	10,394
Non-residents	1,183	142	1,041	1,235	151	1,084
Goods and services tax receivable	9,958	2,188	7,770	9,388	2,397	6,991
Customs duties receivable	190	23	167	227	25	202
Excise taxes and duties receivable	1,695	41	1,654	1,754	62	1,692
Total	79,053	9,990	69,063	81,397	9,486	71,911

Details (unaudited) can be found in Section 7 of this volume.

Other accounts receivable represent billed or accrued financial claims arising from amounts owed to the Government at year-end. Total other accounts receivable amount to \$5,036 million (\$4,580 million in 2009) and are presented net of an allowance for doubtful accounts of \$1,344 million (\$1,329 million in 2009). Further details (unaudited) can be found in Section 7 of this volume.

10. Foreign Exchange Accounts

Foreign exchange accounts represent financial claims and obligations of the Government as a result of Canada's foreign exchange operations. The Government holds certain investments in its Exchange Fund Account to provide general liquidity and to promote orderly conditions in the foreign exchange market for the Canadian dollar. As at March 31, 2010, the fair value of the marketable securities contained in the Exchange Fund Account is \$45,423 million (\$50,674 million in 2009). Subscriptions and loans to the International Monetary Fund (IMF) and special drawing rights allocations are denominated in special drawing rights (SDR). The SDR serves as the unit of account for the IMF and its value is based on a basket of key international currencies. Further details on these investments are provided in the audited financial statements of the Exchange Fund Account in Section 8 of this volume.

The following table presents the balances of the foreign exchange accounts:

	(in millions of dollars)	
	2010	2009
International reserves		
held in the Exchange		
Fund Account —		
Cash and short-term deposits —

Special drawing rights allocations	9,235	1,469
Total	16,911	11,496
Total foreign exchange accounts	46,950	51,709

Certain comparative figures have been reclassified to conform to the current year's presentation.

Details (unaudited) can be found in Section 8 of this volume.

⁽¹⁾ On July 6, 2009, the Government and the IMF signed a two year bilateral borrowing agreement. This commitment, limited to maximum borrowings by the IMF of US \$10,000 million, is for additional temporary resources for member countries.

11. Crown Corporations and Other Entities

Forty-two parent Crown corporations are included in the reporting entity of the Government. There are also a number of not-for-profit organizations and other government business enterprises that meet the definition of control for financial reporting purposes and are included in the reporting entity of the Government.

i. Consolidated Crown corporations and other entities

Some of these Crown corporations and not-for profit organizations rely on the Government for most of their financing. There are twenty-five parent Crown corporations and five not-for-profit organizations whose financial activities are consolidated in these financial statements. The major consolidated Crown corporations are Atomic Energy of Canada Limited, Canadian Air Transport Security Authority, Canadian Broadcasting Corporation and VIA Rail Canada Inc. The major consolidated not-for-profit organizations are the Canada Foundation for Innovation and the Canada Foundation for Sustainable Development Technology. Detailed information (unaudited) on these consolidated entities is included in Section 4 of this volume.

ii. Enterprise Crown corporations and other government business enterprises

The remaining Crown corporations are government business enterprises that are able to raise substantial portions of their revenues through commercial business activity and are therefore considered self-sustaining. These Crown corporations are called enterprise Crown corporations. The major enterprise Crown corporations include the Bank of Canada, Canada Mortgage and Housing Corporation, Canada Post Corporation and Export Development Canada.

There are also a number of self-sustaining government business enterprises that are not Crown corporations but which are controlled by the Government. These are referred to as other government business enterprises. The major other government business enterprises include The Canadian Wheat Board and the various Port Authorities.

The investments in enterprise Crown corporations and other government business enterprises are recorded under the modified equity method, whereby the cost of the Government's equity is reduced by dividends received and adjusted to include the annual profits and losses of these corporations, after elimination of unrealized inter-organizational gains and losses. Most of these corporations follow Canadian generally accepted accounting principles used by private sector companies. Under the modified equity method, the corporations' accounts are not adjusted to the Government's basis of accounting and other comprehensive income or loss of enterprise Crown corporations and other government business enterprises is recorded directly to the Government's accumulated deficit and net debt.

The assets and liabilities of enterprise Crown corporations and other government business enterprises are not included in these financial statements, except for their borrowings which are recorded as liabilities of the Government when they are not expected to be repaid directly by these corporations. The Government also reports any amounts receivable from or payable to these corporations and where the Government has advanced funds to the corporations to support their direct lending activities, the amounts are recorded as loans and advances by the Government.

The following table presents the Government's recorded loans, investments and advances in significant enterprise Crown corporations and other government business enterprises:

	(in millions of dollars)	
	2010	2009
Investments —		
Canada Mortgage and Housing Corporation	9,604	8,780
Export Development Canada	6,906	6,377

Capital ⁽²⁾	4,617	600
	5,743	2,960
Equity of Canada at beginning of year	25,167	22,207
Equity of Canada at end of year	30,910	25,167
Contractual obligations	20,150	20,295
Contingent liabilities	3,531	4,260

Details (unaudited) can be found in Section 9 of this volume.

⁽¹⁾ Amounts reported as dividends include \$1,252 million (\$1,757 million in 2009) from the Bank of Canada.

⁽²⁾ Amounts reported as capital include \$3,169 million for Canada Development Investment Corporation related to financial assistance to the automotive sector.

iii. Non Public Property

Non Public Property (NPP), as defined under the *National Defence Act*, consists of money and property contributed to or by Canadian Forces members and is administered for their benefit and welfare by the Canadian Forces Personnel and Family Support Services (CFPFSS). The CFPFSS is responsible for delivering selected morale and welfare programs, services and activities through three operational divisions, Canadian Forces Exchange System (CANEX), Personnel Support Programs and Service Income Security Insurance Plan (SISIP) Financial Services. Under the *National Defence Act*, NPP is explicitly excluded from

the *Financial Administration Act*. The Government provides some services related to NPP activities such as accommodation and security for which no charge is made. The cost of providing these services is included in the financial statements of the Government of Canada. In 2010, CFPFSS administered estimated revenues and expenses of \$405 million (\$294 million in 2009) and \$362 million (\$342 million in 2009) respectively and net equity of \$571 million at March 31, 2010 (\$519 million at March 31, 2009). These amounts are excluded from the financial statements of the Government of Canada.

12. Other Loans, Investments and Advances

The following table presents a summary of the balances of other loans, investments and advances by category:

	(in millions of dollars)	
	2010	2009
National governments, including developing countries and international organizations —		
National governments including developing countries	502	737
International organizations	15,835	15,381
Total	16,337	16,118
Other loans, investments and advances —		
Provincial and territorial governments	2,937	3,527
Other loans, investments and advances	25,434	20,509
Total	28,371	24,036
Total	44,708	40,154
Less: allowance for valuation	21,550	19,110
Total other loans, investments and advances	23,158	21,044

Details (unaudited) can be found in Section 9 of this volume.

Loans to national governments consist mainly of loans for financial assistance, international development assistance to developing countries, and loans for development of export trade which are administered by Export Development Canada. Certain loans are non-interest bearing and others bear interest at rates varying from 0.5 percent to 9.3 percent. These loans are repayable over 1 to 55 years, with final instalments due in 2045.

Loans, investments and advances to international organizations include Canada's subscriptions to the share capital of international banks as well as loans and advances to associations and other international organizations. These subscriptions are composed of both paid-in and callable capital. They do not provide a return on investment but are repayable on termination of the organization or withdrawal from it. Most loans and advances to international organizations are made to banks and associations that use these funds to make loans to developing countries at significant concessionary terms.

Loans to provinces and territories include loans made under relief acts and other legislation. Certain loans are non-interest bearing and others bear interest at rates varying from 4.5 percent to 9.5 percent. These loans are repayable over 1 to 50 years, with final instalments due in 2015.

Other loans, investments and advances include portfolio investments and loans and advances under various programs to individuals and organizations which include loans under the Canada Student Loans Program of \$12,804 million (\$11,865 million in 2009), and loans for development of export trade which are administered by Export Development Canada of \$6,279 million (\$2,352 million in 2009). Loans under the Canada Student Loans Program are provided interest-free to full-time students and afterward bear interest at either a variable prime rate plus 2.5 percent or a fixed prime rate plus 5.0 percent. The repayment period is generally 10 years. Certain loans for development of export trade are non-interest bearing and others bear interest at rates varying from 1.6 percent to 12.8 percent. These loans are repayable over 1 to 20 years, with final instalments due in 2023.

13. Tangible Capital Assets

Tangible capital assets consist of acquired, built, developed or improved tangible assets, whose useful life extends beyond the fiscal year and which are intended to be used on an ongoing basis for producing goods or delivering services, including military activities. Tangible capital assets include land, buildings, works and infrastructure, machinery and equipment including computer hardware and software, vehicles including ships, aircraft and others, leasehold improvements and assets under construction. Software and leasehold improvements include only the cost of assets acquired since April 1, 2001. Tangible capital assets also include assets under capital lease, details of which are provided in Section 10 of this volume.

Tangible capital assets do not include immovable assets located on reserves as defined in the *Indian Act*. In addition, the cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints, photographs, monuments, films and videos are expensed in the fiscal year in which they are acquired.

Except for land, the cost of tangible capital assets used in Government operations is generally amortized on a straight-line basis over the estimated useful life of the asset as follows:

Buildings	20 to 40 years
Works and infrastructure ⁽¹⁾	5 to 40 years
Machinery and equipment	3 to 30 years
Vehicles	3 to 40 years
Leasehold improvements	lesser of useful life of improvement or lease term
Assets under construction	once in service, in accordance with asset type
Assets under capital leases	in accordance with asset type or over the lease term

⁽¹⁾ Except for the Confederation Bridge, which is amortized over 100 years.

The following table presents a summary of the transactions and balances for the main categories of tangible capital assets:

	(in millions of dollars)											Net book value 2010	Net book value 2009
	Cost					Accumulated amortization							
	Opening balance	Acquisitions	Disposals	Adjustments ⁽¹⁾	Closing balance	Opening balance	Amortization expense	Disposals	Adjustments	Closing balance			
Land	1,410	54	-6	1	1,459							1,459	1,410
Buildings	20,068	166	-36	970	21,168	10,684	717	-28		11,373		9,795	9,384
Works and infrastructure	11,440	79	-58	397	11,858	6,697	344	-43	8	7,006		4,852	4,743
Machinery and equipment	24,765	988	-426	5,183	30,510	15,548	1,752	-284	3,019	20,035		10,475	9,217
Vehicles	35,128	331	-558	-3,084	31,817	21,049	1,170	-263	-2,760	19,196		12,621	14,079
Leasehold improvements	1,935	72	-58	180	2,129	1,150	136	-53	-2	1,231		898	785
Assets under construction	10,275	5,243	-183	-3,402	11,933							11,933	10,275
Assets under capital leases	5,030	203	-93	-314	4,826	1,597	299	-61	-30	1,805		3,021	3,433
Total	110,051	7,136	-1,418	-69	115,700	56,725	4,418	-732	235	60,646		55,054	53,326

Details (unaudited) can be found in Section 10 of this volume.

⁽¹⁾ Adjustments include assets under construction of \$2,574 million that were transferred to other categories upon completion of the assets.

14. Financial Instruments

The Government uses various financial instruments to manage financial risks associated with its financial assets and liabilities. The Government does not hold or use derivative instruments for trading or speculative purposes.

i. Derivative financial instruments

(a) Swap agreements

Government debt is issued at both fixed and variable interest rates and is denominated in Canadian dollars, US dollars and Euros. The Government has entered into cross currency swap agreements to facilitate management of its debt structure. Using cross currency swap agreements, Canadian dollar and other foreign currency debt has been converted into US dollars or other foreign currencies with either fixed interest rates or variable interest rates. As a normal practice, the Government's swap positions are held to maturity.

The interest paid or payable and the interest received or receivable on all swap transactions are recorded as part of public debt charges. Unrealized gains or losses due to fluctuations in the foreign exchange value of the swaps are presented in the cross currency swap revaluation account and are recognized as part of net foreign exchange revenues in the Statement of Operations and Accumulated Deficit.

Cross currency swaps with contractual or notional principal amounts outstanding at March 31, stated in Canadian dollars, are as follows:

Maturing year	(in millions of dollars)	
	2010	2009
2010		3,893
2011	2,531	3,000
2012	2,195	2,630
2013	4,301	3,595
2014	3,530	4,286
2015	3,267	4,022
2016 and subsequent	21,735	18,588
	37,559	40,014

(b) Credit risk related to swap agreements

The Government manages its exposure to credit risk by dealing principally with financial institutions having credit ratings from at least two recognized rating agencies, one of which must be Standard & Poor's or Moody's. At the time of inception of the agreement, the credit rating of the institution must be at least A-.

Credit risk is also managed through collateral provisions in swap agreements. Counterparties must pledge collateral to the Government, which, in the event of default, could be liquidated to mitigate credit losses.

The Government does not have a significant concentration of credit risk with any individual institution and does not anticipate any counterparty credit loss with respect to its swap agreements.

The following table presents the notional amounts of the swap agreements by ratings assigned by Standard & Poor's at year end:

Standard & Poor's	(in millions of dollars)	
	2010	2009
AA	4,692	5,155
AA-	13,746	14,397
A+	6,750	6,280
A	3,422	4,948
A-	2,130	3,385
BBB+	5,447	
BBB	1,372	5,849
	37,559	40,014

ii. Managing foreign currency risk and sensitivity analysis to foreign currency exposures

Interest rate and foreign currency risks are managed using a strategy of matching the duration and the currency of the Exchange Fund Account (EFA) assets and the related foreign currency borrowings of the Government. As at March 31, 2010, the impact of price changes affecting the EFA assets and the liabilities funding these assets naturally offset each other, resulting in no significant impacts to the Government's net debt. Assets related to the International Monetary Fund are only partially matched by related foreign currency borrowings, as they are denominated in Special Drawing Rights.

The majority of the Government foreign currency assets and liabilities are held in three currency portfolios: the US dollar, the Euro and the Japanese yen. At March 31, 2010, a one percent appreciation in the Canadian dollar as compared to the US dollar, the Euro and the Japanese yen would result in a foreign exchange gain of \$23 million due to the exposure of the US dollar portfolio and a foreign exchange loss of \$2 million due to the exposure of the Euro portfolio. There is no significant exposure related to the Japanese yen portfolio as at March 31, 2010. Net foreign exchange losses included in net foreign exchange revenues, other program revenues and other program expenses on the Statement of Operations and Accumulated Deficit amount to \$1,039 million (net foreign exchange gains of \$798 million in 2009).

iii. Fair value information

(a) Liabilities and financial assets

The following table presents the carrying value and the fair value of liabilities and financial assets. Fair values are Government estimates and are generally calculated using market conditions at a specific point in time where a market exists. Fair values of liabilities and financial assets with a short term to maturity or of a non-negotiable nature are assumed to approximate their carrying values. Fair values may not reflect future market conditions nor the actual values obtainable should the instrument be exchanged on the market. The calculations are subjective in nature and involve inherent uncertainties due to the unpredictability of future events.

	(in millions of dollars)					
	2010			2009		
	Carrying value	Fair value	Fair value over under (-) carrying value	Carrying value	Fair value	Fair value over under (-) carrying value
Liabilities —						
Accounts payable and accrued liabilities	120,525	120,525		113,999	113,999	
Unmatured debt	559,126	597,531	38,405	514,020	561,964	47,944
Public sector pensions	142,843	154,630	11,787	139,909	155,877	15,968
Other employee and veteran future benefits	54,227	71,391	17,164	50,311	79,947	29,636
Other liabilities	6,587	6,587		5,923	5,923	
Financial Assets —						
Cash and accounts receivable	101,205	101,205		122,147	122,147	
Foreign exchange accounts	46,950	48,354	1,404	51,709	53,457	1,748
Loans, investments and advances excluding investments in enterprise Crown corporations	121,771	124,603	2,832	99,926	104,925	4,999

Fair values are determined using the following methods and assumptions:

The carrying values of other accounts payable and accrued liabilities, taxes payable, interest and matured debt and cash and accounts receivable are assumed to approximate their fair values due to their short term to maturity and allowances to reduce carrying values.

For marketable bonds denominated in Canadian dollars and foreign currencies, treasury bills issued in Canadian dollars and Euro medium-term notes, fair values are established using market quotes or the discounted cash flow calculated using year-end market interest and exchange rates. The fair value of bonds issued to the Canada Pension Plan are established using discounted cash flows based on current market yields of instruments with similar characteristics, adjusted for the non-marketability and rollover provisions on the bonds. Fair values of other instruments comprising the unmatured debt are deemed to approximate their carrying values due to their short term to maturity or their non-negotiable nature.

The fair values of public sector pensions and other employee and veteran future benefit liabilities are assumed to approximate the actuarial value of the accrued benefit obligations net of the fair values of the pension plan assets, which are established at market value for investments and at discounted net present value for other plan assets.

Fair values of the securities and gold reserves held in the foreign exchange accounts are established using market quotes or other available market information. Financial claims and obligations with the International Monetary Fund denominated in foreign currencies are reported at Canadian dollar equivalents at March 31, which are assumed to approximate fair value.

Fair values of loans to enterprise Crown corporations are established using market quotes or the discounted cash flow calculated using year-end market interest rates. For portfolio or temporary investments, fair values are established using stock market quotes or other available information.

Fair values of other loans, investments and advances are assumed to approximate carrying values since allowances are recorded when necessary to reduce their carrying value to amounts that approximate their estimated realizable value.

(b) Derivative financial instruments

The following table presents the fair value of derivative financial instruments with contractual or notional principal amounts outstanding at March 31:

	(in millions of dollars)			
	2010		2009	
	Notional value	Fair value	Notional value	Fair value
Cross currency swaps.....	37,559	3,892	40,014	-2,225

Fair values of the swap agreements are the estimated amount that the Government would receive or pay, based on market factors, if the agreements were terminated on March 31. They are established by discounting the expected cash flows of the swap agreements using year-end market interest and exchange rates. A positive (negative) fair value indicates that the Government would receive (make) a payment if the agreements were terminated on March 31.

15. Contractual Obligations

The nature of government activity results in some large multi-year contracts and agreements including thousands of international treaties, protocols and agreements of various size and importance. Any financial obligations resulting from these are recorded as a liability when the terms of these contracts or agreements for the acquisition of goods and services or the provision of transfer payments are met. Major contractual obligations that will generate expenditures in future years and that can be reasonably estimated are summarized as follows:

	(in millions of dollars)	
	2010	2009
Transfer payment agreements	60,514	56,533
Acquisition of property and equipment, and goods and services	27,238	21,537
Operating leases	3,015	3,010
International organizations	3,089	3,653
	93,856	84,733

Details (unaudited) can be found in Section 11 of this volume.

Estimated future expenditures related to these contractual obligations are as follows:

Year	(in millions of dollars)
2011.....	27,009
2012.....	14,232
2013.....	11,956
2014.....	9,173
2015.....	4,568
2016 and subsequent	26,918
	93,856

Details (unaudited) can be found in Section 11 of this volume.

i. Transfer payment agreements

Obligations related to transfer payment agreements include an amount of \$23,935 million (\$25,678 million in 2009) related to various contractual obligations of the Government through the Minister's account held at Canada Mortgage and Housing Corporation (CMHC) for social housing programs. Estimated future expenditures related to these obligations are approximately \$1,700 million per year. The amounts reported for CMHC under obligations for transfer payment agreements for 2010 reflect the total estimated remaining contractual obligations that extend for periods up to 30 years.

ii. Operating leases

The Government rents premises and equipment under operating leases which expire at various dates. Future minimum lease payments as at March 31, 2010, total \$3,015 million (\$3,010 million in 2009).

16. Contingent Liabilities

Contingent liabilities arise in the normal course of operations and their ultimate disposition is unknown. They are grouped into contingent liabilities related to: guarantees by the Government, international organizations, environmental liabilities, claims and pending and threatened litigation, and insurance programs of agent enterprise Crown corporations.

i. Guarantees by the Government

At March 31, 2010, guarantees by the Government amount to \$221,979 million (\$210,797 million in 2009) for which an allowance of \$535 million (\$514 million in 2009) has been recorded. These guarantees include the guarantees of the borrowings of agent enterprise Crown corporations. The payment of all money borrowed by agent enterprise Crown corporations and interest thereon constitute obligations of the Government and are recorded net of borrowings expected to be repaid directly by these corporations. At March 31, 2010, guarantees on the borrowings of agent enterprise Crown corporations amount to \$211,454 million

(\$200,417 million in 2009) for which no allowance (nil in 2009) has been recorded. Guarantees by the Government of loans made by agent enterprise Crown corporations, borrowings and loans made by non-agent enterprise Crown corporations and other government business enterprises, loans of certain individuals and businesses obtained from the private sector and insurance programs managed by the Government, amount to \$10,525 million (\$10,380 million in 2009).

ii. International organizations

The Government has callable share capital in certain international organizations that could require payments to those agencies. As at March 31, 2010, callable share capital amounts to \$17,177 million (\$15,901 million in 2009).

iii. Environmental liabilities

(a) Remediation of contaminated sites

The Government has identified approximately 17,000 sites, for which environmental liabilities may exist for assessment, remediation and monitoring. Of these, the Government has identified approximately 2,400 sites (2,000 sites in 2009 - reclassified), where action is possible and for which a liability of \$3,493 million (\$3,220 million in 2009 - reclassified) has been recorded. In addition, the Government has estimated further clean-up costs for which it may be potentially liable of \$1,512 million (\$1,538 million in 2009 - reclassified). These further clean up costs have not been accrued as the Government's obligation to incur these costs is not determinable.

(b) Future asset restoration

The Government has identified approximately 760 unexploded explosive ordnance (UXO) affected sites for which environmental liabilities for clearance of these sites may exist. Of these, the Government has identified approximately 30 UXO affected sites (10 UXO affected sites in 2009), where clearance action is likely and for which a liability of \$16 million (\$10 million in 2009) has been recorded as part of total future asset restoration liability of \$3,109 million (\$3,122 million in 2009). In addition, the Government has estimated further clearance costs related to UXO affected sites ranging from \$180 million to \$524 million. These future clearance costs have not been accrued as the Government's obligation to incur these costs is not determinable.

The Government's ongoing efforts to assess contaminated sites and UXO affected sites may result in additional environmental liabilities related to newly identified sites, or changes in the assessments or intended use of existing sites. Any additional liabilities will be accrued in the year in which they become known and can be reasonably estimated.

iv. *Claims and pending and threatened litigation*

There are thousands of claims and pending and threatened litigation cases outstanding against the Government. These claims include items with pleading amounts and items where an amount is not specified. While the total amount claimed in these actions is significant, their outcomes are not determinable. The Government has recorded an allowance for claims and litigation where it is likely that there will be a future payment and a reasonable estimate of the loss can be made. Claims and litigation for which the outcome is not determinable and a reasonable estimate can be made amount to approximately \$4,300 million (\$5,700 million in 2009). Certain large and significant claims are described below:

Comprehensive land claims: Comprehensive land claims are negotiated in areas where aboriginal title has not been dealt with by treaty or by other legal methods. In such cases, the claim is based on an aboriginal group's traditional use and occupancy of that land. There are currently 76 (76 in 2009) comprehensive land claims under negotiation, accepted for negotiation or under review. A liability of \$3,800 million (\$3,500 million in 2009) is estimated for claims that have progressed to a point where quantification is possible. The remaining claims are still in the early stage of negotiations and cannot yet be quantified.

Assessed taxes under objection or appeal: As at March 31, 2010, an amount of \$17,102 million (\$13,778 million in 2009) of federal and provincial taxes assessed was under objection at Canada Revenue Agency and an amount of \$3,509 million (\$2,429 million in 2009) was under appeal at either the Tax Court of Canada, the Federal Court of Canada or the Supreme Court of Canada.

Other: In September 1999, the *Public Service Superannuation Act*, the *Canadian Forces Superannuation Act* and the *Royal Canadian Mounted Police Superannuation Act* were amended to enable the Government to deal with excess amounts in the superannuation accounts and pension funds governed by these Acts. The legal validity of these provisions has since been challenged in the Ontario Superior Court of Justice. On November 20, 2007, the Court rendered its decision and dismissed all the claims of the plaintiffs. The plaintiffs appealed this decision to the Ontario Court of Appeal. The outcome of these appeals is not determinable at this time.

v. *Insurance programs of agent enterprise Crown corporations*

Three agent enterprise Crown corporations operate insurance programs for the Government. In the event that the corporations have insufficient funds, the Government will have to provide financing. The Canada Deposit Insurance Corporation operates the Deposit Insurance Fund which provides basic protection coverage to depositors for up to \$100,000 deposited with each member bank, trust or loan company; Canada Mortgage and Housing Corporation operates the Mortgage Insurance Fund which provides insurance for mortgage lending on Canadian housing by private institutions and the Mortgage-Backed Securities Guarantee Fund which guarantees the timely payment of the principal and interest for investors of securities based on the *National Housing Act* through the Mortgage-Backed Securities program and the bonds issued by the Canada Housing Trust through the Canada Mortgage Bond program; and Export Development Canada provides export and foreign investment insurance to help with export trade. At March 31, 2010, total insurance in force amounts to \$1,396,212 million (\$1,245,234 million in 2009). The Government expects that all three corporations will cover the cost of both current claims and possible future claims.

Further details (unaudited) on contingent liabilities can be found in Section 11 of this volume.

17. Segmented information

The Government segmented information is based on the ministry structure reported in the 2009-2010 Estimates, which groups the activities of departments and agencies for which a Minister is responsible, and the Crown corporations and other entities as described in Note 11. The five main ministries are reported separately and the others are grouped together with the provision for valuation and other items. The

presentation by segment is based on the same accounting policies as those described in the Summary of significant accounting policies in Note 1. The following tables present the Statement of Operations by Ministry and Crown corporation and other entities before the elimination of internal transactions for the year ended March 31:

**OBSERVATIONS OF THE AUDITOR GENERAL
ON THE
FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA
FOR THE YEAR ENDED 31 MARCH 2010**

For the twelfth consecutive year, the government has received an unqualified audit opinion on the summary financial statements. I congratulate the government on this accomplishment, especially because an unqualified audit opinion is achieved by few countries. Each year, this involves a great deal of work by public servants throughout government, both in individual departments and in central agencies. I thank those involved for their assistance and for the cooperation extended to my Office during our audit.

The purpose of these Observations is to comment on matters that have come to my attention during the audit of the current year's summary financial statements and that will require continuing attention in future years.

ACCOUNTING FOR TRANSFERS

Each year, the government announces various transfer programs—usually as part of the Budget process. For example, in the 2009 Budget, major announcements were made to support the economy and promote infrastructure projects, pursuant to the Economic Action Plan. The 2010 Budget confirmed year 2 funding of that plan. We analyzed all significant agreements that were entered into during the year ending 31 March 2010 to ensure that expenses were recognized in the proper period and that the transactions that were entered into had the appropriate authority.

According to Public Sector Accounting Standards, government transfers are recognized in a government's financial statements, as expenses for the period in which the events giving rise to the transfer occur. For this to happen, the following conditions need to be met:

- The transfer is authorized.
- The recipient has met eligibility criteria.
- A reasonable estimate of the amount can be made.

In assessing the accounting for these transactions, I concluded that the government's accounting treatment was acceptable because

- the government entered into agreements with appropriate authorities, and it had authorization from Parliament to make the payments;
- eligibility criteria had been met;
- agreements were accounted for in the appropriate year; and
- the amounts of the transfers could be reliably determined.

Further, I am satisfied that the summary financial statements adequately disclose the details of major transfer agreements. As well, I am pleased to note that Volume I, Section 1 of the Public Accounts of Canada provides information about the Economic Action Plan.

MANAGEMENT ESTIMATES—TAX REVENUE

Tax revenue comprises two main elements. The first represents known and identifiable tax assessments or reassessments. The second, management's estimate of accrued tax revenues, is one of the largest and most significant estimates in the government's financial statements.

Estimates of accrued tax revenues are based, among other things, on management assumptions and data inputs, such as cash received from, or refunded to taxpayers. Small fluctuations in the key data inputs, or in assumptions about how those inputs should be interpreted, can create significant swings in reported tax revenues for the year.

The government needs to consistently and regularly validate and improve all aspects of its approved tax estimation methodologies to ensure that estimated tax revenue continues to be accurate. A robust testing regime includes verifying the completeness and accuracy of collected data, as well as verifying the accuracy and relevance of any subsidiary calculations that are based on that data. Such a regime also includes an annual review of important assumptions that are embedded in the government's estimation methodologies, so that the government's approved methodologies for determining these estimates can be systematically refined. I have raised concerns relating to the estimation of tax revenues in my Observations in the past. While I acknowledge that current year tax revenues are fairly stated and that some aspects of a testing regime have already been in place for some time, the testing of prior year estimates continued to show significant differences from reported amounts. I encourage the government to expand the scope of its testing and validation procedures.

TRANSITIONING TO NEW ACCOUNTING AND AUDITING STANDARDS

In last year's Observations, I brought it to your attention that the move to International Financial Reporting Standards (IFRS) was an important impending change to Canadian financial reporting. At that time, it was anticipated that this change would affect most federal Crown corporations.

As a result of subsequent changes to Public Sector Accounting Standards, the number of organizations that may be affected by IFRS has been reduced. Instead, many government organizations will now apply Public Sector Accounting Standards. Regardless of the standards they adopt, these organizations will need to do significant advance preparation and planning. In addition, it will be necessary to harmonize the accounting policies of certain Crown corporations to meaningfully report the consolidated results of those corporations in the government's financial statements. I am pleased to observe the active role taken by the government in facilitating these discussions. My Office will continue to follow the progress made by the government and the Crown corporations in preparation for the conversion to these new accounting standards.

Canadian auditing standards are also going through a significant transition. The Canadian Auditing and Assurance Standards Board (AASB) has adopted International Standards on Auditing as the Canadian auditing standards for periods ending on or after 14 December 2010. These standards will apply to all audits of general purpose financial statements. Most of them align relatively well with existing Canadian practice; however, in some cases there will be noticeable changes to the way my Office conducts and reports on audits. We will work closely with the government to discuss the impact of these new standards and to identify areas where changes to current audit practices will be required.

STATUS OF ITEMS REPORTED IN PREVIOUS YEARS

Observation	Current status
Canada Border Services Agency—Tax revenue system deficiencies	<p>For several years, I have stated that the Canada Border Services Agency needs to improve its tax revenue accounting systems and practices. Its accrual of tax revenues is assessment-based, and it gathers data primarily from various tax program systems, which were not designed to function as accounting systems.</p> <p>Each year, significant adjustments to accounting data are necessary to report revenues and receivables on an accrual basis. This manipulation of data involves complex and cumbersome manual processing and reconciliation. Despite these efforts, differences still exist between the amounts receivable in the general ledger and the various reports taken from the tax program systems to support the reported amounts. Management of the Canada Border Services Agency has identified underlying causes of some of their unreconciled differences. Future action is required to further reduce unexplained differences that continue to remain at year-end.</p>
National Defence—Inventory, repairable spare parts, and capital asset records	<p>For many years, I have observed the difficulties National Defence has experienced in the proper recording and valuation of its inventory and its repairable spare parts. I acknowledge the importance the Department has placed on continuously improving its accounting systems and practices, including recognizing the capitalized value of previously expensed parts and the supporting policy development. However, issues remain, such as pricing, verification of quantities, and the timely recording of transactions. Continued action by National Defence is needed to ensure that the value of inventory and repairable spare parts is properly recorded.</p> <p>National Defence has also had issues related to the proper recording and amortization of the costs of its capital assets. Sub-ledgers that are used to capture detailed data are complex and not always reconciled to the general ledger in a timely and accurate manner. Capitalizing of work-in-progress and writing off disposed assets continues to be a challenge for the Department. It is important that National Defence continue its work in this area to ensure that the information recorded in the general ledger is accurate, complete, and timely.</p>
Accrual appropriations by departments and agencies	<p>I reported in previous years that the government had outlined a plan to implement accrual-based budgeting in phases, and would complete an evaluation of the costs and benefits of accrual appropriations in the 2012–13 fiscal year, after accrual-based budgeting had been implemented.</p> <p>Accrual-based appropriations would provide Parliament with a basis for control and approval over voted spending that is the same as the overall government financial plan and the summary financial statements. As I noted and I continue to observe, the government has yet to commit to an implementation date for adopting accrual appropriations or to explain why it would not be prudent to do so.</p>

Observation	Current status
<p>Policy on Recording Payables at Year-End</p>	<p>In previous years, during discussions between my Office and the Treasury Board of Canada Secretariat, it became apparent that we held different interpretations of section 37.1 of the <i>Financial Administration Act</i>, and the Treasury Board's Policy on Payables at Year-End. The difference, which relates to whether "debts" refers to all items are recognized as liabilities, results in a lack of clarity about when the items that should be charged to an appropriation.</p> <p>I remain concerned that departments may neither charge amounts against their appropriation nor record a liability because the transactions/items do not meet this legally binding definition, despite the fact that these are, in substance, liabilities. As part of its Policy Suite Renewal Initiative, we understand that the payables at year-end policy is still in the process of being revisited by the Treasury Board of Canada Secretariat. Given the importance of ensuring that expenditures are properly and consistently charged to appropriations, I encourage the Office of the Comptroller General to resolve this matter.</p>
<p>Audit opinion in accordance with Canadian generally accepted accounting principles</p>	<p>Under the auditing standards of The Canadian Institute of Chartered Accountants, I am required to report on fair presentation in accordance with Canadian generally accepted accounting principles for the public sector. However, recognizing the importance of following our legislative mandate, which requires me to give an opinion on whether the government's financial statements "... present fairly information in accordance with stated accounting policies of the federal government ...," my opinion refers to both bases of accounting.</p> <p>The government's financial statements indicate that its stated accounting policies are based on Canadian generally accepted accounting principles for the public sector, and that using the stated accounting policies do not result in any significant differences from Canadian generally accepted accounting principles. It would be preferable if the government would indicate its commitment to conforming to Canadian generally accepted accounting principles.</p>

REVENUES

Revenues consist of all tax and other amounts which enter into the calculation of the annual surplus or deficit of the Government.

Accounting for Revenues

The Government reports all revenues on an accrual basis.

Tax revenues are reported net of refunds and are exclusive of amounts collected on behalf of provinces and territories. Tax revenues are recognized in the period in which the event that generates the revenue occurs. Taxes are collected pursuant to their respective legislation which may be amended from time to time.

For income taxes, revenue is recognized when the taxpayer has earned the income producing the tax. Revenue is determined net of tax deductions and credits allowed under the *Income Tax Act*.

Revenues for the fiscal year ended March 31 are based on amounts assessed/reassessed at the time of preparation of the financial statements and estimates of income tax earned in the fiscal period but not yet assessed/reassessed. These estimates are based on amounts received at the time of preparation of the financial statements that relate to the fiscal year ended March 31 that have not

been assessed or that are awaiting reassessment. Actual results may differ significantly from these estimates. Differences between estimates and actuals are recorded in the fiscal year in which the actual assessment/reassessment is completed. Revenues do not include estimates for amounts of unreported taxes or the impact of future reassessments that cannot be reasonably determined.

Goods and services tax, and excise and customs revenues are recorded based on the tax and duties assessed and estimated at the time of preparation of the financial statements that relate to the fiscal year ended March 31. For domestic goods and services tax, revenue is recognized at the time of the sale of goods or the provision of services. For excise duties, revenue is recognized when the taxpayer manufactures goods taxable under the *Excise Act*. For excise taxes, revenue is recognized when a taxpayer sells goods taxable under the *Excise Act*. For customs duties and goods and services tax on imports, revenue is recognized when goods are authorized by the Canada Border Services Agency to enter Canada.

Employment insurance premiums are recognized in revenue in the same period as the insurable earnings are earned. Other revenues are recognized in the period to which they relate.

Tax Revenues

Tax revenues include personal, corporate and non-resident income tax revenues, and other taxes and duties as summarized in Table 3.2.

TABLE 3.2

Total tax revenues ⁽¹⁾	180,174	191,604

⁽¹⁾ Additional details are provided in Table 4a in Section 1 of Volume II of the *Public Accounts of Canada*.

Personal income tax

Personal income tax is levied on personal income under the provisions of the *Income Tax Act*.

Corporate income tax

Corporate income tax is levied on corporate income under the provisions of the *Income Tax Act*.

Non-resident income tax

Non-resident income tax is levied on income earned in Canada by non-residents under the provisions of the *Income Tax Act*. This tax is derived from tax withheld from dividends, interest, rents, royalties, alimony, and income from estates and trusts paid to non-residents.

Non-resident income tax revenues also include withholding taxes on income earned in Canada by non-resident life insurance companies and income from trusts.

Other taxes and duties

Other taxes and duties are collected under the *Excise Tax Act*, *Customs Tariff* (Act) and other acts and include the goods and services tax, energy taxes, customs import duties, and other excise taxes and duties.

Goods and services tax

The goods and services tax (GST) became effective January 1, 1991. The GST is applied at a rate of 5 percent on most goods and services consumed in Canada, with only a limited set of exclusions that

include certain medical devices, prescription drugs, basic groceries, residential rents and most health and dental care services. A comparative analysis of the GST is presented in Table 3.3.

TABLE 3.3**GOODS AND SERVICES TAX (GST) ⁽¹⁾**

⁽¹⁾ Reported in the Statement of Operations and Accumulated Deficit (Section 2 of this volume).

Energy taxes

Energy taxes primarily include the excise tax on gasoline, aviation gas and diesel fuel.

Customs import duties

Revenues from customs import duties consist mainly of ad valorem taxes on the importation of goods levied under the *Customs Tariff* (Act).

Other excise taxes and duties

Excise taxes and duties are levied on alcoholic beverages and tobacco products. In addition, excise taxes are imposed on other items such as passenger vehicle air conditioners. The air travelers security charges are collected by air carriers at the time of payment for the air travel by the purchaser of an air transportation service.

The Softwood Lumber Products export charge is assessed on exports of softwood lumber products to the United States after September 30, 2006. The charge on refunds of softwood lumber duty deposits is assessed on amounts refunded to Canadian companies on amounts related to a United States duty order related to the importation of softwood lumber products into the United States between May 22, 2002 and September 30, 2006.

Employment Insurance Premiums

Premiums from employees and employers are levied under the provisions of the *Employment Insurance Act* and are classified as part of revenues. Additional details on employment insurance premiums are provided in Section 4 of this volume.

Other Revenues

Other revenues include Crown corporations, other program and net foreign exchange revenues.

Total other revenues ⁽¹⁾	21,665	24,601

⁽¹⁾ Additional details are provided in Table 4a in Section 1 of Volume II of the *Public Accounts of Canada*.

Crown corporations

Crown corporation revenues include revenues earned from third parties by Consolidated Crown corporations and other entities, interest earned on loans to enterprise Crown corporations and other government business enterprises, and the government's share of the accumulated profits or losses of enterprise Crown corporations and other government business enterprises.

Other programs

Other program revenues include sales of goods and services, return on investments, and miscellaneous revenues. Details are reported by individual ministry in Volume II of the *Public Accounts of Canada*.

Net foreign exchange

Net foreign exchange revenues include the revenues from investments held in the Exchange Fund Account and the International Monetary Fund, as well as the net gains or losses resulting from the translation of these investments to Canadian dollars at March 31. Net foreign exchange revenues also include the net gains or losses resulting from foreign debt and currency swap revaluations.

Return on investments

Return on investments consists mainly of interest from loans and advances, dividends from investments, and transfer of profits and surpluses for loans, investments and advances other than those in enterprises Crown corporations and government business enterprises. A comparative analysis of return on investments is presented in Table 3.5.

⁽²⁾ Less than \$500,000.

EXPENSES

Expenses consist of all charges which enter into the calculation of the annual deficit or surplus of the Government.

Accounting for Expenses

The Government reports all expenses on an accrual basis.

Expenses for Government operations are recorded when goods are received or services are rendered. Transfer payments are recorded as expenses when the recipient has met the eligibility criteria or fulfilled the terms of a contractual transfer agreement, or, in the case of transactions which do not form part of an existing program, when the Government announces a decision to make a non-recurring transfer, provided the enabling legislation or authorization for payment receives parliamentary approval prior to the completion of the financial statements. Public debt charges are

recorded when incurred and include interest, servicing costs and cost of issuing new borrowing and amortization of premiums and discounts on market debt.

Expenses include provisions to reflect changes in the value of assets or liabilities, including provisions for bad debts, for loans, investments and advances, and for inventory obsolescence. Expenses also include amortization of tangible capital assets and utilization of inventories and prepaid expenses.

On a day-to-day basis, organizations within the Government entity transact with each other and thus contribute to the amounts of revenues and expenses recorded in the accounts. In preparing the financial statements, these "internal transactions" are eliminated so as to report on the basis of transactions with outside parties only.

Table 3.6 presents external expenses by segment and by type.

Expenses by Segment

The Government segmented information is based on the ministry structure reported in the 2009-2010 Estimates, which groups activities for the departments and agencies for which a Minister is responsible, and the Crown corporations and other entities as described in Note 11 to the financial statements in Section 2 of this volume.

Government's Cost of Operations

Government's Cost of Operations consists of three major types: transfer payments, other program expenses and public debt charges.

Transfer payments

The major transfer payments include payments to persons and payments to provinces and territories.

Payments to persons include payments for income support or income supplement. Assistance is based on age, family status, income, and employment criteria.

Payments to provinces and territories are made under three main programs:

- The fiscal arrangements are unconditional fiscal transfer payments to lower income provinces including subsidies under the Constitution Acts; and,
- The Canada health transfer and the Canada social transfer are the major means for providing the federal share of social programs administered by the provinces.

