Introduction to the *Public Accounts of Canada*

Nature of the *Public Accounts of Canada*

The *Public Accounts of Canada* is the report of the Government of Canada prepared annually by the Receiver General, as required by section 64 of the *Financial Administration Act*. It covers the fiscal year of the Government, which ends on March 31.

The information contained in the report originates from two sources of data:

- the summarized financial transactions presented in the accounts of Canada, maintained by the Receiver General; and
- the detailed records, maintained by departments and agencies.

Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the *Public Accounts of Canada*

The *Public Accounts of Canada* is produced in three volumes.

Volume I presents the audited consolidated financial statements of the Government, as well as additional financial information and analyses;

Volume II presents the financial operations of the Government, segregated by ministry; and

Volume III presents supplementary information and analyses.

The content of Volume II is summarized as follows:

Summary Tables and Appendices (Section 1)

Section 1 includes summary tables which provide the summaries of the financial transactions contained in the ministerial sections.

Section 1 also includes, as appendices, the full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all authorities available from previous years, of all non-lapsing authorities granted/repealed in the current year, and of all authorities for the spending of proceeds from the disposal of surplus Crown assets.

Ministerial Sections (Sections 2 to 29)

There is one section for each ministry. The department and agencies, for which a Minister is responsible to Parliament, are grouped together to provide a total ministry presentation. Each ministerial section provides a statement of the strategic outcomes and program descriptions. Each ministerial section also includes, where applicable, a uniform set of statements to present each ministry's financial operations. These statements are:

- *Ministry Summary*
Displays by department and agencies the source and disposition of each budgetary and non-budgetary authority granted by Parliament in Appropriation Acts and other statutes.
- *Programs*
Displays by department and agencies the total authorities available for use and the authorities used in the current year for each program under each type of expenditure (operating, capital, transfer payments and non-budgetary).
- *Transfer Payments*
Displays by department and agencies the source and disposition of authorities for each transfer payment.
- *Details of Respendable Amounts*
Displays by department and agencies the nature of revenues and receipts which increase the amounts which may be spent from appropriations having net voting authority.
- *Revenues*
Displays by department and agencies the nature of revenues under each main revenue classification.

The statements in the ministerial sections are designed so that the relevant totals and subtotals may be traced directly to a preceding statement and then to the Summary Tables in Section 1 (e.g. data in the *Transfer Payments* statement can be traced to the *Programs* statement which in turn can be traced to the *Ministry Summary* statement; data in the *Ministry Summary* statement can be traced to the *Summary Tables* (5, 6 and 7) in Section 1).

Volume II is designed to reflect as closely as possible the form and content of Part II of the Main Estimates. Certain Summary Tables and Appendices and the *Ministry Summary* in the Ministerial Sections display the source and disposition of spending authorities. The level of details provided for the source and disposition of authorities is explained below:

- **Source of Authorities**
- *Available from previous years*
Spending authorities allowed to be brought forward from the previous year. Includes only those authorities where there is a specified dollar limit on total spending, or on the accumulated outstanding balance of items where revenues and receipts are available for spending. Usually these items represent revolving funds, proceeds from the disposal of surplus Crown assets or loans authorities. These amounts are available for spending without further approval from Parliament.
- *Main and Supplementary Estimates*
Include the spending authorities requested in the Estimates as well as forecasts included in the Estimates of spending under authorities granted in various other statutes including Appropriation Acts of previous years.

- *Adjustments, warrants and transfers*

Include:

- transfers from or to other ministries such as Treasury Board Votes 5, 10, 15, 25, 30 and 33 or changes in ministry responsibility;
- transfers within the ministry from one vote to another (under Parliamentary authority), or between transfer payments;
- any unexpended amounts from or to other ministries as deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*;
- changes to statutory amounts due to adjustments of spending forecasts included in the Estimates, due to cancellation or amendment to statutes or due to adjustments of Crown corporations borrowing authorities;
- amounts of previous years' overexpenditures paid or settled in the current year and proceeds from the disposal of surplus Crown assets;
- Governor General Special Warrants to cover payments that are required when Parliament is dissolved for a general election.

- *Total available for use*

Authorities available for spending during the current year (net of forecasted revenues and receipts available for spending).

- **Disposition of Authorities**

- *Used in the current year*

Amounts spent in the current year (net of actual revenues and receipts available for spending).

- *Lapsed (variance under)*

The amount of the lapse is the total authority available for use in the current year less the total of a) amount used in the current year and b) the amount available for use in subsequent years.

- *Overexpended (variance over)*

Excess of spending over authorities granted.

- *Available for use in subsequent years*

Unused spending authorities which have not lapsed and which are carried forward to a subsequent year.

- *Used in the previous year*

Amounts spent in the previous year (net of actual revenues and receipts available for spending). For authorities or transfer payments that no longer exist in the current year, the related total net expenditures of the previous year are reported as a single amount in line with the notation "Appropriations (items) not required for the current year".

⁽¹⁾ Transfer payments for employment insurance benefits are reported in Table 2a.

⁽²⁾ Includes the guaranteed income supplement and the spouse's allowance.

⁽³⁾ Includes transfer payments for Canada child tax benefits.

Table 2a**Recapitulation of External Expenses by Type**

Table 2a reconciles total ministerial net expenditures (Table 2) with external expenses reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume I. The reconciling items include the expenditures of the consolidated specified purpose accounts, the accrual and other adjustments, the expenses of the consolidated Crown corporations and other entities, the tax credits and repayments and the elimination of internal expenses. (in thousands of dollars)

Description	Total ministerial net expenditures	Consolidated specified purpose accounts	Accrual and other adjustments	Consolidated Crown corporations and other entities	Tax credits and repayments	Internal expenses	Total external expenses
Transfer payments —							
Old age security benefits, guaranteed income supplement and spouse's allowance	44,133,074	...	(30,133)	44,102,941

Note: If no amount is shown, either the expenditures were less than \$500 or none were reported.

Table 3**Ministerial Expenditures by Standard Object**

Table 3 presents expenditures by standard object for each ministry on both a gross and net basis. The difference between gross and net expenditures is revenues netted against expenditures. The standard object presentation of expenditures is related to the goods and services acquired, and transfer payments made by the Government. The “Total gross expenditures” column represents the total of expenditures charged to standard objects 1 to 12 inclusively. The “Total ministerial net expenditures” column represents the result of total gross expenditures less total revenues netted against expenditures. The “Total ministerial net expenditures” column discloses the total expenditures reported for each ministry in the ministerial sections of this volume.

Table 3a reconciles total ministerial net expenditures with external expenses reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume 1.

(in thousands of dollars)

Section	Department or agency	Personnel (1)	Transportation and communications (2)	Information (3)	Profes- sional and special services (4)	Rentals (5)	Repair and maintenance (6)	Utilities, materials and supplies (7)	Acquisition of land, buildings and works (8)	Acquisition of machinery and equipment (9)	Transfer payments (10)	Public debt charges (11)	Other subsidies and payments (12)	Less: revenues netted against expenditures			Total ministerial net expenditures

Notes: If no amount is shown, either the expenditures were less than \$500 or none were reported.

(¹) Additional details are provided in Section 3 of Volume III.

(²) Additional details are provided in Section 4 of Volume III.

(³) Additional details are provided in Section 5 of Volume III.

(⁴) Additional details are provided in Section 6 of Volume III.

(⁵) Additional details are provided in Section 7 of Volume III.

(⁶) Other subsidies and payments include transition payments totalling \$716,924,825 for implementing salary payments in arrears for the core public service.

Table 3a**Reconciliation of External Expenditures by Standard Object to Expenses**

Table 3a reconciles total ministerial net expenditures (Table 3) with total external expenses reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume I. The reconciling items include the expenditures of the consolidated specified purpose accounts, the accrual and other adjustments, the expenses of the consolidated Crown corporations and other entities, the tax credits and repayments, and the elimination of internal expenses and internal revenues netted against expenses.

(in thousands of dollars)

Description	Total ministerial net expenditures	Consolidated specified purpose accounts	Accrual and other adjustments	Consolidated Crown corporations and other entities	Tax credits and repayments	Less:		Total external expenses
						Internal expenses	Internal revenues netted against expenses	
Transfer payments	142,212,401	18,242,860	395,947	319,138	13,522,549	174,692,895

Note: If no amount is shown, either the expenditures were less than \$500 or none were reported.

Table 4**Ministerial Revenues**

Table 4 presents revenues for each ministry. The “Total ministerial revenues” column represents revenues from all sources. This column represents tax and other revenues from both external and internal sources. It discloses total ministerial revenues as reported in the “Revenues” statement in each ministerial section of this volume.