The other transfer payments include various subsidies paid through federal programs to stabilize market prices for commodities, for the development of new technologies, for the conduct of research, for the establishment of new jobs through support for training, for the promotion of educational and cultural activities, expenses of other consolidated entities, and other miscellaneous payments.

Other program expenses

This category covers the costs associated with programs directly delivered by the federal Government such as national defence, food inspection, the Coast Guard, the federal court system, the operation of health facilities for natives and veterans, and the national parks system. It also includes the expenses of consolidated Crown corporations and other entities incurred with third parties.

Table 3.7 presents a comparative analysis by province and territory of certain transfer payments.

Amounts in roman type are 2009-2010 transfer payments.

Amounts in *italic* type are 2008-2009 transfer payments.

⁽¹⁾ Includes the guaranteed income supplement and the spouse's allowance.

⁽²⁾ Includes the contributions under the Gas Tax Fund of \$1,873 million and payments to provinces for assistance with sales tax harmonization of \$5,899 million.

Public debt charges

Public debt charges include the interest on unmatured debt and on pensions, other future benefits and other liabilities, the amortization of premiums and discounts on unmatured debt, and the servicing costs and the costs of issuing new borrowings.

A comparative summary of public debt charges is presented in Table 3.8. The table also discloses the reconciling items between total public debt charges as reported in the ministerial section of the Department of Finance (Section 8) of Volume II and the total

PUBLIC ACCOUNTS OF CANADA, 2009-2010

expenses of the public debt indicated in Table 3.6. The reconciling items include the expenses of the consolidated specified purpose accounts, accrual adjustments and other items.

Total expenses.....	224,961	49,237	274,198

⁽¹⁾ Additional details are provided in Table 3a in Section 1 of Volume II of the *Public Accounts of Canada*.

⁽²⁾ This amount differs from the expense shown on the Statement of Operations and Accumulated Deficit due to the amortization of tangible capital assets and the net loss on disposal of assets of consolidated Crown corporations, which have been reclassified within their respective object of expense.

Expenditures under Statutory Authorities

Spending authorities provided by statutory authorities are for specified purposes and for such amounts and such time as the acts prescribe. These spending authorities do not generally lapse at the end of the year in which they were granted. Expenditures under such authorities account for more than two-thirds of the total program expenses each year.

Table 3.10 presents a comparative summary of the ministerial statutory expenditures.

TABLE 3.10

EXPENDITURES UNDER STATUTORY AUTHORITIES

(in millions of dollars)

	2009-2010	2008-2009 ⁽¹⁾
Public debt charges.....	27,003	29,940
Old age security payments (<i>Old Age Security Act</i>).....	26,391	25,335

CONSOLIDATED CROWN CORPORATIONS AND OTHER ENTITIES

This section provides all related information on consolidated Crown corporations and other entities. Consolidated entities are those which rely on Government funding as their principal source of revenue and are controlled by the Government.

Consolidation involves the combination of the accounts of these corporations and other entities on a line-by-line and uniform basis of accounting and elimination of inter-organizational balances and transactions. Consequently, the corporations and other entities' accounts must be adjusted to the Government's basis of accounting. Most corporations and other entities follow Canadian generally accepted accounting principles (GAAP) for private sector.

Summary Financial Statements of Consolidated Crown Corporations and Other Entities

The following tables display details of the assets, liabilities, revenues and expenses of the consolidated Crown corporations and other entities.

For those corporations and other entities having year ends other than March 31, the data are based on unaudited interim financial statements which have been prepared on a basis consistent with the most recent audited financial statements.

Tables 4.1 and 4.2 summarize the financial transactions and results of operations as reported by the consolidated Crown corporations and other entities.

Financial assets include cash and cash equivalents, receivables, loans and investments. Financial assets are segregated between third parties and Government, Crown corporations and other entities. The financial assets reported under Government, Crown corporations and other entities represent receivables, loans and investments between related parties. Non-financial assets represent the unexpensed portion of capital assets, inventories and prepayments such as buildings, machinery and equipment in use or under construction, inventories and other items of expenditure which will be expensed as these assets are used. Liabilities include payables, borrowings and other obligations. Liabilities are segregated between third parties and Government, Crown corporations and other entities. Borrowings from third parties represent long-term debts payable of the corporations and other entities. Other third party liabilities are amounts due for purchases, employee benefits, various accruals, capital leases and like items. The liabilities reported under Government, Crown corporations and other entities represent payables and borrowings between related parties.

Revenues are segregated between third parties and Government, Crown corporations and other entities. Government, Crown corporations and other entities' revenues are broken down further to identify revenues arising from normal operations and financial assistance received or receivable from the Government in respect of the current year's operations. Expenses are segregated between third parties and Government, Crown corporations and other entities. Equity transactions other than current year's net income or loss are segregated between equity adjustments and other, other comprehensive income or loss and equity transactions with the Government. Equity adjustments and other include prior period adjustments and other miscellaneous items recorded by the corporations and other entities. Other comprehensive income or loss comprises certain unrealized gains and losses on financial instruments that are recognized in comprehensive income, but excluded from net income. Upon realization, these gains and losses are included in net income. Equity transactions with the Government include dividends declared or transfers of profits to the Government, as well as capital transactions with the Government. The line "Conversion to the Government accounting basis for consolidation purposes" represents the adjustments required to bring the corporations and other entities' accounting policies in line with the Government's basis of accounting.

These tables present financial information on consolidated parent Crown corporations and other entities, as well as financial information on wholly-owned subsidiaries that are considered "deemed parent Crown corporations" and thus consolidated directly in the financial statements of the Government and excluded from the consolidated financial statements of their parent Crown corporations. The *President of the Treasury Board's Annual Report to Parliament on Crown Corporations and Other Corporate Interests of Canada* includes a complete list of all parent Crown corporations, wholly-owned subsidiaries, other subsidiaries and associates.

Consolidated Crown corporations are also categorized as being either agents or non-agents of the Crown. Agency status may be expressly stated in the incorporating legislation or conferred under the provisions of the *Government Corporations Operation Act*. In accordance with section 54 of the *Financial Administration Act*, the payment of all money borrowed by consolidated agent Crown corporations and interest thereon is a charge on and payable out of the Consolidated Revenue Fund. Table 4.3 summarizes such borrowings for the consolidated corporations and the changes for the year ended March 31, 2010. Contingent liabilities of consolidated corporations and other entities are presented in Table 4.4.

A summary of financial assistance under budgetary appropriations to consolidated Crown corporations for the year ended March 31, 2010 is provided in Table 4.5. Differences in figures reported in Table 4.2 and those reported in Table 4.5 result from the use of different accounting policies and from items in transit.

(1) All Crown corporations listed at the margin in this table are parent Crown corporations.

(2) During the year, Canadian Commercial Corporation was reclassified from an enterprise Crown corporation presented in Section 9 of this volume to a consolidated crown corporation.

(3) The assets and liabilities of the Cape Breton Development Corporation (CBDC) were transferred to Enterprise Cape Breton Corporation and CBDC was dissolved.

(4) The financial information of The Federal Bridge Corporation Limited is consolidated to include the figures of its subsidiaries The Jacques Cartier and Champlain Bridges Incorporated, the Seaway International Bridge Corporation Limited and the St. Mary's River Bridge Company.

(5) The Canada Millennium Scholarship Foundation ceased its activities on January 5, 2010. The figures reported are those as at December 31, 2009.

⁽¹⁾ The difference between this amount and the Crown corporations expenses presented in the Statement of Operations and Accumulated Deficit in Section 2 of this volume consists of \$131 million in financial assistance to enterprise Crown corporations.

Borrowings by Consolidated Agent Crown Corporations

Table 4.3 summarizes the borrowing transactions by consolidated agent Crown corporations made on behalf of Her Majesty. This information is published to satisfy section 49 of the *Financial Administration Act* (FAA) which requires that an annual statement be included in the *Public Accounts of Canada*. The borrowings are from lenders other than the Government. In

accordance with section 54 of the FAA, the payment of all money borrowed by agent Crown corporations and interest thereon is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings are consolidated in the summary financial statements of Canada.

Financial Assistance under Budgetary Appropriations to Consolidated Crown Corporations

Table 4.5 summarizes financial assistance under budgetary appropriations for both consolidated agent and non-agent Crown corporations. It should be read in conjunction with Table 4.2. The purpose for which payments have been made under budgetary appropriations is segregated between: (a) amounts approved through an operating expenditures vote and (b) amounts approved through a capital expenditures vote.

All amounts reported represent charges to appropriations or authorities approved by Parliament.

Differences in figures reported in Table 4.2 and those reported in Table 4.5 result from the use of different accounting policies and from items in transit.

Payments to other entities are recorded as transfer payments and are disclosed in Volume II.

(1) Excludes grants and contributions paid to agent and non-agent consolidated Crown corporations where they qualify as members of a general class of recipients.

(2) Includes budgetary appropriations for Government programs known as the "Minister's Account".

(3) During the year, Public Works and Government Services Canada transferred capital assets to the Old Port of Montreal Corporation Inc. for a total of \$65,594,000.

CONSOLIDATED SPECIFIED PURPOSE ACCOUNTS

Consolidated specified purpose accounts are special categories of revenues and expenses which report transactions of certain accounts where enabling legislation requires that revenues be earmarked, and that related expenses be charged against such revenues. They are used principally where the activities are similar in nature to departmental activities and the transactions do not represent liabilities to third parties but in essence constitute Government revenues and expenses.

The transactions of these accounts are reported with revenues and expenses, in order to provide a more comprehensive reporting of the Government's operating results.

Further, enabling legislation requires that the transactions in each of these accounts be accounted for separately. Table 4.6 presents a summary of the balances and transactions of these accounts, in the manner required by legislation. A narrative description is provided for accounts reported in Table 4.6. Such description follows the same presentation order as the respective table.

The financial statements of the Employment Insurance Operating Account, together with the Auditor General's report thereon, are presented at the end of this section.

⁽¹⁾ In July 2010, Parliament approved the *Jobs and Economic Growth Act* which includes amendments to the *Employment Insurance Act* that are legally deemed to have come into force on January 1, 2009. The Act deems the former Employment Insurance (EI) Account to have been closed as of December 31, 2008 and the Employment Insurance Operating Account to have been established in the accounts of Canada as of January 1, 2009. The adjustment for the closure of the Employment Insurance Account is presented in the current year to reflect the legislative changes approved in July 2010.

Insurance Accounts

For the following Insurance Accounts, revenues and other credits from outside parties totalled \$16,894 million (\$17,520 million in 2009) while expenses and other debits to outside parties totalled \$21,824 million (\$16,502 million in 2009) and are reported as expenses in the Statement of Operations.

Revenues and other credits of \$1,892 million (\$1,084 million in 2009) and expenses and other debits of \$58,990 million (\$1,644 million in 2009) internal to the operations of the Government, have been eliminated in order to present transactions with outside parties.

Crop Reinsurance Fund

This Fund, continued in the accounts of Canada pursuant to subsection 13(1) of the *Farm Income Protection Act*, provides insurance to participating provinces for costs they incur in operating various crop insurance schemes. The Crop Reinsurance Fund currently operates under the authority of the *Farm Income Protection Act*.

The revenues of the Fund come from funds paid by the provinces for the purpose of reinsurance and the expenditures of the Fund are funds paid to the provinces under the terms of reinsurance agreements. When there is insufficient revenues in the Fund to meet payments, the Minister of Finance may authorize an advance of additional funds to cover these obligations. These advances are recovered from future revenues from the provinces. The interest rate has been set by the Department of Finance at zero percent.

Agricultural Commodities Stabilization Accounts

The purpose of these accounts was to reduce income loss to producers from market risks through stabilizing prices. Premiums were shared equally by the Government of Canada, the governments of participating provinces and participating producers.

These accounts are continued in the accounts of Canada pursuant to subsection 16(2) of the *Farm Income Protection Act*. Current activities are limited to collection of accounts receivable. The *Agricultural Stabilization Act*, under which the commodity accounts formerly operated, has been repealed and replaced by the *Farm Income Protection Act* effective April 1, 1991.

Investors' Indemnity Account

Section 57 of the *Financial Administration Act* provides for this account, and for the crediting thereto of the sum of \$25,000, such further amounts as are appropriated by Parliament for the purpose of this section, and any recovery of losses referred to in section 58 of the Act. This sum was increased to \$50,000 by Treasury Board Submission No. 817667 dated December 12, 1991.

Section 58 of the Act states that the Minister may, in accordance with and subject to regulations, pay out of the account, any losses sustained by subscribers for Government securities, who have paid all or part of the purchase price but have not received the security or repayment of the amount so paid, and losses sustained by any person in the redemption of securities.

Health Insurance Supplementary Account

This account was established pursuant to Vote L16b, *Appropriation Act No. 2, 1973*, to record payments in respect of persons who, through no fault of their own, have lost or been unable to obtain coverage for the insured health services under the *Canada Health Act*, and in accordance with the Federal-Provincial Agreement on Eligibility and Portability. Contributions are made by all provinces to the account in proportion to population and are matched by the Federal Government.

Employment Insurance Operating Account

The *Employment Insurance Act* provides for a compulsory contributory employment insurance program applicable to all employees and employers, with few exceptions.

The Act authorizes that an account be established in the accounts of Canada to be known as the Employment Insurance Operating Account.

The Act provides that the following be credited to the Account: (a) premiums, penalties and interest; (b) refunds of overpayments of benefits and support measures under Part II of the Act; (c) repayments of overpayments made by the Commission under the Labour Market Development Agreements; (d) amounts for services rendered to other Government departments or agencies, or to the public; and, (e) amounts provided for any other purposes related to employment insurance and authorized by an appropriation administered by the Canada Employment Insurance Commission.

The Act also provides that the following be charged to the Account: (a) benefits, support measures and financial assistance provided under Part II of the Act; (b) contributions to provinces under the Labour Market Development Agreements; and, (c) costs of administering the Act including administration costs transferred to provinces and costs to the Canada Employment Insurance Financing Board.

Employee premium rate for each \$100 of insurable earnings was \$1.73 from January 1, 2009 to December 31, 2009 for employees without a Provincial Parental Insurance Plan and \$1.38 for the others. From January 1, 2010 to March 31, 2010, the rate was \$1.73 for employees without a Provincial Parental Insurance Plan and \$1.36 for the others.

Table 4.7 presents a statement of the transactions in the Employment Insurance Operating Account.

⁽¹⁾ The difference between premium revenue presented here and the amount presented in the Government of Canada financial statements is due to the elimination on consolidation of premiums incurred by the Government of Canada, for an amount of \$360 million (\$330 million in 2009).

Nuclear Liability Reinsurance Account

This account was established pursuant to sections 16 and 17 of the *Nuclear Liability Act*, to record premiums and to provide for payment of claims arising from accidents at an insured facility.

Ship-Source Oil Pollution Fund

This account was established pursuant to subsection 2001, c.6 of the *Marine Liability Act* (previously the *Canada Shipping Act*), to record levy tonnage payments for oil carried by ships in Canadian waters. Maritime pollution claims, the fee of the Fund Administrator, and related oil pollution control expenses, are to be financed out of the Fund.

**Other Consolidated Specified Purpose
Accounts**

For the following Other Specified Purpose Accounts, revenues and other credits from outside parties of \$34 million (\$24 million in 2009) are reported while expenses and other debits to outside parties of \$14 million (\$12 million in 2009) are reported in the Statement of Operations.

Revenues and other credits of \$3 million (\$13 million in 2009), and expenses and other debits of \$1 million (\$3 million in 2009) internal to the operations of the Government, have been eliminated in order to present transactions with outside parties.

Trust Fund—National Battlefields Commission

This account was established at the creation of the National Battlefields Commission for the purpose of acquiring various properties for the development of the park. The funds are received by way of private contributions, from municipal corporations, provincial governments and others, and deposited for the purposes of the Commission, as prescribed for in its incorporation Act. Following the land acquisitions of the Commission, funds remained in the account and increased over a period of years as a result of interest earned, while the Commission was listed in Schedule C of the *Financial Administration Act*, prior to September 1, 1984.

Environmental Damages Fund

This account was established for the management of court orders/awards or other financial compensation to Environment Canada for damages to the environment.

New Parks and Historic Sites Account

This account was established pursuant to the *Parks Canada Agency Act* to record payments to be used to acquire lands or property required to establish any national park, national historic site or other protected heritage area that has not yet attained full operation status, and to make any related contributions.

**Canadian Commercial Bank and Northland Bank
Holdback Account**

This account was established to record the amount held from the recovery of monies received from the winding up of Canadian Commercial Bank and Northland Bank.

During the fiscal year, no claims have been received for potential payments from the holdback.

Supplementary Fish Fines Account

The account was established to record the deposit of funds received from persons declared guilty of offences under the *Fisheries Act*, and fined by courts under paragraph 79(2) (f) of the Act.

Environmental Studies Research Fund—Indian Affairs and Northern Development

This account was established pursuant to subsection 76(1) of the *Canada Petroleum Resources Act*. The purpose of the Fund is to finance environmental and social studies pertaining to the manner in which, and the terms and conditions under which, exploration development and production activities on frontier land, authorized under this Act or any other Act of Parliament, should be conducted.

Environmental Studies Research Fund—Natural Resources

This account was established pursuant to subsection 76(1) of the *Canada Petroleum Resources Act*. The purpose of the Fund is to finance environmental and social studies pertaining to the manner in which, and the terms and conditions under which, exploration development and production activities on frontier land, authorized under this Act or any other Act of Parliament, should be conducted.

Seized Property Proceeds Account

This account was established, pursuant to section 13 of the *Seized Property Management Act*, to record the net proceeds received from the disposition of seized and forfeited properties to Her Majesty or fines imposed and also funds received from the government of foreign states pursuant to agreements for the purpose of the Act. The Act also provides that the following be charged to the Account: operating expenses incurred in carrying out the purpose of the Act, amounts paid as a result of claims and repayments of advances from the Minister of Finance, interest on drawdown from Seized Property Working Capital Account and distribution of the proceeds to the relevant jurisdictions and the Consolidated Revenue Fund.

Fines for the Transportation of Dangerous Goods

This account was established, pursuant to the *Transportation of Dangerous Goods Act 1992* and related regulations, to record fines levied by courts.

Endowment Principal

For the following Endowment Principal Accounts, revenues and other credits from outside parties of \$96,000 (\$109,000 in 2009) are reported in the Statement of Operations and Accumulated Deficit.

Mackenzie King trust account

The late The Right Hon W L Mackenzie King bequeathed Laurier House, Ottawa, and the sum of \$225,000, to the Government of Canada. The amount of \$225,000 was credited to the account and earns interest, in accordance with the terms of section 3 of the *Laurier House Act*. The interest is to be used to assist in the maintenance of the Laurier House, which is to be preserved as a place of historic interest, and also to provide accommodation for study and research.

Endowments for Health Research

This account was established by section 29 of the *Canadian Institutes of Health Research Act* to record various endowments received from donors for the purpose of health research. The interest received is used for the payment of research grants.

H.L. Holmes Fund

This account was established, pursuant to paragraph 5(1)(f) of the *National Research Council Act*, to record the residue of the estate of H. L. Holmes. Up to two thirds of the yearly net income from the fund shall be used to finance the H. L. Holmes Award on an annual basis. These awards will provide the opportunity to post-doctoral students to study at world famous graduate schools or research institutes under outstanding research persons.

Queen's Fellowship fund

This fund is an endowment of \$250,000 that was established by Vote 45a, *Appropriation Act No. 5, 1973-74*. The interest earned is used for the payment of fellowships to graduate students in certain fields of Canadian studies.

SUPPLEMENTARY STATEMENT

Employment Insurance Operating Account

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements of the Employment Insurance Operating Account have been prepared in accordance with Canadian generally accepted accounting principles for the public sector, by the management of the Canada Employment Insurance Commission.

Management is responsible for the integrity and objectivity of the information in the financial statements, including the amounts which must, of necessity, be based on best estimates and judgement. The significant accounting policies are identified in Note 2 to the financial statements.

In support of its responsibility, management has developed and maintains books of account, financial and management controls, information systems and management practices. These are designed to provide reasonable assurance as to the reliability of the financial information, and to ensure that the transactions are in accordance with the *Employment Insurance Act* and regulations, as well as the *Financial Administration Act* and regulations.

The Employment Insurance Operating Account's external auditor, the Auditor General of Canada, conducts an independent audit of the financial statements and provides a report to the Minister of Human Resources and Skills Development.

The financial statements of the Employment Insurance Operating Account are an integral part of the *Public Accounts of Canada*, which are tabled in Parliament and referred to the Standing Committee on Public Accounts for examination purposes.

AUDITOR'S REPORT

TO THE MINISTER OF HUMAN RESOURCES AND
SKILLS DEVELOPMENT

OPINION ON THE FINANCIAL STATEMENTS

I have audited the balance sheet of the Employment Insurance Operating Account as at March 31, 2010 and the statements of operations and accumulated deficit and cash flow for the year then ended. These financial statements are the responsibility of the Canada Employment Insurance Commission. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Employment Insurance Operating Account as at March 31, 2010 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

OTHER MATTER

I wish to draw your attention to significant changes to the accounts for the Employment Insurance program. As described in Note 1 to the financial statements, the legislation that Parliament approved in July 2010 to implement the March 2010 Budget included amendments to the *Employment Insurance Act*. One such amendment was the closure of the Employment Insurance Account, with a surplus of about \$57 billion.

Sheila Fraser, FCA
Auditor General of Canada

Employment Insurance Operating Account —Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010

1. Authority, objective and responsibilities

The Canada Employment Insurance Commission (the Commission), a departmental corporation named in Schedule II to the *Financial Administration Act*, administers the *Employment Insurance Act* (the Act). The Commission is co-managed by the Government, workers and employers. The objective of the Act is to provide short-term financial relief and other assistance to eligible workers. The financial transactions relating to this objective are reported through the Employment Insurance Operating Account.

The Employment Insurance Operating Account (the Account) was established in the accounts of Canada by the Act. All amounts received under the Act are deposited in the Consolidated Revenue Fund and credited to the Account. The benefits and the costs of administration of the Act are paid out of the Consolidated Revenue Fund and charged to the Account.

The Minister of National Revenue is responsible for collecting premiums from employers and employees, and for administering and enforcing the provisions of the Act relating to benefit repayments receivable from higher income claimants.

The Act authorizes the Government of Canada to enter into Labour Market Development Agreements with each province and territory on the design and delivery of the active employment benefits and support measures contained in the Act. During 2009-2010, all the remaining provinces and territories (Nova Scotia, Prince Edward Island, Newfoundland and Labrador and Yukon) which were still under a co-management agreement have implemented agreements with full responsibility for delivering the active employment benefits and support measures.

The Act also authorizes the Government of Canada to enter into a premium reduction agreement with a province, to allow for a regulatory scheme to make the necessary adjustments and modifications to the Act. This is required to harmonize it with a provincial law that has the effect of reducing or eliminating the special benefits payable under the Act.

Legislative changes

In July 2010, Parliament approved the *Jobs and Economic Growth Act* which includes amendments to the *Employment Insurance Act* (the Act) and regulations that are legally deemed to have come into force on January 1, 2009.

The Act deems the former Employment Insurance (EI) Account to have been closed as of December 31, 2008 and the Employment Insurance Operating (EIO) Account established in the accounts of Canada as of January 1, 2009.

As a result, the EI Account accumulated surplus of \$57 billion has been incorporated into the accumulated deficit of the Government of Canada. Every reference in all relevant legislations after January 1, 2009 to the EI Account is deemed to refer to the EIO Account.

In addition, the new EIO Account does not earn interest on the balance with the Receiver General for Canada in the same manner as the EI Account. Therefore, interest earned of \$94 million on the balance with the Receiver General from January 1 to March 31, 2009 has been reversed and transferred back to the Department of Finance.

The Act also deems the account receivable of \$347 million from the province of Quebec for the Quebec Parental Insurance Plan (QPIP) to be considered as if it was now an amount required to be reimbursed to the Consolidated Revenue Fund. The Canada-Quebec agreement relative to the QPIP signed in March 2005 was implemented on January 1, 2006. During the transition period of the QPIP (January 1 to December 31, 2006), Canada continued to pay active maternity, parental and adoption (MPA) claims. As per the agreement, Quebec will reimburse Canada for these MPA benefits paid out by Canada to Quebec residents. As per the legislative changes, this amount receivable of the EI Account has been transferred to the Department of Human Resources and Skills Development Canada.

The EIO Account is the continuity of the former EI Account reporting entity because there are no changes to the EI operations and activities. All the above legislative changes have been reflected in the 2009-2010 amounts.

2. Significant accounting policies

The Account is a component of the Government of Canada reporting entity. In this context, its operations are consolidated with those of the Government and are presented in the financial statements of the Government of Canada. The financial statements of the Account are also presented in Volume I of the *Public Accounts of Canada*.

(a) Basis of accounting

The financial statements are prepared in accordance with Canadian generally accepted accounting principles for the public sector.

(b) Revenue—Premiums

Premiums are recognized as revenue in the period in which they are earned. Premiums earned in the period are measured from amounts assessed by the Canada Revenue Agency (CRA) and from estimates of amounts not assessed based on cash received. Premium revenue also includes adjustments between actual and estimated premiums of previous years.

Employment Insurance Operating Account —Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

(c) Funding from the Government of Canada—
Benefit enhancement measures

The funding associated with the benefit enhancement measures included in the Budget 2009 is recognized in the period in which the benefit expenditures are incurred.

(d) Expenses—Benefits and support measures

Income benefits (or benefits under Part I of the Act) provide temporary income support to claimants, including self-employed fishers, while they look for work. This includes work-sharing agreements for temporary work shortages. It also includes special benefits such as maternity, parental, sickness and compassionate care benefits. Income benefits represent the amounts paid and payable to claimants for the period relating to the financial year, less benefit overpayments established by the Commission during the year.

Employment benefits and support measures (or benefits under Part II of the Act) provide financial assistance, namely contributions, to eligible persons to help them re-integrate into the labour market and to third parties to help them provide employment assistance services to unemployed workers and employed persons if they are facing a loss of their employment. These expenses include the direct costs of financial and employment assistance programs and related measures provided to eligible persons and third parties. Contributions are recognized in the year in which the recipient has met the eligibility criteria or fulfilled the terms of a contractual transfer agreement. Overpayments established during the year are deducted from these expenses. Part II expenses also include the transfer payments to the provinces and territories under the Labour Market Development Agreements.

Claimants with higher income levels than those stated in the Act have to repay benefits received. Estimated benefit repayments received or receivable from those claimants are deducted from benefits and support measures.

(e) Administration costs

The administration costs of the Act are based on a formula allocating the expenses between the Department of Human Resources and Skills Development and the Account. The expense allocation formula takes into consideration the source of funding, from the Account or from the Consolidated Revenue Fund. In addition, the administration costs incurred by the provinces and the territories to administer the Labour Market Development Agreements are included

in the administration costs for the year based on provisions in the agreements.

(f) Advances—Employment benefits and support measures

Advances for employment benefits and support measures are recorded as an asset on the balance sheet and are charged to expenses upon utilization.

(g) Asset and liability valuation

Due to the short-term nature, the carrying value of the financial assets and liabilities of the Account approximate their fair value at the end of the year.

(h) Measurement uncertainty

The preparation of financial statements in accordance with Canadian generally accepted accounting principles for the public sector requires that management makes estimates and assumptions that affect the reported amounts of assets and liabilities as at the date of the financial statements and revenue and expenses during the reporting period. The most significant estimates are related to premiums, administration costs, benefit repayments, allowance for doubtful accounts, benefit enhancement measures relating to work-sharing and the amounts presented in Schedule II. Actual results could differ significantly from these estimates.

3. Due from claimants

	2010	2009
	(in thousands of dollars)	
Benefit overpayments receivable.....	503,357	494,444
Amount of penalties receivable.....	140,128	150,905
	643,485	645,349
Less: allowance for doubtful accounts.....	359,109	359,061
	284,376	286,288
Estimated benefit repayments receivable from higher income claimants.....	282,959	235,074
	567,335	521,362

The Commission detects overpayments on claims processed during the current and preceding years. These overpayments are accounted for by reducing the benefit expenses during the year in which they are established. During the year, overpayments totalling \$340 million were established (\$277 million in 2008-2009). Interest charges on overpayments totalled \$9 million (\$16 million in 2008-2009).

Employment Insurance Operating Account

—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

The Commission may impose penalties on a claimant or an employer when it becomes aware that information they have provided is false or misleading. The Act sets the maximum amounts that may be imposed in these cases. During the year, the Commission imposed penalties totalling \$42 million (\$41 million in 2008-2009). Interest charges on penalties totalled \$3 million (\$6 million in 2008-2009).

During 2009-2010, the Commission recovered \$346 million (\$325 million in 2008-2009) of benefit overpayments and penalties. Uncollectible benefit overpayments and penalties written off during the year amounted to \$50 million (\$47 million in 2008-2009).

The Commission establishes an allowance for doubtful accounts by aging the balance of the accounts receivable outstanding and by applying varying percentages based on past recovery experience to the aging categories so determined.

In accordance with Treasury Board regulations, the Account charges interest on outstanding employment insurance debts caused through misrepresentation.

4. Amounts receivable

	2010	2009
	(in thousands of dollars)	
From Canada		
Benefit enhancement measures—		
Budget 2009 (Note 8)	1,646,014	124,000
Amount to be recovered for the social insurance number registry		12,550
Amounts payable related to Labour Market Development Agreements	1,539	
	<u>1,647,553</u>	<u>136,550</u>
From provinces		
Benefits to be recovered under Quebec Parental Insurance Plan		345,223
Administration costs to be recovered under Quebec Parental Insurance Plan		1,421
		<u>346,644</u>
	<u>1,647,553</u>	<u>483,194</u>

The account receivable related to the Quebec Parental Insurance Plan (QPIP) was transferred to Human Resources and Skills Development Canada (HRSDC), following Parliament approval of the *Jobs and Economic Growth Act* in July 2010. The reimbursement of the amount

due by the province of Quebec will be paid into the Consolidated Revenue Fund through HRSDC. See note 1.

5. Warrants

All amounts paid as or on account of benefits under the Act are paid by special warrants drawn on the Receiver General and issued by the Commission by electronic means or bearing the printed signature of the Chairperson and Vice-Chairperson of the Commission. The amount of unredeemed warrants reported in the balance sheet, represents the warrants issued that are still outstanding at the end of the fiscal year.

6. Amounts payable

	2010	2009
	(in thousands of dollars)	
To Canada		
Administration costs	46,782	39,716
Tax deductions from warrants	5,503	33,348
Recoupments from warrants	1,858	1,557
Amounts payable related to Labour Market Development Agreements		375
	<u>54,143</u>	<u>74,996</u>
To provinces		
Recoupments from warrants	1,304	2,125
Quebec tax deductions from warrants	886	4,899
Amounts payable related to Labour Market Development Agreements	1,206	7,418
	<u>3,396</u>	<u>14,442</u>
	<u>57,539</u>	<u>89,438</u>

7. Premiums

Premiums for the year are measured by the Canada Revenue Agency (CRA) based on amounts assessed and reassessed at the time of preparation of its financial statements and an estimate of premiums earned in the period but not yet assessed or reassessed. The estimate of premiums earned but not yet assessed or reassessed is based on cash amounts received at the time of preparation of the financial statements that relate to the fiscal year.

Actual premiums may differ from these estimates. Actual premium revenue for calendar years 2009 and 2010 will only be known once the CRA has processed all employer declarations of premiums for these years. An adjustment for the difference between actual and estimated

Employment Insurance Operating Account —Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

premiums will be recorded in the fiscal year in which the actual assessment or reassessment results are known.

Employers with qualified wage loss insurance plans are entitled to premium reductions. They are required to share this reduction with their employees. For the calendar year 2009, the total amount of reductions is estimated at \$817 million (\$785 million in 2008). Actual reductions for the calendar year 2008 were \$809 million (\$722 million in 2007). Employees insured under a qualified wage loss insurance plan are entitled to allowances because of illness, injury, pregnancy or child care, depending on the plan. These allowances have the effect of reducing the special benefits payable by the Account to the insured persons.

Pursuant to section 66(1) of the Act, the premium rates for the years 2008 and 2009 were set by the Commission. In setting the rates, the Commission relied on the principle that the premium rate should generate just enough premium revenue to cover the payments, including administration costs, to be made during that year based on forecast values of economic variables provided by the Minister of Finance, and in doing so, took into account the report of the chief actuary to the Commission and any public input. For the year 2010, the premium rate was set as per section 66(4) of the Act.

For the following calendar years, premium rates for each \$100 of insurable earnings were:

	2010	2009	2008
	(in dollars)		
Residents of provinces without a Provincial Plan			
For employees.....	1.73	1.73	1.73
For employers (calculated at 1.4 times the employee rate).....	2.42	2.42	2.42
Residents of provinces with a Provincial Plan			
For employees.....	1.36	1.38	1.39
For employers (calculated at 1.4 times the employee rate).....	1.90	1.93	1.95

The annual maximum insurable earnings for 2010 is \$43,200 (\$42,300 in 2009 and \$41,100 in 2008).

8. Benefit enhancement measures—Budget 2009

	2010	2009
	(in thousands of dollars)	
Increase in regular benefits duration—		
Extra five weeks.....	795,769	124,000
Employment Insurance Training Programs—		
Labour Market Development Agreements		
increased funding.....	500,000	
Work-sharing.....	211,238	
New measures for long-tenured workers—		
Career transition assistance.....	15,007	
	1,522,014	124,000

The Budget 2009 includes various measures to support Canadian workers affected by the global economic downturn. The cost of these enhancement measures is not funded from the Account and will be recovered from the Government of Canada. The increase in the Regular Benefits Duration measure was implemented in March 2009. The other types of measures were implemented and began being paid to eligible claimants in 2009-2010.

9. Estimated overpayments and underpayments of benefits

Given the large number of claimants to be monitored and the need for prompt service, the Commission applies a selective approach of control procedures. Therefore, the verification of claims is mainly done after claimants have begun to receive benefits.

In order to measure the effectiveness of the benefit payment process, the Commission has a program in place which estimates, through statistical extrapolation, the most likely value of incorrect benefit payouts. For benefits paid during the twelve months ended March 31, 2010, these undetected overpayments and underpayments are estimated to be \$520 million and \$250 million respectively (\$449 million and \$162 million for the twelve months ended March 31, 2009). These estimates are used by the Commission to assess the quality of decisions and the need, if any, to improve its systems and practices of processing claims.

The overpayments established during the year, as indicated in Note 3, are not directly linked to the above noted estimated overpayments and underpayments of benefits for the same period.

Employment Insurance Operating Account

—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Concluded

10. Administration costs

	2010	2009
	(in thousands of dollars)	
Administration costs	1,853,479	1,649,724
Add: administration costs incurred by provinces and territories under the Labour Market Development Agreements	184,533	164,170
Canada Employment Insurance Financing Board	277	
Deduct: recovery of costs for maintaining the social insurance number registry and issuing replacement cards	(6,878)	(12,742)
	<u>2,031,411</u>	<u>1,801,152</u>

11. Related party transactions

The Account is a component of the Government of Canada reporting entity and is therefore related to all departments, agencies and Crown corporations. The Account enters into transactions with these entities in the normal course of operations under the same terms and conditions that apply to unrelated parties. The transactions are measured at the exchange amount.

Related party transactions not otherwise disclosed in these financial statements include administration costs of \$134 million (\$112 million in 2008-2009) charged by Public Works and Government Services Canada for accommodation and rental costs, and \$191 million (\$164 million in 2008-2009) by the Canada Revenue Agency for collecting premiums from employers and employees and other related activities. These costs are charged to the Account based on memoranda of understanding with the Department of Human Resources and Skills Development.

Employment Insurance premiums include the employer's share of premiums paid by the federal government of \$360 million (\$330 million in 2008-2009).

12. Contingent liabilities

In the normal course of the operations of the Account, numerous appeals against or by the Commission are presently outstanding. The outcome of these appeals is not presently determinable. Any claims resulting from the resolution of these appeals will be accounted for as an expense in the period in which the claim will be determinable. However, in the opinion of management, the result of these appeals should not have a significant impact on the operations of the Account.

13. Canada Employment Insurance Financing Board

The Canada Employment Insurance Financing Board is a Crown corporation established by the *Canada Employment Insurance Financing Board Act* in June 2008. The Board reports to Parliament through the Minister of Human Resources and Skills Development. The Board became operational during the fiscal year.

The Board was created to improve the governance and management of Employment Insurance financing. Starting in 2011, the Board will implement an improved Employment Insurance premium rate-setting mechanism. This mechanism is designed to ensure that Employment Insurance revenues and expenditures break even over time. The information provided in Schedule II for calendar year 2009, prepared in accordance with Canadian generally accepted accounting principles for the public sector, will be used to establish the premium rate. The Board will also manage any excess Employment Insurance revenues from a given year, in a separate bank account, and will invest these excess revenues for future Employment Insurance purposes.

Human Resources and Skills Development Canada will continue to have policy responsibility for Employment Insurance benefits as well as responsibility for program delivery to ensure that the Employment Insurance program is responsive to the needs of Canadians and that it is delivered efficiently and effectively.

Benefit rates—Income benefits

From January to December 2009, benefits paid represent the lesser of 55 percent of average insurable earnings or \$447 per week (\$435 per week in 2008). In January 2010, the maximum payment was increased to \$457 per week. The benefit rate can be increased to a maximum of the lesser of 80 percent of average insurable earnings or \$457 per week as of January 1st, 2010 (\$447 per week in 2009 and \$435 per week in 2008) for claimants who are in a low-income family with children.

Interest and matured debt.....	5.13
Allowance for guarantees	5.14

ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

This section contains information on accounts reported on the Statement of Financial Position under “Accounts Payable and Accrued Liabilities”. The establishment and operation of these accounts are authorized by Parliament in annual appropriation acts and other legislation. In many cases, these accounts represent accounts payable, accruals and allowances set up at year end under the authority granted to the President of the Treasury Board under the *Financial Administration Act*.

Table 5.1 presents the year-end balances of accounts payable and accrued liabilities by category. Chart 5A presents accounts payable and accrued liabilities by category at March 31.

Most tables in this section present the continuity of accounts, by showing the opening and closing balances. A narrative description is provided for accounts reported in some tables. Such description follows the same presentation order as the respective tables.

Other Accounts Payable and Accrued Liabilities

Other accounts payable and accrued liabilities includes accounts payable, accrued salaries and benefits, notes payable to international organizations, the provincial and territorial tax collection agreements account, miscellaneous payroll deductions, other accounts and deferred revenues.

Table 5.2 presents a summary of the balances for the accounts in this category of accounts payable and accrued liabilities.

⁽¹⁾ Certain comparative figures have been reclassified to conform to the current year's presentation.

⁽²⁾ Additional information on the consolidated Crown corporations and other entities is provided in Section 4 of this volume.

Accounts payable

This account records amounts owing at year end pursuant to contractual arrangements, or for work performed, goods received, or services rendered, accrued amounts to be paid from appropriations and statutory authorities, and accrued financial obligations of consolidated Crown corporations and other entities.

Accrued salaries and benefits

This amount records salaries and wages owing at year end, amounts owing for earned and unpaid annual vacation leave and compensation time, and other accrued amounts relating to unpaid or retro-active salaries.

Notes payable to international organizations

Share capital subscriptions, loans and advances are made to international organizations using cash and/or notes payable that are later presented for encashment according to terms of agreements. These demand notes are non-interest bearing and are non-negotiable. The subscriptions, loans and advances are recorded as assets and details are reported in Table 9.13 (Section 9 of this volume).

Table 5.3 presents the balances and transactions for the individual notes.

⁽¹⁾ Notes denominated in foreign currencies are translated into Canadian dollars at the year-end closing rate of exchange.

Provincial and territorial tax collection agreements account

This account records both income taxes administered by the Government of Canada on behalf of provinces, territories, and aboriginal governments, pursuant to the *Federal Provincial Fiscal Arrangements Act* and harmonized sales tax, sales tax and goods and services sales tax pursuant to the *Excise Tax Act*, and related payments made to them.

Under the *Federal-Provincial Fiscal Arrangements Act*, the Government of Canada is empowered to enter into agreements with provincial, territorial, and aboriginal governments, to collect income taxes on their behalf, and to make payments to them with respect to such taxes. Furthermore, the Government is empowered to enter into agreements with provincial governments, to collect the harmonized sales tax, and to make payments to them with respect to such tax.

The Government of Canada has entered into agreements with provinces (excluding Quebec) and territories, and with some self-governing First Nations, to collect individual income tax, and, with provinces (excluding Quebec and Alberta except for the tax on preferred shares dividend) and territories, to collect corporate income tax, and, to pay in instalments to such provinces and territories, the estimated revenues to be produced by the respective provincial and territorial taxes. The Government has also entered into agreements with the provinces of Nova Scotia, New Brunswick and Newfoundland and

Labrador, to collect the harmonized sales tax, and to make payments to them with respect to such tax. Furthermore, the Government has also entered into agreements with some First Nations, to collect sales taxes on motive fuels, tobacco, and alcohol and goods and services sales tax, and to make payments to them with respect to such agreements. This account also reflects amounts related to the Government of Canada's administration of various provincial and territorial programs under Memoranda of Understanding, such as child benefit programs.

Because the *Public Accounts of Canada* reports information on an April to March fiscal year basis and because tax information is calculated on a calendar year basis, there can be transactions related to several tax years during any given fiscal year. For example, during a fiscal year the payments are made, based on estimates, for two calendar years (April to December and January to March). During this period, it is also necessary to make payments or adjustments related to final determinations of tax revenues, rebates and credits for previous tax years.

Table 5.4 presents the accumulated balances and the net position of the revenues and the payments made to the provinces and territories for corporate and personal income taxes as well as for harmonized sales tax, sales tax and goods and services sales tax.

Miscellaneous payroll deductions

Deductions from the salaries and wages of certain employees are credited to this account pending transmittal to related outside organizations.

Other

Miscellaneous accounts payable and accrued liabilities such as provincial sales tax collected on sales are recorded in this account.

Deferred Revenues

This account records revenues received before the end of the current fiscal year for which the goods or services are to be delivered or rendered in a subsequent fiscal year. It includes licence fees received for which access to the radio spectrum is being provided in subsequent years and also presents sepa-

rately revenues received which have been recorded in a specified purpose account.

Table 5.5 presents the balances and transactions of deferred revenues.

⁽¹⁾ Amends previous year's *Public Accounts of Canada*.

Service fees for immigration and citizenship

This account was established to record fees and rights derived from the *Citizenship Act* and Regulations and the *Immigration and Refugees Protection Act* and Regulations. Fees are deferred until the application is deemed processed, while rights (right of citizenship and right of permanent residence) are deferred until the right is granted.

Spectrum licence fees and other fees

This account was established to record, (a) funds received from Spectrum Auctions, which are recognized as revenues over the period of the licences; (b) funds received from Spectrum Licence Fees that are received in the latter part of the fiscal year, but which are applicable to the following fiscal year; and, (c) funds received from other sources such as patents and trademarks examination and registration fees, Bankruptcy Trustee Licence Fees and Competition Bureau Pre-Merger Fees, which are recognized as revenue in the subsequent year.

Provincial arrangement on capital assets

This account was established to record capital assets received by the Royal Canadian Mounted Police pursuant to the provincial arrangement (contracts) on capital assets. The revenue is recognized on the same basis as the amortization of the corresponding capital asset.

Shared-cost agreements—Research

This account was established to record amounts deposited by external parties for shared-cost projects, and any related future provincial program payments to be made on a province's behalf by Agriculture and Agri-Food Canada as part of a related project. Funds are disbursed on behalf of depositors as specific projects are undertaken.

Special operating account

This account was established, pursuant to section 18 of the *Library and Archives of Canada Act*, to record funds received for the purposes of the Library and Archives of Canada, by way of gifts. Amounts required for the purposes of the Act may be paid out of this account, or out of funds appropriated by Parliament for such purposes.

Endangered species—Donations

This account was established to record donations, gifts or bequests received from individuals and organizations to finance various studies related to endangered species.

Pacific Rim Mitigation Fund

This account was established to record funds received for the protection of lands within the Pacific Rim National Park Reserve of Canada. Funds so received are used to monitor community use impacts, carry out related research and implement required mitigation measures.

Restricted donations—Fisheries and Oceans

This account was established to record directed donations to be used for research, development, management and promotion of fisheries and oceans related issues.

Canadian Landmine Action Fund

This account was established to record funds received from the public to support Canadian Mine Action Programs pursuant to the Ottawa Convention agreement which bans the production, use, stockpiling and export of anti-personnel mines.

During the year, the account was closed.

Donations—Rideau Hall

This account was established to record gifts, donations or bequests to Rideau Hall from private organizations and individuals to fund specific initiatives.

Shared-cost agreements—Awards

This account was established to record amounts deposited by external parties for shared-cost projects.

Donations for research

This account was established, pursuant to section 29 of the *Canadian Institutes of Health Research Act*, to record donations and contributions received from organizations and individuals for biomedical research.

Donations

This account was established, pursuant to subsection 6(3) of the *Canadian Centre for Occupational Health and Safety Act*, to record funds, securities or other property received by way of gift, bequest or otherwise, and to disburse such donations at the discretion of the Centre.

Prime Minister's Awards and other deposits

This account was established to record amounts deposited by external parties to be used in support of the Prime Minister's Awards for teaching excellence and amounts deposited by customers to be used for payments of services provided by Industry Canada.

RADARSAT-2

This account was established to record funds received for the configuration and layout of relocated MacDonald, Dettwiler and Associates personnel.

RADARSAT-2—Data satellite

This account was established to record funds received from "MacDonald, Dettwiler and Associates" for the reception, archiving, cataloging and satellite acquisition services.

Trust fund—National Research Council of Canada

This account was established by the *National Research Council Act* to record funds received from other governments and organizations outside the accounting entity to cover expenses made on their behalf.

Trust fund—Natural Sciences and Engineering Research Council

This account was established by the *Natural Sciences and Engineering Research Council Act (1978)* to record funds received from other governments and organizations to cover expenses made on their behalf.

Trust fund—Social Sciences and Humanities Research Council

This account was established to record funds available for social sciences and humanities research activities. The account is also used to record receipts of private donations for the purpose of special projects.

Corporate sponsorships and donations

This account was established by the Department of National Defence to administer funds received from various private companies, not for profit corporations, associations, other levels of government, or individuals for the purpose of holding events, conducting operations and constructing capital assets consistent with the Department's mandate but not funded from its appropriations.

Mounted Police Foundation

This account was established to record funds received from the Mounted Police Foundation which will be used to cover expenses related to community policing, educational, promotional and public relations projects throughout Canada.

Royal Canadian Mounted Police Pipe Band (NCR)

This account was established to administer sponsorship funds to support the Royal Canadian Mounted Police Pipe Band.

Sponsorship Agreement—Contributions

This account was established to record funds contributed to the Royal Canadian Mounted Police pursuant to sponsorship agreements for use in community policing programs.

Restricted donations—Canadian Memorial

This account was established to record directed donations for the purpose of management and maintenance of the Canadian Memorial in Green Park, London, United Kingdom.

Restricted donations—Wounded Warrior Fund

This account was established to record directed donations for the purpose of providing assistance to support the pilot project designed to assist disenfranchised Veterans in crisis.

Laurier House—Interest (Mackenzie King trust account)

The late The Right Hon W. L. Mackenzie King bequeathed Laurier House, Ottawa, and the sum of \$225,000, to the Government of Canada. The amount of \$225,000 was credited to the account and earns interest, in accordance with the terms of section 3 of the *Laurier House Act*. The interest is to be used to assist in the maintenance of the Laurier House, which is to be preserved as a place of historic interest, and also to provide accommodation for study and research.

Endowments for health research

This account was established by section 29 of the *Canadian Institutes of Health Research Act*, to record various endowments received from donors for the purpose of health research. The interest received is used for the payment of research grants.

H. L. Holmes Fund

This account was established, pursuant to paragraph 5(1)(f) of the *National Research Council Act*, to record the residue of the estate of H. L. Holmes. Up to two thirds of the yearly net income from the fund shall be used to finance the H. L. Holmes Award on an annual basis. These awards will provide the opportunity to post-doctoral students to study at world famous graduate schools or research institutes under outstanding research persons.

Queen's Fellowship Fund

This fund is an endowment of \$250,000 that was established by Vote 45a, *Appropriation Act No. 5, 1973-74*. The interest earned is used for the payment of fellowships to graduate students in certain fields of Canadian studies.

Shared-cost agreements—Transportation research and development

This account was established to record, on a temporary basis, (a) funds received from cost-sharing agreements intended to strengthen and improve the safety, security and efficiency of the Canadian transportation system; and, (b) funds received from private sector and provincial governments to directly support the departmental strategic objectives.

Taxes Payable

Taxes payable include amounts payable to taxpayers based on assessments as well as estimates of refunds owing for assessments not completed by year end.

Table 5.6 presents a summary of the balances for the different tax revenue streams.

TABLE 5.6
TAXES PAYABLE

	March 31/2010	March 31/2009
	\$	\$
Personal and non-resident income tax.....	31,337,532,951	30,441,434,803
Corporate income tax.....	10,670,362,690	13,217,458,916
Goods and services tax.....	6,195,417,931	7,156,276,537
Customs and excise	48,169,415	30,192,863
Total	48,251,482,987	50,845,363,119

Personal and non-resident income tax

This account records tax refunds payable to individual taxpayers as well as amounts payable to employers and other withholding of personal income tax. This account also includes any interest owing on the balances.

Corporate income tax

This account records tax refunds payable and any interest owing to corporate taxpayers.

Goods and services tax

This account records refunds, rebates and any interest owing related to the goods and services tax.

Customs and excise

This account records refunds of customs import duties, excise taxes and duties, energy taxes and any interest owing on the balances.

Environmental Liabilities

Environmental liabilities include the estimated costs related to the remediation of contaminated sites and to the future restoration of certain tangible capital assets where the Government is obligated, or likely obligated to incur such costs.

The Government has identified approximately 2,400 contaminated sites and 30 unexploded explosive ordnance (UXO) affected sites (2,000 contaminated sites and 10 UXO affected sites in 2009) for which it is likely obligated to remediate. Continued assessment work will lead to a more accurate cost estimate of the identified sites.

The contingent liabilities associated with the contaminated sites and UXO affected sites are disclosed in Section 11 of this volume.

Table 5.7 presents the liability balances of the custodian departments and Crown corporations for remediation liabilities for contaminated sites and asset restoration liabilities for UXO affected sites, nuclear facility decommissioning and certain electronic equipment.

⁽¹⁾ Certain comparative figures have been reclassified to conform to the current year's presentation.

⁽²⁾ On December 31, 2009, the assets and liabilities of the Cape Breton Development Corporation (CBDC) were transferred to Enterprise Cape Breton Corporation and CBDC was dissolved.

Changes in liability for remediation of contaminated sites

Table 5.8 presents a summary of the changes in liability balances for contaminated sites. In addition to expenditures reducing environmental liabilities previously recorded, the government spent another \$28,280,675 (\$15,968,396 in 2009) as management and remediation costs on its contaminated sites when these costs became known in the year.

TABLE 5.8
CHANGES IN LIABILITY FOR REMEDIATION OF CONTAMINATED SITES

	March 31/2010	March 31/2009
	\$	\$
Opening Balance	3,220,052,777	3,332,727,858
Less: Expenditures reducing opening liabilities	307,966,826	220,900,966
Add: Changes in estimated remediation costs	441,294,743	24,003,543
New liability for sites not previously recorded	139,679,519	84,222,342
Closing Balance	3,493,060,213	3,220,052,777

Interest and Matured Debt

Interest and matured debt includes interest due, interest accrued and matured debt.

Table 5.9 presents a summary of the balances for the accounts in this category of accounts payable and accrued liabilities.

TABLE 5.9
INTEREST AND MATURED DEBT

	March 31/2010	March 31/2009
	\$	\$
Interest due	2,237,733,532	2,378,895,804
Interest accrued	4,540,642,736	4,460,344,827
Matured debt	74,327,000	80,130,600
Total	6,852,703,268	6,919,371,231

Interest due

Interest due is the interest on the bonded debt, which is due and payable but has not been redeemed by bond holders.

Interest accrued

Interest accrued is the interest accumulated as at March 31 on the bonded debt and certain other liabilities, that is not payable until a future date.

Matured debt

This account records financial obligations represented by certificates of indebtedness issued by the Government, that have become due but that have not been presented for redemption. Unclaimed matured bonds are transferred to other revenues if they remain unredeemed 15 years after the date of call or maturity, whichever is earlier; the minimum time before such a transfer is made is 5 years from the date of maturity.

Allowance for Guarantees

This category of accounts payable and accrued liabilities includes the allowance for loan guarantees and the allowance for borrowings of Crown corporations.

Table 5.10 presents a summary of the balances for the accounts in this category of accounts payable and accrued liabilities.

TABLE 5.10
ALLOWANCE FOR GUARANTEES

	March 31/2010	March 31/2009
	\$	\$
Allowance for loan guarantees	484,772,233	432,718,424
Allowance for borrowings of Crown corporations	49,907,386	80,852,146
Total	534,679,619	513,570,570

Allowance for loan guarantees

This account records potential losses on loan guarantees when it is likely that a payment will be made in the future to honour a guarantee and when the amount of the loss can be reasonably estimated (see Table 11.5 in Section 11 of this volume).

Allowance for borrowings of Crown corporations

In accordance with section 54 of the *Financial Administration Act*, the payment of all money borrowed by agent enterprise Crown corporations, and interest thereon, is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute unconditional obligations of the Government.

Borrowings of non-agent Crown corporations and other government business enterprises may, at times, be guaranteed by the Government.

This account reports the borrowings of agent and non-agent enterprise Crown corporations and other government business enterprises expected to be repaid by the Government (see Table 9.6 in Section 9 of this volume).

INTEREST-BEARING DEBT

This section contains information on the interest-bearing debt of the Government. Interest-bearing debt includes the unmatured debt and pension, other future benefits and other liabilities.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges.

Table 6.1 presents the transactions and year-end balances of interest-bearing debt. Chart 6A presents interest-bearing debt by category for the current fiscal year.

The financial statements of the Canada Pension Plan, the Government Annuities Account and the Royal Canadian Mounted Police (Dependants) Pension Fund, together with the Auditor General's reports thereon, are presented at the end of this section.

A narrative description is provided for accounts reported in some tables. Such description follows the same presentation order as the respective tables.

⁽¹⁾ This table includes unmatured debt issued by the Government of Canada. Borrowings of agent enterprise Crown corporations which are unconditional obligations of the Government, but not included in unmatured debt, can be found in Table 6.12.

CHART 6A**INTEREST-BEARING DEBT BY CATEGORY AT MARCH 31, 2010****UNMATURED DEBT**

Unmatured debt represents financial obligations resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due, cross-currency swap revaluation and unamortized discounts and premiums on market debt and obligations related to capital leases.

The Government's holdings of its own securities have been deducted from unmatured debt, to report the amount of the Government's liabilities to outside parties.

Marketable Bonds

Marketable bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

- bought and sold on the open market;
- payable in Canadian or foreign currency;
- subject to redemption before maturity;
- fixed dates of maturity;
- interest payable either in coupon or registered form; and,
- face value guaranteed at maturity.

Registered marketable bonds are transferable by endorsement and delivery by one holder to another. Bearer marketable bonds need not be endorsed.

Table 6.2 presents a summary of the balances and transactions for marketable bonds.

The year-end balances of marketable bonds payable in foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 2010.

⁽¹⁾ These columns include the translation of marketable bonds payable in foreign currencies to Canadian dollars using the closing rates of exchange at March 31.

⁽²⁾ Additional information on consolidated Crown corporations and other entities is provided in Section 4 of this volume.

⁽³⁾ These securities were assumed by the Government of Canada on February 5, 2001 upon the dissolution of Petro-Canada Limited. These are presented as a deduction from the foreign currency unmatured debt since they are held specifically for the repayment of the corresponding liabilities assumed upon the dissolution of the Corporation.

Treasury Bills

Treasury bills are short-term certificates of indebtedness issued by the Government of Canada to pay sums of money on given dates, and have the following characteristics:

- issued at a discount in lieu of interest payments;
- issued in Canadian currency only;
- issued every 2 weeks;
- common terms: 3 months, 6 months and 12 months;
- transferable; and,
- bought and sold on the open market.

The balance at March 31, 2010 consists of \$8,500 million in odd issue bills; \$51,500 million in three-month bills; \$38,600 million in six-month bills; and, \$77,300 million in 364-day bills.

Table 6.3 presents a summary of Treasury bill issues and redemptions.

⁽¹⁾ Additional information on consolidated Crown corporations and other entities is provided in Section 4 of this volume.

Retail Debt

Retail debt includes Canada savings bonds and Canada premium bonds which are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

- issued to Canadian residents;
- issued in Canadian currency only;
- registered in the name of the holder;
- fixed dates of maturity;
- not marketable;
- not subject to call before maturity;

- term to maturity of seven years or more;
- Canada savings bonds are redeemable on demand by the holder, with accrued interest calculated to the end of the previous month (no interest is paid if redeemed during the first 3 months following the date of issue); and,
- Canada premium bonds are redeemable in full or partially on any annual anniversary of the issue date and during the 30 days thereafter by the holder, with accrued interest if applicable.

Table 6.4 presents a summary of the balances and transactions for Canada savings bonds and Canada premium bonds.

Bonds for Canada Pension Plan

Bonds for Canada Pension Plan are interest-bearing certificates of indebtedness issued by the Government of Canada exclusively to the Canada Pension Plan (CPP) Investment Board and have the following characteristics:

- not negotiable;
- not transferable;
- not assignable;
- issued in Canadian currency only;
- term to maturity of 20 years or less;
- interest payable semi-annually; and,
- redeemable at face value plus accrued interest.

Table 6.5 presents a summary of the balances and transactions for these bonds.

TABLE 6.5

Total	523,003,000		71,112,000	451,891,000

Canada Bills

Canada bills are short-term certificates of indebtedness issued by the Government of Canada in the United States money market under the Government's foreign currency borrowing program. Canada bills provide Canada with an additional source of short-term US funds and have the following characteristics:

- issued at a discount in lieu of interest payments;
- term to maturity of not more than 270 days;

- transferable; and,
- bought and sold on the open market.

The year-end balance of Canada bills payable in US dollars was translated into Canadian dollars using the closing rate of exchange at March 31, 2010.

Table 6.6 presents a summary of Canada bill issues and redemptions.

TABLE 6.6
CANADA BILLS

	April 1/2009	Receipts and other credits	Payments and other charges	March 31/2010

Total	8,707,823,482	15,764,370,286	22,019,488,799	2,452,704,969

Euro Medium-Term Notes

Euro medium-term notes are issued by the Government of Canada in the Euromarkets under the Government's foreign currency borrowing program, and thus provide Canada with an additional source of medium-term foreign funds.

Table 6.7 presents a summary of the balances and transactions for the Euro medium-term notes.

TABLE 6.7

EURO MEDIUM-TERM NOTES

	April 1/2009	Receipts and other credits ⁽¹⁾	Payments and other charges ⁽¹⁾	March 31/2010
	\$	\$	\$	\$
Payable in foreign currencies—				
Matured 2009-2010	1,675,500,000		1,675,500,000	
Total	1,675,500,000		1,675,500,000	

⁽¹⁾ These columns include the translation of Euro notes payable in foreign currencies to Canadian dollars using closing rates of exchange at March 31.

Cross-currency Swap Revaluation

This represents the unrealized gains or losses due to fluctuations in the foreign exchange value of the cross-currency swaps.

Unamortized Discounts and Premiums on Market Debt

The unamortized discounts and premiums on market debt have the following characteristics:

- unamortized discounts on Canada bills records the portion of the discounts on outstanding Canada bills which has not yet been charged to expenses. Discounts are amortized over the life of the bills;
- unamortized discounts on Treasury bills records the portion of the discounts on outstanding Treasury bills which has not yet been charged to expenses. Discounts are amortized over the life of the bills; and,

— unamortized discounts and premiums on marketable bonds records the portion of the discounts and premiums on outstanding marketable bonds which has not yet been charged to expenses. Discounts and premiums are amortized over the life of the bonds.

Table 6.8 presents a summary of the balances and transactions for the unamortized discounts and premiums on market debt.

TABLE 6.8

Total—Pension, other future benefits and other liabilities	203,657	68.4	196,143	69.5
Total—Interest-bearing debt ⁽⁴⁾	762,783	63.3	710,163	61.0

⁽¹⁾ Certain comparative figures have been restated to reflect the current year's presentation.

⁽²⁾ Interest-bearing debt having fixed rates (debt that does not mature or need to be re-priced within a year).

⁽³⁾ The weighted average term to maturity of market debt was 6.0 years in 2010 and 5.9 years in 2009.

⁽⁴⁾ The fixed rate share of the debt is adjusted by excluding components of the debt that are matched with financial assets of the same term and therefore do not represent an exposure to interest rate risk. The federal liabilities netted out from the fixed-rate share calculation include liabilities funding the assets in the Exchange Fund Account; debt securities matched with corresponding loans to Crown corporation; Government of Canada debt securities held by the Bank of Canada; and the debt offset by Receiver General cash and deposit balances.

Obligation related to capital leases

A capital lease is a lease that transfers substantially all the benefits and risks inherent in ownership of the asset to the lessee. The net obligation related to capital leases represents the present values of the remaining minimum lease payments under the capital lease arrangements.

Table 6.14 presents the obligation related to capital lease agreements by asset type.

TABLE 6.14

PENSION AND OTHER FUTURE BENEFITS

Pension and other future benefits include liabilities for public sector pensions and other employee and veteran future benefits established under the authority of section 64 of the *Financial Administration Act*.

Public Sector Pensions

The Government sponsors defined benefit pension plans covering substantially all its employees, principally members of the Public Service, the Canadian Forces, including the Reserve Force and the Royal Canadian Mounted Police. It also has obligations for several other pension plans; the two most significant ones being for Members of Parliament and federally appointed judges.

The liability for public sector pensions represents the Government's obligations for the major pension plans it sponsors. It is recorded through superannuation accounts, which are generally established pursuant to legislation, and through adjustment allowance accounts. The allowance accounts are used to record: the accumulated amortization of any shortfall or excess between the liability for public sector pensions determined on an actuarial basis for accounting purposes and the balances of the superannuation accounts, the accumulated differential between interest credited to the superannuation accounts and interest based on the actuarial obligations, and any other accounting adjustment required under the Government accounting policies.

The legislation requires that all pension obligations arising from these plans be met. Prior to April 1, 2000, separate market invested funds were not maintained. Since April 1, 2000, the net amount of contributions less benefits and payments related to the Public Service, Canadian Forces and Royal Canadian Mounted Police pension plans, and since March 1, 2007 for the Reserve Force Pension Plan, are transferred to the Public Sector Pension Investment Board (PSP Investments) for investment in capital markets. The goal of PSP Investments is to achieve maximum rates of return on investments without undue risk, while respecting the requirements and financial obligations of each of the public sector pension plans. PSP Investments reports the results of the investments in an annual report tabled in Parliament.

Additional information on the above mentioned plans can be found in the annual reports of the administration of the plans that are tabled in Parliament.

i. Pension plans

Public Service Pension Plan, Canadian Forces Pension Plan including the Reserve Force Pension Plan and Royal Canadian Mounted Police Pension Plan

Under the *Public Service Superannuation Act*, the *Canadian Forces Superannuation Act* and the *Royal Canadian Mounted Police Superannuation Act*, basic pensions for the

plans are generally based on the best five consecutive years' average earnings and accrue at two percent of these average earnings per year of service, to a maximum of 70 percent of final average earnings. Basic pension benefits are coordinated with benefits under the Canada/Quebec Pension Plans. Pension benefits are indexed annually on January 1 to the cost of living.

In 2010, plan members' contributions were 5.2 percent (4.9 percent in 2009) for the first nine months and 5.5 percent (5.2 percent in 2009) for the last three months on salary up to the Yearly Maximum Pensionable Earnings (YMPE) for Canada Pension Plan (CPP) or Quebec Pension Plan (QPP) purposes and 8.4 percent (8.4 percent in 2009) on salary above the YMPE.

Employer contributions are made monthly to provide for the cost (net of employee contributions) of the benefits that have accrued in respect of that month at a rate determined by the President of the Treasury Board. For 2010, the employer contribution rates averaged about 1.9, 2.6 and 2.2 (2.0, 2.8 and 2.2 respectively in 2009) times the current year's employee contribution for the plans under the *Public Service Superannuation Act*, the *Canadian Forces Superannuation Act* and the *Royal Canadian Mounted Police Superannuation Act*, respectively.

Since April 1, 2000, new contributions made to these pension plans by both plan members and by the Government as the employer are credited to pension fund accounts. The net amount of these contributions less benefits and payments related to post March 2000 service is invested in capital markets by PSP Investments.

The superannuation accounts, which continue to record the transactions that pertain to pre April 1, 2000 service, are credited with interest at rates that are based on the Government of Canada long-term bond rate. The average interest rate credited to the accounts was about 6.7 percent in 2010 (7.0 percent in 2009). The pension fund accounts, which record the transactions that pertain to service since April 1, 2000, are only flow through accounts used to transfer funds to PSP Investments, and as such they do not earn interest. The balance in these accounts at year-end corresponds to money that was in transit or pending transfer to PSP Investments.

To reflect *Income Tax Act* restrictions on the benefits payable from registered pension plans, pension legislation contains a number of provisions to allow various federal service superannuation plans to adapt to the tax restrictions. These include Retirement Compensation Arrangements Accounts established under the *Special Retirement Arrangements Act* (SRAA), to record transactions for those pension benefits above the limits, or not permitted under the *Income Tax Act*.

Members of Parliament retiring allowances

Members of Parliament are eligible at age 55 to receive a basic allowance upon termination of membership and after having contributed to the plan for at least six years. The basic allowance is based on the best five years average sessional indemnity and accrues at a rate of three percent of those average indemnities for both Members of the House of Commons and for Senators. Basic allowances are indexed annually on January 1 to the cost of living once recipients reach age 60.

Members' contributions for these benefits are generally 7 percent for Members of the House of Commons and for Senators. The Government contributions are made monthly to provide for the cost (net of Members' contributions) of the benefits that have accrued in respect of that month at a rate determined by the President of the Treasury Board. The Government contributions expressed as a multiple of Members' contributions, are on average as follows:

	2010	2009
Members of Parliament—		
House of Commons—		
Retiring allowances account	3.9	3.7
Compensation arrangements account	7.3	7.4
The Senate—		
Retiring allowances account	3.5	3.5
Compensation arrangements account	4.6	4.8

Contributions are credited to the appropriate pension accounts. The accounts earn interest at a rate of 2.5 percent per quarter.

Pension plan for federally appointed judges

This plan provides fully indexed annuities to judges and to all eligible survivors providing they meet minimum age and service requirements. Unlike other pension plans, the judges' plan does not have an explicit accrual rate for benefits. Instead, the full benefit amount is generally payable when the member has completed 15 years of pensionable service and the sum of the member's age and years of service totals 80.

Judges appointed to the bench before February 17, 1975, make required contributions of 1.5 percent of salary. All other judges contribute 7 percent of salary. Legislation does not require a specific pension account to be maintained to record the transactions pertaining to this plan. Therefore, except for the portion recorded in the Supplementary Retirement Benefit Account, the liability pertaining to this plan is recorded mostly through an allowance account. During the year, benefits paid are recorded as expenditures against the statutory payment authority. The expense is adjusted at year-end through an allowance account, to bring the current year expense from an expenditure to an accrual accounting basis, similar to that of the other pension plans. During the year, the benefit payments charged to the expenditure authority amounted to \$104 million (\$96 million in

2009). At March 31, 2010, the portion of the pension liability recorded through an allowance account for the judges' pension plan amounted to \$1,786 million (\$1,687 million in 2009).

ii. Actuarial valuations

As required under the *Public Pensions Reporting Act*, actuarial valuations are performed triennially for funding purposes on the major pension plans using the projected benefit method pro-rated on services.

The most recent date for the actuarial valuation of each pension plan is as follows:

Public Service—March 31, 2008;

Canadian Forces—March 31, 2008;

Royal Canadian Mounted Police—March 31, 2008;

Members of Parliament—March 31, 2007;

Federally appointed judges—March 31, 2007.

Actuarial valuations for the Retirement Compensation Arrangements (RCA) related to the Public Service, Canadian Forces, Royal Canadian Mounted Police and Members of Parliament pension plans were done as part of the valuation of the related plan.

In accordance with the legislation governing the major pension plans, the President of the Treasury Board has the authority to direct that any actuarial deficiency identified be credited to the appropriate account or fund in equal instalments over a period not exceeding fifteen years commencing in the year in which the actuarial report is laid before Parliament. During the year, credit adjustments of nil, \$6.2 million, and \$0.6 million (\$22 million, \$9.5 million, and \$0.6 million in 2009) were made to the Canadian Forces Pension Fund, the Retirement Compensation Arrangements Account No. 2 and the Members of Parliament Retirement Compensation Arrangements Account, respectively as a result of their last actuarial valuation.

A comparable provision gives authority to deal with excesses in the superannuation accounts by debiting the appropriate account over a period of up to fifteen years. Any future surpluses identified in the Pension Funds may be dealt with by a reduction of Government and/or plan member contributions, or by withdrawing amounts from the Fund. As a result of the last actuarial valuations, no debit adjustment was made during the year (nil in 2009).

Table 6.17 presents a summary of the balances and transactions for the liability for public sector pensions. Receipts and other credits for the pension accounts consist of contributions from plan members, related contributions from the Government and participating Public Service corporations, transfers from other pension funds, other contributions related to actuarial liability adjustments, refunds of refundable tax and interest. Payments and other charges for the pension accounts consist of annuity payments for pensions, minimum benefits, cash termination allowances (lump sum payments to employ-

ees suffering a disability), refunds of contributions, pension division payments, transfer value payments, transfers to other plans, remittances of refundable tax, payment of administrative expenses, debits resulting from triennial actuarial reviews, and transfers to PSP Investments. Adjustments to the

allowance account result from annual actuarial valuations performed for accounting purposes, between the interest based on the actuarial obligations and interest credited to the pension accounts, and from any other accounting adjustment required under the Government accounting policies.

Table 6.18 presents a summary of transactions in public sector pensions that resulted in charges to expenses. Interest is based on the actuarial obligations under the various plans. The pension interest expenses represent the interest credited to the

superannuation accounts in accordance with the pension legislation, shown net of a provision of \$1,726 million (\$1,503 million in 2009) and of \$2,101 million (\$2,413 million in 2009) in expected return on pension plan assets.

Retirement Compensation Arrangements (RCA) Account

The RCA was established by the *Special Retirement Arrangements Act* (SRAA) to provide pension benefits for federal employees under retirement compensation arrangements.

The RCA No.1 pays those pension benefits above the amount that may, in accordance with the *Income Tax Act* restrictions on registered pension plans, be paid under the *Public Service Superannuation Act*, the *Canadian Forces Superannuation Act* and the *Royal Canadian Mounted Police Superannuation Act*. The RCA No.1 was created effective December 15, 1994.

The RCA No.2 pays benefits to Public Service employees who were between age 50 and 54 and declared surplus as part of a three year Government downsizing initiative which ended on March 31, 1998. It pays the difference between an unreduced pension and the reduced pension for early retirement payable from the Public Service Superannuation Account. The RCA No.2 was created April 1, 1995 and is funded entirely by the Government.

Allowance for Pension Adjustments

This account records the accounting adjustments resulting from annual actuarial valuations.

Estimation adjustments of \$1,064 million in net losses (\$315 million in net losses in 2009) due to experience gains and losses and changes in actuarial assumptions were amortized to this account and increased pension costs for the year.

An amount of \$7 million (\$32 million in 2009) was recorded in this account during the year to offset pension costs charged to expenses in previous years but recorded in the accounts in the year.

An amount of \$489 million was debited (\$63 million credited in 2009) to this account and decreased (increased in 2009) pension costs to adjust for the difference between the Government contributions and the net cost of current services.

An amount of \$1,726 million was credited to this account (\$1,503 million in 2009) to adjust for the difference between interest based on the actuarial obligations and interest credited to the superannuation accounts and an amount of \$2,101 million (\$2,413 million in 2009) was recorded in this account to record the expected return on the pension plan investments.

As well, a consolidation adjustment of \$107 million (\$99 million in 2009) was credited to this account and debited against personal tax revenues to eliminate the effect of internal transactions resulting from tax amounts debited to the RCA accounts that were previously recorded as tax revenues.

The unamortized estimation adjustment of \$13,164 million in net losses (\$12,590 million in 2009) will be amortized to this account and will affect expenses in future years.

As a result of annual actuarial valuations for accounting purposes, the net liability for public sector pensions was found to be \$224 million higher (\$648 million lower in 2009) than the balance of the superannuation accounts, plus the market related value of the assets invested in PSP Investments and the contributions receivable from employees for past service. This amount is made up of:

Other employee and veteran future benefits

The Government sponsors a variety of other future benefit plans from which employees and former employees (including military or Royal Canadian Mounted Police members), can benefit, during or after employment or upon retirement. Some are considered retirement benefits, whereby benefits are expected to be provided after retirement to employees and their beneficiaries or dependents. Others are considered post-employment benefits, whereby benefits are expected to be paid after employment but before retirement. Benefits for veterans are paid to war veterans, as well as to Canadian Forces retired veterans and Canadian Forces still-serving members. Benefits for members of the Royal Canadian Mounted Police are paid to both current and former members. These are primarily

post-employment benefits, but some benefits are also paid during employment to still-serving members. They include disability and associated benefits paid to veterans or Royal Canadian Mounted Police members, or to their beneficiaries and dependants.

The other major future benefits include the Public Service Health Care Plan and the Pensioners' Dental Services Plan available to retired employees and retired military and Royal Canadian Mounted Police members and post-employment benefits such as workers' compensation benefits and severance benefits that accumulate. Table 6.30 presents the balance of these liabilities at year-end.

TABLE 6.30
OTHER EMPLOYEE AND VETERAN FUTURE BENEFITS

	April 1/2009	Receipts and other credits	Payments and other charges	March 31/2010
	\$	\$	\$	\$
Veterans' disability and other future benefits	29,602,000,000	3,816,000,000	2,993,000,000	30,425,000,000
Royal Canadian Mounted Police disability and other future benefits	1,825,000,000	508,000,000	89,000,000	2,244,000,000
Public Service Health Care Plan	11,259,000,000	2,416,000,000	385,000,000	13,290,000,000
Pensioners' Dental Services Plan	2,050,000,000	779,000,000	521,000,000	2,308,000,000
Severance and other benefits	4,876,000,000	849,000,000	464,000,000	5,261,000,000
Workers' compensation	699,000,000	114,000,000	114,000,000	699,000,000
Total	50,311,000,000	8,482,000,000	4,566,000,000	54,227,000,000

All of these plans are unfunded. The Public Service Health Care Plan and the Pensioners' Dental Services Plan are contributory plans. Contributions by retired plan members are made to the plans only in the year the benefits are payable to retirees. Therefore the Government's liability and costs are shown net

of members' contributions. The accrued benefit obligation related to these plans is determined actuarially for accounting purposes. As at March 31, the Government's recorded liability includes the following components:

(in millions of dollars)

	2010		2009	
	Accrued benefit obligation	Unamortized estimation adjustments	Future benefit liability	Future benefit liability
Veterans' disability and other future benefits	40,090	(9,665)	30,425	29,602
Royal Canadian Mounted Police disability and other future benefits	3,599	(1,355)	2,244	1,825
Public Service Health Care Plan	18,573	(5,283)	13,290	11,259
Pensioners' Dental Services Plan	2,433	(125)	2,308	2,050
Severance and other benefits	5,941	(680)	5,261	4,876
Workers' compensation	755	(56)	699	699
Total	71,391	(17,164)	54,227	50,311

The cost of these benefits can accrue either during the service life of employees or upon occurrence of an event giving rise to the liability under the terms of the plans. An interest component is charged to interest on the public debt based on the average accrued benefit obligation.

In 2010, the extension of veteran benefits to eligible allied war veterans and an increase in the contribution rate for members of the Pensioners' Dental Services Plan resulted in a one-time estimated past service cost of \$196 million for veteran future benefits and a one-time estimated past service cost reduction of \$450 million for the Pensioners' Dental Services

Plan. These amendments also resulted in the immediate recognition of unamortized estimation gains of \$5 million related to veteran benefits and unamortized estimation losses of \$450 million related to the Pensioners' Dental Services Plan.

In 2009, there were no amendments made to other employee and veteran future benefit plans that resulted in the recognition of one-time past service costs.

During the year, the expense relating to these benefits was as follows:

(in millions of dollars)

	2010					2009	
	Benefits earned	Plan amendments	Amortization of estimation adjustments	Net benefit expense	Interest cost	Total	Total
Veterans' disability and other future benefits ⁽¹⁾	642	196	1,574	2,412	1,399	3,811	3,260
Royal Canadian Mounted Police disability and other future benefits	203		174	377	131	508	382
Public Service Health Care Plan	733		989	1,722	694	2,416	1,675
Pensioners' Dental Services Plan	108	(450)	562	220	109	329	232
Severance and other benefits	499		142	641	208	849	658
Workers' compensation	78		11	89	25	114	166
Total	2,263	(254)	3,452	5,461	2,566	8,027	6,373

⁽¹⁾ Benefits earned includes a one-time adjustment of \$115 million related to the Funeral and Burial Program for veterans that was recorded in 2010 for the first time.

OTHER LIABILITIES

Other liabilities include general liabilities established under the authority of section 64 of the *Financial Administration Act*, as well as specified purpose accounts opened under the authority of section 21 of the *Financial Administration Act* or of other specific legislation. Specified purpose accounts are an accounting classification used to record transactions and expenditures in respect of money payable out of the Consolidated Revenue Fund under statutory authorities, pursuant to legislation, trusts, treaties, undertakings or contracts. Legislation relating to some of these accounts permits investments to be made and, in certain cases, the balances of the accounts earn interest.

Canada Pension Plan

The Canada Pension Plan (the Plan) is a compulsory and contributory social insurance program which is designed to provide a measure of protection to Canadian workers and their families against loss of earnings due to retirement, disability or death. Established in 1965, the Plan operates in all parts of Canada, except the Province of Quebec which has a comparable plan.

Under existing arrangements, all pensions, benefits and expenditures incurred in the administration of the Plan are financed from contributions made by employees, employers and self-employed persons, and from investment returns.

As administrator, the Government's authority to spend is limited to the Plan's net assets. At March 31, the fair value of the Plan's net assets is \$131.4 billion (\$110.0 billion in 2009).

The Canada Pension Plan Account (the Account) was established in the accounts of Canada to record the contributions, in-

terest, pensions and benefits and administration expenditures of the Plan. It also records the amounts transferred to or received from the Canada Pension Plan Investment Board (the Board). The Board operates at arm's length from the Government and invests in a diversified portfolio of securities.

Amendments to the *Canada Pension Plan Act* and the *Canada Pension Plan Investment Board Act* that became effective April 1, 2004 provides for weekly transfers to the Board of any amounts held in the Account that exceed the immediate obligation of the Plan. It also allows interest to be either credited to or charged to the Account based on its closing position.

Table 6.31 presents a reconciliation between the net assets shown in the Plan's financial statements and the Account, as well as a summary of the balances and transactions in the Account which result in the deposit with the Receiver General for Canada.

TABLE 6.31
DUE TO CANADA PENSION PLAN

Accumulated net income from Canada Pension Plan Investment Board's operations	8,579,000,000	15,982,000,000		24,561,000,000
	97,012,549,744	32,662,269,016	26,430,363,014	103,244,455,746
Less: transfers to Canada Pension Plan Investment Board	96,922,426,913	24,160,983,192	30,308,227,015	103,069,670,736
Deposit with the Receiver General for Canada	90,122,831	56,823,252,208	56,738,590,029	174,785,010

Receipts and other credits include:

- (a) contributions at the combined employer and employee rates of 9.9 percent of pensionable earnings for the 2009 and 2010 calendar years, subject to maximum combined contributions of \$4,237 and \$4,326 respectively;
- (b) income from the average daily operating balance deposited with the Receiver General for Canada;
- (c) gains on investments held by the Board; and,
- (d) payments received on overpayments established.

Payments and other charges include:

- (a) pensions and benefits paid under the Plan as retirement pensions, survivors' benefits paid to spouse or common-law partner and orphans, or as lump sum death benefits, and disability benefits to eligible contributors and their children;
- (b) pensions and benefits paid and recovered from the Plan, in accordance with an agreement with a province providing a comprehensive pension plan;
- (c) payments that are required to be charged to the Plan, in accordance with reciprocal agreements with other countries;
- (d) costs of administration of the Plan;
- (e) funds transferred to the Board; and,
- (f) losses on investments held by the Board.

For additional information, the financial statements of the Plan are included with other Supplementary Statements at the end of this section. Additional information on the funding of the Plan may also be obtained from the 23rd *Actuarial Report on the Canada Pension Plan* prepared by the Chief Actuary of the Office of the Superintendent of Financial Institutions.

Government Annuities Account

This account was established by the *Government Annuities Act*, and modified by the *Government Annuities Improvement Act*, which discontinued sales of annuities in 1975. The account is valued on an actuarial basis each year, with the deficit or surplus charged or credited to the Government annual surplus.

The purpose of the *Government Annuities Act* was to assist Canadians to provide for their later years, by the purchase of Government annuities. The *Government Annuities Improvement Act* increased the rate of return and flexibility of Government annuity contracts.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously untraceable annuitants, earned interest and any credit needed to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenues. The amounts of unclaimed annuities, related to untraceable annuitants, are transferred to non-tax revenues.

As of March 31, 2010, over 51,938 annuitants held 55,857 active contracts, each annuitant receiving an average payment of \$660.00. During the year, 210 deferred annuities came into payment and another 43 deferred contracts were terminated at or before maturity, due to death, small refunds or unclaimed funds. Therefore, as of March 31, 2010, there were 1,103 outstanding deferred annuities, the last of which will come into payment around the year 2030.

During the 2009-2010 fiscal year, 4,623 annuities were terminated or adjusted as a result of annuitant deaths: 2,961 group certificates and 1,662 individual contracts. The average age at death for males was 85.6 while the female age at death averaged 88.9.

Total income amounted to \$17.5 million, \$17.2 million of which represented interest of 7 percent credited to the Account. Premiums received totaled \$18,133. Total disbursements of \$38.7 million originated mainly from the \$38.4 million in payments made under matured annuities. An amount of \$66,078 was used to refund premiums at death before maturity or when the annuity would have been too small, and \$104,940 was transferred to the Government's revenues as a result of unclaimed annuities.