Table 4a reconciles total ministerial revenues with external revenues reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume 1.

Note: If no amount is shown, either the revenues were less than \$500 or none were reported.

⁽¹⁾ Additional details are provided in Section 10 of Volume III. The total amount includes \$1,357,728 of return on investments, \$842,612 related to foreign exchange revenues (\$839,710 for Exchange Fund Account and \$2,901 for International Monetary Fund), and \$3,302,353 related to enterprise Crown corporations. The amounts related to foreign exchange revenues and Crown corporation revenues have been respectively reclassified in Table 4a of this volume.⁽²⁾ Details of Sales of goods and services are presented in Table 4b of this volume.⁽³⁾ Includes domestic coinage for \$112,733 and net gain on exchange for \$631,860. The amount of \$631,860 has been reclassified to foreign exchange revenues in Table 4a of this volume.⁽⁴⁾ The transition payments for implementing salary payments in arrears were transferred to a central account administered by Pay Operations and Service Management Directorate which is not a department listed in the *Financial Administration Act*, but it is a directorate within the department Public Works and Government Services Canada performing a central administration support function for the whole of government.

Table 4a**Recapitulation of External Revenues by Source**

Table 4a reconciles total ministerial revenues (Table 4) with external revenues reported in Table 1 of this section and in the Consolidated Statement of Operations and Accumulated Deficit in Section 2 of Volume 1. The reconciling items include the revenues from the consolidated specified purpose accounts, the accrual of accounts receivable and the adjustment of the Exchange Fund Account to recognize the international reserves held in the Account, the accrual and deferral of other revenues, the revenues of Crown corporations and other entities, tax credits and repayments and the elimination of internal revenues.

Table 6**Source and Disposition of Non-Budgetary Authorities by Ministry**

Table 6 presents the source and disposition of non-budgetary authorities by ministry. The level of details provided for the source and disposition of authorities is explained in the Introduction to this volume. In addition, detailed information is provided in the “Ministry Summary” statement in each ministerial section of this volume.

Table 7**Source and Disposition of Authorities by Type (Voted and Statutory)**

Table 7 presents the source and disposition of budgetary and non-budgetary authorities by ministry and by type of authority (voted and statutory). The level of details provided for the source and disposition of authorities is explained in the Introduction to this volume. In addition, detailed information is provided in the “Ministry Summary” statement in each ministerial section of this volume.

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the “Main Estimates” and additional requests are called “Supplementary Estimates”. With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in Appropriation Acts and are generally referred to as “annual” or “voted” authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these “statutory” authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Voted authorities, with few exceptions, lapse at the end of the year if not used, while statutory authorities, with few exceptions, are carried forward to future years. Those authorities which extend to subsequent years are referred to as “non-lapsing”.

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

Note: If no amount is shown, either it is less than \$500 or no amount was reported.

(1) These adjustments, warrants and transfers include items such as:

- (a) reserved allotments established to provide payment authority for the overexpenditure of previous year's appropriations which resulted from prior year's payables;
- (b) adjustments to items displayed in the Estimates on an informational basis to reflect actual spending and of certain authorities carried forward to reflect authorities available; and,
- (c) adjustments to authorities granted in statutes other than appropriation acts.

Appendix 1**Authorities Granted in Current Year Appropriation Acts**

Appendix 1 provides the full wording of all authorities (budgetary and non-budgetary) granted in current year's Appropriation Acts, by ministry.

(S)	Canadian Commercial Corporation (L) <i>Canadian Commercial Corporation Act</i> , section 11 The Minister of Finance shall, on the request of the Minister, from time to time, deposit to the credit of the Corporation in the Bank of Canada or in a chartered bank designated by the Minister an amount or amounts not exceeding in the aggregate \$10,000,000 to be paid out of unappropriated moneys in the Consolidated Revenue Fund (Net)	10,000,000
(S)	Export Development Canada (Canada Account) (L) <i>Export Development Act</i> , section 23 Authority in accordance with terms and conditions prescribed by section 23, accounts administered for Canada, the liability for loans and commitments as limited by section 24 shall not at any time exceed \$20,000,000,000 (Net) (In accordance with sections 10, 23 and 24 of the <i>Export Development Act</i> , the authorized limit of \$20 billion is for loans in support of export development. At the time this authority was granted, these loans were accounted for on a non-budgetary basis. Subsequently, the Government changed its accounting policies which resulted in concessional loans being accounted for on a budgetary basis. Therefore, this authority is available for both budgetary and non-budgetary transactions. However, since the authority is for loans it is shown as non-budgetary for reporting purposes.)	16,937,950,579

Appendix 5

Authorities for the Spending of Proceeds from the Disposal of Surplus Crown Assets

Appendix 5 provides details, by ministry, of the source and disposition of authorities related to the spending of proceeds from the disposal of surplus Crown assets.

Pursuant to sections 13(2) and 14 of the *Surplus Crown Assets Act*, departments as defined in section 2 of the *Financial Administration Act* (excluding the House of Commons, the Senate, the Library of Parliament, the Office of the Conflict of Interest and Ethics Commissioner, the Senate Ethics Officer and the International Joint Commission) are authorized to establish a spending authority equal to the proceeds received from the disposal of surplus Crown assets. The proceeds received in any fiscal year that have not been spent in that fiscal year are carried forward to the next fiscal year for use in that fiscal year only. The amount carried forward is however subject to a maximum limit.

Revenues	2.14

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Material services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

A competitive and market-oriented agriculture, agri-food and agri-based products sector that proactively manages risk.

- **Program 1.1** — Business Risk Management

Agriculture and Agri-Food Canada has a comprehensive suite of business risk management programs to better equip producers with the tools and capacity to manage business risks. This suite provides coverage for small income declines, margin-based support for larger income losses, a disaster relief framework for rapid assistance to producers and production insurance to protect farmers against production losses due to uncontrollable natural hazards. In addition, assistance to producers through the provision of financial guarantees facilitates the marketing of producers' products when market conditions and prices may be more favourable.

- **Program 1.2** — Market Access, Negotiations, Sector Competitiveness, and Assurance Systems

Agriculture and Agri-Food Canada (AAFC) supports and equips industry for commercial success in order to maximize the sector's long-term profitability and competitiveness. In pursuing this objective and in close collaboration with the Canadian agriculture, agri-food and agri-based products sector, AAFC ensures access to markets, facilitates industry-led activities aimed at developing international markets and assurance systems, and provides information to help position industry to capitalize on market opportunities both at home and abroad. Assurance systems include systems, standards and tools for food safety, biosecurity, traceability, surveillance, animal welfare, and other market attributes.

- **Program 1.3** — Farm Products Council of Canada

Established under the *Farm Products Agencies Act* (the Act), the Farm Products Council of Canada (FPCC) is a unique public interest oversight body that reports to Parliament through the Minister of Agriculture and Agri-Food (the Minister). The Act provides for the creation of national marketing agencies, which are not subject to the *Competition Act*, as well as promotion-research agencies. The FPCC supervises these agencies, and works with them to ensure that the supply management system for poultry and eggs and promotion-research activities for beef cattle work in the balanced interest of all stakeholders, from producers to consumers, and can evolve to respond to current and future challenges. The FPCC also provides advice and recommendations to the Minister, collaborates with provincial supervisory boards and actively works with the Department and Agriculture and Agri-Food Portfolio organizations.

Strategic Outcome 2

An innovative and sustainable agriculture, agri-food and agri-based products sector.

- **Program 2.1** — Science, Innovation, Adoption and Sustainability

Agriculture and Agri-Food Canada (AAFC) contributes to innovation and sustainability of the agriculture, agri-food and agri-based products sector through science and associated activities designed to improve profitability in new and existing products, services, processes and markets. AAFC provides research, development and knowledge transfer that enhances the sector's resiliency, fosters new areas of opportunity for the sector and supports sector competitiveness as well as coordinated and informed decision-making. AAFC promotes integrated planning, engaging industry, government and academia, and collaborative action to accelerate the flow of science and technology along the innovation continuum in support of industry defined strategies for future success. Farmers, agri-entrepreneurs and agri-based enterprises are supported in their efforts to adopt new technologies and commercialize new products and services. Pathfinding and transformational research help to define future sustainable opportunities and prepare the sector for emerging opportunities and challenges.

- **Program 2.2** — Industry Capacity

This program builds capacity of the sector and businesses to sustainably succeed in a market-driven and competitive world. The program encourages the use of sound business management practices, while also enabling businesses in the sector to understand their financial situation, be profitable and invest where needed. It provides for enhanced participation by young or new entrants, First Nations clients, and clients in specific sub-sectors in transition. The program also supports the sector and its businesses to improve access to key infrastructure.