The opening balance of \$267.2 million was reduced due to a surplus as at April 1, 2009 of \$3.2 million, transferred to the Government's revenues, and disbursements exceeding income by \$21.2 million during 2009-2010. Since the actuarial reserves required as of March 31, 2010 were only \$243.5 million, an excess amount of \$2.5 million was also transferred to the Government's revenues.

During the year, debts totalling \$84,434 related to overpayments were written-off pursuant to Human Resources and Skills Development Vote 7c, *Appropriation Act No. 5, 2009-2010*.

Deposit and Trust Accounts

Deposit and trust accounts is a group of liabilities representing the Government's financial obligations in its role as administrator of certain funds that it has received or collected for specified purposes and that it will pay out accordingly. To the extent that the funds received are represented by securities, these are deducted from the corresponding accounts to show

the Government's net liability. Certain accounts earn interest which is charged to interest on the public debt.

Table 6.32 presents a summary of the balances and transactions in deposit and trust accounts.

Contractors' security deposits—Certified cheques—Agriculture and Agri-Food

This account was established to record contractors' securities that are required for the satisfactory performance of work in accordance with the Government Contracts Regulations.

Canadian Dairy Commission account

The Canadian Dairy Commission is a Crown corporation listed in Part I of Schedule III of the *Financial Administration Act*. This account was established for banking purposes using the Consolidated Revenue Fund pursuant to section 15 of the *Canadian Dairy Commission Act*.

Contractors' security deposits—Cash—Canadian Food Inspection Agency

This account was established to record contractors' securities that are required for the satisfactory performance of work in accordance with the Government Contracts Regulations.

Guarantee deposits—Canada Revenue Agency

This account was established to record cash securities required to guarantee payment of Goods and Services Tax (GST) as it relates to non-resident registrants and, certain licensees as it relates to excise taxes, which are both payable pursuant to the *Excise Tax Act*.

Securities held in trust by the Agency are made up of cash deposited to the Consolidated Revenue Fund.

Holdback—Privatization—Canada Development Investment Corporation

This account was established pursuant to subsection 129(1) of the *Financial Administration Act*. This special purpose money is to be used to meet costs incurred on the sale of Crown corporations and demand for payment by purchasers pursuant to the acquisition agreement and costs incurred by the Canada Development Investment Corporation in connection with their sale.

Abandonment reserve fund—Canada Hibernia Holding Corporation

This account was established to record funds which will be used to defray the future abandonment costs that will occur at the closure of the Hibernia field.

Swap collateral deposits

This account was established to record cash received as credit support under a collateral agreement with financial institutions.

Guarantee deposits—Fish Habitat Preservation

This account was established to record cash and securities deposited as guarantees for preservation of fish habitat as required by permits, leases or authorizations, pursuant to Section 35 of the *Fisheries Act*. Interest is not allowed on cash deposits.

Canada Labour Code—Other

This account was established to record amounts received under the provisions of section 251 of the Canada Labour Code Part III. The receipts are wage payments ordered by a Labour inspector in settlement of a wages dispute, which the employer has chosen to pay to the Minister of Labour instead of paying them directly to the employee. These amounts are then paid out to the employees.

Canada Labour Code—Wage Recovery Appeals

This account was established to record amounts received under the provisions of section 251.1 of the Canada Labour Code Part III. This requires federally-regulated employers who wish to appeal a payment order made by a Labour inspector regarding wages due to employees, to forward the amounts due to the Minister of Labour for deposit. They are held until the appeal is completed and the adjudicator has directed payment of the disputed amount to the employee or return to the employer. Deposits in this account are interest-bearing at the rate set by the Minister of Finance for contractor's deposits.

Fair wages deposit account

This account is operated under the authority of section 13 of the Fair Wages and Hours of Labour Regulations. Where an investigation in respect of a contract on Government works results in an award of wages, the amount received from the contractor is credited to this account, and is subsequently distributed to employees.

The account also records amounts received from departments and agencies, representing wages in respect of contracts, withheld from final payment to contractors.

Field British Columbia and Yukon Operations of the Northern Canada Power Commission

This account was established to record amounts deposited by the Northern Canada Power Commission to reimburse liabilities pertaining to Field, British Columbia and Yukon Operations of the Northern Canada Power Commission.

Guarantee deposits—Indian Affairs and Northern Development

This account was established to record cash and securities deposited as guarantees for performance as required by permits, leases, authorizations and water licences, pursuant to section 8 of the *Arctic Waters Pollution Prevention Act*, section 17 of the *Yukon Waters Act* and of the *Northwest Territories Waters Act* and various regulations under the *Territorial Lands Act*. Interest is not allowed on cash deposits.

Guarantee deposits—Oil and gas—Indian Affairs and Northern Development

This account was established to record securities in the form of cash, promissory notes, letters of credit or other acceptable instruments which are required to be issued to, and held by the Government of Canada pursuant to a signed Exploration Agreement in accordance with the *Canada Petroleum Resources Act*. These securities are a performance guarantee or refundable rental that the agreed exploration work will be performed in the manner and time frame specified. Interest is not paid on these deposits.

Guarantee deposits—Reserve resources

This account was established to record cash and bond security deposits with respect to Indian reserve licences and contracts for the development of resources, in accordance with the various regulations made under section 57 of the *Indian Act*. Interest is allowed on cash deposits.

Special accounts—Section 63, Indian Act

This account was established to record funds held for Indians in authorized banks across Canada. These funds include such items as deposits and payments on leases held for individual Indians, and those to be split between individual Indians and Indian bands. This is a non-interest bearing account.

Security for costs—Courts Administration Service

This account was established to maintain accounts on behalf of litigants before the Tax Court of Canada. These accounts record the funds paid into the Tax Court of Canada, pursuant to an order of the Court, rules of the Court or statutes, to be held pending payment of such funds, in accordance with an order/judgment of the Court.

Security for costs—Supreme Court of Canada

This account was established to record security to the value of \$500 deposited by an Appellant with the Registrar of the Supreme Court of Canada in accordance with paragraph 60(1)(b) of the *Supreme Court Act*. As per section 87 of the Rules of the Supreme Court of Canada, interest is paid on money deposited as security.

Guarantee deposits—Oil and gas—Natural Resources

This account was established to record securities in the form of cash, promissory notes, and bonds which are required to be issued to, and held by the Government of Canada pursuant to an Exploration Licence in accordance with section 24 of the *Canada Petroleum Resources Act*. These securities are a performance guarantee that the agreed exploration will be performed in the manner and time frame specified. Interest is not paid on these deposits.

Candidates' and committees' deposits—Election and referendum

This account was established to record candidates' election and committees' referendum deposits received in respect of an election (general or by-election) or a referendum.

Pursuant to the *Canada Election Act* or the *Referendum Act*, amounts received are either refunded to candidates or committees, or are transferred to non-tax revenues.

Guarantee deposits—Canada Border Services Agency

This account was established to record cash required to guarantee payment of customs duties on imported goods pursuant to the *Customs Act*.

General security deposits

This account was established to record general security deposits from transportation companies in accordance with subsection 148 of the *Immigration and Refugee Protection Act*.

Immigration guarantee fund

This account was established by sections 14, 26, 44, 56, 58 and 148 of the *Immigration and Refugee Protection Act*, to record amounts collected and held pending final disposition, either by refund to the original depositor, or forfeiture to the Crown.

Temporary deposits received from importers

This account was established to record temporary security deposits received from importers to ensure compliance with various (Customs) regulations regarding temporary entry of goods.

Contractors' security deposits—Cash—Royal Canadian Mounted Police

This account was established to record contractors' securities that are required for the satisfactory performance of work in accordance with the Government Contracts Regulations.

Guarantee deposits—Royal Canadian Mounted Police

This account was established to record cash securities received as part of a rental agreement.

Contractors' security deposits—Cash—Public Works and Government Services

This account was established to record contractors' securities that are required for the satisfactory performance of work in accordance with the Government Contracts Regulations.

Deposits on disposals

This account was established in accordance with the terms and conditions of the Real Property Disposition Revolving Fund to record receipts on disposals of properties.

Seized property—Cash

This account was established pursuant to the *Seized Property Management Act*, to record seized cash. These funds will be deposited to the Consolidated Revenue Fund and credited to the account until returned to the owner or forfeited.

Contractors' security deposits—Other departments and agencies

This account was established to record contractors' securities that are required for the satisfactory performance of work in accordance with the Government Contracts Regulations.

Indian Residential Schools Settlement Agreement—Common Experience Payments

This account was established pursuant to section 21 of the *Financial Administration Act*, to record amounts received and paid under article 5 of the Indian Residential Schools Settlement Agreement. It was established on September 19, 2007, and provides for the payment of Common Experience Payments to eligible former students of recognized Indian Residential Schools. The account is credited with interest pursuant to section 21(2) of the *Financial Administration Act*. The Designated Amount Fund is co-administered by Indian Affairs and Northern Development and Human Resources and Skills Development.

Indian band funds

This account was established to record funds belonging to Indian bands throughout Canada pursuant to sections 61 to 69 of the *Indian Act*.

Indian estate accounts

These accounts were established to record funds received and disbursed for estates of deceased Indians, mentally incompetent Indians and missing Indians pursuant to sections 42 to 51 and 52.3 of the *Indian Act*.

Indian savings accounts

These accounts were established to record funds received and disbursed for individual Indians pursuant to sections 52 and 52.1 to 52.5 of the *Indian Act*.

Restitutions under the Competition Act

This account was established to facilitate judgements rendered under section 52 of the *Competition Act*, and account for funds received in trust for restitution and for subsequent payment.

Estates—Armed services

This account was established to record the service estates pursuant to section 42 of the *National Defence Act* of officers and non-commissioned members who die during their service in the Canadian Forces. Under the administration of the Judge Advocate General, in his capacity as Director of Estates, net assets of estates are distributed to the lawful representative of the personal estate.

Scholastic awards

This account was established to record donations of \$26,000 to be used for the presentation of scholarship awards to children of employees of the Canadian Security Intelligence Service to encourage university studies.

Inmates' trust fund

Pursuant to section 111 of the Corrections and Conditional Release Regulations, this account is credited with funds received from inmates at the time of incarceration, net earnings of inmates from employment inside institutions, funds received for inmates while in custody, funds received from sales of hobby craft, money earned through work while on day parole, and interest. Payments to assist in the reformation and rehabilitation of inmates are charged to this account.

Benefit trust fund

This account was established by section 23 of the *Royal Canadian Mounted Police Act*, to record funds received by personnel of the Royal Canadian Mounted Police, in connection with the performance of duties, over and above their pay and allowances.

Administered accounts

Pursuant to section 41 of the *Pension Act*, section 15 of the *War Veterans Allowance Act*, section 55 of the Veterans Treatment Regulations and section 8 of the Guardianship of Veterans Property Regulations, these accounts are under the jurisdiction of the Department of Veterans Affairs. Funds held in these accounts include: (a) pensions, war veterans allowances and treatment allowances placed under the administration of the Department of Veterans Affairs; and, (b) benefits from other sources such as Old Age Security, Guaranteed Income Supplement or Canada Pension Plan, placed under administration with the consent of the client. These persons have demonstrated their inability to manage their own affairs.

Payments are made out of the accounts, to provide food, shelter, clothing, comforts and other necessities.

Estates fund

This account was established to record the proceeds from the estates of those veterans who died while receiving hospital treatment or institutional care, and for those veterans whose funds had been administered by the Government, in accordance with sections 5, 6 and 7 of the Veterans' Estates Regulations. Individual accounts are maintained and payments are made to beneficiaries pursuant to the appropriate legislative authority.

Veterans administration and welfare trust fund

This account was established to record donations, legacies, gifts, bequests, etc, received, to be disbursed for the benefit of veterans or their dependents under certain conditions, and for the benefit of patients in institutions, in accordance with section 9 of the Guardianship of Veterans' Property Regulations.

Other Specified Purpose Accounts

There are a number of other specified purpose accounts operated by the Government, such as insurance, death benefit and pension accounts. Certain accounts earn interest which is charged to interest on the public debt.

Table 6.35 presents a summary of the balances and transactions for all other specified purpose accounts.

Insurance company liquidation

This account was established to record receipts and disbursements resulting from the liquidation of the estate, of various insurance companies for which the Superintendent of Financial Institutions is the court appointed liquidator.

Civil service insurance fund

This account was established by the *Civil Service Insurance Act*, introduced to enable the Minister of Finance to contract with a person appointed to a permanent position in any branch of the public service, for the payment of certain death benefits. No new contracts have been entered into since 1954, when the Supplementary Death Benefit Plan for the Public Service and Canadian Forces was introduced as part of the *Public Service Superannuation Act* and the *Canadian Forces Superannuation Act*, respectively. As of April 1st, 1997, the Department of Human Resources and Skills Development (Human Resources and Skills Development) assumed responsibility for the administration and the actuarial valuation of the *Civil Service Insurance Act*.

The number of policies in force as of March 31, 2010 was 1,059 and the average age of the policyholders was 89.6 years. During the year, premiums of \$1,246 were received. Death benefits, settlement annuities and premium refunds of \$264,522 were paid during 2009-2010.

According to the actuarial valuation and with the prescribed actuarial assumptions, the liabilities in respect of the benefits provided under the Act are estimated at \$5,557,509 as at March 31, 2010. The balance in the Account as at March 31, 2010 is \$5,500,660. The deficit as at March 31, 2010 is therefore \$56,849. Pursuant to subsection 16(3) of the Civil Service Insurance Regulations, an amount of \$56,849 has therefore been credited to the Account in 2009-2010.

Regular force death benefit account

This account was established by the *Canadian Forces Superannuation Act*, to provide life insurance to contributing members and former members of the Canadian Forces. Receipts and other credits consist of: (a) contributions by participants; (b) Government's contribution paid in respect of participants; (c) single premiums payable by the Government in respect of participants who became entitled to a basic benefit of \$5,000 without contribution; and, (d) interest.

Payments and other charges consist of: (a) benefits paid in respect of participants; (b) benefits paid in respect of elective; and, (c) the portion of benefit payable for which a single premium has been paid by the Government.

Public Service death benefit account

This account was established under the *Public Service Superannuation Act*, to provide life insurance to contributing members of the Public Service.

The account is credited with: (a) contributions by employees; (b) contributions by the Government and Public Service corporations; and, (c) interest. Payments and other charges represent: (a) benefits paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the *Public Service Superannuation Act*; and, (b) benefits of \$10,000 paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the *Public Service Superannuation Act*, and on whose behalf a single premium for \$10,000 death benefit coverage for life has been made.

Returned soldiers' insurance fund

This fund was established by the *Returned Soldiers' Insurance Act*, to provide life insurance to contributing veterans of World War I. The account is credited with premiums and is charged with disbursements for death benefits and cash surrender values. The account is actuarially maintained and an actuarial liability adjustment as at March 31, 2009 of \$1,291 was credited to the account during the year and was charged to expenditures. The final date on which application for this insurance could have been received was August 31, 1933.

Veterans insurance fund

This fund was established by the *Veterans' Insurance Act*, to provide life insurance to contributing veterans of World War II. The account is credited with premiums and is charged with disbursements for death benefits and cash surrender values. The account is actuarially maintained and an actuarial liability adjustment as at March 31, 2009 of \$135,244 was credited to the account during the year and was charged to expenditures. The final date on which application for this insurance could have been received was October 31, 1968.

Annuities agents' pension account

This account was established by Vote 181, *Appropriation Act No. 1, 1961*, to provide pension benefits to former eligible Government employees who were engaged in selling Government annuities to the public.

Dependants' pension fund

This fund, which pertains to Part IV of the *Royal Canadian Mounted Police Pension Continuation Act*, provides pension benefits to certain widows and other dependants of contributing members of the Royal Canadian Mounted Police. The fund is credited with a 5 percent contribution from the pay of members of the Force (other than commissioned officers) who are subject to the *Pension Continuation Act*. There are no longer any active members amongst the contributors.

AgriInvest Program

On March 9, 2007, the Prime Minister announced the Government's intent to pursue agreement with the provinces and territories on a producer savings account program that would replace the coverage for small income declines provided by the Canadian Agricultural Income Stabilization (CAIS) program.

On June 29, 2007, the federal, provincial, and territorial Ministers of Agriculture agreed in *Growing Forward*, a bold market-driven vision for Canada's agriculture, agri-food and agri-based products industry. *Growing Forward* includes a new suite of business risk management programs that are more responsive, predictable and bankable for producers.

The new suite of business risk management programs were established under the *Farm Income Protection Act* and include the following:

- **AgriInvest:** A producer savings account program to help cover small margin declines.
- **AgriStability:** A program designed to cover larger margin declines caused by circumstances such as low prices, production losses, and rising input costs.
- **AgriInsurance:** A program that includes existing production insurance that offer protection for production losses by uncontrollable weather related perils and is being expanded to include other commodities.
- **AgriRecovery:** A disaster relief framework providing a coordinated process for federal, provincial and territorial governments to respond to disasters and help producers quickly.

The AgriInvest and AgriStability programs were set to replace CAIS starting with the 2007 program year.

AgriInvest and AgriStability programs are cost-shared with provinces and territories on a 60/40 basis. The provinces and territories are invoiced for their share of the contributions which are held in the specified purpose accounts. The specified purpose accounts are drawn down as AgriInvest account holders request withdrawals.

Canadian Agricultural Income Stabilization

On December 11, 2003, the Minister of Agriculture and Agri-Food Canada announced that the Agricultural Policy Framework (APF) had received the necessary signatures required for the implementation. This resulted in the launching of the Canadian Agricultural Income Stabilization (CAIS) program and the ending of the Net Income Stabilization Account (NISA) program after the 2002 stabilization year.

The CAIS program was designed to help producers protect their farming operation from both small and large drops in income. In general, individuals or entities that derive income from primary production of agricultural commodities, as defined by the program, are eligible to participate in the CAIS program.

The CAIS program ended with the delivery of the 2006 program year benefits.

Shared-cost agreements—Canadian Food Inspection Agency

This account was established to record amounts deposited by external parties for shared-cost research projects. Funds are disbursed on behalf of depositors as specific projects are undertaken.

Federal/provincial agreement—Advance account

This account was established to record deposits from non-federal partners for their share of costs under various projects. Funds are disbursed on behalf of contributors as projects are undertaken. Unused funds are to be returned to contributors.

Deposits/Disbursements—Worker's Compensation Board

This account was established under the authority of the *Canada Revenue Agency Act* and the *Worker's Compensation Act*, to enable the Canada Revenue Agency to record and forward on daily basis, funds received from Nova Scotia employers to the Worker's Compensation Board of Nova Scotia, as part of a partnership arrangement between the Agency and the Board.

Underground Economy Working Group

This account was established to record the costs associated with the Underground Economy Working Group, which are shared between the CRA, the provinces and the territories according to an established cost-sharing formula.

The working group's mandate is to reduce participation in the underground economy through research, information sharing, communication, education and enforcement.

Miscellaneous projects deposits—Canadian Heritage

This account was established to record contributions received from organizations and individuals for various projects.

Special Operating Account

This account was established pursuant to section 18 of the *Library and Archives of Canada Act*, which also directed that (a) the account be credited with funds received for the purpose of the Library and Archives Canada by way of donation, bequest or otherwise and (b) any amounts required for the purpose of the Act may be paid out of the account or out of money appropriated by Parliament for such purposes.

Advance account—Telefilm Canada

This account was established pursuant to section 19 of the *Telefilm Canada Act*, to reserve for use in future years, funds generated by projects funded by Telefilm Canada, and which, due to timing, remained unreinvested at year end.

Immigrant investor program

This account was established to record the receipt and disbursement of amounts received under the Immigrant Investor Program in accordance with section 12(2) of the *Immigration and Refugee Protection Act* and section 91(d) of the Immigration and Refugee Protection Regulations. This program allows qualified immigrants to gain permanent residence in Canada by making an investment in the Canadian economy.

Miscellaneous projects deposits—Environment

This account was established to record contributions received from organizations and individuals, for the advancement of research work and clean-up efforts.

Miscellaneous projects deposits—Parks Canada Agency

This account was established to record contributions received from organizations and individuals for various projects.

Common school funds—Ontario and Quebec

This account was established under *12 Victoria 1849*, Chapter 200, to record the proceeds from the sale of lands set apart for the support and maintenance of common schools in Upper and Lower Canada, now Ontario and Quebec. Interest of \$133,889, apportioned on the basis of population, is paid directly to these provinces on a semi-annual basis, at the rate of 5 percent per annum, and is charged to interest on the public debt.

Foreign claims fund

This account was established by Vote 22a, *Appropriation Act No. 9, 1966*, to record: (a) such part of the money received from the Custodian of Enemy Property, proceeds of the sale of property and the earnings of property, and, (b) all amounts received from governments of other countries pursuant to agreements entered into after April 1, 1966 relating to the settlement of Canadian claims, and also records payment of claims submitted, including payment of the expenses incurred in investigating and reporting on such claims.

War claims fund—World War II

This account was established by Vote 696, *Appropriation Act No. 4, 1952*, to record funds received from the Custodian of Enemy Property or from other sources, and payments: (a) to eligible claimants for compensation in respect of World War II; (b) of a supplementary award amounting to 50 percent of the original award (PC 1958-1467, October 23, 1958); and, (c) of expenses incurred in investigating and reporting on claims.

A War Claims Commission was established to enquire into and report on claims made by Canadians arising out of World War II for which compensation may be paid from this or any other fund established for the purpose. The expenses of the Commission are chargeable hereto.

Federal/provincial cost-sharing agreements

This account was established to record the deposit of funds received from the provinces for cost-shared programs according to official signed agreements.

Miscellaneous projects deposits—Fisheries and Oceans

This account was established to record contributions received from organizations and individuals, for the advancement of research work.

Sales of seized assets

The account was established to record the proceeds of the sale of seized items by the Department of Fisheries and Oceans from a person contravening the *Fisheries Act*. Funds so received are held in the Consolidated Revenue Fund pending final resolution of the case by the Minister of Fisheries and Oceans or the courts.

Canada Foundation account

This account was established by Vote 6g, *Appropriation Act No. 2, 1967*, to record funds received in connection with the Civilian Relief Agreement of 1950, and the Cultural Agreement of 1954 between Canada and Italy, and disbursements for the purposes of the said agreements.

Financial assistance to Canadians abroad

This account was established to record funds received from families or friends as prepayment for financial assistance to distressed Canadians abroad.

Funds from non-governmental organizations

This account was established to record funds received as prepayment for services to be performed by the Department of Foreign Affairs and International Trade on behalf of third parties.

Shared-cost projects—Foreign Affairs and International Trade

This account was established to record funds received from organizations outside the Government of Canada accounting entity for shared-cost projects.

Shared-cost projects—Support to various programs (previously Support to education programs)

This account was established to record deposits received and payments made in accordance with authorities for shared-cost projects to support a water management program and various programs in the education sector.

Shared-cost agreements—NAFTA Secretariat, Canadian Section

This account was established to record funds received from the United States and the Mexican Sections of the NAFTA Secretariat, for the development and administration of common information management systems.

Collaborative research projects—Health

This account was established to record funds received from client groups for cost shared and joint project research agreements.

Miscellaneous federal/provincial projects—Health

This account was established to record transactions relating to the provinces/territories share of costs incurred under federal/provincial cost-sharing agreements for joint federal/provincial/territorial projects which address health issues which are national in scope.

World Health Organization

This account was established to record funds received from the World Health Organization, for scientific projects.

Collaborative research projects—Public Health Agency of Canada

This account was established to record funds received from client groups for cost shared and joint project research agreements.

Miscellaneous federal/provincial projects—Public Health Agency of Canada

This account was established to record transactions relating to the provinces/territories share of costs incurred under federal/provincial cost-sharing agreements for joint federal/provincial/territorial projects which address health issues which are national in scope.

Canada Millennium Scholarship Foundation Excellence Awards

The account is established pursuant to Part 4 of the *Budget Implementation Act*, 2008, and to the agreement between the Canada Millennium Scholarship Foundation (CMSF), Human Resources and Skills Development Canada (HRSDC), and Treasury Board, to transfer funds from the CMSF to HRSDC for the purpose of making any remaining payments due to students who are receiving CMSF Excellence Awards where the

payment eligibility period extends past the date of dissolution of the CMSF, and for payment of the costs of administering this program on behalf of the CMSF.

The amount transferred was \$14,824,352. HRSDC will administer the remaining Excellence Awards Disbursements until December 31, 2013. After this date, HRSDC will transfer any funds remaining in the account to the Consolidated Revenue Fund, as per Part 4 of the *Budget Implementation Act*, 2008.

Federal/provincial shared-cost project—Human Resources and Skills Development

This account was established to record the deposit of advance payments made by provinces towards the costs of projects and programs for which there is a cost-sharing agreement with the federal Government. Disbursements are made to pay the provinces' share of costs per official agreements or to refund unused amounts.

Federal/provincial shared-cost project—Interprovincial Computerized Examination Management System (ICEMS)

This account was established to record advance payments received from provincial governments to cover their share of the costs of the ICEMS Project. Advance payments are made pursuant to the ICEMS Framework Agreement. The costs incurred are charged to the account and any unexpended funds will be returned to provinces at the end of the project.

Labour standards suspense account

This account was established under the authority of section 23 of the Canada Labour Standards Regulations to record wages received by the Minister of Labour from employers who cannot locate employees. Efforts are then made to locate employees. Wages are paid out when employees are located or when employees contact the department for payment.

Provincial funding for collaborative arrangement—Labour Market Development Agreement (LMDA)-British Columbia

This account was established to record deposits of payments from the Province of British Columbia to Human Resources and Skills Development under the LMDA. The funding provided by the Province of British Columbia is used by Human Resources and Skills Development to make payments to provincial LMDA clients.

Provincial funding for collaborative arrangement—Labour Market Development Agreement (LMDA)-Newfoundland and Labrador

This account was established to record deposits of payments from the Province of Newfoundland and Labrador to Human Resources and Skills Development under the LMDA. The funding provided by the Province of Newfoundland and Labrador is used by Human Resources and Skills Development to make payments to provincial LMDA clients.

**Provincial funding for collaborative arrangement
—Labour Market Development Agreement
(LMDA)-Nova Scotia**

This account was established to record deposits of payments from the Province of Nova Scotia to Human Resources and Skills Development under the LMDA. The funding provided by the Province of Nova Scotia is used by Human Resources and Skills Development to make payments to provincial LMDA clients.

**Provincial funding for collaborative arrangement
—Labour Market Development Agreement
(LMDA)-Ontario**

This account was established to record deposits of payments from the Province of Ontario to Human Resources and Skills Development under the LMDA. The funding provided by the Province of Ontario is used by Human Resources and Skills Development to make payments to provincial LMDA clients.

**Provincial funding for collaborative arrangement
—Labour Market Development Agreement
(LMDA)-Yukon Territory**

This account was established to record deposits of payments from the Yukon Territory to Human Resources and Skills Development under the LMDA. The funding provided by the Yukon Territory is used by Human Resources and Skills Development to make payments to provincial LMDA clients.

**Shared-cost agreements—Canadian Centre for
Occupational Health and Safety**

This account represents funds contributed to a joint federal/provincial sponsored inquiries services provided by Canadian Centre for Occupational Health and Safety.

Indian special accounts

Indian special accounts represent a number of non-interest bearing accounts which are maintained for specific purpose and include the following:

- (a) Quebec fur account—This account was established to record funds received from the sales of pelts trapped on reserves in the Abitibi District in Quebec, to defer charges for tallymen's wages, freight costs, etc.
- (b) Off-reserve housing program—Personal Contributions—This account was established to record personal contributions held in trust until paid to the vendor, builder or legal representative.
- (c) Fines—*Indian Act*—Fines collected as defined in section 104 of the *Indian Act*, are credited to this account for the benefit of the bands or members of the bands. Expenditures may be made per the direction of the Governor in Council to cover certain costs in the administration or promotion of the purpose of the relative law.

Indian band funds—Shares and certificates

This account was established under the *Indian Act*, to record the historical value of Transalta Utilities Ltd shares received as

compensation for a power line right-of-way on the Blood Indian reserve. These shares are held in the name of the Receiver General for Canada for the credit of the Blood Indian Band. Any dividends received are credited to the revenue account of the Blood Indian Band.

Indian compensation funds

This holding account was established to record moneys received from the sales of Indian lands and easement compensation where the title has not been cleared nor the land survey completed.

Indian moneys suspense account

This account was established to hold moneys received for individual Indians and bands, that cannot be disbursed to an Indian, or credited to an Indian Band Fund or Individual Trust Fund account, pending execution of the related lease, permit or licence, settlement of litigation, registration of the Indian or identification of the recipient.

Non-Indian moneys

This account was established to collect "Provincial Mineral Revenues" on behalf of the Province of Saskatchewan and remit the same in the manner as described in an agreement between the two parties. The collection and remittance arrangement is anticipated to terminate upon the expiry or forfeiture of all Replacement Mineral Dispositions or earlier if the Disposition Holders decide to stop drilling. All revenue moneys collected, received or held by the Crown for the use and benefit of the First Nations or its members cease to be Indian moneys and must be transferred to the First Nations. Moneys must be held separately in a non-Indian moneys account. This account is interest bearing.

Canada/Provinces Business Service Centre

This account was established to record funds received from other provinces under cost-sharing agreements for the Canada-Ontario Business Service Centre.

**Income from securities in trust—Bankruptcy and
Insolvency Act**

This account was established by sections 78, 84, 154 and 194 of the *Bankruptcy and Insolvency Act*, to record dividends paid on stocks originally held by a bankrupt stockbroker but subsequently sold to clients. As the stocks were not registered in the clients' names, the dividends must be paid to the last registered owner, in this case, the stockbroker. The dividends are forwarded to the Superintendent of Bankruptcy for safekeeping.

Petro-Canada Enterprises Inc—Unclaimed shares

This account was established by Section 227 of the *Canada Business Corporation Act* to record the liability to shareholders who have not presented their shares for payment.

Securities in trust—Bankruptcy and Insolvency Act

This account was established by section 67 of the *Bankruptcy and Insolvency Act*, to record the value of securities originally held by a bankrupt stockbroker, on behalf of clients who have not been located.

Shared-cost/joint project agreements—Research

This account was established to record funds received from other governments and organizations in order to cover expenditures incurred under various shared-cost/joint project agreements.

Shared-cost projects—Industry

This account was established to record funds received from other governments and organizations in order to cover expenditures incurred under various shared-cost/joint project agreements.

Unclaimed dividends and undistributed assets—Bankruptcy and Insolvency Act

This account represents amounts credited to the Receiver General in accordance with the provisions of section 154 of the *Bankruptcy and Insolvency Act*, pending distribution to creditors.

Unclaimed dividends and undistributed assets—Canada Business Corporations Act

This account was established in accordance with sections 227 and 228 of the *Canada Business Corporations Act*, for the purpose of recording liabilities to creditors and shareholders who have not been located. The account is charged when funds are paid to them.

Unclaimed dividends and undistributed assets—Winding-up and Restructuring Act

This account records amounts credited to the Receiver General, in accordance with sections 138 and 139 of the *Winding-up and Restructuring Act*, pending distribution.

Radarsat

This account was established to record funds received for both cost-sharing and advance payments for Radarsat scenes.

Project deposits—Statistics Canada

This account was established to record deposits received from outside parties to secure payments for special statistical services.

Special account—Courts Administration Service

This account was established to maintain accounts on behalf of litigants before the Federal Court and Federal Court of Appeal. These accounts record the funds paid into the Federal Court and Federal Court of Appeal, pursuant to an order of the Courts, rules of the Courts or statutes, to be held pending pay-

ment of such funds, in accordance with an order/judgment of these Courts.

Cost-sharing agreement

This account was established to record deposits received from an organization outside the Government of Canada accounting entity and payments made in accordance with a Memorandum of agreement for shared-costs to assume part of the living costs for the loan of staff in Paris.

Foreign governments

These accounts were established to record funds received from foreign governments, to cover expenditures to be made on their behalf, in accordance with the provisions of agreements with the Government of Canada.

Joint research and development projects—National Defence

This account was established to record funds received from the private sector through collaborative relationships where the work is shared between the government and the private sector laboratory.

Non-government agencies

This account was established to record funds received for expenditures made on behalf of non-government agencies, for which specific accounts have not been established.

North Atlantic Treaty Organization (NATO)—Infrastructure projects

These accounts were established to record funds received from NATO to cover (a) NATO infrastructure projects implemented by Canada, and, (b) other expenditures to be made on NATO's behalf, in accordance with the terms of an agreement with the Government of Canada.

The Military Museum

The account was established to manage donations made to National Defence by interested parties for renovations to the existing structure and construction of a new wing to The Military Museum located in Calgary, Alberta.

During the year, the account was closed.

Market development incentive payments—Alberta

This account records funds received from the Government of Alberta, to encourage the expansion of natural gas markets in Alberta and provinces to the East, in accordance with an agreement between the Government of Canada and the Government of Alberta dated September 1, 1981 and pursuant to section 39 of the *Energy Administration Act*. The original term of the agreement was from November 1, 1981 to January 31, 1987. As a result of the Western Accord of March 25, 1985, payments from the Government of Alberta terminated as at April 30, 1986, however, payments continued to be made from the account for selected programs, which encouraged the use of natural gas for vehicles.

More recently, a new strategy for the expenditure of these funds has been agreed upon. This strategy consists of a 50/50 split for expending the remaining funds in support of natural gas (NG) market expansion activities related to transportation and combined heat and power applications.

Newfoundland Offshore Revenue Account

This account was established pursuant to section 214 of the *Canada-Newfoundland Atlantic Accord Implementation Act* to facilitate the sharing of certain revenues accruing from oil and gas activities in the Newfoundland offshore area with the Province of Newfoundland. Through statutory provisions of the Act, an amount equal to certain offshore revenues (taxes, royalties and miscellaneous revenues) are credited to this account and subsequent payments to the Province of Newfoundland are charged thereto.

Nova Scotia Offshore Revenue Account

This account was established pursuant to section 219 of the *Canada-Nova Scotia Offshore Petroleum Resources Accord Implementation Act* to facilitate the sharing of certain revenues accruing from oil and gas activities in the Nova Scotia offshore area with the Province of Nova Scotia. Through statutory provisions of the Act, an amount equal to certain offshore revenues (taxes, royalties and miscellaneous revenues) are credited to this account and subsequent payments to the Province of Nova Scotia are charged thereto.

Shared-cost agreements—Research—Natural Resources

This account was established to facilitate the retention and disbursement of funds received from private industries and other governments for joint projects or shared-cost research agreements.

Shared-cost projects—Natural Resources

This account was established to facilitate the retention and disbursement of funds received from private organizations and other governments for cost-sharing scientific projects.

Security equipment purchases

Funds deposited in this account by licensees are used to provide for payment of purchases of security equipment for the licensees' facilities in accordance with security arrangements mandated pursuant to the *Nuclear Safety and Control Act*.

Shared-cost projects—Media travel expenses

This account records medias' (non-governmental organizations) reimbursements for travel arrangement services rendered to them.

Joint research and development projects—Public Safety and Emergency Preparedness

This account was established to record funds received to conduct joint research and development projects.

During the year, the account was closed.

Joint research and development projects—Royal Canadian Mounted Police

This account was established to record funds received from other government organizations in order to share costs incurred under various research project agreements.

Seized assets—Canadian funds

This account was established to record funds seized during the course of investigations and drug seizures under the Criminal Code of Canada, the *Narcotic Control Act*, the *Food and Drug Act*, the *Customs Act* and the *Excise Act*. The funds are held pending Court decisions.

Credit card—Special project fund

This account was established to record funds received from American Express (AMEX) to improve the Travel Card Program.

Francophone Summits

This account was established to record funding granted since 1994 by the "Agence intergouvernementale de la Francophonie (Paris)", which changed its name in 2006 to the "Organisation internationale de la Francophonie", for projects involving the development of French and partner languages in order to express scientific and technical modernity.

Military purchases excess funds deposit

This account was established by a written agreement between Canada and the United States, to record temporarily unused funds paid to the United States Government under contracts for purchases of military equipment. The funds are invested by the Federal Reserve Bank of New York to earn interest for the Government of Canada.

Shared-cost agreements—Veterans Affairs

This account was established to record transactions relating to share of costs incurred under federal/provincial cost-sharing agreements and funding for research and other projects at Sainte Anne's Hospital.

SUPPLEMENTARY STATEMENTS

Canada Pension Plan

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The Consolidated Financial Statements of the Canada Pension Plan have been prepared in accordance with Canadian generally accepted accounting principles for the public sector, by the management of Human Resources and Skills Development Canada (the Department).

Management is responsible for the integrity and objectivity of the information in the financial statements, including the amounts which must, of necessity, be based on best estimates and judgement. The financial information presented throughout the Annual Report is consistent with the financial statements.

In support of its responsibilities, management has developed and maintains systems of internal control and supporting procedures. They are designed to provide reasonable assurance that assets are safeguarded, records are properly maintained and that transactions are properly authorized and are in accordance with the *Canada Pension Plan Act*, the *Canada Pension Investment Board Act* and the *Financial Administration Act* and their accompanying regulations. These controls include the establishment of an organizational structure that provides a well defined division of responsibilities and accountability, the selection and training of qualified staff, and the communication of policies and guidelines throughout the organization. Internal controls are reviewed and evaluated by both internal and external auditors in accordance with their respective audits. Management also reviews the recommendations of its internal and external auditors for improvements in internal controls.

The Auditor General of Canada, the external auditor of the Canada Pension Plan, has conducted an independent audit of the consolidated financial statements in accordance with Canadian generally accepted auditing standards and has reported to the Minister of Human Resources and Skills Development.

IAN SHUGART
*Deputy Minister
Human Resources and
Skills Development Canada*

ALFRED TSANG, CMA
*Chief Financial Officer
Human Resources and
Skills Development Canada*

Gatineau, Canada
August 23, 2010

AUDITOR'S REPORT

TO THE MINISTER OF HUMAN RESOURCES AND SKILLS DEVELOPMENT

I have audited the consolidated statement of net assets of the Canada Pension Plan as at March 31, 2010 and the consolidated statements of changes in net assets and cash flow for the year then ended. These financial statements are the responsibility of the management of Human Resources and Skills Development Canada. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these consolidated financial statements present fairly, in all material respects, the net assets of the Canada Pension Plan as at March 31, 2010 and the changes in its net assets and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Sheila Fraser, FCA
Auditor General of Canada

Ottawa, Canada

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010

1. Authority, objective and responsibilities

(a) Description of the Canada Pension Plan

The Canada Pension Plan (CPP) is a federal/provincial plan established by an Act of Parliament in 1965.

The CPP began operations in 1966. It is a compulsory and contributory social insurance program operating in all parts of Canada, except Quebec, which operates the Régime de rentes du Québec, a comparable program. The Plan's objective is to provide a measure of protection to workers and their families against the loss of earnings due to retirement, disability or death.

The Canada Pension Plan Investment Board (CPPIB) was established pursuant to the *Canada Pension Plan Investment Board Act*. The CPPIB is a federal Crown corporation and all of its shares are owned by Her Majesty the Queen in right of Canada.

The Minister of Human Resources and Skills Development is responsible for the administration of the Canada Pension Plan (under the CPP Act); the Minister of National Revenue is responsible for collecting contributions. The Minister of Finance and his provincial counterparts are responsible for setting CPP contribution rates, pension and benefit levels and funding policy. The CPPIB is responsible for managing the amounts that are being transferred under Section 108.1 of the *Canada Pension Plan Act*. It acts in the best interests of the beneficiaries and contributors under the Act.

In accordance with the CPP Act, the financial activities of the Canada Pension Plan are recorded in the CPP Account (Note 3). The financial transactions affecting the Account are governed by the CPP Act and its regulations. The Plan's investments are held by the CPPIB. The CPPIB's transactions are governed by the *Canada Pension Plan Investment Board Act* and its accompanying regulations. The CPPIB's assets are to be invested with a view to achieving a maximum rate of return without undue risk of loss, with regard to the factors that may affect the funding of the CPP and its ability to meet its financial obligations on any given business day.

The CPPIB and its wholly-owned subsidiaries are exempt from Part I income tax under paragraphs 149(1)(d) and 149(1)(d.2) of the *Income Tax Act* (Canada) on the basis that all of the shares of the CPPIB and its subsidiaries are owned by Her Majesty the Queen in right of Canada or by a corporation whose shares are owned by Her Majesty the Queen in right of Canada, respectively.

The CPPIB is designed to operate at arm's length from the government. It is required to be accountable to the public, Parliament (through the federal Minister of Finance), and the provinces. It provides regular reports of its activities and the results achieved.

As stated in the CPP and CPPIB Acts, changes to these Acts require the approval of at least two-thirds of the provinces that have, in the aggregate, not less than two-thirds of the population of all included provinces.

(b) Financing

The CPP is financed by contributions and investment returns. Employers and employees pay contributions equally to the CPP. Self-employed workers pay the full amount.

The CPP was initially designed to be financed on a pay-as-you-go basis, which means that the Plan would operate on a current basis with pensions and benefits being paid out of current contributions. With changes made to the Act in 1997, the CPP is now intended to be funded on a "steady-state" basis – that is, combined employer-employee contributions of 9.9 percent of pensionable earnings. While the net asset value does not cover the actuarial present value of accrued pensions and benefits, it is expected to provide a capitalization level of 25 percent of the Plan's liability by the year 2025 as per the last triennial Actuarial Report issued in 2007.