- **Program 2.3** — Canadian Pari-Mutuel Agency

Section 204 of the *Criminal Code of Canada* designates the Minister of Agriculture and Agri-Food as the individual responsible for the policy and regulatory functions pertaining to pari-mutuel wagering on horse races. The Canadian Pari-Mutuel Agency (CPMA) is a special operating agency within Agriculture and Agri-Food Canada that regulates and supervises pari-mutuel betting on horse racing at racetracks across Canada, with the objective of ensuring that pari-mutuel betting is conducted in a way that is fair to the betting public. Costs associated with the activities of the CPMA are recovered through a levy on every dollar bet in Canada on horse races. The levy is currently set at eight-tenths of a cent of every dollar bet. CPMA's strategic plans are focused on regulating and supervising pari-mutuel wagering on horse races in the most modern, effective and transparent manner.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1** — Internal services

See introductory text.

Canadian Dairy Commission

Strategic Outcome 1

To enhance the vitality of the Canadian dairy industry for the benefit of all stakeholders.

- **Program 1.1** — Administer milk supply management system

Set support prices for butter and skim milk powder. Determine and recommend National quota for industrial milk production. Facilitate within the dairy industry. Administer Domestic Seasonality (supply and demand) Program.

Canadian Grain Commission

Strategic Outcome 1

Canada's grain is safe, reliable and marketable and Canadian grain producers are properly compensated for grain deliveries to licensed grain companies.

- **Program 1.1 — Grain Quality Research Program**

The *Canada Grain Act* requires the CGC to undertake, sponsor and promote research related to grains. The CGC conducts research in support of Canada's grain quality assurance system to address emerging issues and permit the effective marketing of Canadian grain. The CGC's Grain Research Laboratory (GRL) researches factors affecting the quality and safety of grain and grain-based products. Research in the GRL forms the basis of grain specifications. This program benefits not only the agricultural sector, but also Canadians as consumers of grain products. Close collaboration with Canadian and international scientific, academic, analytical, grain industry organizations and other Canadian government departments (e.g., Agriculture and Agri-Food Canada, Canadian Food Inspection Agency, Health Canada) ensures that the CGC remains abreast of new research developments and is able to adapt research priorities to emerging challenges. The grain quality research program is funded by a combination of revolving fund revenue and appropriations.

- **Program 1.2 — Quality Assurance Program**

The CGC's quality assurance program is delivered pursuant to the *Canada Grain Act* and the Canada Grain Regulations. This program assures consistent and reliable grain quality that meets the needs of international and domestic markets. Grain quality refers to end-use processing quality, grain safety and cleanliness, and, in some cases, the composition of varieties in shipments of grain. Provision of grain inspection, grain safety, and grading services, as well as strong scientific and technical support programs and services are integral components to the overall delivery of an effective quality assurance program. The program includes a complaints resolution process for resolving customer complaints and disputes with respect to grain quality assurance. An effective grain quality assurance program is a key factor in permitting Canadian exporters to market successfully in competitive international grain markets and is essential for producers to realize maximum value from their grain. The quality assurance program is funded by revolving fund revenue.

- **Program 1.3 — Quantity Assurance Program**

The CGC's quantity assurance program is delivered pursuant to the *Canada Grain Act* and the Canada Grain Regulations. The services delivered under this program facilitate the official weighing of export shipments of grain discharged from terminal elevators and the issuance of accompanying quantity assurance documentation. This program ensures international grain buyers and end users that Canadian export grain shipments are accurately weighed and that the weighed product is delivered to conveyances as purported on CGC documentation. The program includes weighing systems certifications at terminal elevators, input into weighing equipment requirements and device inspection frequency at primary elevators to ensure accurate weighing of producer deliveries, and a quantity assurance dispute resolution process. To maintain relevancy and to address constantly changing industry demands, the quantity assurance program is supported through legislative requirements and technically based responsibilities. The quantity assurance program is funded by revolving fund revenue.

- **Program 1.4 — Producer Protection Program**

Pursuant to the *Canada Grain Act* and Canada Grain Regulations, the CGC has implemented a number of programs and safeguards to ensure that grain producers are properly compensated for grain delivered to licensed grain companies. These include the licensing and security program, allocation of producer cars for producers and producer groups that wish to ship their own grain, and producer liaison measures including a grain grade reinspection system. In addition, the CGC collects and updates grain quality data and grain handling information to facilitate producer sales and marketing decisions. The producer protection program is funded by revolving fund revenue.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Farm Credit Canada

Strategic Outcome 1

Farm Credit Canada supports the federal government's vision for continued growth and prosperity in the agriculture industry.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

A competitive Atlantic Canadian economy.

- **Program 1.1** — Enterprise Development

Despite recent economic progress and some promising opportunities on the horizon (e.g. energy, shipbuilding), some significant challenges remain for the region to maximize positive growth. One of the most telling indicators of this is that, in a number of sectors, productivity remains significantly lower than in leading countries and other regions of Canada. The Agency works in partnership with Atlantic Canadian businesses, stakeholders, industry and institutions to improve the growth and productivity of Atlantic Canada's economy, leading to increased competitiveness, higher earned incomes and job creation. The Agency works to improve the capacity of Atlantic Canada's rural and urban areas for economic growth through a variety of strategically focused mechanisms: assisting businesses, particularly small and medium-sized ones, to start, expand or modernize and to establish or expand export activities; partnering with universities and other institutions to increase the region's research and development capacity, commercialization and productivity; and promoting and participating in the region's transition to a knowledge economy.

- **Program 1.2** — Community Development

The Atlantic economy is built on the region's many geographic, linguistic and cultural communities. From rural areas to larger urban centres, the opportunities and challenges vary significantly. Communities are the foundation of economic development and are critical for economic prosperity. The Agency recognizes the importance of communities and supports their efforts to develop the resources they need to contribute fully to their economic development. For those reasons, the Agency focuses community development efforts and strategies to create dynamic and sustainable communities with increased economic and business activities as well as quality public infrastructure. The Agency develops and delivers programming that meets the unique economic development needs of rural areas in Atlantic Canada and that contributes to a stronger region. The Agency collaborates with the private sector, other levels of government, other federal government departments, educational institutions, non-profit organizations and communities to leverage support, coordinate economic development, identify and capitalize on emerging opportunities and react to economic challenges across the region. This requires a flexible approach based on the realities of a given community's capacities, strengths and challenges.

- **Program 1.3** — Policy, Advocacy and Coordination

The Agency's Policy, Advocacy and Coordination (PAC) program is central to identifying and effectively responding to opportunities and challenges facing the regional economy. PAC provides intelligence, analysis and well-grounded advice on a broad range of issues and topics, and it informs and supports Agency and ministerial decision making. PAC helps carry the Agency's agenda forward and ensure that ACOA overall remains relevant and responsive to the opportunities and challenges in Atlantic Canada by offering strategic, researched policy positions that reflect the region's potential, by influencing national policies and programs that affect Atlantic Canada's development and interests, and in coordinating other policies and programs within the region to form integrated approaches to development.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Enterprise Cape Breton Corporation

Strategic Outcome 1

A competitive and sustainable Cape Breton economy.

- **Program 1.1** — Property Development

Through this program, the Enterprise Cape Breton Corporation (ECBC) has the ability to purchase, lease and sell land, and to hold mortgages. The development and management of property holdings are used by the Corporation as a development tool to complement funding programs. Surplus revenues from real property leases and land sales go directly into economic development projects within ECBC's mandate area. In addition, as part of the land transfer/disposal process, the Corporation makes lands available for lease or sale to businesses and organizations in an effort to foster economic development opportunities. Both activities serve to support the economic development mandate of the Corporation. In addition to land holdings, ECBC's real property assets include the Corporation's head office in Sydney, Nova Scotia, the Point Edward Resource Centre (agricultural property), the Port Hawkesbury business facility (office space) and the New Waterford business facility (office space). As a result of the transfer of the assets and liabilities of the Cape Breton Development Corporation (CBDC) to ECBC upon CBDC's dissolution, ECBC now owns and operates a number of water treatment and storage facilities. It also owns and operates the Dominion Coal Yard and leases space from a salvage operation in Sydney Mines, both required to support the former CBDC's contractual obligation to sell coal to current and former employees.

- **Program 1.2** — Commercial Development

Due to the size and makeup of the Cape Breton economy and its distance from major markets, access to capital remains one of the greatest challenges for businesses. The ability to access capital from traditional lenders, venture capitalists and other levels of government is limited. Recognizing the challenges faced by small and medium-sized enterprises, the Enterprise Cape Breton Corporation, through this program, works with potential and existing entrepreneurs to assess and to provide, as appropriate, various forms of assistance, including but not limited to equity, secured and unsecured loans, as well as non-repayable contributions. The Corporation provides both direct and indirect support to business. Direct support to business includes access to capital, export development, training and skills development, planning, business counselling and marketing. Indirect support to business includes support to non-commercial or non-profit organizations, including industry organizations that provide services in support of market and trade development, investment, entrepreneurship, skills development, planning, business information, business counselling and advice. The goal for commercial development is to foster a business climate that will encourage private-sector investment, business growth and increased productivity.

- **Program 1.3 — Community Development**

Structural adjustment has been taking place in the Cape Breton economy over the past decade due to the closure of the Island's major industries and the downsizing of the fishing industry. The economic climate on the Island has presented significant challenges for many communities in terms of attracting investment and realizing opportunities. Through this program, ECBC works to engage and empower communities to take control of their destiny by pursuing opportunities leading to sustainable economic development. Working in co-operation with communities and community-led organizations, activities pursued in support of this program range from developing and implementing overall strategies for economic development and skill development activities to supporting the business environment, and new and/or improved community infrastructure.

- **Program 1.4 — Policy and Advocacy**

Fundamental to ECBC's mandate is the Corporation's policy and advocacy role, which assists in identifying the opportunities and challenges facing the Island, as well as informing and supporting decision making both within and outside the Corporation. ECBC's policy and advocacy function focuses on a range of activities, including research, analysis, planning and reporting, as well as working to advance the interests, priorities and concerns of Cape Breton Island in government decisions and actions. The policy and advocacy function exists to inform and support decision making by the Corporation, providing intelligence, analysis and well-grounded advice on a number of issues and topics. The policy and advocacy function helps carry the Corporation's agenda forward, plays an integral role in developing focused and adaptable approaches to issues, and helps ensure that the Corporation overall remains relevant to the opportunities and challenges facing Cape Breton. In developing the advocacy agenda for Cape Breton, ECBC works to ensure that national and provincial officials are aware of the needs of the region and that Cape Breton interests, priorities and concerns are considered when policy is developed. Research and analysis are required to understand the economic challenges and opportunities facing Cape Breton and to guide the policy and advocacy making activities of the Corporation.

- **Program 1.5 — Environmental Stewardship**

As part of the transfer of the CBDC assets and liabilities to ECBC, the Corporation assumed stewardship responsibility for all former land holdings of the CBDC. This included all environmental obligations related to these sites. ECBC is required to comply with environmental laws and regulations as they pertain to current activities as well as the activities of certain predecessor companies that were expropriated when the CBDC was formed in 1967. To properly meet these obligations, ECBC entered into a strategic partnership arrangement with Public Works and Government Services Canada (PWGSC), similar to that previously in place between CBDC and PWGSC. As part of this relationship, projects were planned and managed by PWGSC with oversight, monitoring and funding provided by ECBC. PWGSC completed the assessment and implementation of remedial activities on the 53 identified contaminated mining-related sites in 2012-2013. It is anticipated that all of the long-term environmental obligations will be completed by 2055 except the mine-water obligation, which may require management indefinitely. ECBC also works with numerous partners, such as the Centre for Sustainability in Energy and the Environment at Cape Breton University, the Sydney Tar Ponds Agency, the Province of Nova Scotia, Environment Canada, and the private sector to explore alternative sources of energy related to the former CBDC's land holdings that could potentially lead to commercial development opportunities. This includes research into the production of green fuel crops, geothermal energy from mine water, and the potential for clean coal energy opportunities of the residual coal within the Sydney coal field.

- **Program 1.6 — Human Resource Obligations**

The programs included under Human Resource Obligations are nondiscretionary items that ECBC is required to deliver to former CBDC employees following the dissolution of the CBDC. They are ongoing liabilities, some of which will continue beyond 20 years. They are a result of post employment benefits and various human resource strategies (operation closure). They include early retirement incentive programs, liability for future employee benefits, workers' compensation obligations and a domestic coal subsidy program.

- **Program 1.7** — Regional Service Delivery

Through this program ECBC is responsible for the program delivery of the Atlantic Canada Opportunity Agency's (ACOA) programs on Cape Breton Island such as the Business Development and Community Futures Programs. Based on ECBC's unique delivery model for economic development, ECBC and ACOA entered into a memorandum of understanding (MOU) in 1995 under which ECBC delivers ACOA's programming on Cape Breton Island and in the Mulgrave area. The MOU allows ECBC to design its programming and economic development strategies to complement ACOA programming. The MOU is renegotiated every five years.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Taxpayers meet their obligations and Canada's revenue base is protected.

- **Program 1.1** — Reporting Compliance

The CRA's enforcement activities seek to protect the integrity of Canada's voluntary compliance system by identifying and addressing the small segment of the population that does not report the correct amounts. Our compliance interventions follow an escalating approach that moves from influencing compliance to enforcing it. We seek to influence compliance attitudes by increasing taxpayers' understanding of their tax obligations through targeted outreach activities, client service, and education. We also undertake examinations, audits, and investigations at the domestic and international level to ensure compliance with Canada's tax laws.

- **Program 1.2** — Assessment of Returns and Payment Processing

The CRA undertakes a wide range of activities to assess and process tax returns, information returns, and payments for individuals and businesses. We undertake activities that make it easier for individuals and businesses to meet their filing, reporting, and payment obligations. We assess, process, and adjust tax returns for individuals and businesses. We review information provided to find errors. We detect non-compliance through risk assessment and third-party data matching. Through these activities, we support the process of assessing tax returns from beginning to end.

- **Program 1.3** — Collections and Returns Compliance

The Collections and Returns Compliance programs are committed to protecting the integrity of Canada's tax laws and supporting compliance with tax obligations by identifying, addressing, and preventing non-compliance, as well as ensuring that tax debt is resolved on a timely basis. We undertake a range of activities to promote and enforce compliance with Canada's tax laws for filing, withholding, registering, and debt obligations, including amounts collected or withheld in trust for the Government of Canada. This is achieved through education campaigns, automated strategies, call centres, and field operations. These activities are carried out on behalf of the Federal Government, provinces, territories, and certain First Nations governments.

- **Program 1.4** — Taxpayer and Business Assistance

As the administrator of Canada's self-assessment tax system, the CRA has a responsibility to provide taxpayers with accurate and timely information so that they can comply with Canada's tax laws. To achieve this, we maintain a Web site that contains general information about our programs. We also use videos and webinars and interact with Canadians on social media. When taxpayers require additional support, we offer expertise and guidance through our telephone services, technical interpretation and advance income tax rulings service. We also administer and monitor charities and registered plans to ensure that they are managed in accordance with existing legislation.

- **Program 1.5 — Appeals**

The CRA's redress process provides dispute resolution for taxpayers and benefit recipients who contest our decisions and seek relief. If taxpayers are not satisfied with the results of the process, they can then appeal to the courts. The CRA assists the Department of Justice in handling cases that are sent before the courts.

Strategic Outcome 2

Eligible families and individuals receive timely and accurate benefit payments.

- **Program 2.1 — Benefit Programs**

The CRA's Benefit Programs provide Canadians with the benefits and other services they are entitled to. The CRA delivers a range of ongoing benefits and one-time payment programs on behalf of the provinces and territories, First Nations governments, and other federal government departments (e.g. the Canada Child Tax Benefit, Goods and Services Tax/Harmonised Sales Tax Credit, Disability Tax Credit, and Universal Child Care Benefit). By providing accessible information and timely responses to benefit recipients via the mail, telephone and online services, we help ensure that the right benefit payment is made to the right individual at the right time.

Strategic Outcome 3

Taxpayers and benefit recipients receive an independent and impartial review of their service-related complaints.

- **Program 3.1 — Taxpayers' Ombudsman**

Taxpayers' Ombudsman reports directly to the Minister of National Revenue and operates independently at arm's length from the management of the CRA and the CRA Board of Management, provides advice to the Minister of National Revenue about service matters in the CRA; addresses requests for reviews made by taxpayers and benefit recipients with respect to service matters including the service rights outlined in the Taxpayer Bill of Rights; and identifies and reviews systemic and emerging service-related issues within the CRA that have a negative impact on taxpayers and benefit recipients.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Canadians share, express and appreciate their Canadian identity. NOTE: Share, express and appreciate are each important when considering how Canadians engage with their identity, but they are interdependent and are meant to be considered here as a whole.