The CPP Act stipulates that an actuarial report shall be prepared every three years for purposes of the review of the financial state of the CPP by the Minister of Finance and his provincial counterparts. The most recent triennial report, the Twenty-third Actuarial Report of the Chief Actuary as at December 31, 2006, was tabled in Parliament on October 29, 2007. The report concluded that the CPP is financially sound and the 9.9 percent combined employee-employer contribution rate reached in 2003 is expected to be sufficient to sustain the Plan in the face of an aging population.

A number of assumptions such as long term rate of return on assets, inflation rate, mortality rates, increase in salary and benefit rates, among other things, were used in the Twenty-third Actuarial Report. These assumptions reflect best estimates of future economic and demographic events. The next triennial actuarial report as at December 31, 2009 is expected to be completed by December 2010.

(c) Net assets of the Plan

The net assets of the Plan are comprised of the deposit with the Receiver General for Canada and investments held by the CPPIB. They represent funds accumulated for the payment of pensions, benefits and operating expenses.

As at March 31, 2010, the value of the Plan's net assets is \$131.4 billion (2009 – \$110.0 billion). This amount represents approximately 4.3 times the total of pensions and benefits in 2010 (2009 – 3.8 times). According to the Twenty-third Actuarial Report, this is expected to grow to 5.5 times by 2019 and remain somewhat stable as the baby boom generation retires between 2015 and 2030.

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

(d) Pensions and benefits

Retirement pensions – A retirement pension is payable to each contributor at age 60 or older, according to the provisions of the Act. The monthly amount is equal to 25 percent of the contributor's average monthly pensionable earnings during the pensionable period. The amount may be reduced or increased depending upon whether the contributor applies for a retirement pension before or after age 65. This adjustment cannot exceed 30 percent. The maximum new monthly pension payable at age 65 in 2010 is \$934.17 (2009 – \$908.75).

Disability benefits – A disability benefit is payable to a contributor who is disabled, according to the provisions of the Act. The amount of the disability benefit to be paid includes a flat-rate portion and an amount equal to 75 percent of the earned retirement pension. The maximum new monthly disability benefit in 2010 is \$1,126.76 (2009 – \$1,105.99).

Survivor's benefits – A survivor's benefit is payable to the spouse or common-law partner (the beneficiary) of a deceased contributor, according to the provisions of the Act. For a beneficiary under the age of 65, the benefit consists of a flat-rate portion and an amount equal to 37.5 percent of the deceased contributor's earned retirement pension. A beneficiary between the ages of 35 and 45 who is not disabled or who has no dependent children receives reduced benefits. For beneficiaries aged 65 and over, the benefit is equal to 60 percent of the retirement pension granted to the deceased contributor. The maximum new monthly benefit payable to a beneficiary in 2010 is \$560.50 (2009 – \$545.25).

Disabled contributor's child and orphan benefits – According to the provisions of the Act, each child of a contributor who is receiving disability benefits or a child of a deceased contributor is entitled to a benefit as long as the child is under the age of 18, or is between the ages of 18 and 25 and attending school full-time. The flat-rate monthly benefit in 2010 is \$214.85 (2009 – \$213.99).

Death benefits – According to the provisions of the Act, a death benefit is a one-time payment to, or on behalf of, the estate of a contributor. The benefit amounts to either 10 percent of the maximum pensionable earnings in the year of death or six times the monthly retirement pension granted to the deceased contributor, whichever is less. The maximum death benefit in 2010 is \$2,500 (2009 – \$2,500).

Pensions and benefits indexation – As required by the Act, pensions and benefits are indexed annually based on the Consumer Price Index for Canada. The rate of indexation for 2010 is 0.4 percent (2009 – 2.5 percent).

2. Significant accounting policies*(a) Basis of presentation*

These financial statements are presented on a consolidated basis. They include the consolidated net assets, the consolidated changes in net assets and the consolidated cash flow of the CPP and the CPPIB. These financial statements are prepared in accordance with Canadian generally accepted accounting principles ("GAAP") for the public sector and conform to the disclosure and accounting requirements of the CPP Act.

The CPP, which is under joint control of the Government of Canada and participating provinces, is not considered to be part of the reporting entity of the Government of Canada. Accordingly, its financial activities are not consolidated with those of the Government.

*(b) Changes in accounting policies***Financial Instruments – Disclosures**

The CPP uses fair value for the preparation of its consolidated financial statements. The CPPIB uses Canadian GAAP for the private sector. Effective for the March 31, 2010 annual Consolidated Financial Statements, the CPPIB adopted the amended CICA section 3862, *Financial Instruments – Disclosures*, which enhance the disclosures regarding fair value measurement and liquidity risk. These new standards prescribe the classification of fair value measurement in accordance with a fair value hierarchy that reflects the significance of the inputs used in determining the fair value of financial instruments (see Note 6). The new standards are for disclosure purposes only and do not impact the CPP's financial position or results of operations.

(c) Valuation of investments, investment receivables and investment liabilities

Investments, investment receivables and investment liabilities are recorded on a trade date basis and are stated at fair value. Fair value is an estimate of the amount of the consideration that would be agreed upon in an arm's-length transaction between knowledgeable, willing parties who are under no compulsion to act.

In an active market, fair value is best evidenced by an independent quoted market price. In the absence of an active market, fair value is determined by valuation techniques that make maximum use of inputs observed from markets. These valuation techniques include using recent arm's length market transactions, if available, or current fair value of another investment that is substantially the same, discounted cash flow analysis, option pricing models and other accepted industry valuation methods.

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

Fair value is determined as follows:

- i. Fair value for publicly-traded equities is based on quoted market prices. Where market prices are not available or reliable, such as for those securities that are not sufficiently liquid, fair value is determined using accepted industry valuation methods.
- ii. Fair value for fund investments is generally based on the net asset value as reported by the external managers of the funds or other accepted industry valuation methods.
- iii. Private equity and infrastructure investments are either held directly or through ownership in limited partnership arrangements. The fair value for investments held directly is determined using accepted industry valuation methods. These methods include considerations such as earnings multiples of comparable publicly-traded companies, discounted cash flows using current market yields of instruments with similar characteristics and third party transactions, or other events which would suggest a change in the value of the investment. In the case of investments held through a limited partnership, fair value is generally determined based on relevant information reported by the General Partner using similar accepted industry valuation methods.
- iv. Fair value for marketable bonds is based on quoted market prices. Where the market price is not available, fair value is calculated using discounted cash flows based on current market yields of instruments with similar characteristics.
- v. Fair value for non-marketable Canadian government bonds is calculated using discounted cash flows based on current market yields of instruments with similar characteristics, adjusted for the non-marketability and rollover provisions of the bonds.
- vi. Fair value for direct investments in private debt is calculated using quoted market prices or accepted industry valuation methods such as discounted cash flows based on current market yields of instruments with similar characteristics.
- vii. Money market securities are recorded at cost, which, together with accrued interest income, approximates fair value due to the short-term nature of these securities.
- viii. Fair value for public real estate investments is based on quoted market prices.
- ix. Fair value for private real estate investments is determined using accepted industry valuation methods, such as discounted cash flows and comparable purchase and sales transactions. Debt on private real estate investments is valued using discounted cash flows based on current market yields for instruments with similar characteristics.
- x. Fair value for inflation-linked bonds is based on quoted market prices.
- xi. Fair value for exchange-traded derivatives, which include futures, options and warrants, is based on quoted market prices. Fair value for over-the-counter derivatives, which include swaps, options, forward contracts and warrants, is determined based on the quoted market prices for the underlying instruments where available. Otherwise, fair value is based on other accepted industry valuation methods using inputs such as equity prices and indices, broker quotations, market volatilities, currency exchange rates, current market interest rate yields, credit spreads and other market-based pricing factors. In determining fair value, consideration is also given to liquidity risk and the credit risk of the counterparty.
- xii. Debt financing liabilities are recorded at the amount originally issued, which, together with accrued interest expense, approximates fair value due to its short-term nature.

(d) Contributions

Contributions include CPP contributions earned for the year. The Canada Revenue Agency (CRA) collects contributions and measures them using the assessment of tax returns. In determining the amount of contributions earned for the year, the CRA considers cash received and contributions assessed, and makes an estimate for contributions related to tax returns not yet assessed. This estimate is subject to review and adjustments. Adjustments, if any, are recorded as contributions in the year they are known.

(e) Investment income

Income from investments is recognized on an accrual basis and includes realized gains and losses from investments, changes in unrealized gains and losses on investments, dividend income, interest income and net operating income from private real estate investments. Dividend income is recognized on the ex-dividend date which is when the CPP's right, through CPPIB, to receive the dividend has been established. Interest income is recognized using the effective interest rate method. Distributions received from limited partnerships and funds are recognized as interest income, dividend income, realized gains and losses from investments or return of capital, as appropriate.

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

(f) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition or disposal of an investment. Transaction costs are expensed as incurred and recorded as a component of net investment income.

(g) Investment management fees

Investment management fees are paid to investment managers for externally managed investments. Investment management fees are expensed as incurred and recorded as a component of net investment income.

(h) Securities sold under repurchase agreements and purchased under reverse repurchase agreements

Securities sold under repurchase agreements represent the sale of securities effected with a simultaneous agreement to buy them back at a specified price at a specified future date and are accounted for as an investment liability. The securities sold continue to be recognized as an investment of the CPP with any changes in fair value recorded as net gain (loss) on investments (see Note 10). Securities purchased under reverse repurchase agreements represent the purchase of securities effected with a simultaneous agreement to sell them back at a specified price at a specified future date and are accounted for as an investment receivable. These securities are not recognized as an investment of the CPP. The fair value of securities to be resold under these reverse repurchase agreements is monitored and additional collateral is obtained when appropriate to protect against credit exposure. In the event of counterparty default, the CPP, through CPPIB, has the right to liquidate the collateral held. Repurchase and reverse repurchase agreements are carried on the Consolidated Schedule of Investments at the amounts at which the securities were initially acquired or sold. Interest incurred on repurchase agreements and interest earned on reverse repurchase agreements are included in investment income (see Note 10).

(i) Translation of foreign currencies

Transactions denominated in foreign currencies are translated into Canadian dollars at exchange rates prevailing on the transaction date. Investments and other monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at exchange rates prevailing on the year-end date with any resulting foreign exchange gain or loss included in net gain (loss) in net investment (loss) (See Note 10).

(j) Pensions and benefits

Pensions and benefits expenses are recorded when payable or reasonably estimated.

(k) Tax deductions due to Canada Revenue Agency

Tax deductions due to CRA consist primarily of voluntary and non-resident taxes withheld from pensions and benefit payments to CPP beneficiaries.

(l) Net overpayments

Net overpayments are comprised of overpayments of pensions and benefits that were established during the year less remissions of debts granted.

(m) Operating expenses

Operating expenses are recorded as incurred.

(n) Measurement uncertainty

The preparation of consolidated financial statements in accordance with Canadian generally accepted accounting principles ("GAAP") for the public sector requires management to make certain estimates and assumptions that affect the reported values of assets and liabilities as at the date of the financial statements and income and expenses during the reporting period. Significant estimates and judgments are required principally in determining the reported estimated contributions, allowance for doubtful accounts, contingent liabilities and fair values of investments since these determinations include estimates of expected future cash flows, rates of return and the impact of future events. Actual results could differ from those estimates.

(o) Future changes in accounting standards

International financial reporting standards

In February 2008, the Canadian Accounting Standards Board ("AcSB") confirmed that Canadian GAAP for publicly accountable enterprises will be replaced with International Financial Reporting Standards ("IFRS"). For the CPPIB, IFRS will be effective for interim and annual periods commencing April 1, 2011, including the disclosure of prior year comparative figures. In June 2010, the AcSB issued an exposure draft proposing that investment companies currently applying AcG-18, such as the CPPIB, be given a one year deferral from adopting IFRS. Should the proposal in the exposure draft be approved, the CPPIB would be required to adopt IFRS effective for interim and annual periods commencing April 1, 2012.

The CPPIB has developed an IFRS conversion plan and has identified the major differences between existing Canadian GAAP and IFRS. The CPPIB continues to monitor emerging and new standards.

The CPP will assess the impact of the CPPIB's change in accounting framework on its consolidated financial statements and will review any restatements made to CPPIB's information.

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

Introduction to Public Sector Accounting (PSA) Handbook – Government Organizations

In December 2009, the Public Sector Accounting Board (“PSAB”) issued an amendment to the Introduction to Public Sector Accounting Standards of the PSA Handbook. As a result of this amendment, many entities are required to re-assess their classification.

In light of these changes, the CPP is presently reviewing its classification and is reassessing its accounting framework and basis of presentation. The impact of such changes, if any, on the CPP consolidated financial statements cannot be determined at this time.

3. Cash

Cash consists of the total cash held by the CPP Account and the CPPIB. The CPP Account was established in the accounts of Canada by the CPP Act to record the contributions, interest, pensions, benefits and operating expenses of the Plan. It also records the amounts transferred to or received from the CPPIB. As at March 31, 2010, the deposit with the Receiver General for Canada in the CPP Account is \$175 million (2009 - \$90 million) and CPPIB’s cash is \$5 million (2009 - \$5 million) for a total of \$180 million (2009 - \$95 million) in the Consolidated Statement of Net Assets and the Consolidated Statement of Cash Flow.

4. Receivables

Receivables are comprised of the following:

	2010	2009
	(in millions of dollars)	
Contributions.....	3,854	4,662
Régime de rentes du Québec.....	96	98
Beneficiaries		
Balance of pensions and		
benefits overpayments.....	111	98
Allowance for doubtful		
accounts.....	(72)	(62)
	3,989	4,796

Contributions receivable represent the estimated amount to be collected from CRA relating to contributions earned at year-end and adjusted for tax returns not yet assessed.

The CPP has procedures to detect overpayments. During the year, overpayments totalling \$53 million (2009 - \$31 million) were established and debts totalling \$3 million (2009 - \$3 million) were forgiven as per the remission provisions of the CPP Act. A further \$37 million (2009 - \$24 million) was recovered through collection of payments and withholdings from beneficiaries.

5. Investment activities risk management

The CPPIB is exposed to a variety of financial risks as a result of its investment activities. These risks are market risk, credit risk and liquidity risk. The CPPIB manages and mitigates financial risks through the Risk/Return Accountability Framework that is contained within the investment policies approved by the Board of Directors at least once every fiscal year. This framework contains risk limits and risk management provisions that govern investment decisions and has been designed to achieve the mandate of the CPPIB which is to invest its assets with a view to achieving a maximum rate of return, without undue risk of loss, having regard to the factors that may affect the funding of the CPP and the ability of the CPP to meet its financial obligations on any given business day.

Included within the Risk/Return Accountability Framework is an active risk limit which represents a limit on the amount of investment risk that the CPPIB can take relative to the CPP Reference Portfolio. The CPP Reference Portfolio is approved by the Board of Directors and serves as a performance benchmark against which the CPPIB’s value-added activities are measured. It represents a low-cost strategic alternative to the CPP Investment Portfolio. The objective of the CPPIB is to create value-added investment returns greater than the returns that would be generated by the CPP Reference Portfolio. The CPPIB monitors the active risk in the CPP Investment Portfolio daily and reports active risk exposures to the Board of Directors at least on a quarterly basis.

i. Market Risk:

Market risk (including currency risk, interest rate risk and equity price risk) is the risk that the fair value or future cash flows of an investment or investment liability will fluctuate because of changes in market prices and rates. As discussed above, the CPPIB manages market risk through the Risk/Return Accountability Framework. This includes investing across a wide spectrum of asset classes and investment strategies to earn a diversified risk premium at the total Fund level, based on risk limits established in the investment policies. In addition, derivatives are used, where appropriate, to manage certain market risk exposures (See Note 7f). Market risk is comprised of the following:

Currency Risk: The CPPIB is exposed to currency risk through holdings of investments or investment liabilities in various currencies. Fluctuations in the relative value of foreign currencies against the Canadian dollar can result in a positive or negative effect on the fair value and future cash flows of these investments and investment liabilities.

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

In Canadian dollars, the net underlying currency exposures, after allocating foreign currency derivatives, as at March 31 are as follows:

Currency	2010		2009	
	Net exposure	% of total	Net exposure	% of total
	(in millions of dollars)			
United States Dollar.....	35,121	55	25,698	57
Euro.....	9,936	15	7,988	18
Japanese Yen.....	5,365	8	3,907	9
British Pound Sterling.....	4,430	7	2,436	5
Australian Dollar.....	2,345	4	875	2
Hong Kong Dollar.....	1,537	2	1,363	3
Swiss Franc.....	1,432	2	505	1
Other.....	4,292	7	2,099	5
	64,458	100	44,871	100

Interest Rate Risk: Interest rate risk is the risk that the fair value or future cash flows of an investment will fluctuate because of changes in market interest rates. The CPPIB's interest bearing investments are exposed to interest rate risk.

Equity Price Risk: Equity price risk is the risk that the fair value or future cash flows of an investment will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual investment or factors affecting all securities traded in the market.

In addition to the above, the CPPIB is indirectly exposed to market risk on the underlying securities of fund investments.

Value at Risk:

CPPIB uses Value at Risk ("VaR") methodology to monitor market risk exposure in the CPP Investment Portfolio. VaR is a statistical technique that is used to estimate the potential loss in value of an investment as a result of movements in market rates and prices over a specified time period and for a specified confidence level. The VaR calculated by the CPPIB is estimated using a historical simulation method, incorporating the most recent 10 years of weekly market returns, evaluated at a 90 percent confidence level and scaled to a one-year holding period.

VaR is valid under normal market conditions and does not specifically consider losses arising from severe market events. It also assumes that historical market data is a sound basis for estimating potential future

losses. If future market conditions and interrelationships of interest rates, foreign exchange rates and market prices differ significantly from those of the past, then the actual losses could materially differ from those estimated. The VaR measure provides an estimate of a single value in a distribution of potential losses that the CPP Investment Portfolio could experience. It is not an estimate of the worst case scenario.

Other assumptions under the historical simulation method for estimating VaR include:

- An estimate for VaR at a one-year holding period can be derived from a simulation based on weekly market returns by using a time-based scaling factor;
- Incorporating the most recent 10 years of market data is sufficient to reasonably estimate the potential loss in value at a 90 percent confidence level; and
- The public market proxies used to represent private market investment returns (e.g. those for private real estate and private equities) are reasonable for estimating their contribution to the VaR.

The CPPIB monitors the active risk of the CPP Investment Portfolio relative to the CPP Reference Portfolio. Changes in active risk are largely independent of changes in VaR in the CPP Reference Portfolio and CPP Investment Portfolio.

As at March 31, VaR at a 90 percent confidence level indicates that one year in 10 the portfolio can be expected to lose at least the following amounts:

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

	2010	
	VaR	% of CPP investment portfolio ⁽¹⁾
	(in millions of dollars)	
CPP reference portfolio.....	12,998	10.2
CPP investment portfolio active risk	1,583	1.2
CPP investment portfolio ⁽²⁾ ...	13,487	10.6

	2009	
	VaR	% of CPP investment portfolio ⁽¹⁾
	(in millions of dollars)	
CPP reference portfolio.....	10,370	9.7
CPP investment portfolio active risk	1,720	1.6
CPP investment portfolio ⁽²⁾ ...	11,351	10.6

⁽¹⁾ Excludes certain assets where the market risk exposure is not monitored using VaR, such as the assets of the Cash for Benefits Portfolio which is a separately managed short-term cash management program designed to facilitate monthly benefit payments by the CPP.

⁽²⁾ CPP Investment Portfolio VaR is less than the sum of the CPP Reference Portfolio VaR and CPP Investment Portfolio Active Risk due to the beneficial impact of risk diversification.

ii. Credit Risk:

Credit risk is the risk of financial loss due to a counterparty failing to meet its contractual obligations or a reduction in the value of the assets due to a decline in the credit quality of the borrower, counterparty, guarantor or the assets (collateral) supporting the credit exposure. The CPPIB's most significant exposure to credit risk is its investment in debt securities and over-the-counter derivatives (as discussed in Note 7f). The carrying amounts of these investments as presented in the Consolidated Schedule of Investments represent the maximum credit risk exposure at the balance sheet date.

Oversight for credit risk resides with the CPPIB's Credit Committee, a sub-committee of their Investment Planning Committee ("IPC"), which is chaired by their Chief Operations Officer. The IPC, chaired by the President and Chief Executive Officer is accountable for monitoring and managing the total portfolio strategic risk exposures and providing strategic direction to

the investment departments. The Credit Committee advises the IPC on the total portfolio exposure to credit risk and whether changes are warranted in the allocation of credit risk within the overall limits established by their Board of Directors. The Credit Committee ensures that the credit risks are identified, measured and monitored regularly and communicated at least monthly to the IPC and at least quarterly to the Board of Directors. Credit risk measurement and reporting are performed by professional risk managers within CPPIB's Investment Risk Management group ("IRM"). IRM provides qualitative and quantitative analysis and oversight of credit risk, monitoring exposure limits, augmented by detailed analysis of single-name and sector exposures. Credit VaR is the common measure of credit risk across all investment strategies. IRM works closely with the investment departments to provide an evaluation of the credit risk created by significant transactions. Detailed reports of credit risk and counterparty exposures are provided weekly to CPPIB's management and at least monthly to their Credit Committee and their IPC.

The CPPIB manages credit risk by setting overall credit exposure limits by credit rating category. The Board of Directors approves the credit exposure limits at least once every fiscal year. Counterparties are assigned a credit rating as determined by a recognized credit rating agency, where available, and/or as determined through an internal credit rating process. Where the internal credit rating is lower than the rating determined by a recognized credit rating agency, the internal credit rating will prevail. Credit exposure to any single counterparty is limited to maximum amounts as specified in the investment policies. The Credit Committee has also established single-name sub-limits within the credit exposure limits to mitigate risks arising from concentrated exposures to certain counterparties. IRM measures and monitors sub-limits and credit exposure limits daily for compliance and reports to the Credit Committee and IPC at least monthly, or more frequently as necessary.

The fair value of debt securities and over-the-counter derivatives exposed to credit risk, by credit rating category and without taking account of any collateral held or other credit enhancements as at March 31 are as follows:

⁽¹⁾ Includes accrued interest.⁽²⁾ Includes inflation-linked bonds.⁽³⁾ As at March 31, 2010, fixed income securities with a fair value of \$4,088 million (2009 – \$4,084 million) and an AAA credit rating were received as collateral which mitigates the credit risk exposure on the reverse repurchase agreements (see Note 7h).

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

Credit risk exposure on over-the-counter derivatives is mitigated through the use of master netting arrangements and collateral. Master netting arrangements are entered into with all counterparties so that, if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. Credit support annexes are negotiated with certain counterparties and require that collateral, in the form of cash or fixed income securities, be provided to the CPPIB when the positive fair value of the derivative contract exceeds certain threshold amounts. As at March 31, 2010, master netting arrangements and collateral held reduced the credit risk exposure to over-the-counter derivatives from \$662 million to \$455 million (2009 – \$801 million to \$432 million).

In addition to the above, the CPPIB is indirectly exposed to credit risk on the underlying securities of fund investments.

iii. Liquidity Risk:

Liquidity risk is the risk of being unable to generate sufficient cash or its equivalent in a timely and cost-effective manner to meet investment commitments and investment liabilities as they come due. The CPPIB mitigates liquidity risk through its unsecured credit facilities (see Note 8) available in the amount of \$1.5 billion (2009 - \$1.5 billion) and the ability to readily dispose of certain investments that are traded in an active market. These include a liquid portfolio of publicly-traded equities, money market securities, marketable bonds and inflation-linked bonds.

The CPPIB is also exposed to liquidity risk through its responsibility for providing cash management services to the CPP (see Note 12). In order to manage liquidity risk associated with this short-term cash management program, the assets required for this purpose are segregated from the investment portfolio and separately managed as the Cash for Benefits Portfolio. Liquidity risk is also managed by investing these assets in liquid money market instruments with the primary objective of ensuring that the CPP has the necessary liquidity to meet benefit payment obligations on any business day.

6. Fair value measurement

(a) The following table shows investments and investment liabilities recognized at fair value, analyzed between those whose fair value is based on:

- Quoted prices in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Those with inputs for the asset or liability that are not based on observable market data (non-observable inputs) (Level 3).

Canada Pension Plan—ContinuedNOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

Gains (losses) included in net investment income (loss) for the year ended March 31, 2010 are presented as net gain (loss) on investments (see Note 10).

Investments were transferred from Level 3 to Level 1 as these investments became listed on an active market for which quoted market prices were obtained.

Investments were transferred from Level 2 to Level 3 as these investments are now valued using valuation techniques using inputs based on non-observable market data.

Direct investments in private equities, infrastructure, private real estate, private debt and certain derivatives have fair values derived primarily from assumptions based on non-observable market data. The fair value of these direct investments is based on accepted industry valuation methods that may include the use of estimates made by management, appraisers or both where significant judgment is required. By using valuation methods based on reasonable alternative assumptions, different fair values at March 31, 2010 could result. Management has determined that the potential impact on fair values using these reasonable alternative assumptions would not be significant. .

7. Investments and investment liabilities

As stated in Note 1, the role of the CPPIB is to invest the assets with a view to achieving a maximum rate of return without undue risk of loss, with regard to the factors that may affect the funding of the CPP and the ability of the CPP to meet its financial obligations on any given business day. To achieve their mandate, the CPPIB has established investment policies in accordance with its regulations. These set out the manner in which their assets shall be invested and their financial risks managed and mitigated through the Risk/Return Accountability Framework.

(a) Equities

- i. Public equity investments are made directly or through funds. As at March 31, 2010, public equities include fund investments with a fair value of \$2,631 million (2009 – \$1,730 million).

- ii. Private equity investments are generally made directly or through ownership in limited partnership arrangements which have a typical term of 10 years. The private equity investments represent equity ownerships or investments with the risk and return characteristics of equity. As at March 31, 2010, private equities include direct investments with a fair value of \$3,997 million (2009 – \$2,906 million).

(b) Fixed income

- i. Bonds consist of marketable and Canadian government non-marketable bonds.

The non-marketable bonds issued by the provinces prior to 1998 have rollover provisions attached to them by the Act which permit each issuer, at their option, to roll over the bonds on maturity for a further 20-year term at a rate based on capital markets borrowing rates for that province existing at the time of rollover. The non-marketable bonds are also redeemable before maturity at the option of the issuers.

In lieu of exercising its statutory rollover right described in the preceding paragraph, agreements between the CPPIB and the provinces permit each province to repay the bond and concurrently cause the CPPIB to purchase a replacement bond or bonds in a total principal amount not exceeding the principal amount of the maturing security for a term of not less than five years and not greater than 30 years. Such replacement bonds contain rollover provisions that permit the issuer, at its option, to roll over the bond for successive terms of not less than five years and are subject in all cases to the maximum 30 years outside the maturity date. The replacement bonds are also redeemable before maturity at the option of the issuers.

The terms to maturity of the marketable and non-marketable bonds, not including any rollover options or accrued interest, as at March 31 are as follows:

- ii. Other debt instrument consists of investments in distressed mortgage and private debt funds and direct investments in private debt. The terms to maturity of the direct investments in private debt as of March 31 are as follows:

TERMS TO MATURITY
(in millions of dollars)

	2010					2009		
	Within 1 year	1 to 5 years	6 to 10 years	Over 10 years	Total	Average effective yield	Total	Average effective yield
Leveraged Loans		698	217		915	7.5%		

(c) Absolute return strategies

Absolute return strategies consist of investments in funds whose objective is to generate positive returns regardless of market conditions, that is, returns with a low correlation to broad market indices. The underlying securities of the funds could include, but are not limited to, equities, fixed income securities and derivatives.

(d) Inflation-sensitive assets

- i. The CPPIB obtains exposure to real estate through investments in publicly-traded securities, funds and privately held real estate.

Private real estate investments are held by wholly-owned subsidiaries and are managed on behalf of the CPPIB by investment managers through co-ownership arrangements. As at March 31, 2010, the subsidiaries' share of these investments includes assets of \$7,982 million (2009 – \$7,610 million) and \$947 million of secured debt (2009 – \$930 million). The term to maturity of the undisclosed principal repayments of the secured debt at March 31 are as follows:

	(in millions of dollars)	
Proportionate share of net income		
Revenue.....	584	567
Expenses	(364)	(363)
	220	204

ii. Infrastructure investments are generally made directly, but can also occur through limited partnership arrangements that have a typical term of 10 years. As at March 31, 2010, infrastructure includes direct investments with a fair value of \$4,395 million (2009 – \$3,154 million).

iii The term to maturity of the inflation-linker bonds as at March 31 are as follows:

TERMS TO MATURITY
(in millions of dollars)

	2010					2009		
	Within 1 year	1 to 5 years	6 to 10 years	Over 10 years	Total	Average effective yield	Total	Average effective yield
Inflation-linked bonds		141	117	646	904	3.4%	775	2.8%

(e) Securities sold under repurchase agreements and purchased under reverse repurchase agreements

As at March 31, 2010, securities sold under repurchase agreements are \$nil (2009 - \$99 million). The terms to

maturity of the securities purchased under reverse repurchase agreements as at March 31 are as follows:

TERMS TO MATURITY
(in millions of dollars)

	2010					2009		
	Within 1 year	1 to 5 years	6 to 10 years	Over 10 years	Total	Average effective yield	Total	Average effective yield
Securities purchased under reverse repurchase agreements	1,500	2,500			4,000	1.9%	4,000	2.1%

(f) Derivative contracts

A derivative is a financial contract, the value of which is derived from the value of underlying assets, indices, interest rates, currency exchange rates or other market-based factors. Derivatives are transacted through regulated exchanges or are negotiated in over-the-counter markets.

Notional amounts of derivative contracts represent the contractual amounts to which a rate or price is applied for computing the cash flows to be exchanged. The notional amounts are used to determine the gains/losses and fair value of the contracts. They are not recorded as assets or liabilities on the Consolidated Statement of

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

Net Assets. Notional amounts do not necessarily represent the amount of potential market risk or credit risk arising from a derivative contract.

The fair value of these contracts is reported as derivative receivables and derivative liabilities on the Consolidated Schedule of Investments.

The CPPIB uses derivatives to generate value-added investment returns and to limit or adjust market, credit, interest rate, currency, and other financial exposures without directly purchasing or selling the underlying instrument.

- (i) The CPPIB uses the following types of derivative instruments as described below:

Equity contracts

Equity futures are standardized contracts transacted on an exchange to purchase or sell a specified quantity of an equity index, a basket of stocks, or a single stock at a predetermined price and date in the future. Futures contracts may be cash-settled or require physical delivery of the underlying asset.

Equity swaps are over-the-counter contracts in which one counterparty agrees to pay or receive from the other, cash flows based on changes in the value of an equity index, a basket of stocks, or a single stock in exchange for a return based on a fixed or floating interest rate or the return on another instrument.

Variance swaps are over-the-counter contracts where cash flows are exchanged based on the realized variance of an equity index, a basket of stocks, or a single stock compared to the fixed strike level specified in the contract.

Equity options are contractual agreements where the seller (writer) gives the purchaser the right, but not the obligation, to buy or sell a specified quantity of an equity index, a basket of stocks, or a single stock at or before a specified future date at a predetermined price. The seller receives a premium from the purchaser for this right. The CPPIB purchases (buys) and writes (sells) equity options. Equity options may be transacted in standardized amounts on regulated exchanges or customized in over-the-counter markets.

Warrants are transacted both over-the-counter and through exchanges where the issuer gives the purchaser the right, but not the obligation, to buy a specified quantity of stock of the issuer at or before a specified future date at a predetermined price.

Foreign exchange contracts

Foreign exchange forwards are customized over-the-counter contracts negotiated between counterparties to either purchase or sell a specified amount of foreign currencies at a predetermined price and date in the future. These contracts result in a fixed future foreign exchange rate for a period of time.

Interest rate contracts

Bond futures are standardized contracts transacted on an exchange to purchase or sell a specified quantity of a bond index, a basket of bonds, or a single bond at a predetermined price and date in the future. Futures contracts may be cash-settled or require physical delivery of the underlying asset.

Interest rate forwards are customized over-the-counter contracts negotiated between counterparties to either purchase or sell a specified amount of an interest rate sensitive financial instrument at a predetermined price and date in the future. These contracts result in a fixed future interest rate for a period of time.

Bond and inflation-linked bond swaps are over-the-counter contracts in which counterparties exchange the return on a bond, inflation-linked bond or group of such instruments for the return on a fixed or floating interest rate or the return on another instrument.

Interest rate swaps are over-the-counter contracts where counterparties exchange cash flows based on different interest rates applied to a notional amount in a single currency. A typical interest rate swap would require one counterparty to pay a fixed market interest rate in exchange for a variable market interest rate on a specified notional amount. No exchange of notional amount takes place. Cross-currency interest rate swaps involve the exchange of both interest and notional amounts in two different currencies.

Credit contracts

Credit default swaps are over-the-counter contracts that transfer the credit risk of an underlying financial instrument (referenced asset) from one counterparty to another. The CPPIB purchases credit default swaps that provide protection against the decline in value of an underlying financial instrument (referenced asset) as a result of a specified credit event such as default or bankruptcy. The purchaser pays a premium to the seller in return for payment contingent on a credit event affecting the referenced asset.

Canada Pension Plan—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

(ii) Derivative-related risk

The primary risk associated with derivatives are:

Market risk

Derivatives generate value, positive or negative, as the value of underlying assets, indices, interest rates, currency exchange rates, or other market-based factors change such that the previously contracted terms of the derivative transactions have become more or less favourable than what can be negotiated under current market conditions for contracts with the same terms and remaining period to expiry. The potential for derivatives to increase or decrease in value as a result of the foregoing factors is generally referred to as market risk.

The derivative-related market risk is a component of the total portfolio market risk which is managed through the Risk/Return Accountability Framework as described in Note 5.

Credit risk

Credit risk is the risk of a financial loss occurring as a result of the failure of a counterparty to meet its

obligations to the CPPIB. The maximum exposure to credit risk is represented by the positive fair value of the derivative instrument and is normally a small fraction of the contract's notional amount. Negotiated over-the-counter derivatives generally present greater credit exposure than exchange-traded contracts. Credit risk on exchange-traded contracts is limited, as these transactions are executed on regulated exchanges, each of which is associated with a well-capitalized clearing house that assumes the obligation of the writer of a contract and guarantees their performance.

The CPPIB limits credit risk on over-the-counter contracts through a variety of means including dealing only with authorized counterparties of a minimum credit rating and limiting the maximum exposures to any individual counterparty, the use of master netting agreements and collateral as discussed in Note 5.

(iii) The fair value of derivative contracts held is as follows:

Canada Pension Plan—ContinuedNOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued*(h)* Collateral

Collateral transactions are conducted under the terms and conditions that are common and customary to collateral arrangements. The net fair value of collateral held and pledged as at March 31 is as follows:

	2010	2009
	(in millions of dollars)	
Fixed income securities held as collateral on reverse repurchase agreements ⁽¹⁾	4,088	4,084
Cash held as collateral on over-the-counter derivative transactions	68	
Fixed income securities pledged as collateral on repurchase agreements		(100)
Securities pledged as collateral on guarantees (see Note 14c)	(120)	
	4,036	3,984

⁽¹⁾ The total fair value of the collateral held that may be sold or repledged as at March 31, 2010 is \$3,923 million (2009 - \$3,923 million). The fair value of the securities collateral sold or repledged as at March 31, 2010 is \$nil (2009 - \$nil).

8. Credit facilities

The CPPIB maintains \$1.5 billion (2009 – \$1.5 billion) of unsecured credit facilities to meet potential liquidity requirements. As at March 31, 2010, the total amount drawn on the credit facilities is \$nil (2009 – \$nil).

9. Payables and accrued liabilities

Payables and accrued liabilities are comprised of the following:

	2010	2009
	(in millions of dollars)	
Operation expenses	131	124
Pensions and benefits payable	224	229
Tax deductions due to Canada		
Revenue Agency	120	115
	475	468

⁽¹⁾ Includes interest income, dividends, private real estate operating income (net of interest expense), and interest expense on the debt financing liabilities and repurchase agreements.

⁽²⁾ Includes realized gains and losses from investments, unrealized gains and losses on investments held at the end of the year, and other investment-related expenses.

⁽³⁾ Includes foreign exchange gains of \$10,052 million (2009 – foreign exchange losses of \$6,789 million).

⁽⁴⁾ Includes net unrealized losses of \$1,257 million (2009 – \$1,209 million) which represent the change in fair value estimated on direct investments in private equities, infrastructure, private real estate, private debt and certain derivatives, where the fair value is derived primarily from assumptions based on non-observable market data.

⁽⁵⁾ Includes absolute return strategies.

11. Operating expenses

	2010	2009
	(in millions of dollars)	
General operating expenses	321	309
Salaries and benefits	393	364
Professional and consulting fees	20	21
	734	694

12. Net assets and changes in net assets for accountability purposes

The administration of the CPP's assets and activities is shared between various government of Canada's departments and the CPPIB. The CPPIB is responsible for investing the majority of the CPP's assets, while the Government of Canada (GoC), through various federal departments, manages the remainder of the assets, as well as the collection of the CPP contributions and the administration and payments of the CPP benefits. For accountability purposes, the following table presents summary information on the levels of assets and liabilities and sources of income and expenses managed by the GoC and the CPPIB respectively.

Canada Pension Plan—Continued

Pursuant to Section 108.1 of the CPP Act and the Agreement dated as of April 1, 2004, amounts not required to meet specified obligations of the CPP are transferred weekly to the CPPIB. The funds originate from employer and employee contributions to the CPP and interest income generated from the deposit with the Receiver General.

In September 2004, the CPPIB assumed responsibility for providing cash management services to the CPP, includ-

ing periodic return, on at least a monthly basis, of funds required to meet CPP pension, benefits and operating expenses obligations.

During the year ended March 31, 2010, a total of \$30.3 billion was transferred to the CPPIB and a total of \$24.2 billion was returned to the CPP to meet its liquidity requirements.

ACTIVITIES DURING THE YEAR

(in millions of dollars)

Accumulated transfers to CPPIB, end of year	212,512	182,204
Accumulated transfers from CPPIB, beginning of year	(85,282)	(62,714)
Transfers of funds from CPPIB	(24,161)	(22,568)
Accumulated transfers from CPPIB, end of year	(109,443)	(85,282)
Net accumulated transfers to CPPIB	103,069	96,922

13. Commitments

The CPPIB has committed to enter into investment transactions, which will be funded over the next several years in accordance with the agreed terms and conditions. As at March 31, 2010, the commitments total \$18.0 billion (2009 – \$23.9 billion).

As at March 31, 2010, the CPPIB is also committed to redeem exchangeable bonds for a subsidiary up to a maximum of \$0.2 billion (2009 - \$nil) and to provide inter-company loan facilities to certain subsidiaries for up to \$0.6 billion (2009 - \$nil).

Canada Pension Plan—Concluded

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Concluded

As at March 31, 2010, the CPPIB has made lease and other commitments of \$39.5 million (2009 - \$54.7 million) that will be paid over the next eight years.

14. Contingent liabilities**(a) Appeals relating to the payment of pensions and benefits**

At March 31, 2010, there were 7,449 (6,810 in 2009) appeals relating to the payment of CPP disability benefits. These contingencies are reasonably estimated, using historical information, at an amount of \$72 million (\$71 million in 2009), which was recorded as an accrued liability in the CPP 2009-2010 financial statements.

(b) Other claims and legal proceedings

In the normal course of operations, the CPP is involved in various claims and legal proceedings. While the total amount claimed in these actions may be material, their outcomes are not determinable. The CPP records an allowance for claims and legal proceedings when it is likely that there will be a future payment and a reasonable estimate of the loss can be made. No such allowance was recognized in the financial statements for the 2009-2010 and 2008-2009 fiscal years for these claims and legal proceedings.

(c) Guarantees

As part of certain investment transactions entered into during the year ended March 31, 2010, the CPPIB has agreed to guarantee up to \$0.6 billion to other

counterparties in the event certain subsidiaries and other entities default under the terms of loan and other related agreements. To date, the CPPIB has not received any claims nor made any payments pursuant to such guarantees.

(d) Indemnifications

The CPPIB provides indemnifications to its officers, directors, certain others and, in certain circumstances, to various counterparties and other entities. The CPPIB may be required to compensate these indemnified parties for costs incurred as a result of various contingencies such as changes in laws and regulations and litigation claims. The contingent nature of the indemnification agreements prevents the CPPIB from making a reasonable estimate of the maximum potential payments the CPPIB could be required to make. To date, the CPPIB has not received any claims nor made any payments pursuant to such indemnifications.

15. Related party transactions

In addition to the information already disclosed in the other Notes to the Consolidated Financial Statements, the CPP has \$3,854 million (2009 - \$4,662 million) of contributions receivable from the Canada Revenue Agency.

The CPP enters into transactions with the Government of Canada in the normal course of business, which are recorded at the exchange value. The costs are based on estimated allocations of costs and are charged to the CPP in accordance with various memoranda of understanding.

Government Annuities Account

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The financial statements of the Government Annuities Account have been prepared in accordance with Canadian generally accepted accounting principles, by the management of Human Resources and Skills Development Canada. Management is responsible for the integrity and objectivity of the information in the financial statements, including the amounts which must, of necessity, be based on best estimates and judgment.

In support of its responsibility for the integrity and fairness of the financial statements, management has developed and maintains books of account, financial and management controls, information systems and management practices. These are designed to provide reasonable assurance that transactions comply with relevant authorities, assets are safeguarded and proper records are maintained.

The management of Human Resources and Skills Development Canada recognizes the responsibility of conducting its affairs in compliance with the *Government Annuities Act*, the *Government Annuities Improvement Act* and regulations.