- **Program 1.1** — Official Languages

Canadian Heritage plays an important role in the horizontal coordination of official languages within the federal government and especially with respect to coordination and support to federal institutions in the implementation of the government's commitment towards the development of official-language minority communities and the promotion of linguistic duality, pursuant to section 42 of the *Official Languages Act* (OLA). Canadian Heritage is also responsible for the planning, implementation and management of the Official Languages Support Programs pertaining to the promotion of linguistic duality within Canada and the development of official-language minority communities, in accordance with section 43 of the OLA. These activities contribute to achieving the following Government Outcome: "A diverse society that promotes linguistic duality and social inclusion".

- **Program 1.2** — Attachment to Canada

This Program strengthens Canadian identity by promoting pride and a sense of national purpose in Canadians. It celebrates and commemorates Canada and enhances understanding of shared values, cultural diversity and knowledge of Canada. Also, it promotes civic education and participation among Canadians, including youth, as well as provides them with the opportunity to learn about and understand Canada's society, diversity, history and institutions. This is achieved through delivering programs and services in the form of grants and contributions. The core concept of this program is to promote knowledge and experiences of Canada among Canadians.

- **Program 1.3** — Engagement and community participation

This Program aims to engage Canadians and provide them with opportunities to participate in the civil, social and cultural aspects of life in Canada and in their communities. This is accomplished through funding programs and initiatives that support the efforts of communities to build stronger citizen engagement and social inclusion through the performing and visual arts; express, celebrate and preserve local heritage; contribute to increasing the respect for and awareness of human rights in Canada; and develop innovative and culturally appropriate solutions to the social, cultural, and other obstacles that impede Aboriginal peoples' community and personal prospects. This Program has strong social benefits, as it contributes to the preservation of the history and identity of Canada's diverse communities, while offering a way for traditions and identities to evolve over time. The Program supports the Department's mandate to strengthen Canadian identity and values, and build attachment to Canada.

Strategic Outcome 2

Canadian artistic expressions and cultural content are created and accessible at home and abroad.

- **Program 2.1 — Cultural Industries**

This Program supports Canadian cultural industries in adapting to a changing and challenging global marketplace. This is achieved through the delivery of grants, contributions and tax credits, as well as policy, regulatory and legislative measures. Fostering the competitiveness and creative output of these industries ensures that Canadian and international audiences access a range of Canadian content across a variety of formats and platforms and contributes to the Canadian economy.

- **Program 2.2 — Arts**

This program improves Canadians' access to varied artistic experiences, contributes to the resilience of the arts sector and to deepening the connections between cultural organizations and their communities. This is accomplished through funding programs that support institutions that offer artists and performers training of the highest calibre in preparation for professional careers; the presentation of professional arts festivals or performing arts series; the improvement of arts and heritage infrastructure and the improvement of business practices of arts and heritage organizations and the development of partnerships in the sector. The core concept of this program is to encourage access, resilience and excellence in the arts for all Canadians.

- **Program 2.3 — Heritage**

This Program ensures that Canada's cultural heritage is preserved and accessible to Canadians today and in the future. It enables the heritage sector to improve professional knowledge, skills and practices, to preserve and present heritage collections and objects, and to create and circulate exhibitions and other forms of heritage content. This is accomplished by providing funding such as grants, contributions and tax incentives; information, expertise, training and other services; and regulatory and legislative measures. The primary goal of this Program is to promote the preservation and presentation of Canada's cultural heritage.

Strategic Outcome 3

Canadians participate and excel in sport.

- **Program 3.1 — Sport**

This Program promotes development and excellence in sport among Canadians and Canadian communities through initiatives that provide direct support to Canadian high-performance athletes; enhance Canada's ability to host the Canada Games and international sport events in Canada; support the development of excellence in the Canadian sport system; and contribute to increasing participation in sport by Canadians of all ages and abilities. The core concept of this Program is to enhance and promote Canadian participation and excellence in sport, by providing funding, expertise and other services to Canadian athletes, sport organizations, stakeholders and event organizers.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

Canada Council for the Arts

Strategic Outcome 1

A vibrant and dynamic arts sector in Canada.

- **Program 1.1** — Grants and services to support creation, production and dissemination of arts for individuals and organizations

Provides grants and services to professional Canadian artists and arts organizations.

- **Program 1.2** — Arts promotion to foster public knowledge and appreciation of the Canadian arts and culture

To encompass all activities within the organization for the promotion of arts at the national and international levels including partnerships and networks with multiple stakeholders, rental of art works, recognizing artistic excellence with our different prizes.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Canadian Broadcasting Corporation

Strategic Outcome 1

A national public broadcasting service exists that is primarily Canadian in content and connects citizens to the Canadian experience.

- **Program 1.1** — Television, Radio and Digital Services

As mandated in the 1991 *Broadcast Act* CBC/Radio-Canada provides a comprehensive range of national, regional and local radio, television, and digital services for Canadians. This incorporates programming that informs, enlightens and entertains in English, French, Aboriginal languages, and in foreign languages on Radio Canada International. Execution of these services is tailored to the uniqueness of the markets served.

- **Program 1.2** — Transmission and distribution of programs

The distribution of the national broadcasting service to Canadians in virtually all parts of Canada through satellite, microwave and landlines. Included is the provision of the signal that delivers service to the individual radio and television receivers through CBC/Radio-Canada transmitters, payments to privately-owned affiliates carrying CBC/Radio-Canada programs, and facilities to delay or pre-release broadcasts as required in the different time zones of the country.

- **Program 1.3** — Specialty Channels for Specific Audiences

A variety of English and French television channels distributed through satellite and cable that target a specific audience segment and are key in delivering distinctive, high-quality and popular programming to Canadians. The incremental costs of operations are funded from revenues generated.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Museum for Human Rights

Strategic Outcome 1

Enhanced knowledge of human rights, with special but not exclusive reference to Canada, in order to enhance the public's understanding of human rights, to promote respect for others and to encourage reflection and dialogue.

- **Program 1.1 — Museum Content and Program**

In becoming the world's first museum dedicated to the exploration of human rights, the Canadian Museum for Human Rights (CMHR) is breaking new ground; there is no precedent for a museum of this nature. In its early years, the primary focus of this program will be on establishing an innovative and unique public program that includes developing a sound research and scholarship capacity; accessible and engaging exhibits and educational programming that promote reflection and dialogue; a strong capacity of national outreach, engagement and service to Canadians; and strong Marketing and Communications to ensure a high level of awareness about the CMHR and its programs and services.

- **Program 1.2 — Accommodation**

The focus of this program in the early years will be to manage all stages of the capital construction project – including choosing the final design – leading to its commissioning and public opening. The Board will be fully accountable for overseeing all aspects of the building project, including choosing the final design, establishing the time-frames for construction and managing risks throughout. Prior to the opening of the facility, the Museum will also be establishing the appropriate mechanisms to provide for effective, efficient operations and maintenance and its ongoing security, accessibility and sustainability.

- **Program 1.3 — Stewardship and Corporate Management**

The Stewardship and Corporate Management Program is aimed at ensuring the private and public funds invested in the Museum are managed in a transparent, accountable manner; that resources are effectively deployed, developed, directed, administered and controlled; and that the corporation optimizes the value it contributes to Canadians and Canadian society.

Canadian Museum of History

Strategic Outcome 1

Interest in, knowledge of and appreciation and respect for human cultural achievements and human behaviour through collections of historical and cultural objects, exhibitions, programs and research reflecting a Canadian perspective.

- **Program 1.1 — Accommodation**

Managing and maintaining all facilities and related security and hosting services.

- **Program 1.2 — Exhibit, Educate and Communicate**

Develops, maintains, and communicates exhibits, programs and activities to further knowledge, critical understanding, appreciation and respect for human cultural achievements and human behaviour.

- **Program 1.3 — Collect and Research**

Manages, develops, conserves and undertakes research on the collections to enhance program delivery and augment the scientific knowledge base.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Museum of Immigration at Pier 21

Strategic Outcome 1

Canadians are engaged in building and exploring the stories, themes and history of Canadian immigration as it continues to unfold.

- **Program 1.1 — Accommodations**

The Accommodation Program provides secure and functional facilities that meet all safety and building code requirements including a renovated Museum facility that furthers the vision and mandate of the Museum. It ensures that the Museum's leased facilities: support the realization of the Museum's mandate; contribute to a rich, welcoming and engaging visitor experience; and are safe, secure and accessible. Capital improvements to the facilities optimize the use of the space for public programming, are managed prudently and respect the historic nature of the site. Accommodation includes: Leasehold Improvements and Building Operations, including Security.

- **Program 1.2 — Visitor Experience and Connections**

The Visitor Experience and Connections Program aims to give the Museum's audience access to rich content and programming that reflects the diverse experiences and contributions of immigrants throughout Canada's history. It is also designed to engage Canadians extensively in building and exploring these key themes by encouraging them to share their stories and to research their own family's immigration story. The Museum conducts research and presents vibrant studies of immigration to Canada through a wide variety of layered mediums including: permanent and temporary exhibitions; onsite and outreach programs; travelling exhibitions; publications; virtual exhibitions; and other web and social media tools. Visitor Experience and Connections includes: Research and Content Development; Interpretation and Connections (including Public Programming and Exhibits); National Outreach and Partnerships; and Visitor Services and Amenities, including volunteers' activities.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Museum of Nature

Strategic Outcome 1

Interest in, knowledge of and appreciation and respect for the natural world through collections of natural history objects, public education programmes and research reflecting a special but not exclusive perspective on Canada.

- **Program 1.1 — Accommodation**

Provides secure and functional facilities that meet all safety and building code requirements including a renovated Museum facility that furthers the vision and mandate of the Museum.

- **Program 1.2 — Public education programs**

Develops and maintains exhibitions, programs, electronic and print publications, the Museum's website nature.ca and activities to foster an understanding of, and empathy with, nature.

- **Program 1.3 — Research**

Explores the past and assists Canadians in preparing for the future by conducting both systematics and applied research, as well as by developing and maintaining networks and linkages with Canadian and international scientific communities.

- **Program 1.4 — Collections management**

Develops, preserves and makes accessible collections of natural history specimens, objects and information materials to meet the growing needs of both the public and private sectors for research, education and informed decision-making about the natural world.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Radio-television and Telecommunications Commission

Strategic Outcome 1

Canadians have access to a world-class communication system.

- **Program 1.1** — Protection within the communication system

Through this program, the Canadian Radio-television and Telecommunications Commission promotes compliance with and enforcement of its various laws and regulations, including unsolicited communications. It helps to ensure that Canadians have access to emergency communication services such as 9-1-1 service and alerting systems. As a result, Canadians have increased protection and benefit from a more secure communication system.

- **Program 1.2** — Connection to the Communication System

The Canadian Radio-television and Telecommunications Commission facilitates the orderly development of a communication system for all Canadians in order to strengthen the social and economic fabric of Canada and enhance the safety and interests of Canadians. This program focuses on ensuring that Canadians can connect to a choice of accessible, innovative and quality communication services at affordable prices, and can have access to compelling and creative Canadian content.

- **Program 1.3** — Canadian Content Creation

This program focuses on ensuring that a wealth of Canadian content is created and made available to all Canadians on a variety of platforms. Through its orders, decisions, licensing frameworks and other regulatory activities, the Canadian Radio-television and Telecommunications Commission encourages the creation of diverse programming that reflects the attitudes, opinions, ideas, values and artistic creativity of Canadians. By requiring the display of Canadian content in entertainment programming and the provision of information and analysis concerning Canada, the CRTC is enabling Canadians to better participate in their country's democratic and cultural life.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Library and Archives of Canada

Strategic Outcome 1

Canada's continuing memory is documented and accessible to current and future generations.

- **Program 1.1** — Access to documentary heritage

Access to documentary heritage aims to make Canadian information resources known and accessible to anyone interested in Canada, its society or its experience. To this end, strategies are put in place to provide Canadians with easier access to this documentary heritage and increase its use among the general public. By providing access to the documentary heritage for which it or other organizations are responsible, Library and Archives Canada (LAC) contributes to the creation of new knowledge that will increase the understanding of Canada's continuing memory.

- **Program 1.2 — Stewardship of documentary heritage**

Library and Archives Canada (LAC) manages a vast collection of materials in a wide range of formats, both digital and analogue, to ensure their long-term preservation and accessibility for the benefit of Canadians. Traditional and cutting-edge archival and preservation techniques ensure the long-term availability of both analogue and relevant digital materials. The stewardship of analogue and digital materials includes all management activities and strategies aimed at ensuring the integrity, authenticity, and short- and long-term availability of Canada's continuing memory. There are various types of stewardship activities: those related to the physical management of the collection, such as storage; those involving restoration, which include preventing documents from deteriorating and repairing already damaged documents; and those associated with reproduction and the making of replacement copies, which ensure the preservation and availability of documents that would otherwise be too fragile to access. On the digital side, innovative strategies are implemented to maintain accessibility to documents in outdated formats and to ensure the originals are protected through backup and storage.

- **Program 1.3 — Documentation of Canadian society**

One of the pillars of the mandate of Library and Archives Canada (LAC) is to ensure that Canada's continuing memory reflects Canadian society and is of interest to current and future generations. LAC holdings consist of published and unpublished materials in a variety of formats, both analogue and digital. The majority of LAC's acquisitions take place within a legislative framework. For example, Canadian publishers must deposit published material with LAC in accordance with the Legal Deposit of Publications Regulations. As well, federal information resources of enduring value must be transferred to LAC once their retention period is expired in accordance with the *Library and Archives of Canada Act*. LAC also builds its holdings by acquiring on a discretionary basis material that is as representative as possible of Canadian society. LAC works with the documentary heritage community to promote information sharing and enhance external collaboration on common issues. Diversity of experience and expertise within this network will strengthen the documentary heritage community as a whole and promote the development and implementation of required solutions in a rapidly changing environment.

Strategic Outcome 2

Current government information is managed to support government accountability.

- **Program 2.1 — Collaboration in the management of government records**

Library and Archives Canada (LAC) offers advice, support, services and training to federal institutions, thereby helping them to manage their information effectively and to comply with the requirements of the Directive on Recordkeeping. LAC carries out these functions by providing direction to national institutions, presenting papers at conferences, symposiums and forums, and developing and delivering training and awareness sessions. LAC issues disposition authorities that allow the destruction, preservation, disposal or transfer of government records. In addition, LAC works with the federal library community to ensure access to relevant information and thus support the work of decision makers. LAC conducts research on topics of interest to federal libraries, coordinates the procurement of electronic information resources for federal libraries through the Federal Library Consortium, and manages relationships with federal library partners. Finally, LAC contributes significantly to providing access to government information resources for which it has responsibility and legislated authority under the *Access to Information Act*.

- **Program 2.2 — Development of Regulatory Instruments and Recordkeeping Tools**

Library and Archives Canada (LAC), working collaboratively with central agencies, federal departments and institutions, as well as other stakeholders, plays a lead role in developing standards, tools and best practices for information management and recordkeeping. LAC facilitates the management of information within federal institutions through the approval and issuance of Records Disposition Authorities and the development of recordkeeping tools, guides and guidelines that support the implementation of sound management practices in recordkeeping. Furthermore, LAC provides input on information management policy by chairing and participating in various intergovernmental committees.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1 — Internal services**

See introductory text.

National Arts Centre Corporation**Strategic Outcome 1**

Strong and dynamic performing arts in the National Capital Region and across Canada.

- **Program 1.1 — Programming**

Performing arts programming in Music, English theatre, French theatre, Dance and other forms of programming, as well as Programming support services.

- **Program 1.2 — Accommodation**

Operating and maintaining the National Arts Centre.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

National Film Board**Strategic Outcome 1**

Canadian stories and perspectives are reflected in audiovisual media and accessible to Canadians and the world.

- **Program 1.1 — Audiovisual production**

This program contributes to Canadians' understanding of the issues facing our country and raises awareness of Canadian viewpoints around the world. As a public sector producer, the NFB produces original audiovisual works that reflect diverse Canadian perspectives, including cultural, regional and aboriginal, and emanate from the diverse creators and communities that make up the country. This program operates where the private sector doesn't, allowing creators to explore artistic and technological advances in

form and content. It also ensures the identification, development and nurturing of talent and creative skills, within filmmaking and other creative communities. NFB programming is necessary to ensure that Canadians have access to diverse voices and content in both official languages. It promotes Canadian culture and values in events of national historic and cultural significance. As Canadians' media consumption migrates online, the NFB provides leadership in the creation of innovative digital content in both official languages. Production activities include the conceptualization, research, development and production of documentaries, animation films, new media content and other emerging forms.

- **Program 1.2 — Accessibility and Audience Engagement**

This program ensures that Canadians and world audiences are able to access, view, discuss and engage with innovative Canadian content that reflects Canadian stories and perspectives. As media consumption migrates online, Canadian content must be made available in all digital and mobile forms. Delivery mechanisms include the distribution, marketing and commercialization of audiovisual works via a diverse catalogue, a well-established stock footage library, the development of diversified markets (i.e.: theatrical, television, consumer and institutional) via online and traditional channels in Canada and abroad. These activities make works widely accessible across Canada, notably to underserved and remote communities, Aboriginal and Official language minority communities. NFB's accessibility and audience engagement activities contribute to a dynamic Canadian culture and heritage.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

National Gallery of Canada

Strategic Outcome 1

Interest in, knowledge of and appreciation and respect for visual art through collections of historic and contemporary works of art, programs and research that reflect a special but not exclusive perspective on Canada.