The Auditor General of Canada, the external auditor of the Government Annuities Account, conducts an independent audit of the financial statements in accordance with Canadian generally accepted auditing standards and reports to the Minister of Human Resources and Skills Development.

REPORT OF THE ACTUARY

I have valued the actuarial liabilities in the balance sheet of the Government Annuities Account as at March 31, 2010 and their change in the Account's statement of operations and actuarial liabilities for the year then ended.

As prescribed in the *Government Annuities Regulations*, the valuation was based on the mortality rates from the 1983 mortality tables published by the Society of Actuaries, for individual and group annuities respectively, modified by Projection Scale G. The valuation assumed a seven percent annual interest rate, also as stipulated in the *Regulations*.

The valuation was conducted in accordance with accepted actuarial principles to the extent that they apply. Significant differences are as follows: first, the Account's assets are in the form of a deposit with the Receiver General for Canada, so actuarial liabilities were based on the present value of future payments discounted at the prescribed interest rate; second, administrative expenses are paid by the government out of general funds, so no provision is made in the valuation; and finally, given the need for a realistic valuation and based on the size and long standing existence of this group of annuitants, there are no added margins for mortality risks.

In my opinion, the valuation is appropriate, it conforms to statutory requirements and the financial statements fairly present its results.

Government Annuities Account—Continued

AUDITOR'S REPORT

TO THE MINISTER OF HUMAN RESOURCES AND SKILLS
DEVELOPMENT

I have audited the balance sheet of the Government Annuities Account as at March 31, 2010 and the statements of operations and actuarial liabilities and cash flow for the year then ended. These financial statements are the responsibility of the management of Human Resources and Skills Development Canada. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Account as at March 31, 2010 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Further, in my opinion, the transactions of the Account that have come to my notice during my audit of the financial statements have, in all significant respects, been in accordance with the *Government Annuities Act*, the *Government Annuities Improvement Act* and regulations.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010

1. Authority, Objective and Responsibilities

The Government Annuities Account (the Account) was established in 1908 by the *Government Annuities Act*, as modified by the *Government Annuities Improvement Act*.

The purpose of the *Government Annuities Act* was to assist individuals and groups of Canadians to prepare financially for their retirement by purchasing Government Annuities. In 1975, the *Government Annuities Improvement Act* discontinued future sales of Government Annuity contracts. Annuities are deferred until their maturity date, at which time payments to annuitants begin.

The Account is administered by Human Resources and Skills Development Canada and operates through the Consolidated Revenue Fund.

Government Annuities Account—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Continued

2. Significant Accounting Policies

(a) Basis of presentation

The financial statements of the Account are prepared in accordance with Canadian generally accepted accounting principles.

(b) Actuarial liabilities

The method utilized to calculate the actuarial liabilities is in accordance with the *Government Annuities Improvement Act* and regulations.

Actuarial liabilities comprise, in respect of deferred and matured annuities, the present value of such annuities actuarially determined on the basis of such rate or rates of interest and mortality tables as is prescribed.

(c) Actuarial surplus/deficit

At the end of any fiscal year, the recorded amount of actuarial liabilities may be different than the amount of actuarial liabilities determined by the actuary. The difference is recorded as an actuarial surplus or deficit, which is remitted to or recovered from the Consolidated Revenue Fund.

(d) Interest from Canada

Interest from Canada is recorded on an accrual basis and is calculated on actuarial liabilities as prescribed by the *Government Annuities Improvement Act*.

(e) Unclaimed annuities

Unclaimed annuities represent amounts transferred to the Consolidated Revenue Fund in respect of annuities that could not be paid because the annuitants could not be located.

(f) Reclaimed annuities

Reclaimed annuities represent previously unclaimed amounts that had been transferred to the Consolidated Revenue Fund. Where the annuitants are subsequently located, the actuarial value of these annuities is transferred back to the Account.

(g) Services received without charge

Administrative services, including actuarial services, received without charge from Human Resources and Skills Development Canada are recorded in the Statement of Operations and Actuarial Liabilities at their estimated carrying amount. A corresponding amount is credited directly to the Statement of Operations and Actuarial Liabilities.

(h) Measurement uncertainty

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amount of assets, actuarial liabilities, and income at the date of the financial statements. Despite the use of management's best estimates, it is possible that the amounts for the actuarial liabilities and related accounts could change materially in the near term.

3. Future Accounting Standards

Section 4600 Pension Plans and International Financial Reporting Standards (IFRS)

The Account's financial statements are prepared in accordance with Canadian generally accepted accounting principles, largely based on Section 4100 Pension Plans. In April 2010, the Accounting Standards Board issued Section 4600 Pension Plans to replace Section 4100 for annual financial statements relating to fiscal years beginning on or after January 1, 2011. Section 4100 continues to be applied until Section 4600 takes effect. The Section 4600 provides standards for the accounting and disclosure of investments or pension obligations of a pension plan. Section 4600 also requires pension plans of publicly accountable enterprises to follow IFRS to the extent that those standards do not conflict with the requirements of Section 4600. Consequently, a pension plan of a publicly accountable enterprise may apply IFRS in selecting accounting policies other than policies of the plan that relate to its investments or pension obligations.

The management of Human Resources and Skills Development Canada will assess the impact of the adoption of these changes on the Account's financial statements that are effective for the fiscal year commencing April 1, 2011.

4. Premiums deposited with Receiver General for Canada

Premiums are deposited with the Receiver General for Canada. This deposit earns interest at a rate of seven percent in accordance with the *Government Annuities Improvement Act*. Due to the short-term nature, the carrying value of the deposit with the Receiver General for Canada approximates its fair value.

Government Annuities Account—Concluded

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2010—Concluded

5. Actuarial liabilities

The *Government Annuities Act* and regulations prescribe the basis upon which actuarial values are to be determined. The regulations require the discounting of expected future payments using an annual interest rate of seven percent. Future payments are to be estimated using the mortality rates from the 1983 mortality tables published by the Society of Actuaries, for individual and group annuities respectively, modified by Projection Scale G. The Chief Actuary has indicated that these assumptions provide a reasonable estimate of the actuarial liabilities of the Account.

6. Financial Instruments

The Account's financial instruments include the deposits with Receiver General for Canada and actuarial surplus due to Canada. The carrying value of these financial instruments approximates their fair value.

7. Financial Risk Management

The Account is not exposed to any significant market risk, liquidity risk, or credit risk from its use of financial instruments.

8. Capital Management

The Account does not manage capital as all deposits and withdrawals to the Account are made to the Consolidated Revenue Fund (CRF) of Canada and returns on deposits are legislated through the *Government Annuities Improvement Act*. In addition, any deficit or surplus in the Account is charged or credited to the CRF.

The Account is valued on an actuarial basis each year, with the objective of reporting the present value of the deferred and matured annuities to the Government of Canada to ensure the Account is sufficiently funded.

The Account has no externally imposed restrictions on capital. There has been no change in the Account's approach to capital management over the prior year.

9. Respective roles of the valuation actuary and of the auditor

In accordance with the Joint Policy Statement of the Canadian Institute of Chartered Accountants and the Canadian Institute of Actuaries, dated October 2007, it is appropriate to include a description of the respective roles of the actuary and of the auditor with respect to the financial statements. Their respective roles are as follows:

Human Resources and Skills Development Canada's Chief Actuary determines and reports on the amount of actuarial liabilities for annuity contracts issued under the *Government Annuities Act*, as shown in the financial statements. This valuation is conducted in accordance with accepted actuarial principles, as adapted to the circumstances of the Account. The Chief Actuary also ensures that the method used to calculate the actuarial liabilities is in accordance with the *Government Annuities Improvement Act* and regulations.

The Auditor General of Canada expresses an opinion on the fair presentation of the financial statements prepared by management in accordance with Canadian generally accepted accounting principles. The Auditor General of Canada also expresses an opinion on whether the transactions that come to the auditor's attention are, in all significant respects, in accordance with the *Government Annuities Act*, the *Government Annuities Improvement Act* and regulations. The audit is conducted in accordance with Canadian generally accepted auditing standards issued by the Canadian Institute of Chartered Accountants.

10. Related Party Transactions

The Account is related in terms of common ownership to all Government of Canada created departments, agencies and Crown corporations.

Royal Canadian Mounted Police (Dependants) Pension Fund

MANAGEMENT RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of the Royal Canadian Mounted Police (Dependants) Pension Fund is responsible for the preparation of the financial statements. These financial statements have been prepared in accordance with Canadian generally accepted accounting principles. They include management's best estimates and judgments when appropriate.

Responsibility for the integrity and objectivity of the financial statements rests with the management of the Royal Canadian Mounted Police (Dependants) Pension Fund. In support of its responsibility, management has developed and maintained books, records, internal controls and management practices, designed to provide reasonable assurance as to the reliability of the financial information, that assets are safeguarded and controlled, and that transactions of the Fund are in accordance with the *Financial Administration Act* and regulations and, as appropriate, the *Royal Canadian Mounted Police Pension Continuation Act*.

These financial statements have been audited by the Auditor General of Canada, the independent auditor for the Government of Canada.

AUDITOR'S REPORT

TO THE MINISTER OF PUBLIC SAFETY

I have audited the statement of net assets available for benefits and excess of actuarial value of net assets available for benefits over accrued pension benefits of the Royal Canadian Mounted Police (Dependants) Pension Fund as at March 31, 2010 and the statements of changes in net assets available for benefits and changes in accrued pension benefits for the year then ended. These financial statements are the responsibility of the Fund's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the net assets available for benefits and excess of actuarial value of net assets available for benefits over accrued pension benefits of the Fund as at March 31, 2010 and the changes in net assets available for benefits and changes in accrued pension benefits for the year then ended in accordance with Canadian generally accepted accounting principles.

Further, in my opinion, the transactions of the Fund that have come to my notice during my audit of the financial statements have, in all significant respects, been in accordance with the applicable provisions of the *Financial Administration Act* and the *Royal Canadian Mounted Police Pension Continuation Act*.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED MARCH 31

1. Description of the Fund

The following summary description of the Royal Canadian Mounted Police (Dependants) Pension Fund (the Fund) is for general information only. For more complete information, reference should be made to the *Royal Canadian Mounted Police Pension Continuation Act* (the Act). All monetary transactions of the Fund are made through a specified purpose account in the Consolidated Revenue Fund (CRF).

(a) General

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in 1934 pursuant to the *Royal Canadian Mounted Police Act* and is currently operated under Part IV of the *Royal Canadian Mounted Police Pension Continuation Act* (effective 1959) and the related Regulations.

The Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions.

The Fund is accounted for using the standards applicable to a defined benefit pension plan.

(b) Funding policy

All eligible members have now retired and, as such, there are no more active members contributing to the Fund; however, retired members may continue to make instalment payments in respect of previous elections made before their retirement.

**Royal Canadian Mounted Police (Dependants)
Pension Fund—Continued**

NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED MARCH 31—Continued

The *Act* directs the Minister of Finance to have an actuarial valuation of the Fund prepared at least every five years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase the benefit payments. If there is an actuarial deficiency, the Governor in Council may direct that there be amounts transferred to the Fund, out of any unappropriated moneys in the CRF, as may be required to re-establish the solvency of the Fund.

(c) Interest income

The Government of Canada credits the Fund with interest computed quarterly on the amount due from the Consolidated Revenue Fund at the end of the preceding quarter. The rate of interest is determined by the Minister of Finance on a quarterly basis and is equal to the rate used in other government Superannuation accounts. The rate is calculated as though the amounts recorded were invested in a notional portfolio of Government of Canada 20 year bonds held to maturity.

(d) Basic death benefits

The following benefits, as applicable, are payable on the death of a member who has made the scheduled contributions and has left them in the Fund.

i. Widow's pension benefit

The widow is entitled to the pension purchased by the member. In many cases the pension benefit equals approximately 1.5% of the member's final pension benefit payment multiplied by his years of credited service. The pension benefit is payable for life with a guarantee that the total payments shall be no less than the member's contributions.

ii. Eligible children's annuities

An annuity, not exceeding 7% of the member's final pension payment, is payable to each surviving child eligible in accordance with the provisions of the *Act* at that time. If there is no surviving widow or if the widow dies before the child's annuity ceases, the amount of the annuity doubles.

iii. Lump sum benefits

If a member is not survived by a widow, a lump sum payment is made to the dependants and relatives of the member who are, in the opinion of the Minister, best entitled to share the benefit. This lump sum shall be equal in value to a pension for female aged 20 years older than the deceased member at death but not exceeding 75 years.

iv. Benefit limitations

Under certain circumstances, the basic death benefits payable to a surviving widow are reduced. This can occur when a member marries after age 60; in that case, the value of the pension to the widow cannot exceed the lump sum payable if he were not survived by a widow.

(e) Dividends on death benefits

The *Act* provides that if the Fund is substantially in excess of the amount required to make adequate provision for the prospective payments, the Governor in Council may, by order, increase the benefits provided under Part IV of the *Act* in such manner as may appear equitable and expedient. The authority of the Governor in Council is delegated to the Treasury Board under section 7(2) of the *Financial Administration Act*.

To date, most of these benefit increases have taken the form of proportionate dividends applied to all basic death benefits, both accrued and prospective.

(f) Withdrawal of contributions

A retired member who did not elect to withdraw his contributions from the Fund upon retirement retains the right to do so at any time thereafter; however, all his rights under Part IV of the *Act* and those of his dependants shall cease upon such election. All returns of contributions are made without interest.

2. Significant accounting policies

The financial statements present the aggregate financial position of the Fund as a separate financial reporting entity independent of the sponsor and Fund members. They are prepared to assist Fund members and others in reviewing the activities of the Fund for the fiscal period but they do not portray the funding requirements of the Fund.

These financial statements are prepared in accordance with Canadian generally accepted accounting principles on a going concern basis. The significant accounting policies are:

(a) Adoption of new accounting standards

On April 1, 2009, the Fund adopted the new Canadian Institute of Chartered Accountants (CICA) Handbook Section 3064, *Goodwill and Intangible Assets*. Additionally, amendments to Section 3862, *Financial Instruments - Disclosures*, Section 3855, *Financial Instruments - Recognition and Measurement* and Section 1000, *Financial Statement Concepts* were adopted.

Royal Canadian Mounted Police (Dependants) Pension Fund—Continued

NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED MARCH 31—Continued

Goodwill and Intangible Assets

In February 2008, the CICA issued new accounting standard Handbook Section 3064, Goodwill and Intangible Assets, applicable for fiscal years beginning on or after October 1, 2008, which the Fund adopted retrospectively, effective April 1, 2009. New Section 3064 which replaces CICA Handbook Section 3062, Goodwill and Other Intangible Assets and Section 3450, Research and Development Costs, provides guidance for the identification, recognition, and measurement of externally acquired or internally developed intangible assets and requires separate asset disclosure. This new section had no material impact on the Fund.

Financial instruments - disclosures

Effective April 1, 2009, the Fund adopted the recent amendments to Section 3862, Financial Instruments - Disclosures. The amendments enhance required disclosures related to fair value measurements, including the relative reliability of the inputs used in those measurements and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of fair value hierarchy are as follows:

- | | |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the investment manager has the ability to access at the measurement date. |
| Level 2 | Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active. |
| Level 3 | Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgement or estimation. |

The carrying amount of the Consolidated Revenue Fund approximates fair value based on level 1 inputs due to the relatively short-term nature of these financial instruments and is classified as held for trading.

Additionally, the requirement for liquidity risk disclosure was enhanced with the inclusion of a maturity risk analysis for derivative and non-derivative financial instruments.

Financial instruments - recognition and measurement

In June 2009, the CICA clarified Section 3855 with respect to the effective interest method which is used for calculating the amortized cost of financial assets and financial liabilities and of allocating the interest income or interest expense over the relevant period. This clarification had no material impact on the Fund.

Financial Statement Concepts

In February 2008, the CICA issued amendments to Section 1000, Financial Statement Concepts to clarify the criteria for recognition of an asset and the timing of expense recognition. The new requirements are effective for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2008. Effective April 1, 2009, the Fund adopted the amendments to Section 1000 which did not have any impact on the Fund's financial statements.

- (b) Interest income on the amount due from the Consolidated Revenue Fund

Interest on the amount due from the Consolidated Revenue Fund is recognized on an accrual basis.

- (c) Benefit payments

Benefits are accrued as pensionable service accumulates and are recognized as a reduction of accrued pension benefits and net assets available for benefits when paid.

- (d) Services provided without charge and related party transactions

The Fund does not record the value of administrative services it receives without charge from various government departments and agencies as they are insignificant in the context of the financial statements taken as a whole. These services include the following:

- Financial management and other support services from the Royal Canadian Mounted Police;
- Actuarial valuation and other services from the Office of the Superintendent of Financial Institutions;
- Cheque issue from Public Works and Government Services Canada; and
- Auditors' cost from the Office of the Auditor General.

- (e) Use of estimates

In preparing these financial statements, management uses estimates and assumptions that primarily affect the reported values of the liabilities. Significant esti-

**Royal Canadian Mounted Police (Dependants)
Pension Fund—Concluded**

NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED MARCH 31—Concluded

mates are used primarily in the determination of accrued pension benefits which have been disclosed in Note 3.

(f) Future Accounting Policy Change

The Fund's financial statements are prepared in accordance with Canadian generally accepted accounting principles, largely based on Section 4100 Pension Plans. In April 2010, the Canadian Institute of Chartered Accountants issued Section 4600 Pension Plans to replace Section 4100 for annual financial statements relating to fiscal years beginning on or after January 1, 2011. Section 4100 continues to be applied until Section 4600 takes effect. The revised Section 4600 provides standards for the accounting and disclosure of investments or pension obligations of a pension plan. Section 4600 also requires pension plans of publicly accountable enterprises to follow International Financial Reporting Standards (IFRS) to the extent that those standards do not conflict with the requirements of Section 4600. Consequently, a pension plan of a publicly accountable enterprise may apply IFRS in selecting accounting policies other than policies of the plan that relate to its investments or pension obligations.

The fund will assess the impact of the adoption of these changes on its financial statements that are effective for the fiscal year commencing April 1, 2011.

3. Accrued pension benefits

The most recent statutory actuarial valuation was performed as at March 31, 2007 by the Office of the Superintendent of Financial Institutions. The valuation disclosed an actuarial surplus of \$3,782,000. A portion of this surplus was distributed by annual effective increases in the pension amount of 2.2% as at April 1, 2008, 2.2% as at April 1, 2009, and will be distributed by annual effective increases in the pension amount of 2.2% as at April 1, 2010 and by increases to lump sum death benefits and residual payments. The cumulative increase to the basic pension amount is 1.095% effective April 1, 2008, 1.121% effective April 1, 2009, and 1.148% effective April 1, 2010.

The remaining balance of the actuarial surplus is intended to be used over the remaining life of the Fund for the payment of increases in the pension benefits. The average ages of members and widows were both estimated to be 84 years and the remaining lifetime of the Fund was estimated at 31 years as at March 31, 2007.

The obligations for pension benefits are determined on an actuarial basis and incorporate the actuary's best estimates of future Fund yields, mortality rates, proportion of members married, and age of new widows.

The current Fund yield of 6.83% per annum (7.10% in 2009) is consistent with the estimated yield (6.85%) used

for the immediate future in the actuarial valuation. The expected long-term Fund yield is estimated to decline to 5.10% per annum by the year 2025 and to rise to the ultimate level of 5.35% by 2032. Variations in any of these assumptions can result in a significantly higher, or lower, estimate of the liability.

An interim valuation was performed as at March 31, 2010, to estimate the actuarial present value of accrued pension benefits and the principal components of change in the actuarial present value during the plan year.

4. Financial instruments

The financial instruments of the Fund include the amount due from the Consolidated Revenue Fund. The carrying value of the amount due from the Consolidated Revenue Fund approximates fair value due to its short term nature.

5. Capital management

The primary objective with respect to capital management is to ensure that the Fund has adequate capital to meet its obligations to all current Fund members and their survivors.

The Fund is not subject to any externally imposed capital requirements and the surpluses or deficits are determined regularly by an actuarial valuation that is prepared by an independent actuary and considered as the Fund's capital.

The actuary's valuation is used to measure the long-term health of the Fund. The actuary tests the Fund's ability to meet its obligations to all current Fund members and their survivors.

Using an assumed rate of return, the actuary projects the Fund's benefits to estimate the current value of the liability (see note 3), which is compared to the Fund's asset (due from the CRF) and the future contributions for all current Fund members. The result of the comparison is either a surplus or a deficit. In either case, the funding policy as described in Note 1 b) will be used to ensure that the capital of the Fund is maintained.

There have been no changes to the capital management policy of the Fund.

6. Financial risk management

The Fund is not exposed to any significant market risk, liquidity risk, or credit risk from its use of financial instruments. Accordingly, the Fund has not provided a market risk sensitivity analysis.

Cash and Cash Equivalents

Cash consists of public moneys on deposit and cash in transit at March 31st. Cash in bank consists of public moneys on deposit to the credit of the Receiver General for Canada, with the Bank of Canada, chartered banks and other financial institutions. Cash in transit consists of public moneys received by public officers prior to April 1, but not deposited by that date as well as cash held by consolidated Crown corporations and other entities. Outstanding cheques and warrants are deducted to arrive at the closing cash balance.

Cash equivalents consist mainly of term deposits resulting from auctions administered by the Bank of Canada and the Department of Finance on behalf of the Minister of Finance. The short term deposits, denominated in Canadian dollars, are made from a portion of the daily surplus of cash balance and have a short term maturity, usually not exceeding 31 calendar days.

Table 7.2 presents a summary of the cash and cash equivalents.

TABLE 7.2

Total cash and cash equivalents	28,450,328,245	46,985,093,976

⁽¹⁾ The balances denominated in foreign currencies (United Kingdom pounds sterling, United States dollars and Euros) have been translated into Canadian dollar equivalents and include cash in bank and outstanding cheques.

⁽²⁾ These are balances in the hands of financial institutions for the reimbursement of GST refund payments issued by the "ministère du Revenu du Québec" on behalf of the government.

⁽³⁾ These funds are not public moneys to the credit of the Receiver General for Canada but are for the exclusive use of consolidated Crown corporations and other entities.

⁽⁴⁾ Cheques and Employment Insurance warrants issued in Canadian dollars, and outstanding are recorded in this account. Cheques outstanding for 10 years are transferred to non-tax revenues. During the year, an amount of \$33,703,294 (\$30,130,605 in 2009) was transferred to non-tax revenues. Cheques in foreign currencies are credited to the Government's cash account at the time of issue.

⁽⁵⁾ Imprest account cheques issued and unpaid at March 31, with the exception of those outstanding for 10 years or more (which have been transferred to non-tax revenues), are recorded in this account.

7.2 CASH AND ACCOUNTS RECEIVABLE

Taxes Receivable

Taxes receivable include amounts assessed by Canada Revenue Agency and the Canada Border Services Agency but not yet collected, as well as estimates of unassessed taxes at year-end. Amounts receivable also include related amounts for interest and penalties.

Taxes receivable include taxes, premiums and contributions collectable on behalf of others such as provincial, territorial governments and the Canada Pension Plan. These amounts have also been included in liabilities.

The Government establishes an allowance for doubtful accounts to reduce the carrying value of the taxes receivable to amounts that approximate their net realizable value.

Table 7.3 presents taxes receivable by tax stream. Amounts receivable that are written off or forgiven are included in Section 2 of Volume III (Debts, obligations and claims written off or forgiven).

Other Accounts Receivable

Other accounts receivable represent billed (but uncollected) and unbilled or accrued financial claims arising from amounts owed to the Government for use of its assets, or from the proceeds for provision of services as of March 31, 2010.

Amounts receivable written off or forgiven are included in Section 2 of Volume III (Debts, obligations and claims written off or forgiven).

Table 7.5 presents a summary of the balances for other receivables.

FOREIGN EXCHANGE ACCOUNTS

Foreign exchange accounts represent financial claims and obligations of the Government as a result of Canada's foreign exchange operations. Financial claims and obligations denominated in foreign currencies are reported at Canadian dollar equivalents at March 31. Investment income from the foreign exchange accounts and net gains and losses resulting from the translation of the net assets denominated in foreign currencies, to Canadian dollar equivalents as at March 31, are recorded in foreign exchange net revenues on the Statement of Operations and Accumulated Deficit.

Table 8.1 presents the continuity of each foreign exchange account, by showing the opening and closing balances, as well as payments and other charges and receipts and other credits. It should be noted, however, that this table excludes unmatured debt payable in foreign currencies, amounting to \$8,243 million as at March 31, 2010 (\$10,381 million as at March 31, 2009); details relating to these obligations are presented in Section 6 of this volume. A narrative description is provided for accounts reported in some tables. Such description follows the same presentation order as the respective tables.

International Reserves Held in the Exchange Fund Account

This account records the moneys advanced from the Government to the Exchange Fund Account, in Canadian and other currencies, for the purchase of gold, foreign currencies and securities, and special drawing rights (SDRs).

The Exchange Fund Account is operated under the provisions of the *Currency Act*. In accordance with this Act, audited financial statements for the Exchange Fund Account are prepared for each year. The financial statements as at March 31, 2010, together with the Auditor General's report thereon, are found at the end of this section.

Table 8.2 shows international reserves held in and advances to the Exchange Fund Account as at March 31, 2010. Gold held by the Account is valued at 35 SDRs per fine ounce (\$53.98 Cdn as at March 31, 2010 and \$66.00 Cdn as at March 31, 2009).

In 2009-2010, payments and other charges consisted of advances to the Exchange Fund Account in the amount of \$41,384 million and an adjustment of \$1,456 million to recognize the net income of the Exchange Fund Account for the period April 1, 2009 to March 31, 2010. Receipts and other credits consisted of repayments of advances of \$31,593 million and a net valuation adjustment of \$8,740 million.

**International Monetary Fund—
Subscriptions**

This account records the value of Canada's subscription (its "quota") to the capital of the International Monetary Fund (IMF).

The amount by which the sum of Canada's subscriptions plus loans to the IMF under special facilities exceeds the IMF's holdings of Canadian dollars represents the amount of foreign exchange which Canada is entitled to draw from the IMF on demand for balance of payments purposes. The subscription is expressed in terms of SDR, a unit of account defined in terms of a "basket" of four major currencies, the Euro, US dollar, Pound sterling and Japanese yen.

Canada has accumulated its subscriptions through settlements to the IMF in Canadian dollars, gold and SDRs. Annual maintenance of value payments are made to, or received from, the IMF when the Canadian dollar depreciates or appreciates against the SDR, in order to maintain the SDR-value of the IMF's holdings of Canadian dollars.

In 2009-2010, receipts and other credits consisted of a valuation adjustment of \$2,188 million.

International Monetary Fund—Loans

This account records the value of interest-bearing loans made under Canada's bi-lateral borrowing agreement with the IMF.

On July 6, 2009, the Government of Canada entered into a two-year, bi-lateral borrowing agreement with the IMF. The maximum borrowings of the IMF under this agreement are limited to the equivalent of \$10 billion US. The purpose of the agreement is to provide temporary resources for member countries requiring balance of payment assistance during the global economic crisis.

Each drawing under the agreement has a term to maturity of three months and bears interest at the SDR rate. Amounts advanced under this agreement are considered part of the Official International Reserves of Canada.

**International Monetary Fund—Notes
Payable**

This account records non-marketable, non-interest bearing notes issued by the Government to the IMF. These notes are payable on demand and are subject to redemption or re-issue, depending on the needs of the IMF for Canadian currency.

Canadian dollar holdings of the IMF include these notes and a small working balance (initially equal to one-quarter of one percent of Canada's subscription) held on deposit at the Bank of Canada. In 2009-2010, notes payable to the IMF decreased by \$2,351 million.

Special Drawing Rights Allocations

This account records the value of SDRs allocated to Canada by the IMF. The special drawing right is an international currency created by the IMF, and allocated to countries participating in its Special Drawing Rights Department. It represents a liability of Canada, as circumstances could arise whereby Canada could be called upon to repay these allocations, in part or in total.

As an asset, SDRs represent rights to purchase currencies of other countries participating in the IMF's Special Drawing Rights Department, as well as to make payments to the IMF itself. All SDRs allocated to Canada by the IMF have either been used to settle subscriptions in the IMF, or have been advanced to the Exchange Fund Account.

There were 5,209 million SDRs allocated by the IMF to Canada during the year. In 2009-2010, payments and other charges consisted of a valuation adjustment of \$1,095 million.

SUPPLEMENTARY STATEMENT

Exchange Fund Account

STATEMENT OF RESPONSIBILITY

Responsibility for the financial statements of the Exchange Fund Account (the Account) and all other information presented in this Annual Report rests with the Department of Finance. The operations of the Account are governed by the provisions of Part II of the *Currency Act*. The Bank of Canada administers the Account, as fiscal agent for the Government of Canada.

The financial statements were prepared in accordance with the accounting policies set out in Note 2 to the financial statements, which are consistent with those used by the Government of Canada, and do not result in any significant differences from Canadian generally accepted accounting principles for the public sector. These policies were applied on a basis consistent with that of the preceding year. The information included in these financial statements is based on the best estimates and judgement of the Department of Finance and the Bank of Canada, with due consideration given to materiality.

The Department of Finance establishes policies for the Account's transactions and investments. It also ensures that the Account's activities comply with the statutory authority of the *Currency Act*.

The Bank of Canada maintains appropriate financial systems and related internal controls to provide reasonable assurance that financial information is reliable, assets are safeguarded and transactions are properly authorized in accordance with the *Currency Act*. The system of internal control is supported by an internal audit department, whose functions include reviewing internal controls, including accounting and financial controls and their application. The Bank reports to the Department of Finance on the financial position of the Account and on the results of its operations.

The Auditor General of Canada conducts an independent audit of the financial statements of the Account and reports the results of her audit to the Minister of Finance.

The Annual Report of the Account is tabled in Parliament along with the financial statements, which are also part of the Public Accounts of Canada, and are referred to the Standing Committee on Public Accounts, which reports to Parliament on the results of its examination together with any recommendations it may have with respect to the financial statements and accompanying audit opinion.

AUDITOR'S REPORT

TO THE MINISTER OF FINANCE

I have audited the statement of financial position of the Exchange Fund Account as at 31 March 2010 and the statements of operations and cash flows for the year then ended. These financial statements are the responsibility of the Account's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Account as at 31 March 2010 and the results of its operations and its cash flows for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements, which conform with Canadian generally accepted accounting principles.

Further, in my opinion, the transactions of the Account that have come to my notice during my audit of the financial statements have, in all significant respects, been in accordance with Part II of the *Currency Act*.

Exchange Fund Account—ContinuedNOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2010

(Amounts in the notes to the financial statements are in millions of Canadian dollars, unless otherwise stated.)

1. Authority and objective

The Exchange Fund Account (the Account) is governed by Part II of the *Currency Act*. The Account is in the name of the Minister of Finance and is administered by the Bank of Canada as fiscal agent. The *Financial Administration Act* does not apply to the Account. The majority of Canada's official international reserves reside inside the Account. The Account represents approximately 96 per cent (96 per cent at 31 March 2009) of Canada's official reserves. The remainder of the official reserves reside in the foreign currency accounts of the Minister of Finance.

The legislative mandate of the Account is to aid in the control and protection of the external value of the Canadian dollar. The Minister of Finance empowers the Account to acquire or sell assets deemed appropriate for this purpose, in accordance with the Account's *Statement of Investment Policy*.

Assets held in the Account are managed to provide foreign-currency liquidity to the government and to promote orderly conditions for the Canadian dollar in the foreign exchange markets, if required. Canada's current policy is to intervene in foreign exchange markets on a discretionary, rather than a systematic, basis and only in the most exceptional of circumstances. Since September 1998, no transactions have been aimed at moderating movements in the value of the Canadian dollar.

In accordance with the *Currency Act*, the net revenue for the year is paid to or charged to the Consolidated Revenue Fund (CRF) of the Government of Canada within three months after the end of the fiscal year, and the Minister of Finance reports to Parliament on the operations of the Account within the first 60 days on which Parliament is sitting after the end of the fiscal year.

2. Significant accounting policies

As stipulated in the *Currency Act*, the financial statements of the Account are prepared in a manner consistent with the accounting policies used by the Government of Canada to prepare its financial statements. The presentation and results of the Account using these accounting policies do not result in any significant differences from Canadian generally accepted accounting principles for the public sector.

(a) Revenue recognition

Revenue from investments is recorded on an accrual basis and includes interest earned, amortization of premiums and discounts using the straight line method, gains or losses on sales of securities, and revenues from

securities lending activities. Interest is accrued on short-term deposits, deposits held under repurchase agreements, marketable securities, and Special Drawing Rights.

(b) Expense recognition

The Account's administrative, custodial, and fiscal agency services are provided and paid for by the Bank of Canada and Department of Finance. These costs are not recognized in the financial statements.

In addition, the notional cost specifically identified as related to the funding of the Account's assets and advanced by the CRF are not recognized in the financial statements.

(c) Financial assets**Short-term deposits**

Short-term deposits are recorded at cost and are generally held to maturity.

Deposits held under repurchase agreements

Deposits held under repurchase agreements are recorded at cost.

Marketable securities

Marketable securities are recorded at cost and are adjusted for amortization of purchase discounts and premiums on a straight-line basis over the term to maturity of the security. Purchases and sales of securities are recorded at the settlement dates. The securities loaned under the securities lending program continue to be accounted for as investment assets.

Short-term deposits, Deposits held under repurchase agreement and Marketable securities are written down to their recoverable amount in the event of an other than temporary impairment in the fair value. Write-downs to reflect other than temporary impairment are included in *Net revenue from investments* in the *Statement of Operations*.

Special Drawing Rights

SDR's are initially recorded at cost and are subsequently translated into Canadian dollars at market exchange rates.

Gold

Gold is carried in the Account at a value of 35 SDRs per fine ounce, which approximates cost and conforms to the value used in the *Public Accounts of Canada*.

Exchange Fund Account—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2010—Continued

(d) Translation of foreign currencies and Special Drawing Rights

Assets and advances denominated in foreign currencies and special drawing rights (SDRs) are translated into Canadian dollar equivalents at rates prevailing on the balance sheet dates, which were as follows:

	2010	2009
US dollars	1.0158	1.2613
Euros	1.3720	1.6755
Japanese yen	0.0109	0.0127
SDRs	1.5422	1.8857

Gains or losses resulting from the translation of assets and advances denominated in foreign currencies and SDRs, as well as on transactions throughout the fiscal year, are recorded as net foreign exchange gains or losses and are included in the *Statement of Operations*.

Investment revenue in foreign currencies and SDRs is translated into Canadian dollars at the foreign exchange rates prevailing on the date the revenue is earned.

(e) Use of estimates and measurement uncertainty

The preparation of the financial statements of the Account requires management to make estimates and assumptions, based on information available as of the date of the financial statements. The most significant use of estimates is in the disclosure of the fair value of assets and disclosure of the notional cost of advances.

3. Cash and short-term deposits

	2010 Carrying value	2009 Carrying value
Cash—		
US dollars	226	548
Euros	175	272
Japanese yen	91	106
	492	926

Short-term deposits are money market transactions where the Account invests funds with designated counterparties.

There were no short-term deposits at 31 March 2010 (nil at 31 March 2009).

4. Deposits held under repurchase agreements

Deposits held under repurchase agreements are money market transactions where the Account invests funds on a secured basis with designated counterparties at prevailing market rates based on tri-party reverse repurchase agreements. The collateral on these transactions is held by a tri-party custodian.

Deposits held under repurchase agreements are denominated in US dollars. There were no deposits held under repurchase agreements at 31 March 2010 (nil at 31 March 2009).

					217					217	
Total marketable securities	8,139		1,000		13,167		21,225		606	44,137	49,045

The yield in the above table represents the weighted average yield to maturity based on the carrying value at the end of the fiscal year for the respective securities.

At 31 March 2010, the net unamortized premium on marketable securities amounted to \$407 million (\$356 million net unamortized premium at 31 March 2009). Sales of marketable securities during the year resulted in a net gain of \$395 million (net gain of \$135 million at 31 March 2009) and is included in *Net revenue from Marketable Securities* on the *Statement of Operations*.

Under the securities lending program, the Account has agency agreements with two major financial institutions. Loans of securities are effected on behalf of the Account by these agents who guarantee the loans and obtain collateral of equal or greater value from their approved counterparties in these transactions. At 31 March 2010, no US Treasury Bills (US\$255 million (par value) at 31 March 2009) and US\$569 million (par value) in Treasury Notes (US\$698 (par value) at 31 March 2009), were being used in the securities lending program with financial institutions.

6. Special Drawing Rights

The special drawing right (SDR) is an international reserve asset created by the International Monetary fund (IMF) in 1969 to supplement the existing official reserves of member countries. SDRs are allocated to member countries in proportion to their IMF quotas. The SDR serves as the unit of account of the International Monetary Fund (IMF) and its value is based on a basket of key international currencies. In August and September of 2009, the IMF completed allocations of Special Drawing Rights (SDRs) in an effort to boost global liquidity. Canada's share of these allocations was initially recorded at \$8,063 million (SDR4,722 million) and \$829 million (SDR487 million) in August 2009 and September 2009, respectively.

7. Due to the Consolidated Revenue Fund (CRF)

The Account is funded by the Government of Canada through interest-free advances from the CRF. Advances to the Account from the CRF are authorized by the Minister under the terms and conditions prescribed by the Minister of Finance. Pursuant to Section 19 of the *Currency Act*, these advances are limited to \$100 billion by order of the Minister of Finance in September of 2009.

Exchange Fund Account—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2010—Continued

The CRF advances the proceeds of Canada's borrowings in foreign currencies and allocations of SDRs by the IMF to the Account. Subsequent repayments of foreign currency debt are made using the assets of the Account and result in reductions in the level of foreign currency advances from the CRF. Interest payable by Canada on borrowings in foreign currencies and charges on allocations of SDRs to Canada are charged directly to the CRF.

The Account requires Canadian dollar advances to settle its purchases of foreign currencies. Canadian dollars received from sales of foreign currencies are remitted to the CRF. This, together with foreign currency payments made on behalf of the Government of Canada cause reductions in the level of outstanding Canadian-dollar advances, and can result in overall net deposits of Canadian dollars by the Account with the CRF.

At 31 March, advances from the CRF were comprised of the following currencies:

	2010	2009
US dollars	26,689	29,167
Euros	18,810	21,128
Japanese yen	304	102
SDR's	7,092	(1,150)
Subtotal—Foreign currencies	52,895	49,247
Canadian dollars	(650)	94
Net revenue	1,456	1,853
Total Due to Consolidated Revenue Fund	53,701	51,194

For the year ended 31 March 2010, the notional cost specifically identified as related to the funding of the Account's assets and advanced by the CRF to the Account is \$1,357 million (\$1,630 million for the year ended 31 March 2009). The notional cost of advanced funds is comprised of the actual interest costs on foreign denominated debt and cross currency swaps for foreign currency advances, and an imputed interest cost calculated using the average funding rate of outstanding Government of Canada market debt, applicable to the net of Canadian dollar and SDR currency advances.

8. Financial Instruments

The role of the Account as principal repository of Canada's official international reserves determines the nature of its assets and of its operations, as well as its use of financial instruments.

(a) Credit risk

Credit risk is the risk that a counterparty to a financial contract will cause a loss to the Account by failing to discharge its obligations in accordance with agreed upon terms.

To ensure that the Account's asset portfolio is prudently diversified with respect to credit risk, the *Statement of Investment Policy* prescribed by the Minister of Finance specifies limits on holdings by class of issuer (sovereign, agency, supranational, corporation or commercial financial institution) and type of instrument. There are also limits on exposure to any one issuer or counterparty.

With respect to the *Statement of Investment Policy*, the Account may hold fixed income securities of highly rated sovereigns, central banks, government-supported entities and supranational organizations. To be eligible for investment, an entity must have a credit rating in the top seven categories from two of four designated rating agencies (Standard & Poor's, Moody's, Fitch, and Dominion Bond Rating Service). The Account may also make deposits and execute other transactions, up to prescribed limits, with commercial financial institutions that meet the same rating criteria.

As stipulated in the *Currency Act*, the Minister may appoint agents to perform services concerning the Account. Through the securities-lending program, agents can lend securities only up to a prescribed maximum amount and only to a list of approved counterparties. Each borrower must enter into a Securities Loan Agreement with at least one of the agents. Borrowers are also required to provide collateral for securities borrowed, according to a specific list approved by the Government. Collateral is limited to specific security types, terms to maturity, and credit ratings.

The agents also provide an indemnity in the event of default by the borrower. The Account enters into securities lending transactions in order to increase its return on investments.

Exchange Fund Account—Continued

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2010—Continued

(b) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk, and other price risk. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk. The Account is not exposed to significant other price risk.

Interest rate and currency risks are managed, with due consideration of the risk to the Government of Canada, through the asset-liability management policy. This policy utilizes a strategy of matching the duration structure and the currency of the Account's assets with the foreign currency borrowings of the Government of Canada that notionally finance the Accounts assets. Other price risks are mitigated by holding high quality liquid assets.

(c) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting its obligations associated with financial liabilities. Liquidity risk is minimized by limiting the portion of foreign liabilities that needs to be rolled over within a one year period. In addition, liquidity risk is mitigated by holding short-term investments that are matched to maturing liabilities.

(d) Fair value of financial instruments

	2010		2009	
	Carrying value and accrued interest	Fair value	Carrying value and accrued interest	Fair value
Investments—				
Cash and short-term deposits	492	492	926	926
Marketable securities—				
US dollar	24,477	24,966	27,404	28,299
Euro	19,443	20,237	21,641	22,375
Japanese yen	217	220		
	44,629	45,915	49,971	51,600
SDRs	9,066	9,066	1,216	1,216
Gold	6	124	7	126
	53,701	55,105	51,194	52,942

The estimated fair value of cash and short-term deposits is deemed equal to their carrying value given their short term to maturity. SDRs are translated into Canadian dollar equivalents at rates prevailing on the balance sheet dates.

Estimated fair values of marketable securities are based on quoted market prices. If such prices are not available, the fair value is determined by discounting future cash flows using an appropriate yield curve. During the year, no marketable securities have been written down to reflect other than temporary impairments in the fair value.

The estimated fair value of gold is based on London fixing of \$1,133.12 at 31 March 2010 (\$1,155.98 at 31 March 2009) per fine ounce.

Subsequent to 31 March 2010, the fair value of marketable securities and SDRs continued to fluctuate as a result of changes in market conditions. As discussed in notes 8(a) and 8(b), credit and market risks of marketable securities are managed in accordance with the Account's *Statement of Investment Policy* and the asset-liability management policy. These risk management practices mitigate the risk of fair value fluctuations of marketable securities.

9. Commitments**(a) Foreign currency swaps**

Foreign currency swaps are agreements that exchange one type of obligation for another involving different currencies and the exchange of the principal amounts and interest payments. The Account may enter into short-term foreign currency swap arrangements with the Bank of Canada to assist the Bank in its cash-management operations. There were no drawings under this facility during the years ended 31 March 2010 or 31 March 2009, and there were no commitments outstanding at 31 March 2010.

(b) Foreign currency contracts

A foreign currency contract is a commitment to purchase or sell a foreign currency at the spot rate, requiring settlement within two days. In the normal course of operations, the Account enters into foreign currency contracts. At 31 March 2010, the Account was under contract to sell \$1 million (\$8 million at 31 March 2009) of foreign currency. Unrealized gains (losses) on foreign currency contracts are calculated using the 31 March 2010 exchange rates. As of that date, there were no unrealized net gains (losses) included in net revenue (nil at 31 March 2009). Outstanding foreign currency contracts were settled by 1 April 2010.

Exchange Fund Account—Concluded

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2010—Concluded

(c) Investment contracts

In the normal course of operations, the Account enters into investment contracts. The following table presents the fair value of investment contracts with contractual amounts outstanding at 31 March 2010. There were no outstanding investment contracts at 31 March 2009.

	2010		2009	
	Contractual value	Fair value	Contractual value	Fair value
Marketable securities—				
US dollars—				
Purchases	162	162		
Sales	22	20		
Euro—				
Purchases	50	50		
Sales	51	50		

10. Comparative figures

Certain of the 2009 comparative figures have been reclassified to conform to the current year's presentation.

LOANS, INVESTMENTS AND ADVANCES

Loans, investments and advances is a category of financial claims represented by debt instruments and ownership interests held by the Government of Canada acquired through the use of parliamentary appropriations, except for the portion of the investment balances representing adjustments for the equity of enterprise Crown corporations and other government business enterprises. Some of these appropriations permit repayments to be used for further loans and advances. Details of the use of non-budgetary appropriations, for loans, investments and advances, can be found in the ministerial sections of Volume II.

The investment in enterprise Crown corporations and other government business enterprises is accounted for under the modified equity method and is carried at cost which is adjusted for the annual profits or losses of the enterprises and reduced by any dividends paid by the corporations to the Government. Under the modified equity method, the accounting policies of the enterprise Crown corporations and other government business enterprises are not adjusted to conform to the Government's accounting policies. The Government also reports any amounts receivable from or payable to these corporations and where the Government has advanced funds to the corporations to support their direct lending activities, the amounts are recorded as loans and advances by the Government.

Other loans, investments and advances are initially recorded at cost and are subject to annual valuation to reflect

reductions from the recorded value to the approximate net realizable value. Foreign currency transactions are translated and recorded in Canadian dollar equivalents at the exchange rates prevailing at the transaction dates. Balances of loans, investments and advances resulting from foreign currency transactions are reported at year-end closing rates of exchange; net gains and losses related to these sovereign loans are presented with the return on investments from these loans under other program revenues.

The allowance established to reflect reductions from the recorded value to the approximate net realizable value of financial claims held by the Government has been authorized by the Minister of Finance and the President of the Treasury Board, under subsection 63(2) of the *Financial Administration Act*.

Revenues received during the year on loans, investments and advances, are credited to other revenues; details are provided in Section 3 of this volume and in Section 11 of Volume III.

Table 9.1 presents the transactions and year-end balances of loans, investments and advances by category.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as payments and other charges and receipts and other credits. A narrative description is provided for accounts reported in some tables. Such description follows the same presentation order as the respective tables.

Enterprise Crown Corporations and Other Government Business Enterprises

Loans and advances to, and investments in, enterprise Crown corporations and other government business enterprises represent the balance of financial claims held by the Government against corporations and enterprises for working capital, capital expenditures and other purposes, investments in the capital stock of corporations, and loans and advances to corporations and enterprises for re-lending.

A Crown corporation means a parent Crown corporation or a wholly-owned subsidiary; a parent Crown corporation is wholly-owned directly by the Crown; a wholly-owned subsidiary is wholly-owned by one or more parent Crown corporations directly or indirectly through any number of subsidiaries.

Enterprise Crown corporations are a type of government business enterprise and are defined as those Crown corporations which are not dependent on parliamentary appropriations and whose principal activity and source of revenue is the sale of goods and services to outside parties. These include selected Crown corporations listed in Part I, all the Crown corporations listed in Part II of Schedule III of the *Financial Administration Act* and the Bank of Canada. Although a Crown corporation, the Canada Pension Plan Investment Board is not part of the Government reporting entity since its mandate is to manage an investment portfolio on behalf of the Canada Pension Plan which is itself excluded from the reporting entity.

There are also a number of self-sustaining government business enterprises that are not considered Crown corporations within the meaning of the *Financial Administration Act*, but which are controlled by the Government and in most cases accountable to Parliament through a Minister of the Crown for the conduct of their affairs. These are referred to as “other government business enterprises” and include the Canadian Wheat Board and the various Port Authorities.

Most of the enterprise Crown corporations and other government business enterprises are agents of Her Majesty for the conduct of all or part of their activities. This status is granted in one of the following ways:

- i. designation by Parliament, through a special act of incorporation;
- ii. statutory authorization; or,
- iii. proclamation by the *Government Corporations Operation Act*.

Further information on the business and activities of all parent Crown corporations and information on all Crown corporations and other corporate interests of Canada is provided in the *President of the Treasury Board's Annual Report to Parliament on Crown Corporations and Other Corporate Interests of Canada*. Although no longer included as part of this Report, a compilation of the audited financial statements of the parent Crown corporations is also available upon request.

Table 9.2 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to enterprise Crown corporations and other government business enterprises.

⁽¹⁾ These loans are recorded at cost.

The results and financial position of enterprise Crown corporations and other government business enterprises are detailed at Tables 9.3 to 9.5. These tables also show the breakdown of the equity of each corporation between accumulated profits and losses, contributed surplus and capital stock, as well as the details of the Government's investment under the modified equity accounting method.

The Government of Canada has also made loans and advances to various enterprise Crown corporations and other government business enterprises. The following describes loans which were outstanding as of March 31, 2010 or 2009.

Canada Mortgage and Housing Corporation

The Corporation was incorporated, on January 1, 1946, by the *Canada Mortgage and Housing Corporation Act*. The Corporation's mandate, as stated in the *National Housing Act*, is to promote the construction, repair and modernization of housing, the improvement of housing and living conditions, housing affordability and choice, the availability of low-cost financing for housing, and the national well-being of the housing sector. Advances have been made to the Canada Mortgage and Housing Corporation to support various programs undertaken by the Corporation.

Housing

Advances made for moderate to low income housing bear interest at rates from 4.50 percent to 16.10 percent per annum, and are repayable over 1 to 50 years, with the final instalment due on March 31, 2037.

Real estate

Advances made for the acquisition and development of real estate bear interest at rates from 9.50 percent to 15 percent per annum, and are repayable over 50 years, with the final instalment due on June 30, 2036.

Joint projects

Advances made to undertake housing projects jointly with the provinces bear interest at rates from 3.50 percent to 17.96 percent per annum, and are repayable over 1 to 50 years, with the final instalment due on June 30, 2038.

Student housing projects

Advances made for student housing projects bear interest at rates from 5 percent to 10.05 percent per annum, and are repayable over 20 to 50 years, with the final instalment due on April 1, 2030.

Sewage treatment projects

Advances made to assist in the establishment or expansion of sewage treatment projects and the construction of trunk storm sewers bear interest at rates from 5 percent to 9.63 percent per annum, and are repayable over 20 to 50 years, with the final instalment due on March 31, 2023.

Business Development Bank of Canada

Direct lending to Crown corporations

The Business Development Bank of Canada (BDC) was established in 1974 by the *Federal Business Development Bank of Canada Act* and was continued under its current name by an Act of Parliament on July 13, 1995. The Corporation is a Crown corporation named in Part I of Schedule III to the *Financial Administration Act*, is wholly-owned by the Government of Canada and is not subject to the requirements of the *Income Tax Act*.

The role of the Corporation is to promote and assist in the establishment and development of business enterprises in Canada, with specific attention to small and medium-sized businesses. The Corporation provides a wide range of lending, investment and consulting services complementary to those of commercial financial institutions. The Corporation offers Canadian companies services tailored to meet the current needs of small and medium-sized businesses while earning an appropriate return on investment capital, which is used to further the Corporation's activities.

Pursuant to Section 19 of the *Business Development Bank of Canada Act*, the federal government, at the request of the Corporation, may lend money to the Corporation on any terms and conditions that the Minister of Finance may fix.

Included in loans and advances to BDC is \$3,087 million in outstanding lending related to the Canadian Secured Credit Facility (CSCF). CSCF was announced in Budget 2009 to purchase up to \$12,000 million of term asset-backed securities backed by loans and leases on vehicles and equipment. The facility is managed by BDC within parameters jointly developed by the Department of Finance, Industry Canada, and BDC following a consultation process. The program was designed to reflect reasonable commercial terms and to encourage the return of a secondary market for this type of asset-backed security.

All the loans outstanding at year end bear interest at rates from 0.13 percent to 3.54 percent per annum.

Canada Lands Company Limited

Canada Lands Company Limited (originally Public Works Lands Company Limited) was incorporated under the *Companies Act* in 1956 and was continued under the *Canada Business Corporations Act*. The Corporation is a Crown corporation named in Part I of Schedule III of the *Financial Administration Act* and is wholly-owned by the Government of Canada. The Corporation conducts its business through Canada Lands Company CLC Limited (CLC), its principal wholly-owned

subsidiary. CLC's objective is to carry out a commercially-oriented and orderly disposal program of certain Government real properties and the management of certain select properties. In undertaking this objective, CLC may manage, develop and dispose of real properties, either in the capacity of owner or as agent of the Government.

CLC has acquired an interest in a number of real properties from the Government in consideration for the issuance of promissory notes, which bear no interest and are repayable from the proceeds of the sale of the properties in respect of which they were issued. The notes were discounted using the Consolidated Revenue Fund lending rate applicable to Crown corporations and recorded at their discounted value.

During the year, new notes have been issued for an amount of \$4.2 million. An amount of \$1.5 million was repaid during the year and an amount of \$1.8 million was amortized to income. The balance in the account represents the balance of the notes receivable net of the corresponding unamortized discount.

Canada Mortgage and Housing Corporation

Direct lending to Crown corporations

Pursuant to Section 21(1) of the *Canada Mortgage and Housing Act*, the federal government, at the request of the Corporation, may, out of the Consolidated Revenue Fund, lend money to the Corporation on any terms and conditions that the Minister of Finance may fix.

Included in loans and advances to Canada Mortgage and Housing Corporation is \$63,437 million in outstanding lending related to Insurance Mortgage Purchase Program.

All the loans outstanding at year end bear interest at rates from 0.15 percent to 4.24 percent per annum.

Farm Credit Canada

Direct lending to Crown corporations

The Farm Credit Canada was established in 1959 by the *Farm Credit Act* as the successor to the Canadian Farm Loan Board, and is a Crown corporation named in Part I of Schedule III to the *Financial Administration Act*. The Corporation is wholly-owned by the Government of Canada and is not subject to the requirements of the *Income Tax Act*.

The Corporation's role is to enhance rural Canada by providing business and financial solutions for farm families and agribusiness. Additionally, the Corporation may deliver specific programs for the Government of Canada on a cost recovery basis.

Pursuant to Section 12(2) of the *Farm Credit Canada Act*, the federal government, at the request of the Corporation, may lend money to the Corporation on any terms and conditions that the Minister of Finance may fix.

All the loans outstanding at year end bear interest at rates from 0.13 percent to 3.84 percent per annum.

Canadian Dairy Commission

The Corporation was established by the *Canadian Dairy Commission Act*, to provide, to efficient producers of milk and cream, the opportunity of obtaining a fair return for their labour and investment, and to provide, to consumers of dairy products, a continuous and adequate supply of high quality dairy products.

Loans have been made to the Corporation, to finance its dealings in dairy products. The total amount authorized to be outstanding at any time is \$300,000,000 in accordance with the *Canadian Dairy Commission Act*. Currently, the Minister of Finance has authorized \$175,000,000 for borrowings from the Consolidated Revenue Fund and \$50,000,000 for a line of credit with members of the Canadian Payments Association.

The loans bear interest at rates from 0.4390 percent to 2.9818 percent per annum, and are repayable within one year.

Interest paid to the Government

Interest paid to the Government of Canada with respect to these loans in the years ended March 31, 2010 and 2009 is as follows:

	2009-2010	2008-2009
	(in millions of dollars)	
Corporation—		
Business Development Bank of Canada	34.1	105.8
Canada Mortgage and Housing Corporation	2,118.5	918.8
Canadian Dairy Commission	1.1	2.7
Farm Credit Canada	89.7	168.5
Total	2,243.4	1,195.8

Summary Financial Statements of Enterprise Crown Corporations and Other Government Business Enterprises

The following tables display details of the assets, liabilities, equity, revenues and expenses of enterprise Crown corporations and other government business enterprises.

Tables 9.3 to 9.5 present the assets, liabilities, equity, revenues, expenses and other changes in equity of enterprise Crown corporations and other government business enterprises grouped in five segments. The segment of competitive, self-sustaining corporations consists of those corporations named in Part I of Schedule III of the *Financial Administration Act* and of other competitive and self-sustaining government business enterprises.

For those corporations having year ends other than March 31, the data are based on unaudited interim financial statements which have been prepared on a basis consistent with the most recent audited financial statements.

The tables summarize the financial transactions and results of operations of each enterprise Crown corporation and other government business enterprise in accordance with its own respective accounting policies. Most enterprise Crown corporations follow Canadian generally accepted accounting principles (GAAP) for private sector.

Financial assets include cash and cash equivalents, receivables, loans and investments. Financial assets are segregated between third parties and Government, Crown corporations and other entities. The financial assets reported under Government, Crown corporations and other entities represent receivables, loans and investments between related parties. Non-financial assets represent the unexpensed portion of capital assets, inventories and prepayments such as buildings, machinery and equipment in use or under construction, inventories and other items of expenditure which will be expensed as these assets are used. Liabilities include payables, borrowings and other obligations. Liabilities are segregated between third parties and Government, Crown corporations and other entities. Borrowings from third parties represent amounts repayable to financial institutions and other investors. Other third party liabilities are amounts due for purchases, pensions and other employee future benefits, accrued interest on borrowings, various other accrual, capital leases and sundry accounts payable. The liabilities reported under Government, Crown corporations and other entities represent payables and borrowings between related parties.

Revenues include financial assistance received or receivable from the Government in respect of the current year's operations, when applicable. Expenses are segregated between third parties and Government, Crown corporations and other entities. Equity adjustments and other include prior period adjustments and other miscellaneous items recorded by the corporations and enterprises. Equity transactions with the Government include dividends declared or transfers of profits to the Government, as well as equity contributions provided by the Government. Other comprehensive income or loss comprises certain unrealized gains and losses on financial instruments that are recognized in comprehensive income, but excluded from net income. Upon realization, these gains and losses are included in net income. Any intergovernmental transactions are eliminated as part of the modified equity accounting adjustment.

These tables present financial information on parent enterprise Crown corporations and other government business enterprises, as well as financial information on wholly-owned subsidiaries that are considered "deemed parent Crown corporations" and thus reported under the modified equity basis of accounting and excluded from the consolidated financial statements of their parent Crown corporations.

Enterprise Crown corporations and other government business enterprises are also categorized as being either agents or non-agents of the Crown. Agent status may be expressly stated in the incorporating legislation or conferred under the provisions of the *Government Corporations Operation Act*. In some situations, agent status may be restricted to certain designated activities of a corporation.

A summary of financial assistance to enterprise Crown corporations and other government business enterprises for the year ended March 31, 2010 is provided in Table 9.10.

(1) All enterprise Crown corporations listed at the margin in this table are parent Crown corporations.

Although a Crown corporation, Canada Pension Plan Investment Board is designed to operate at arm's length from the Government and manages, on behalf of the Canada Pension Plan, funds not belonging to the Government, therefore, it is considered external to the Government reporting entity. The Public Sector Pension Investment Board is not included in the above list since its activities are included in the Government's results through pension accounting.

(2) Canada Port Authorities, which are not Crown corporations but considered other government business enterprises, are agents of the Crown for their port activities.

(3) Consists of the combined figures of the Canada Port Authorities of Belledune, Hamilton, Nanaimo, Port Alberni, Prince Rupert, Saguenay, Sept-Îles, St. John's, Thunder Bay, Trois-Rivières and Windsor.

(4) During the year, Canadian Commercial Corporation was reclassified as a consolidated Crown corporation and is now presented in Section 4 of this volume.

(5) These entities, which are not Crown corporations or agents of the Crown, are considered other government business enterprises.

The accompanying notes for Table 9.4 are an integral part of this table.

(1) The “Financial assistance” column records only that portion of financial assistance received or receivable from the federal Government that has been credited to operations. Additional amounts representing capital and operating appropriations received by the corporations are included in “Equity transactions with the Government”. Revenues “Other” include amounts generated from the sale of goods and services, investment income as well as grants where the corporations qualify as a member of a general class of recipients. The total financial assistance accounted for by the corporations during the year does not agree with the amount reported in Table 9.10 because of differences resulting from the different accounting policies followed.

Expenses			Equity transactions

Borrowings by Enterprise Crown Corporations and Other Government Business Enterprises

Table 9.6 summarizes the borrowing transactions by agent and non-agent enterprise Crown corporations and other government business enterprises.

In accordance with section 54 of the *Financial Administration Act*, the payment of all money borrowed by agent enterprise Crown corporations and interest thereon is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute obligations of the Government and are recorded as such in the accounts of Canada net of borrowings expected to be repaid directly by these corporations.

Borrowings by non-agent enterprise Crown corporations and other government business enterprises are not on behalf of Her Majesty, but may, at times be guaranteed by the Government.

As at March 31, 2010, an allowance for borrowings of enterprise Crown corporations and other government business enterprises was established at \$50 million.

Financial Assistance to Enterprise Crown Corporations and Other Government Business Enterprises

Table 9.10 summarizes financial assistance for both agent and non-agent enterprise Crown corporations and other government business enterprises. It should be read in conjunction with Table 9.5. The purpose for which payments have been made is segregated between: (a) amounts recorded as operating transactions and (b) amounts used for the acquisition of capital assets.

All amounts reported represent charges to appropriations or authorities approved by Parliament.

Differences in figures reported in Table 9.5 and those reported in Table 9.10 result from the use of different accounting policies.

Portfolio Investments

Portfolio investments represent investments in entities with share capital owned jointly by the Government and other governments and/or organizations to further common objectives. Additional information on these entities is provided in the *President of the Treasury Board's Annual Report to Parliament on Crown Corporations and Other Corporate Interests of Canada*.

Under the terms of section 147 of the *Bankruptcy and Insolvency Act*, the Superintendent of Bankruptcy has received shares in a number of corporations in lieu of a cash levy payable to the Crown.

Table 9.11 presents a summary of the balances and transactions for the various types of portfolio investments.

Lower Churchill Development Corporation Limited

The Corporation was incorporated under the *Companies Act of Newfoundland*, to establish a basis for the development of all or part of the hydroelectric potential of the Lower Churchill basin and the transmission of this energy to markets.

This account records the Government's investment in the capital of the Corporation. In respect of Canada's participation with the Government of Newfoundland and Labrador in the development of the hydroelectric power potential of the Lower Churchill River in Labrador, the Government is authorized to purchase approximately 49 percent of the shares of the Lower Churchill Development Corporation Limited.

The Government has purchased 1,475 class A shares, representing 49 percent of the shares outstanding. The balance of the outstanding shares is owned by Newfoundland and Labrador Hydro (an agent of the Government of Newfoundland and Labrador).

Co-operative Housing Project

The Parks Canada Agency has invested in the Rocky Mountain II Co-operative Housing Association, along with five other entities, to provide accommodation for Parks Canada employees and employees of other entities in Banff, Alberta.

Canada Pension Plan Investment Board

The Canada Pension Plan Investment Board ("Board") was created pursuant to the *Canada Pension Plan Investment Board Act*. The Board's objectives are to assist the Canada Pension Plan (CPP) in meeting its obligations to contributors and beneficiaries and to manage any amounts transferred to it in their best interest.

The Government holds 100 percent of the share capital of the corporation that consists of 10 shares having a fair value of \$10 each issued as per legislation. The assets managed by the Board are included in the CPP financial statements. They are excluded from the Government's financial statements since CPP is not part of the Government's reporting entity as explained in Note 1 of the Government's financial statements.

Airline Bankruptcy Proceedings

Pursuant to Section 23(6) of the *Export Development Act*, the Minister for International Trade, with the concurrence of the Minister of Finance, may authorize Export Development Canada ("the Corporation") to make any investment or enter into any transaction or any class of transactions necessary or desirable for the management of assets and liabilities arising out of any transaction that may be entered into pursuant to this section. On February 19, 2009 the Corporation was awarded 435,033 shares of an airline subject to bankruptcy proceedings at \$5.73 US per share by the bankruptcy court. This represents concessions provided to the airline to assist them in exiting from bankruptcy protection. The shares have been sold and the net proceeds of \$3,200,953 was used to reduce the impact of the concessions granted to the airline and other restructuring costs.

During the year, the account was closed.

Canada Investment Fund for Africa

The Canada Investment Fund for Africa (CIFA) is a joint public-private sector initiative designed to provide risk capital for private investments in Africa that generate growth. The CIFA is a direct response to the New Partnership for Africa's Development (NEPAD) and the G8 Africa Action Plan. The main objectives of the CIFA are to optimize public-private investment in the Fund, to confer a beneficial development impact on Africa by way of increased foreign direct investment and to optimize the beneficial impact of the Fund's activities on Canadian interests.

The Government of Canada is a limited partner in the CIFA and its commitment towards the Fund was subject to matching funds of other investors and was to be equal to the lesser of: (i) \$100 million or (ii) the aggregated commitments of all other limited partners of the partnership. The investment period in the CIFA ended January 1, 2009. From thereon, until the term of the partnership is reached on October 31, 2013, the Canadian International Development Agency will only receive income returns of capital. Since its inception, the Canadian International Development Agency received capital reimbursement from CIFA amounting to \$11.7 million and investment income of \$4.9 million.

Equity Ownership

In order to help fulfill its mandate to promote industrial innovation in Canada, the National Research Council of Canada (NRC) has taken equity interests in several new firms based on NRC technology. NRC provides financial assistance at better than market conditions to firms through access to equipment, intellectual property and incubation space in laboratories and in the organization's Industry Partnership Facilities.

Since these companies often cannot afford to pay the full cost of the assistance received from the NRC, the NRC takes an equity position in a company in order to help the firms survive the critical development stage. In turn, it allows NRC to earn a return that somewhat reflects the risk taken should the company become successful.

This investment in equity is authorized under subsection 92(1)(b) of the *Financial Administration Act* which allows for the acquisition or the sale or other disposal of shares or assets in the ordinary course of a business of providing financial assistance to publicly and privately held companies and are recorded at cost.

The Government's holdings of shares represents a minority interest in three publically traded companies and thirteen privately held companies. During the year, the shares of four publically traded companies and one private company were sold.

Public Sector Pension Investment Board

The Public Sector Pension Investment Board ("Board") was created pursuant to the *Public Sector Pension Investment Board Act*. Its mandate is to invest in financial markets the funds transferred to it from the Public Service, Canadian Forces, Royal Canadian Mounted Police and Reserve Force pension plans. The Board's objective is to achieve maximum rates of return on investments, without undue risk while respecting the requirements and financial obligations of those plans.

The Government holds 100 percent of the share capital of the corporation that consists of 10 shares having a fair value of \$10 each issued as per legislation. The assets managed by the Board are recorded against the pension liability.

IMRIS Inc.

IMRIS Inc. is a global leader in providing image guided therapy solutions using magnetic resonance, fluoroscopy and computed tomography to deliver on demand imaging during surgical procedures.

In 1999, the Department of Western Economic Diversification provided a conditionally repayable contribution to its predecessor organization, Innovative Magnetic Resonance Imaging Systems Inc., to allow it to upgrade the MRI system and set up a demonstration site at the Calgary Foothills Hospital. Repayment was conditional on the number of MRI units sold. As part of a major reorganization, and as settlement of the conditionally repayable debt, the Department received 208,054 shares in a new restructured company (IMRIS Inc.). The proceeds on the sale of these shares were used to retire the debt.

North Portage Development Corporation

The Corporation was incorporated under the *Manitoba Corporations Act*, to foster the social and economic development of the North Portage area in the core area of Winnipeg. The objective of the Government's participation is to stimulate economic recovery in Canada and Manitoba.

The Government's holding of common shares represents 33.3 percent of the shares outstanding. The Corporation is owned equally by the City of Winnipeg, the Province of Manitoba and the Government of Canada.

National Governments Including Developing Countries

Loans to national governments consist mainly of loans for financial assistance, international development assistance to developing countries, and loans for development of export trade (administered by Export Development Canada).

Table 9.12 presents a summary of the balances and transactions for the loans and advances that were made to national governments including developing countries.

TABLE 9.12

Total	736,524,481	56,669,056	291,471,663	501,721,874

Development of export trade

Pursuant to section 23 of the *Export Development Act*, the Minister for International Trade, with the concurrence of the Minister of Finance, may authorize Export Development Canada (“the Corporation”) to enter into certain transactions or class of transactions where the Minister is of the opinion it is in the national interest and where the Corporation has advised the Minister that it will not enter into such transactions without such authorization. Funding for such transactions is provided by the Minister of Finance out of the Consolidated Revenue Fund and the transactions are administered by the Corporation on behalf of the Government of Canada.

Loan transactions with longer repayment terms and/or low or zero interest rates are recorded in part as expenses when the economic value is reduced due to such concessionary terms.

Tables 11.4 and 11.5 (Section 11 of this volume) present additional information on contractual obligations and guarantees that are disclosed in the notes to the audited financial statements in Section 2 of this volume.

The following table presents the balances and transactions for loans made to national governments, together with their terms and conditions of repayments.

Note: Final repayment dates may change if loan amounts are rescheduled or restructured.

(1) Payments or other charges may include transactions such as loans, adjustments, etc.

(2) Receipts or other credits may include transactions such as repayments, forgiveness, etc.

(3) Prior to April 1, 1987, these loans were authorized by miscellaneous non-budgetary authorities. Subsequently they were authorized by miscellaneous budgetary authorities.

Developing countries—International development assistance

Interest-free or low interest bearing loans have been made through the Canadian International Development Agency to developing countries for international development assistance. Loans are recorded in part as expenses when the economic value of the loans is reduced due to their concessionary terms. No new loans have been issued since April 1, 1986.

The following table presents the balances and transactions for the loans made to developing countries, together with their terms and conditions of repayments.

All loans have been made in Canadian dollars and are therefore not subject to revaluations for foreign exchange fluctuations.

Similar assistance has been provided to developing countries by way of subscriptions and advances to the International Development Association, advances to the Global Environment Facility, and loans to other international financial institutions. These are reported later in this section under the heading “International organizations”.

In 2006-2007, the Government of Canada, as represented by the Canadian International Development Agency, entered into an agreement with the Government of Pakistan to forgive its outstanding \$447,507,534 loan pursuant to Foreign Affairs and International Trade Vote 32c, *Appropriation Act No. 5, 2009-2010*. In order to expire its debt obligation, the Government of Pakistan will be required to make education sector investments that are equivalent to the current present value of its debt. According to the agreement, Pakistan's debt is to be written down proportionally by the Canadian International Development Agency as the investments are made in 2009-2010. The Government of Pakistan has invested in its education sector program and those investments permitted the Canadian International Development Agency to grant the Government of Pakistan a debt forgiveness equivalent to \$16,147,699.

Total	320,222,510	24,613,228	40,694,029	304,141,709

Note: Grace period refers to interval from date of issuance of the loan to first repayment of loan principal.

⁽¹⁾ Receipts and other credits may include transactions such as repayments, forgiveness, etc.

North Atlantic Treaty Organization—Damage claims recoverable

Article VIII of the NATO Status of Forces Agreement signed April 4, 1949, as amended, deals with claims for damages to third parties arising from accidents in which a member of a visiting force is involved. This account is charged with the amount recoverable from other states, for claims for damages which took place in Canada, and is credited with recoveries.

The advances are non-interest bearing and have no specific repayment terms.

International Organizations

This group records Canada's subscriptions to the share capital of international banks. It also includes loans and advances to associations and other international organizations.

Canada's subscriptions to the share capital of a number of international banks are composed of both paid-in and callable capital. Subscriptions to international organizations do not provide a return on investment but are repayable on termination of the organization or withdrawal from it.

Paid-in capital subscriptions are made through a combination of cash payments and the issuance of non-interest bearing, non-negotiable notes payable to the organization. Although payable on demand, these notes are typically encashed according to terms of agreements reached between the organization and participating countries. Canada's subscriptions to the paid-in capital of these organizations are reported in Table 9.13.

Callable share capital is composed of resources that are not paid to the banks but act as a guarantee to allow them to borrow on international capital markets to finance their lending program. Callable share capital, which has never been drawn on by the banks, would only be utilized in extreme circumstances to repay loans, should a bank's reserves not be sufficient. It represents a contingent liability of the Government, and is listed with other contingent liabilities related to international organizations in Table 11.6 (Section 11 of this volume).

Most loans and advances to international organizations are made to banks and associations that use these funds to make loans to developing countries at significant concessionary terms. Loans made on a long-term, low-interest or interest-free basis, and investments in organizations that make similar loans, are recorded in full or in part as expenses when the economic value is reduced due to their concessionary terms.

Table 9.13 presents a summary of the balances and transactions for share capital, loans and advances to international organizations. The revaluation amount represents the conversion of foreign currency balances to the year-end closing rates of exchange. Balances denominated in United States dollars were converted to Canadian dollars at year-end exchange rate of (\$1 US/\$1.0158 Cdn).

Tables 11.4 and 11.6 (Section 11 of this volume) present additional information on contractual obligations and contingent liabilities for international organizations that are disclosed in the notes to the audited financial statements in Section 2 of this volume.

The notes payable outstanding at year end of \$418,098,181 (\$430,177,279 in 2009) are reported in Table 5.3 (Section 5 of this volume).

(1) Loans and investments made prior to April 1, 1986 which were authorized by non-budgetary authorities.

(2) Loans and investments made since April 1, 1986 which were authorized by budgetary authorities.

(3) Formerly International Monetary Fund—Poverty Reduction and Growth Facility.

European Bank for Reconstruction and Development

This account records Canada's subscriptions to the capital of the European Bank for Reconstruction and Development (EBRD), as authorized by the *European Bank for Reconstruction and Development Agreement Act*, and various appropriation acts.

At year-end, Canada has subscribed to 68,000 shares of the EBRD's authorized capital valued at \$828.6 million US. Only \$216.2 million US or about 26 per cent of Canada's share subscription is "paid-in". The balance is callable meaning the institution can request the resources in the unlikely event that it requires them to meet its financial obligations to bondholders. Payments for the share subscription are authorized by the Act. Each payment to the EBRD is comprised of cash and a promissory note.

As at March 31, 2010, Canada had paid-in shares valued at \$216,197,668 US.

Canada's contingent liability for the callable portion of its shares is \$612,420,000 US.

International Bank for Reconstruction and Development (World Bank)

This account records Canada's subscriptions to the capital of the International Bank for Reconstruction and Development, as authorized by the *Bretton Woods and Related Agreements Act*, and various appropriation acts.

As at March 31, 2010, Canada has subscribed to 44,795 shares. The total value of these shares is \$5,403,844,825 US, of which \$319,633,987 US plus \$16,404,055 Cdn has been paid-in. The remaining portion is callable.

The callable portion is subject to call by the Bank under certain circumstances. Canada's contingent liability for the callable portion of its shares is \$5,069 million US.

International Finance Corporation

This account records Canada's subscriptions to the capital of the International Finance Corporation, which is part of the World Bank Group, as authorized by the *Bretton Woods and Related Agreements Act*, and various appropriation acts.

As at March 31, 2010, Canada has subscribed to 81,342 shares. These shares have a total value of \$81,342,000 US, all of which has been paid-in.

Multilateral Investment Guarantee Agency

This account records Canada's subscriptions to the capital of the Multilateral Investment Guarantee Agency, as authorized by the *Bretton Woods and Related Agreements Act*, and various appropriation acts.

As at March 31, 2010, Canada has subscribed to 5,225 shares. The total value of these shares is \$56,534,500 US, of which \$10,732,250 US is paid-in and the remaining portion is callable.

The callable portion is subject to call by the Agency under certain circumstances. Canada's contingent liability for the callable portion of its shares is \$45,802,250 US.

African Development Bank

This account records Canada's subscriptions to the capital of the African Development Bank, as authorized by the *International Development (Financial Institutions) Assistance Act*, and various appropriation acts.

At year-end, authority had been granted for subscriptions of 8,175 paid-in shares and 73,473 callable shares. Paid-in shares are purchased using cash and notes payable that are later encashed.

As at March 31, 2010, Canada's participation to the paid-in capital is \$108,977,038 Cdn for 8,175 paid-in shares and of these paid-in shares, 2,100 were issued in US dollars.

The callable shares are subject to call by the Bank under certain circumstances. Canada's contingent liability for callable shares has a current value of \$984,917,646 Cdn and \$177,333,450 US for a total value of \$1,165,052,965 Cdn.

Asian Development Bank

This account records Canada's subscriptions to the capital of the Asian Development Bank, as authorized by the *International Development (Financial Institutions) Assistance Act*, and various appropriation acts.

At year-end, authority had been granted for subscriptions of 12,961 paid-in shares and 172,125 callable shares. Paid-in shares are purchased using cash and notes payable that are later encashed.

As at March 31, 2010, Canada's participation to the paid-in capital is \$161,241,683 Cdn for 12,961 paid-in shares. Of these paid-in shares, 10,591 were issued in US dollars.

The callable shares are subject to call by the Bank under certain circumstances. Canada's contingent liability for callable shares has a current value of \$1,533,210,533 US and \$596,976,219 Cdn for a total value of \$2,154,411,478 Cdn.

Caribbean Development Bank

This account records Canada's subscriptions to the capital of the Caribbean Development Bank, as authorized by the *International Development (Financial Institutions) Assistance Act*, and various appropriation acts.

At year-end, authority had been granted for subscriptions of 2,278 paid-in shares and 8,124 callable shares. Paid-in shares are purchased using cash and notes payable that are later encashed.

As at March 31, 2010, Canada's participation to the paid-in capital is \$20,031,610 Cdn for 2,278 paid-in shares. These shares were issued in US dollars.

The callable shares are subject to call by the Bank under certain circumstances. Canada's contingent liability for callable shares has a current value of \$49,001,856 US for a total value of \$49,776,085 Cdn.

Inter-American Development Bank

This account records Canada's subscriptions to the capital of the Inter-American Development Bank, as authorized by the *International Development (Financial Institutions) Assistance Act*, and various appropriation acts.

At year-end, authority had been granted for subscriptions of 14,397 paid-in shares and 655,377 callable shares. Paid-in shares are purchased using cash and notes payable that are later encashed.

As at March 31, 2010, Canada's participation to the paid-in capital is \$182,983,885 Cdn for 14,397 paid-in shares. These shares were issued in US dollars.

The callable shares are subject to call by the Bank under certain circumstances. Canada's contingent liability for callable shares has a current value of \$7,866,208,680 US for a total value of \$7,990,494,777 Cdn.

Global Environment Facility

This account records the funding of a facility for environmental funding in developing countries in the areas of ozone, climate change biodiversity and international waters as authorized by the *Bretton Woods and Related Agreements Act*, and various appropriation acts. Advances to the Global Environment Facility (GEF) are made in non-negotiable, non-interest bearing demand notes that are later encashed.

As at March 31, 2010, advances to the GEF amounted to \$10,000,000 Cdn.

International Development Association

This account records Canada's contributions and subscriptions to the International Development Association (IDA), as authorized by the *Bretton Woods and Related Agreements Act*, and various appropriation acts (including Finance Vote L10, *Appropriation Act No. 2, 2009-2010*). The contributions and subscriptions to the Association, which is part of the World Bank Group, are used to lend funds to the poorest developing countries for development purposes, on highly favourable terms (no interest, with a 35 to 40 year maturity and 10 years of grace). Contributions and subscriptions to IDA are made in non-negotiable, non-interest bearing demand notes that are later encashed.

During the year, transactions included participation through the issuance of notes payable.

As at March 31, 2010, Canada's total participation in IDA amounted to \$8,580,218,061 Cdn.

International Finance Corporation—Global Agriculture and Food Security Program

This account records Canada's financial assistance to the International Finance Corporation (IFC) for participation in the G8 Food Security Initiative (FSI) as authorized by the *Bretton Woods and related Agreements Act* and various appropriation acts (including Finance Vote L14b, *Appropriation Act No. 4, 2009-2010*).

As at March 31, 2010, advances to the IFC-FSI amounted to \$48,000,000 Cdn.

International Finance Corporation—Global Trade Liquidity Program

This account records Canada's financial assistance to the International Finance Corporation (IFC) for participation in the Global Trade Liquidity Program (GTLP) as authorized by the *Bretton Woods and related Agreements Act* and various appropriation acts (including Finance Vote L12a, *Appropriation Act No. 3, 2009-2010*).

As at March 31, 2010, advances to the IFC-GTLP amounted to \$200,000,000 US.

International Monetary Fund—Poverty Reduction and Growth Trust

This account records the loan to the International Monetary Fund's Poverty Reduction and Growth Trust (formerly the Poverty Reduction and Growth Facility) in order to provide assistance to qualifying low-income countries as authorized by the *Bretton Woods and Related Agreements Act*, and various appropriation acts.

The total loan authority pursuant to the *Bretton Woods and Related Agreements Act* was set at \$550 million or such greater amount as may be fixed by the Governor in Council. The Governor in Council subsequently increased the limit to SDR 1.2 billion.

As at March 31, 2010, Canada has lent a total of 700,000,000 SDR to the Poverty Reduction and Growth Trust. Of this amount, 582,011,729 SDR has been repaid.

The outstanding balance of 117,988,271 SDR was translated into Canadian dollars at the year-end closing rate of exchange (1 SDR/\$1.54223 Cdn). During the year, transactions included repayments and an exchange valuation adjustment.

Separately, Canada has also made budgetary contributions towards an interest subsidy amounting to 189,997,586 SDR, which do not appear in Table 9.13.

International organizations and associations

These items represent the historical value of payments made by the Canadian Government to working capital funds maintained by international organizations of which Canada is a member. Participation in the financing of these working capital funds, on the basis of the scale of assessments, is prescribed by financial regulations for membership in the organizations. Payments into the funds are not subject to interest or repayment schedules, but are recorded by the organizations as credits from member states. Payments by Canada were authorized by appropriation acts.

International financial institutions

This account records loans and advances for assistance to international financial institutions, as authorized by the *International Development (Financial Institutions) Assistance Act*, and various appropriation acts (including Foreign Affairs and International Trade Votes L35, L35a and L35b, *Appropriation Acts No. 2, No.3 and No.4, 2009-2010*).

In certain cases, loans and advances are made using notes payable that are later encashed. During the year, transactions included loans and advances made in cash and through note issuances, encashments of notes issued in previous years and revaluations for foreign currency fluctuations.

Provincial and Territorial Governments

This category records loans to provinces and territories made under relief acts and other legislation.

Loans made on a long-term, low-interest or interest-free basis are recorded in part as expenses when the economic value of these loans is reduced due to their concessionary terms.

Table 9.14 presents a summary of the balances and transactions for the various types of loans and advances that have been made to provincial and territorial governments.

Loans to enterprises in Newfoundland and Labrador

Loans have been made to provide financing to small and medium-sized businesses in Newfoundland.

These loans originated from the Newfoundland and Labrador Development Corporation Limited, of which Canada owned 40 percent of the shares. In an agreement dated March 29, 1989, the Newfoundland government purchased Canada's shares to effect the withdrawal of the Government of Canada from the Corporation. A condition of the withdrawal was that the Government of Canada accepted these loans as full payment of moneys owing by the Corporation to Canada. These loans were administered by the Atlantic Canada Opportunities Agency.

During the year, loans totalling \$456,680 in principal and \$279,053 in interest were written off pursuant to Atlantic Canada Opportunities Agency Vote 7b, *Appropriation Act No. 4, 2009-2010* and the account was closed.