- **Program 1.1 — Accommodation**

To provide secure and suitable facilities, which are readily accessible to the public, for the preservation and exhibition of the national collections.

- **Program 1.2 — Collections**

To acquire, preserve, research and document historic and contemporary works of art in order to represent and present arts heritage. It includes Curatorial Research, Acquisitions and Preservation.

- **Program 1.3 — Outreach**

To foster broad access nationally and internationally to the Gallery's collection, research, exhibitions and expertise. It includes exhibitions, both in the National Capital Region and other venues in Canada and abroad, educational programming and publications, communications and marketing activities designed to reach as wide an audience as possible.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

National Museum of Science and Technology

Strategic Outcome 1

Interest in, knowledge of and appreciation and respect for science and technology through collections of scientific and technological objects, programs and research reflecting a Canadian perspective.

- **Program 1.1 — Sharing Knowledge**

The Corporation seeks to engage Canadians in discovering, considering and questioning past and present developments in science and technology, and their impact on society and individuals. The Corporation fosters a sense of identity and belonging for all Canadians, as well as pride in Canada's scientific and technological history and achievements. It also encourages active and informed participation by Canadians in the future development of our technological society. The primary reason for interpreting Canada's scientific and technological heritage is to provide Canadians with meaningful information about themselves and Canada. Just as the Transformation of Canada theme directs research and collection activities, it likewise guides the Corporation in its knowledge dissemination activities. These typically depict the historical development of science and technology, provide information on the objects in the collection and review the relationships between science, technology and Canadian society. The Corporation disseminates knowledge to its audiences in three primary ways: through its public facilities, its Web sites and its publications.

- **Program 1.2 — Accommodation**

Facilities are an integral part of museum operations. They do more than house staff; they also provide a venue for the public, and housing for the collection. Facilities have a profound effect on museum visitation. Appropriate museum architecture attracts visitors, contributes to the atmosphere and becomes a symbol of the institution's mandate. A large portion of comments by visitors allude to their satisfaction or dissatisfaction with the quality of the facilities and their related services.

- **Program 1.3 — Heritage Preservation**

Heritage preservation includes two main components, Collection Management, which includes preservation and conservation, and Research, which comprises those activities contributing to the building of a knowledge base about the scientific and technological heritage of Canada. The Corporation, as the only comprehensive science-and technology-collecting institution in Canada, has a special responsibility for the development of a Canadian national collection. In view of the breadth of the potential subject matter to be covered, critical choices must be made in determining collection content and priorities. Collection development activities assist the Corporation in making informed decisions on collection content, while collection management activities encompass the activities required to manage the objects accessioned into the collection. The Corporation has identified seven major subject areas on which it will focus its research activities. These are: aviation, communications, manufacturing, natural resources, renewable resources including agriculture, scientific instrumentation and transportation.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Public Service Commission

Strategic Outcome 1

A highly competent, non-partisan and representative public service, able to provide service in both official languages, in which appointments are based on merit and the values of fairness, access, representativeness and transparency.

- **Program 1.1 — Staffing Services and Assessment**

The Staffing Services and Assessment program maintains the systems that link Canadians and public servants seeking employment opportunities in the federal public service with hiring departments and agencies. It provides assessment-related products and services in the form of research and development, consultation, assessment operations and counselling for use in recruitment, selection and development throughout the federal public service. This program also includes delivering staffing services, programs and products to departments and agencies, to Canadians and public servants, through client service units located across Canada.

- **Program 1.2 — Oversight of Integrity in Staffing and of Non-Partisanship**

The Oversight of Integrity in Staffing and of Non-Partisanship program provides an accountability regime for the implementation of the appointment policy and regulatory framework for safeguarding the integrity of public service staffing and ensuring staffing is free from political influence. This program includes monitoring departments' and agencies' staffing performance and compliance with legislative requirements; conducting audits and studies; carrying out investigations; and reporting to Parliament on the integrity of public service staffing and the non-partisanship of the public service.

- **Program 1.3 — Staffing System Integrity and Political Impartiality**

The Staffing System Integrity and Political Impartiality program is focused on independently safeguarding merit and non-partisanship in the federal public service. This program includes developing and advancing strategic policy positions and directions; conducting policy research; establishing Public Service Commission (PSC) policies and standards; providing advice, interpretation and guidance; and administering delegated and non-delegated authorities, including official languages, the political activities regime and priority administration.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Public Service Labour Relations Board

Strategic Outcome 1

Resolution of labour relations issues in the federal public service and in Parliament in an impartial manner.

- **Program 1.1** — Adjudication, mediation and compensation analysis and research

The Public Service Labour Relations Board (PSLRB) is an independent, quasi-judicial tribunal mandated by the *Public Service Labour Relations Act* to administer the collective bargaining and grievance adjudication systems in the federal public service. It is also mandated by the *Parliamentary Employment and Staff Relations Act* to perform the same role for the institutions of Parliament. Board members hold grievance adjudication and complaint hearings throughout Canada. The PSLRB provides conciliation and arbitration services to assist parties in the renewal and negotiation of new collective agreements; mediation services to help parties work together to resolve grievances and complaints; and training in alternative dispute resolution. Its compensation analysis and research services function consists of delivering information on comparative rates of pay, employee wages, terms and conditions of employment, and benefits in the public and private sectors. The PSLRB is required by statute to provide physical and administrative support services to the National Joint Council, but plays no direct role in its operations.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Public Service Staffing Tribunal

Strategic Outcome 1

Fair and impartial resolution of disputes related to internal appointments and lay-offs in the federal public service.

- **Program 1.1** — Adjudication and mediation of complaints filed under the *Public Service Employment Act*

Pursuant to the new *Public Service Employment Act*, the mandate of the Public Service Staffing Tribunal (the Tribunal) is: to consider and dispose of complaints stemming from an internal appointment, the implementation of a corrective measure ordered by the Tribunal, the revocation of an appointment or a lay-off. In considering whether a complaint relating to an internal appointment or a lay-off is substantiated, the Tribunal may interpret and apply the *Canadian Human Rights Act*. If the Tribunal finds that the complaint is founded, it may order that compensation be paid. The Tribunal may also provide mediation services at any stage of a proceeding in order to resolve a complaint.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Registry of the Public Servants Disclosure Protection Tribunal

Strategic Outcome 1

Remedial and disciplinary actions that ensure complainants to the Office of the Public Sector Integrity Commissioner are protected against reprisals.

- **Program 1.1 — Reprisal Hearings Program**

The Registry of the Public Servants Disclosure Protection Tribunal supports the Tribunal in fulfilling its mandate by supporting the effective management of the Tribunal's hearing processes, including by receiving documents, processing cases, maintaining Tribunal records, providing logistical support, providing legal and policy support, orientation and training to Tribunal members and informing clients of Tribunal procedures and directives.

Telefilm Canada

Strategic Outcome 1

Quality audiovisual content developed by Canadians and promoted to audiences in Canada and internationally.

- **Program 1.1 — Investment in the development of and support to the Canadian audiovisual industry**

Telefilm financially supports the development and production of Canadian feature films (including treaty co-productions) that have potential for success in Canada and abroad. Financial participation may take various forms, including investments, conditionally repayable advances and contributions. This financial support aims to ensure that industry players have the opportunity to create and produce their work in Canada. Telefilm also supports the industry by making recommendations to the Minister of Canadian Heritage regarding the certification of audiovisual treaty co-productions.

- **Program 1.2 — National and international promotional support for Canadian content**

Telefilm's promotional support activities enable Canadian distributors, producers and directors to ensure that the audiovisual content they produce is viewed and enjoyed by Canadians and international audiences. These activities are an essential element in promoting and protecting the Canadian audiovisual industry. They also enable the Canadian audiovisual industry to attract potential buyers, and private and foreign investors for existing or future projects to be produced with Canadians — to the benefit of the Canadian economy. As well, international promotional support of Canadian successes contributes to broader audience viewership and greater notoriety of Canadian content worldwide. Particular emphasis is given to the development and integration of digital initiatives to reach target audiences with innovative and effective strategies. Promotional support activities include: – Financial support for the marketing and promotion of Canadian feature films generally in the form of conditionally repayable advances; – Financial support for Canadian production and distribution companies to promote, sell and distribute their productions at key markets and festivals. Support may also take the form of targeted business development initiatives to stimulate the search for alternative sources of funding and new partnerships; and – Financial support in the form of contributions to events and initiatives that are in tune with domestic and international market needs and that contribute to the promotion of Canadian content and talent. These activities help to expand public awareness of Canadian products and facilitate their access.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

The National Battlefields Commission

Strategic Outcome 1

The Battlefields Park of Quebec is a prestigious, natural, accessible, safe and educational historic and urban site.