Federal-provincial fiscal arrangements

These amounts represent underpayments and overpayments in respect of provincial equalization entitlements under the *Constitution Acts 1867 to 1982*, the *Federal-Provincial Fiscal Arrangements Act*, and other statutory authority. The underpayments are non-interest bearing and are paid in subsequent years.

Municipal Development and Loan Board

Loans have been made, to provinces and municipalities, to augment or accelerate municipal capital works programs.

The loans bear interest at rates from 5.25 percent to 5.375 percent per annum, and are repayable in annual or semi-annual instalments over 15 to 50 years, with final instalments due between April 1, 2010 and March 1, 2011.

Winter capital projects fund

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates from 7.4 percent to 9.5 percent per annum, and are repayable either in annual instalments over 5 to 20 years, or at maturity.

Atlantic Provinces Power Development Act

Loans have been made to the Atlantic provinces, to assist in the generation of electrical energy by steam driven generators in the provinces, and in the control and transmission of electric energy.

The loans bear interest at rates from 4.5 percent to 8.5 percent per annum, and are repayable in annual instalments, with final instalments due March 31, 2011.

Mutual fund capital gain refund overpayments

These amounts represent overpayments made to provinces under tax collection agreements for tax years 1997 to 1999 stemming from the misclassification of mutual fund trust capital gains refunds. Recoveries are non-interest bearing and will take place over a 10-year period which started in 2004-2005.

Other Loans, Investments and Advances

This group records loans, investments and advances not classified elsewhere.

Table 9.15 presents a summary of the balances and transactions for the various types of other loans, investments and advances.

⁽¹⁾ In previous years, the portion of unamortized discounts was reported within the Canada Student Loans Program. In the current year, this amount is presented as a reduction to the asset value balances in Table 9.15.

⁽²⁾ This amount represents a revaluation adjustment.

⁽³⁾ Additional information on consolidated Crown corporations and other entities is also provided in Section 4 of this volume.

Unconditionally repayable contributions

Unconditionally repayable contributions are, in substance loans, and are generally made to businesses pursuant to various Acts of Parliament, with various amounts outstanding.

These loans are aimed at stimulating economic development or for assistance. They bear various interest rates, some of which have concessional terms, and are repayable at various due dates with final instalments due within up to 10 years of initial disbursement.

Loans made on a long-term, low-interest or interest-free basis are recorded in part as expenses when the economic value of the loans is reduced due to their concessionary terms.

Missions abroad

Non-interest bearing advances have been made for interim financing of expenses at missions abroad, pending distribution to appropriations of Foreign Affairs and International Trade and other departments and agencies.

The total amount authorized to be outstanding at any time is \$50,000,000.

Personnel posted abroad

A working capital advance account was established to finance loans and advances to employees posted abroad, including employees of other Government departments and agencies, as well as medical advances to locally-engaged staff.

The total amount authorized to be outstanding at any time was \$22,500,000 pursuant to Foreign Affairs Vote L11, *Appropriation Acts No. 1 and No. 2, 1989-90*. This amount was increased to \$38,200,000 pursuant to Foreign Affairs and International Trade Vote L12c, *Appropriation Act No. 5, 2009-2010*.

The closing balance consists of loans to employees, \$16,505,145; advances for medical expenses, \$1,137,768; advances for workmen's compensation, \$8,281; security and other deposits under Foreign Service Directives, \$961,090 and, school and club debentures, \$1,924,200.

The loans to employees bear interest at rates from 2.75 percent to 5.0 percent per annum, and are repayable over 1 to 4 years, with final instalments between April 1, 2010 and March 1, 2014.

Imprest accounts, standing advances and authorized loans

This account was established for the purpose of financing: (a) public funds imprest and public funds advance accounts; (b) standing advances; (c) authorized loans and advances to employees posted abroad; and, (d) authorized recoverable advances to establish military messes and canteens.

The total amount authorized to be outstanding at any time is \$120,000,000, as last amended by National Defence Vote L11b, *Appropriation Act No. 4, 2001-2002*.

Miscellaneous accountable advances

The closing balance reflects amounts outstanding in the hands of departments, agencies and individuals, at year end, to be expended in the following year.

Miscellaneous accountable imprest and standing advances

This account is operated to provide imprest funds, accountable advances and recoverable advances to departments and agencies.

The total amount authorized to be outstanding at any time is \$22,000,000.

Construction of multi-purpose exhibition buildings

The remaining loan has been made to finance the construction of a multi-purpose exhibition building.

The loan is currently in default and will continue to bear interest at a fixed rate of 8.511 percent per annum. The loan is guaranteed by the province; consequently, the province is being contacted to honor the loan guarantee.

National Marketing Programs

Loans made by financial institutions under the *Canadian Agricultural Loans Act* (formerly the *Farm Improvement and Marketing Cooperative Loans Act*) and advances made by producer organizations under the *Agricultural Marketing Programs Act* are guaranteed by the Crown. Where the guarantee is honoured, the Crown becomes subrogated to the financial institution's or producer organization's rights to outstanding principal, interest and costs.

Immigration loans

Section 88 of the *Immigration and Refugee Protection Act* authorizes the making of loans for the purpose of the Act.

The total amount authorized to be outstanding at any time is \$110,000,000.

The terms and conditions of the loans, with their year-end balances, are as follows:

- (a) repayable by monthly instalments over 1 to 6 years, with a possible deferment of 2 years, bearing interest at rates from 1.75 percent to 10.733 percent per annum, with final instalments between April 1, 2010 and April 1, 2016, \$37,821,144; and,
- (b) repayable by monthly instalments over 1 to 6 years, with a possible deferment of 2 years, non-interest bearing, with final instalments past due, \$167,334.

During the year, loans totalling \$820,949 were written-off pursuant to Citizenship and Immigration Vote 7b, *Appropriation Act No. 4, 2009-2010*.

Canadian Commercial Bank

Advances have been made to the Canadian Commercial Bank representing the Government's participation in the support group as authorized by the *Canadian Commercial Bank Financial Assistance Act*. These funds represent the Government's participation in the loan portfolio that was acquired from the Bank and the purchase of outstanding debentures from existing holders.

Financial Consumer Agency of Canada—Advances

Interest-bearing advances have been made to defray the cost of operation of the Agency pursuant to Section 13(1) of the *Financial Consumer Agency of Canada Act*.

During the year, the advances were repaid in full.

Canadian producers of frozen groundfish

Loans have been made to Canadian producers of frozen groundfish, canned and frozen crabmeat, and canned and frozen lobster meat, to assist in the financing of inventories.

The loans bore interest at the rate of 13 percent per annum, and were repayable in equal annual instalments over 7 years, with the final instalment in December 1987. These loans are deemed unrecoverable and parliamentary authority is required to write off the balance.

Haddock fishermen

Loans have been made to Nova Scotia haddock fishermen whose fishery was closed from February 1 to May 31, 1975, pursuant to an agreement under the International Agreement for the Northwest Atlantic Fisheries. The total loan authority is \$1,650,000.

The loans bore interest at the rate of 8 percent per annum, and were repayable in equal annual instalments over 4 years, with the final instalment in 1979. These loans are deemed unrecoverable and parliamentary authority is required to write off the balance.

Support and development of trade

Pursuant to section 23 of the *Export Development Act*, the Minister for International Trade, with the concurrence of the Minister of Finance, may authorize Export Development Canada ("the Corporation") to enter into certain transactions or class of transactions where the Minister is of the opinion it is in the national interest and where the Corporation has advised the Minister that it will not enter into such transactions without such authorization. Funding for such transactions is provided by the Minister of Finance out of the Consolidated Revenue Fund and the transactions are administered by the Corporation on behalf of the Government of Canada.

The *Budget Implementation Act, 2009*, amended the *Export Development Act* to expand the mandate of the Corporation for a two-year period to include the support and development of domestic trade, in addition to its traditional mandate related to export trade. During the year, no transactions were entered into in the support and development of domestic trade.

Loan transactions with longer repayment terms and/or low or zero interest rates are recorded in part as expenses when the economic value is reduced due to such concessionary terms.

Tables 11.4 and 11.5 (Section 11 of this volume) present additional information on contractual obligations and guarantees that are disclosed in the notes to the audited financial statements in Section 2 of this volume.

PUBLIC ACCOUNTS OF CANADA, 2009-2010

The following table presents the balances and transactions for loans made to non-sovereign entities, together with their terms and conditions of repayments.

	April 1/2009	Payments and other charges		Receipts and other credits		March 31/2010
		Payments or other charges ⁽¹⁾	Revaluation	Receipts or other credits ⁽²⁾	Revaluation	
	\$	\$	\$	\$	\$	\$
Export Trade						
(a) 1 to 5 year term, interest based on the higher of 3.0 percent or the Canadian Dealer Offered Rate (CDOR) plus 9.75 percent interest per annum, with final repayment in April 2000 and July 2014:

Less: portion expensed due to concessionary terms	9,810,030	2,150,661				7,659,369
Total—Export Trade	2,351,504,721	15,823,815,282	129,303,852	11,415,620,659	610,061,863	6,278,941,333

Note: Final repayment dates may change if loan amounts are rescheduled or restructured.

(1) Payments or other charges may include transactions such as loans, adjustments, etc.

(2) Receipts or other credits may include transactions such as repayments, forgiveness, etc.

(3) Pursuant to an agreement with the Ontario Financing Authority (OFA), the OFA contributed one-third of the balance of the term loan issued. As interest and principal was received on the term loan, one-third was remitted to the OFA. This agreement was administered by the Department of Finance.

9.36 LOANS, INVESTMENTS AND ADVANCES

Canada Student Loans Program

Direct loans to students

Loans issued on or after August 1, 2000 are operated under the authority of section 6.1 of the *Canada Student Financial Assistance Act*, which authorizes the Minister of Human Resources and Skills Development to enter into loan agreements directly with any qualifying student. Agreements are subject to the terms and conditions approved by the Governor in Council, on the recommendation of the Minister of Human Resources and Skills Development with the concurrence of the Minister of Finance.

The total amount of loans outstanding as at March 31, 2010 amounts to \$12,492,760,738 (\$11,518,377,204 as at March 31, 2009).

Risk-shared student loans

Loans issued prior to August 1, 2000 and on or after August 1, 1995 are amounts related to student loans subrogated to the Crown under the authority of the *Canada Student Financial Assistance Act*. The total amount of loans outstanding as at March 31, 2010 amounts to \$159,985,777 (\$157,374,423 as at March 31, 2009) for loans owned by Human Resources and Skills Development and \$2,022,459,428 (\$2,090,567,054 as at March 31, 2009) for loans under the current ownership of the financial institutions.

Maximum amount of direct and risk-shared student loans

The total amount of outstanding direct loans to students and risk-shared student loans issued under the authority of the *Canada Student Financial Assistance Act* may not exceed fifteen billion dollars, except as otherwise provided by an Appropriation Act or other Act of Parliament.

Guaranteed student loans

Loans issued prior to August 1, 1995 are amounts related to student loans subrogated to the Crown under the authority of the *Canada Student Loans Act*. The total amount of loans outstanding as at March 31, 2010 amounts to \$303,300,927 (\$338,305,183 as at March 31, 2009) for loans owned by Human Resources and Skills Development and \$50,417,092 (\$69,745,446 as at March 31, 2009) for loans under the current ownership of the financial institutions.

Provincial workers' compensation boards

This account is operated under the authority of subsection 4(6) of the *Government Employees Compensation Act*, to provide operating funds to enable provincial compensation boards to administer the Act on behalf of the Crown, and pay claims to Canadian Government employees injured in the course of their employment.

The total amount of advances that is authorized to be made to all provincial workers' compensation boards is not to exceed three months' disbursements for compensation.

The advances are non-interest bearing and are to be repaid on termination of agreements with provincial boards.

Aboriginal Business Loan Insurance Program

On December 1, 2006, Aboriginal Business Canada, including the Aboriginal Business Loan Insurance Program, formerly a program of Industry Canada, was transferred to the Department of Indian Affairs and Northern Development.

The Aboriginal Business Loan Insurance Program was established under the *Department of Industry, Science and Technology Act*, section 9 and paragraph 15 (1)(b), and Orders in Council PC 1990-370 and PC 1990-371, and amended under the *Department of Industry Act (1995)*, Part IV, paragraph 14 (1)(b).

Non-interest bearing loans have been made to Aboriginal Canadians to increase their commercial enterprise activity as a major step towards enhancing their economic self-reliance, by providing financial and advisory assistance at various stages and for several aspects of enterprise development.

Council of Yukon First Nations—Elders

Loans have been made to the Council of Yukon First Nations, to provide interim benefits to elderly Yukon Indians pending settlement of Yukon Indian land claims.

During the year, loans were authorized by Indian Affairs and Northern Development Vote L30, *Appropriation Act No. 2, 2009-2010*.

The terms and conditions of the loans are as follows:

- (a) loans made before an agreement-in-principle for the settlement of a claim is reached are non-interest bearing;
- (b) loans made after the date on which an agreement-in-principle for the settlement of a claim has been reached, bear interest at a rate equal to the rate established by the Minister of Finance in respect of borrowings for equivalent terms by Crown corporations; and,
- (c) loans are due and payable, as to principal and interest, on the date on which the claim is settled or on a date fixed in the agreement, which shall be not later than March 31, 2010, whichever date is earlier.

All the loans outstanding at year end bear interest at rates from 2.28 percent to 3.61 percent per annum.

Farm Credit Canada Guarantee Loans Program

The Farm Credit Canada guarantee loans program was discontinued as of November 14, 1989. The last active loan guarantee has expired and no future loan guarantees will be given under this program.

As of March 31, 2010, the outstanding amount represents the remaining defaulted loans reimbursed to the lenders by the Minister. These loans are deemed unrecoverable and the balance will be written off in future years.

First Nations in British Columbia

Loans have been made to First Nations in British Columbia, to support their participation in the British Columbia Treaty Commission process related to the research, development and negotiation of treaties.

During the year, loans were authorized by Indian Affairs and Northern Development Vote L35, *Appropriation Act No. 2, 2009-2010*.

The terms and conditions of the loans are as follows:

- (a) loans made before an agreement-in-principle for the settlement of a treaty is reached are non-interest bearing;
- (b) loans made before April 1, 2004 and after the date on which an agreement-in-principle for the settlement of a treaty has been reached, bear interest at a rate equal to the rate established by the Minister of Finance in respect of borrowings for equivalent terms by Crown corporations;
- (c) loans made between April 1, 2004 and March 31, 2010 and after the date on which an agreement-in-principle for the settlement of a treaty has been reached, shall be interest free, unless the loans become due and payable during this period; and,
- (d) loans are due and payable by the First Nations and will pay the loan on the earliest of the following dates:
 - i. date on which the treaty is settled;
 - ii. twelfth anniversary of the first loan advance to the First Nations under the earliest First Nations' funding agreement;
 - iii. seventh anniversary after the signing of an agreement-in-principle, or;
 - iv. date the federal minister demands payment of the loans due to an event of default under this agreement or under any First Nations' funding agreement.

The interest-bearing and non-interest bearing portions of the loans outstanding at year end are \$9,173,402 and \$386,705,880 respectively. Rates are from 0.7503 percent to 4.545 percent per annum for the interest-bearing portion.

Indian Economic Development Fund

Loans have been made for the purposes of economic development of Indians, to Indians or Indian bands, or to individuals, partnerships or corporations, the activities of which contribute or may contribute to such development.

The total amount authorized to be outstanding at any time is \$48,550,835, as last amended by Indian Affairs and Northern Development Vote 7b, *Appropriation Act No. 4, 1996-97*.

All outstanding loans bear interest at rates from 7 percent to 11.25 percent per annum.

Indian Economic Development Guarantee Loans Program

The Indian Economic Development Guarantee authority, established under Vote L53(b), *Appropriation Act No. , 1970*, amended under P.C. 1977-3608, authorized the department to guarantee loans for Indian businesses on a risk-sharing basis with commercial lenders. The guarantee level is not to exceed at any time \$60,000,000, less the total amount of payments made to implement previous guarantees under that authority.

Simple interest, usually based on a percentage plus the prime rate, will accrue on the debt after payout. All payments, including accrued interest, remain as a debt of the client until recovered in full.

Inuit Loan Fund

Loans have been made to individual Inuit or groups of Inuit, to promote commercial activities and gainful occupations. Loans have also been made to co-operative associations, credit unions, caisses populaires or other credit societies incorporated under provincial laws, where the majority of members are Inuit, or to corporations incorporated under the laws of Canada, or provincial laws, where the controlling interest is held by Inuit.

The total amount authorized to be outstanding at any time is \$6,633,697, as last amended by Indian Affairs and Northern Development Vote 37b, *Appropriation Act No. 4, 1995-96*.

The remaining loan bears interest at a rate of 5.50 percent per annum.

Native Claimants

Loans have been made to native claimants, to defray the costs related to the research, development and negotiation of claims.

During the year, loans were authorized by Indian Affairs and Northern Development Vote L30, *Appropriation Act No. 2, 2009-2010*.

The terms and conditions of the loans are as follows:

- (a) loans made before an agreement-in-principle for the settlement of a claim is reached are non-interest bearing;
- (b) loans made after the date on which an agreement-in-principle for the settlement of a claim has been reached, bear interest at a rate equal to the rate established by the Minister of Finance in respect of borrowings for equivalent terms by Crown corporations; and,
- (c) loans are due and payable as to principal and interest on the date on which the claim is settled, or on a date fixed in the agreement.

The interest bearing and the non-interest bearing portions of the loans outstanding at year end are \$106,115,191 and \$341,513,719 respectively. Rates are from 2.13 percent to 11.89 percent per annum for the interest-bearing portion.

On Reserve Housing Guarantee Loans Program

On Reserve Housing guarantees provide needed support to Indian or Indian bands residing on reserves or crown land. Reserves are, as such, non-mortgageable and the ministerial guarantee provides security to the lending institution in the event of a default by the client.

The total amount authorized to be outstanding at any time is \$2.2 billion, as last amended by Indian Affairs and Northern Development Vote 5, *Appropriation Act No. 3, 1972*, Indian Affairs and Northern Development Vote 5d, *Appropriation Act No. 1, 1977*, Indian Affairs and Northern Development Vote 6b, *Appropriation Act No. 3, 1993-94*, Indian Affairs and Northern Development Vote 6a, *Appropriation Act No. 3, 1999-2000* and Indian Affairs and Northern Development Vote 7b, *Appropriation Act No. 4, 2008-2009*.

If a loan made under the Minister's guarantee goes into default, the lender has recourse to the Minister for reimbursement. In 1987, a reserve for losses of \$2 million per annum was established within the department's reference levels to cover all Guarantee Loan Programs administered by Indian Affairs and Northern Development. Such payments remain a debt of the First Nation to the Crown and interest is accrued and capitalized on these debts at the contract interest rate applicable at the time the loan was assigned to the Minister. Recovery of the debt is made to the extent possible, from the security used as collateral, such as trust money or land claim funds, or through repayment agreements.

Stoney Band Perpetual Loan

In 1946, loans were made to Stoney Band of Alberta for land acquisition beyond their treaty entitlement.

A loan not exceeding \$500,000 was made to purchase additional land. Under the terms of the agreement, as stated in Treasury Board Minutes, P.C. 2/1437 dated April 11, 1946, the Band assigned monies accruing to them, from the rental of their water resources to provide interest payments at the rate of 3 percent annually on the amount of the loan that had actually been expended. In the same agreement, the Band resolved that the Department allots \$200,000 to the Pekisko Group, and \$300,000 for the additions to Morley Reserve.

Company stock option

Pursuant to section 14 of the *Department of Industry Act*, and authorized by Industry Vote L15, *Appropriation Act No. 2, 2009-2010*, this account establishes authority, in accordance with terms and conditions prescribed by regulations of the Governor in Council,

- (a) to take, purchase, exercise, assign or sell, on behalf of Her Majesty in Right of Canada, a stock option in a company in connection with the provision of a loan, insurance of a loan, or contribution made to the company by Her Majesty under a program authorized by the Governor in Council where, in the opinion of the Minister,

- i. it is necessary to take, purchase, exercise, assign or sell the stock option in order to permit Her Majesty in Right of Canada to benefit from the purchase; or

- ii. it is necessary to take, purchase, exercise, assign or sell, the stock option in order to protect the Crown's interest in respect of a loan made or insured, or contribution made; and

- (b) to authorize the sale or other disposition of any capital stock acquired.

Manufacturing, processing and service industries in Canada

This account records loans made to persons engaged or about to engage or assist in manufacturing, processing or service industries in Canada in order to promote the establishment, improvement, growth, efficiency or international competitiveness of such industries or to assist them in their financial restructuring.

Loans are authorized by Industry Vote L20, *Appropriation Act No. 2, 2009-2010*. During the year, no loans were issued.

There is one remaining loan which is interest free unless it goes into default, and otherwise is repayable at maturity on April 1, 2017.

Other Business loans

This account records money owed to the Government by borrowers upon default of loans that are subject to statutory authorities, pursuant to the *Small Business Loans Act* (SBLA), the *Canada Small Business Financing Act* (CSBFA), the capital leasing pilot project and the *Department of Industry Act*. These authorities provide for the payment of claims or the sharing of loan losses between lenders and the Government.

H. L. Holmes Fund

This account was established pursuant to paragraph 5(1)(f) of the *National Research Council Act* to record the residue of the estate of H. L. Holmes. Up to two thirds of the yearly net income from the fund shall be used to finance the H. L. Holmes Award on an annual basis. These awards will provide the opportunity to post-doctoral students to study at world famous graduate schools or research institutes under outstanding research persons.

Nordion International Inc.

A \$100 million loan has been made to Nordion International Inc. for the construction of two nuclear reactors and related processing facilities to be used in the production of medical isotopes pursuant to an agreement reached on June 28, 1996 between MDS Health Group Ltd., Nordion International Inc. and Natural Resources Canada.

The secured loan is interest-free and fully repayable over 15 years commencing 42 months after the first loan drawdown was made.

Parolees

Loans have been made to parolees and individuals under mandatory supervision, to assist in their rehabilitation.

The total amount authorized to be outstanding at any time is \$50,000.

The loans are non-interest bearing and are repayable before the expiration of the parole period, or within one year from the date the loans were made, whichever period is the shorter. The repayment of a loan or any part thereof may be forgiven, if certain conditions are met.

Seized Property Working Capital Account

This account was established by section 12 of the *Seized Property Management Act*. Expenses incurred, and advances made, to maintain and manage any seized or restrained property and other properties subject to a management order or forfeited to Her Majesty, are charged to this account. This account is credited when expenses and advances to third parties are repaid or recovered and when revenues from these properties or proceeds of their disposal are received and credited with seized cash upon forfeiture.

The total amount authorized to be outstanding at any time is \$50,000,000.

Any shortfall between the proceeds from the disposition of any property forfeited to Her Majesty and the amounts that were charged to this account and that are still outstanding, is charged to a Seized Property Proceeds Account and credited to this account.

Saint John Harbour Bridge Authority

Advances have been made to the Saint John Harbour Bridge Authority in connection with the financing, construction and operation of a toll bridge across the harbour of Saint John, NB. The total amount of advances in each year is to be based on the difference for the year between the operating and financing costs of the toll bridge, and the revenue of the Bridge Authority, repayable when the revenue of the Bridge Authority for the year exceeds the amount of the operating and financing costs for such year.

On April 1, 1990, a new agreement was signed. This agreement called for the consolidation of all debts into one non-interest bearing loan. The Authority will remit excess funds from the operation of the bridge to the Government on an annual basis to repay the debt.

St. Lawrence Seaway Management Corporation

This account was established by subsection 80(1) of the *Canada Marine Act*. Loans previously managed by the St. Lawrence Seaway Authority are now managed by the St. Lawrence Seaway Management Corporation in accordance with an agreement between the Department of Transport and the Corporation. The repayments of these loans are recorded in this account.

The remaining loan bears interest at rates from 7 percent to 9.5 percent per annum, and is repayable at monthly rates, with the final instalment of the existing terms being March 2011.

Joint Learning Program

Advances have been made to the Public Service Alliance of Canada (PSAC) for the Joint Learning Program (JLP). Following the collective bargaining round of October 2004 and subsequently of 2008, a Memorandum of Understanding between the Treasury Board and PSAC was included in the collective bargaining agreements to provide funding for a JLP. The JLP is a negotiated partnership between PSAC and the Treasury Board of Canada Secretariat (TBS). It is intended to provide joint union-management learning opportunities in areas where both parties have roles and responsibilities, and for which the Employer does not already have a legal obligation to provide training in order to enhance labour relations in the public service.

Payments are made to PSAC under Vote 20 and are authorized under the terms of reference of the Program. The terms of reference include the program costs, funding conditions, payment conditions, timelines, as well as a schedule of payments. The schedule of payments provides for a 3-month advance from TBS to PSAC to provide for program delivery costs. When actual expenses are reported every three months, the advance is reversed and the expenditure is recorded.

Commonwealth War Graves Commission

Advances have been made to the working capital fund of the Commonwealth War Graves Commission, to maintain graves and cemeteries.

At year end, the balance of the advances was £30,000 UK. This balance was converted to Canadian dollars, using the year-end rate of exchange.

The advances are non-interest bearing and have no fixed terms of repayments.

Veterans' Land Act Fund

Advances

Advances have been made, under Parts I and III of the *Veterans' Land Act*, for the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment, and protection of security. The total amount authorized to be outstanding at any time is \$605,000,000.

Allowance for conditional benefits

A provision equal to 1/10 of the benefits to veterans was established each year up to and including 1978-79. Since that time, a forecast of requirements has been performed each year, and provisions are established as necessary. These provisions are charged to expenses and credited to the allowance for conditional benefits account. This account represents the accumulated net provisions for benefits to veterans in the form of forgiveness of loans authorized by the *Veterans' Land Act*. These benefits come into effect only after certain conditions are fulfilled by the veterans. At the end of 10 years, the conditions having been met, the accumulated provision is charged to the allowance for conditional benefits account, and credited to the veteran's loan account.

Other departments—Miscellaneous

This account represents amounts outstanding in the hands of agencies and individuals, at year end. This group records loans, investments and advances not classified elsewhere.

Consolidation adjustment

The consolidation adjustment reflects the total loans, investments and advances held by consolidated Crown corporations and other entities. These mainly include investments such as bonds, money market funds and fixed income securities.

Allowance for Valuation

In accordance with the comprehensive policy on valuation, assets are subject to an annual valuation to reflect reductions from the recorded value to the estimated net realizable value.

The allowance for valuation, for loans, investments and advances, represents the estimated losses on the realization of the loans, investments and advances included in the accounts of Canada at year end.

NON-FINANCIAL ASSETS

Non-financial assets are assets that have an economic life that extends beyond the accounting period and that are intended for consumption in the normal course of operations. They are converted into expense in future periods and include tangible capital assets, inventories, and prepaid expenses.

Tangible capital assets consist of acquired, built, developed or improved tangible assets, which are intended to be used on a continuous basis and are not intended for sale in the ordinary course of business. For financial reporting purposes, tangible capital assets are grouped in the following categories: land, buildings, works and infrastructure, machinery and equipment, vehicles, leasehold improvements, assets under construction, and assets under capital leases.

Inventories are items of tangible property that are to be used in the delivery of program outputs. Some revolving funds and a few departments may have inventories held for resale to parties outside the Government.

Prepaid expenses are disbursements made, pursuant to a contract, before the completion of the work, delivery of the goods or rendering of the service or advance payments under the terms of contribution agreements.

Table 10.1 presents the non-financial assets by category.

CONTRACTUAL OBLIGATIONS AND CONTINGENT LIABILITIES

This section contains detailed information related to contractual obligations and contingent liabilities.

Contractual Obligations

The nature of Government activities result in multi-year contracts and agreements, including various international treaties and protocols. Contractual obligations are financial obligations of the Government to others that will become liabilities when the terms of those contracts or agreements for the acquisition of goods and services or the provision of transfer payments are met. In the case of contractual obligations to international organizations, some will result in future budgetary expenses while others will result in non-budgetary payments.

Contractual obligations can be classified into four main categories: transfer payment agreements (grants and contributions), fixed assets and purchases, operating leases and international organizations.

All outstanding contractual obligations of \$10 million or more per project at year end are reported for fixed assets, purchases, operating leases and transfer payment agreements. For international organizations, all contractual obligations in excess of \$1 million at year end are reported.

In accordance with the Government's significant accounting policies, the contractual obligations of consolidated Crown corporations are included with those of the Government.

Table 11.1 summarizes these contractual obligations. Details of the four types of contractual obligations can be found in other tables in this section.

Transfer Payment Agreements, Fixed Assets, Purchases and Operating Leases

Table 11.3 provides details of contractual obligations that involve: transfer payment agreements, fixed assets, purchases and operating leases. It discloses individual contractual obligations by category and by entity. Contractual obligations are summarized in Note 15 to the financial statements in Section 2 of this volume.

Transfer payment agreements are irrevocable contracts to provide funding to other levels of governments, organizations or individuals.

Fixed assets are tangible, durable items of value, including major additions or alterations thereto, including military equipment and land, from which benefits are expected to be derived during their useful life.

Purchases are supported by contracts to supply goods or services. An operating lease is a lease in which the lessor does not substantially transfer all the benefits and risks incident to ownership of property to the lessee.

(1) The amount shown under "Total estimated cost" is a cumulative total of amounts charged to budgetary appropriations since 1992, when particulars of this obligation were first reported in the *Public Accounts of Canada*, plus the outstanding obligation reported at fiscal year end.

(2) This figure reflects the total estimated remaining contractual obligations which extend for periods up to 30 years.

International Contractual Obligations

Table 11.4 summarizes the international contractual obligations according to whether they would result in the disbursement of funds for non-budgetary share capital and loans, or for budgetary transfer payments, loans and advances and contractual obligations.

International contractual obligations reported in this table include transfer payments, loans and advances to international organizations as well as loans for the development of export trade

⁽¹⁾ Foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 2010 (1 USD = \$1.0158 CAD; 1 SDR = \$1.54223 CAD; 1 EUR = \$1.372 CAD).

Note: Canada has agreed to lend the Poverty Reduction and Growth Trust special drawing rights (SDR) 1.2 billion of which SDR 700 million has been lent, and to subsidize the interest rate on the loan through a grant of approximately SDR 190 million, of which SDR 190 million has been paid-in.

Contingent Liabilities

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur. Contingent liabilities are recorded in the accounts when it becomes likely that a payment will be made and the amount of that payment can be reasonably estimated. The contingent liabilities of the Government are grouped into: Guarantees, International Organizations, Environmental liabilities, Claims and Pending and Threatened Litigation, and Insurance Programs of agent enterprise Crown corporations. Additional information regarding each category is provided below.

For details of contingent liabilities of consolidated Crown corporations, refer to Table 4.3 “Contingent Liabilities of Consolidated Crown Corporations and Other Entities” in Section 4 of this volume. Particulars of contingent liabilities of enterprise Crown corporations and other government business enterprises are not consolidated with those of the Government but details of these contingencies may be found in Table 9.8 “Contingent Liabilities of Enterprise Crown Corporations and other Government Business Enterprises” in Section 9 of this volume.

(administered by Export Development Canada), which Canada has agreed to disburse in the future. Future paid-in share capital represents commitments made by Canada for future purchases of non-budgetary share capital in international organizations. The amounts reported in Table 11.4 as undisbursed loans and advances and as future paid-in share capital exclude notes that have been issued and that are still unpaid as at March 31, 2010.

Table 11.4 presents information that is summarized in Note 15 to the financial statements in Section 2 of this volume.

Guarantees

Guarantees by the Government include:

- guarantees of the borrowings of agent enterprise Crown corporations and other government business enterprises;
- guarantees of certain loans made by agent enterprise Crown corporations;
- guarantees, either collective or specific, of the loans of certain individuals and companies obtained from the private sector;
- insurance programs of the Government; and
- other explicit guarantees.

Losses on loan guarantees are recorded in the accounts when it is likely that a payment will be made to honour a guarantee and when the amount of the anticipated loss can be reasonably estimated. The amount of the allowance is determined by taking into consideration the nature of the loan guarantee, loss experience and the use of other measurement techniques. Borrowings of agent enterprise Crown corporations and other government business enterprises are recorded as liabilities for the portion not expected to be repaid directly by these corporations.

Table 11.5 lists the outstanding guarantees and is summarized in Note 16 to the financial statements in Section 2 of this volume.

Less: allowance for losses		534,679,619
Total net exposure under guarantees		221,444,216,233

⁽¹⁾ The authorized limits indicated in the above statement represent the aggregate total of various types of authorities of Government bodies as stipulated in legislation, legal agreements or other documents that may be in force at any one time.

⁽²⁾ Details can be found in Table 9.6 in Section 9 of this volume.

⁽³⁾ The Department of Indian Affairs and Northern Development has an authorized limit of \$2,200 million by Parliament (as shown above), to issue guarantees on loans made by the Canada Mortgage and Housing Corporation (CMHC) and other approved lenders, for housing purposes, and to issue guarantees on loans made by the Farm Credit Canada (FCC) for farming purposes. The contingent liability amounts related to guaranteed loans for On-Reserve Housing include \$1,220 million by CMHC and \$627 million by other approved lenders.

⁽⁴⁾ The maximum aggregate amount that may be paid out of the Consolidated Revenue Fund and/or outstanding as a contingent liability in the current and subsequent years in respect of all guarantees authorized under Indian Affairs and Northern Development Vote L53b, *Appropriation Act No. 1, 1970* shall be \$60 million. As at March 31, 2010, \$27 million had been disbursed in cumulative defaults and there were outstanding contingent liabilities totaling \$1 million leaving a free balance of \$32 million available to issue further guarantees.

⁽⁵⁾ The *Export Development Act* specifies that Export Development Canada (EDC) may enter into contracts of insurance, re-insurance, related guarantees, financing and other agreements up to the authorized limit of \$20 billion. In total, EDC has \$6.8 billion outstanding against this limit, consisting of \$0.6 billion in contingent liabilities and \$6.2 billion in financing.

⁽⁶⁾ There have been no claims under the *Nuclear Liability Act* since its inception in 1970.

⁽⁷⁾ The aggregate limit for all private sector mortgage insurers that have a guarantee with the government is \$250 billion.

⁽⁸⁾ The Government guarantees the payment of present and future liabilities, indebtedness, or other obligations of the Canadian Wheat Board.

International Organizations

Within contingent liabilities, callable share capital represents the portion of Canada's capital subscriptions that has not yet been paid-in. Callable capital is subject to call by offshore banks in the event that they were unable to meet their obligations.

Table 11.6 details the contingent liabilities for international organizations and is summarized in Note 16 to the financial statements in Section 2 of this volume.

⁽¹⁾ Foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 2010 (1USD = \$1.0158 CAD; 1SDR = \$1.54223 CAD; 1 EUR = \$1.372 CAD).

Environmental Liabilities

Remediation of Contaminated Sites

Based on management's best estimates, a liability for the estimated costs related to the remediation of contaminated sites is accrued when the contamination occurs, or when the Government becomes aware of the contamination, and is obligated or likely obligated to incur such costs. As at March 31, 2010, the Government has recorded a liability of \$3,493 million for approximately 2,400 sites (\$3,220 million in 2009 for approximately 2,000 sites - reclassified).

The Government has estimated possible additional clean-up costs of \$1,512 million (\$1,538 million in 2009 - reclassified) that are not accrued as these are undeterminable at this time. The change in contingent liabilities related to contaminated sites is due to the additional information gathered during the year which enabled the potential liability for certain sites to be more accurately estimated.

Future Asset Restoration

Based on management's best estimates, a liability of \$16 million (\$10 million in 2009) has been recorded for likely management and clearance action on approximately 30 unexploded explosive ordnance (UXO) affected sites (10 affected sites in 2009). Management has estimated possible additional clearance costs ranging from \$180 million to \$524 million that are not accrued as these are undeterminable at this time.

The Government's ongoing efforts to assess contaminated sites and UXO affected sites may result in additional liabilities related to newly identified sites, or changes in the assessments or intended use of existing sites. These adjustments will be accrued in the year in which they become known.

Claims and Pending and Threatened Litigation

There are thousands of claims and pending and threatened litigation cases outstanding against the Government. The total amount claimed in these actions, including a number where an amount is not specified, and their outcomes are not determinable.

The Government records an allowance for those cases identified as likely to be lost and which can be reasonably estimated. All other cases, excluding those assessed as unlikely to be lost, are considered contingent liabilities. As at March 31, 2010, contingent liabilities for claims and pending and threatened litigation have been estimated to approximate \$4,300 million (\$5,700 million in 2009). This estimate of possible loss covers only a portion of all claims against the Government. The total contingency relating to pending claims is not determinable. Certain large and significant claims not included in the estimate of contingent liabilities, are described below:

Comprehensive land claims: Comprehensive land claims are negotiated in areas where aboriginal title has not been dealt with by treaty or by other legal methods. In such cases, the claim is based on an aboriginal group's traditional use and occupancy of that land. There are currently 76 comprehensive land claims (76 in 2009) under negotiation, accepted for negotiation or under review. A liability of \$3,800 million (\$3,500 million in 2009), is estimated for claims that have progressed to a point where quantification is possible. The remaining claims are still in the early stages of negotiations and cannot yet be quantified.

Assessed taxes under objection or appeal: As at March 31, 2010, an amount of \$17,102 million (\$13,778 million in 2009) of taxes assessed was under objection at Canada Revenue Agency and an amount of \$3,509 million (\$2,429 million in 2009) was under appeal at either the Tax Court of Canada, the Federal Court of Canada or the Supreme Court of Canada.

Other: In September 1999, the *Public Service Superannuation Act*, the *Canadian Forces Superannuation Act* and the *Royal Canadian Mounted Police Superannuation Act* were amended to enable the federal government to deal with excess amounts in the superannuation accounts and pension funds governed by these Acts. The legal validity of these provisions has since been challenged in the Ontario Superior Court of Justice. On November 20, 2007, the Court rendered its decision and dismissed all the claims of the plaintiffs. The plaintiffs appealed this decision to the Ontario Court of Appeal. The outcome of these appeals is not determinable at this time.

Insurance Programs of Agent Enterprise Crown Corporations

An insurance program is a program where the insured, an outside party, pays an insurance fee which is credited to an insurance fund or provision. The amount of the fee is based on the estimated amount of insurance fund or provision needed to meet future claims. The Canada Deposit Insurance Corporation, Canada Mortgage and Housing Corporation, and Export Development Canada currently operate insurance programs as agents of Her Majesty. Insurance programs operated by private corporations such as employee group insurance, dental plans, etc., are not included in this definition.

The insurance programs are intended to operate on a self-sustaining basis. However, in the event the corporations have insufficient funds, the Government will have to provide financing. The Government expects that all three corporations will cover the cost of both current claims and possible future claims.

Information presented in Table 11.7 has not been audited since the information presented therein is derived from interim financial statements. Additional financial information relating to these corporations may be found in the “*President of the Treasury Board's Annual Report to Parliament - Crown Corporations and Other Corporate Interests of Canada*”. Information contained in Table 11.7 is also summarized in Note 16 to the financial statements in Section 2 of this volume.

*Not applicable.

⁽¹⁾ The Canada Deposit Insurance Corporation (CDIC) provides insurance on deposits placed with member banks and trust and loan companies for up to \$100,000 per depositor, per institution. The Corporation is funded by premiums assessed against its member institutions.⁽²⁾ Canada Mortgage and Housing Corporation (CMHC) administers two funds: the Mortgage Insurance Fund (MIF) and the Mortgage-Backed Securities Guarantee Fund (MBSGF). The MIF provides insurance for a fee, to lending institutions to cover mortgage lending on Canadian housing. Besides establishing a framework of confidence for mortgage lending by lending institutions, the Fund facilitates an adequate supply of mortgage funds by reducing the risk to lenders and by encouraging the secondary market trading of mortgages, to make housing more accessible for Canadians. An actuarial study of the MIF is produced as of September 30 of each year. The Corporation determines provisions for claims and unearned premiums at December 31 using valuation factors taking into account new business, claims and interest for the last quarter. The MBSGF supports two CMHC guarantee products: *National Housing Act* (NHA) Mortgage-Backed Securities and Canada Mortgage Bonds. The Mortgage-Backed Securities (MBS) program was implemented in 1987. For a guarantee fee paid by approved financial institutions, CMHC and ultimately the Government guarantee timely payment of monthly principal and interest to MBS investors who participate in a pool of insured residential mortgages which have been repackaged by the financial institution into investments which can be sold to investors in denominations as low as \$1,000. The Canada Mortgage Bond (CMB) program was implemented in 2001. Under this program, bonds are issued by a special purpose trust known as Canada Housing Trust and sold to investors in denominations as low as \$1,000. The proceeds of the bonds are used to purchase mortgages packaged into newly issued NHA MBS. Canada Mortgage Bonds of \$180,440 million (\$160,664 million in 2009) including accrued interest, issued by the Trust carry the full faith and credit of the Government of Canada. The timely payment of semi-annual interest and principal at maturity is guaranteed by the Government of Canada through CMHC.⁽³⁾ Export Development Canada (EDC) provides export and foreign investment insurance to Canadian businesses to facilitate and develop export trade. The insurance program has been adequate to provide for the full cost of claims experienced to date and for the cost of future claims established based on previous claims experience. The Corporation does not maintain a separate fund for its insurance program and therefore the balance of the fund is not available. EDC maintains an allowance for claims on insurance which is based on an actuarial review of net loss experience and potential net losses. The balance of the allowance is \$543 million (\$702 million in 2009).⁽⁴⁾ Refers to the difference between claims and amounts received from sales of related assets and other recoveries.