- **Program 1.1** — Conservation and Development

As part of this program, the National Battlefields Commission (NBC) preserves the legacy of the Battlefields Park for future generations. To do so, the NBC ensures infrastructures maintenance and improvement when required, the horticultural landscape, and offers a protected site for all Canadian and foreign users and visitors.

- **Program 1.2** — Public Education and Services

The purpose of this program is to showcase the history of the site and its cultural, recreational and natural treasures so as to emphasize its dual role as a historical and a city park. In support of this program, the National Battlefields Commission welcomes visitors, puts on exhibits and educational activities, provides quality public services, and disseminates information to users and visitors from both Canada and abroad.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section I of this volume.

(S) Statutory authority.

(1) Treasury Board Vote 5—Government contingencies.

Treasury Board Vote 10—Government-wide initiatives.

Treasury Board Vote 15—Compensation adjustments.

Treasury Board Vote 25—Operating budget carry forward.

Treasury Board Vote 30—Paylist requirements.

Treasury Board Vote 33—Capital budget carry forward.

(2) Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

(3) The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada (ATSSC), effective November 1, 2014. The ATSSC becomes the sole provider of resources and staff for eleven administrative tribunals, including Public Service Labour Relations and Employment Board (previously Public Service Labour Relations Board and Public Service Staffing Tribunal) and Registry of the Public Servants Disclosure Protection Tribunal.

(4) The *Economic Action Plan 2013 Act, No. 2* and Order in Council P.C. 2014-1107 established the Public Service Labour Relations and Employment Board to replace the Public Service Labour Relations Board and the Public Service Staffing Tribunal, effective November 1, 2014.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Developed and diversified territorial economies that support prosperity for all Northerners.

- **Program 1.1** — Economic Development

The program supports economic development in Canada's three territories: Nunavut, Northwest Territories, and Yukon. Ensuring that the North is able to participate actively in the economy is essential to Canada's economic growth. Each territory has unique opportunities and challenges that require individual strategies to foster a sustainable, competitive and diverse economic development. Through funding support, the Canadian Northern Economic Development Agency (CanNor) strengthens and stimulates the northern economy by taking steps to advance private sector efforts, ranging from small and medium enterprises to large-scale industry. There is also a strong focus on creating the conditions to position individuals, including Aboriginal and non-Aboriginal northerners, communities, and business-related organizations for economic success.

- **Program 1.2** — Policy and Alignment

This program supports research and analysis to guide programming and policy choices, the promotion of northern interests both inside and outside of the federal government, and the development of horizontal strategies, initiatives and projects to address economic development challenges and opportunities in the North.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Newcomers and citizens participate in fostering an integrated society.

- **Program 1.1** — Newcomer Settlement and Integration

In accordance with the *Canadian Multiculturalism Act*, the *Employment Equity Act* and the *Immigration and Refugee Protection Act*, programming is developed based on policies that support the settlement, resettlement, adaptation and integration of newcomers into Canadian society. All permanent residents are eligible for settlement and integration programs. Programming is delivered by third parties (including provincial and municipal governments, school boards and post-secondary institutions, settlement service organizations and other non-governmental actors, and the private sector) across the country. However, accountability for expended funds and attaining outcomes remains with Citizenship and Immigration Canada.

- **Program 1.2** — Citizenship for Newcomers and all Canadians

The purpose of the Citizenship Program is to administer citizenship legislation and promote the rights and responsibilities of Canadian citizenship. CIC administers the acquisition of Canadian citizenship by developing, implementing, and applying legislation, regulations and policies that protect the integrity of Canadian citizenship and allow eligible applicants to be granted citizenship or be provided with a proof of citizenship. In addition, the program promotes citizenship, to both newcomers and the Canadian-born, through various events, materials and projects. Promotional activities focus on enhancing knowledge of Canada's history, institutions, and values, as well as fostering an understanding of the rights and responsibilities of Canadian citizenship.

- **Program 1.3** — Multiculturalism for Newcomers and all Canadians

The Multiculturalism Program is the principal means of carrying out the Minister's responsibilities under the *Canadian Multiculturalism Act* for promoting the full and equitable participation of individuals and communities of all origins. Grants and contributions to not-for-profit organizations, the private sector, provincial and municipal governments, non-federal public institutions and individuals seek to advance overarching Program objectives. These objectives are to: build an integrated, socially-cohesive society (through increasing intercultural and interfaith understanding, civic memory and pride, respect for core democratic values, and equality of opportunity to full participation in society and the economy); improve the responsiveness of institutions to the needs of a diverse population; and, actively engage in discussions on multiculturalism and diversity at the international level. Direct public outreach and promotional activities by the Program primarily target young people. Further, the Program assists federal partners to meet their obligations under the Act through its Annual Report to Parliament on its operation and the federal Multiculturalism Champions' Network. It also engages with non-federal public institutions seeking to respond to diversity through the Federal/Provincial/Territorial Officials Responsible for Multiculturalism Issues. The Program is the locus for Canada's participation in international agreements and institutions with respect to anti-Semitism and Holocaust remembrance (through the International Holocaust Remembrance Alliance).

Strategic Outcome 2

Migration of permanent and temporary residents that strengthens Canada's economy.

- **Program 2.1 — Permanent Economic Residents**

Rooted in objectives outlined in the *Immigration and Refugee Protection Act*, the focus of this Program is on the selection and processing of immigrants who can support the development of a strong and prosperous Canada, in which the benefits of immigration are shared across all regions of Canada. The acceptance of qualified permanent residents helps the government meet its economic objectives, such as building a skilled workforce, addressing immediate and longer term labour market needs, and supporting national and regional labour force growth. The selection and processing involve the issuance of a permanent resident visa to qualified applicants, as well as the refusal of unqualified applicants.

- **Program 2.2 — Temporary Economic Residents**

Rooted in objectives outlined in the *Immigration and Refugee Protection Act*, the focus of this Program is to establish and apply the rules governing entry into Canada of temporary foreign workers and international students. Temporary economic migration enhances Canada's trade, commerce, cultural, educational and scientific activities, in support of our overall economic and social prosperity. The selection and processing involve the issuance of temporary resident visas, work permits and study permits to qualified applicants, as well as the refusal of unqualified applicants.

Strategic Outcome 3

Family and humanitarian migration that reunites families and offers protection to the displaced and persecuted.

- **Program 3.1 — Family and Discretionary Immigration**

CIC's Family and Discretionary programs support the Government of Canada's social goals for immigration. The Program objectives are to reunite family members and to allow for the processing of exceptional cases. Family Class provisions of the *Immigration and Refugee Protection Act* enable Canadian citizens and permanent residents of Canada to apply to sponsor eligible members of the family class, including spouses and partners, dependent children, and parents and grandparents. Discretionary provisions in the legislation are used in cases where there are humanitarian and compassionate considerations or for public policy reasons. These discretionary provisions provide the flexibility to approve exceptional and deserving cases not anticipated in the legislation and to support the Government of Canada in its humanitarian response to world events and crises. The selection and processing involve the issuance of a permanent resident visa or granting of permanent residence to qualified applicants, as well as the refusal of unqualified applicants.

- **Program 3.2 — Refugee Protection**

The Refugee Protection program is in the first instance about saving lives and offering protection to the displaced and persecuted. One arm of the program starts overseas where refugees and persons in refugee-like situations are selected by Canadian visa officers to be resettled as permanent residents to Canada. Flowing from Canada's international and domestic legal obligations, the in-Canada asylum system evaluates the claims of individuals seeking asylum in Canada and grants protected person status when a positive decision is rendered by the Immigration and Refugee Board of Canada.

Strategic Outcome 4

Managed migration that promotes Canadian interests and protects the health, safety and security of Canadians.

- **Program 4.1 — Migration Control and Security Management**

This Program aims to ensure the managed migration of foreign nationals and newcomers to Canada. As such, in accordance with the *Immigration and Refugee Protection Act* and accompanying Regulations, CIC facilitates the travel of bona fide permanent residents, visitors, students and temporary workers while protecting the health, safety and security of Canadians by effectively managing migration access and controlling entry. This is accomplished through a variety of policy and operational measures, including visa policy interventions, anti-fraud measures, eligibility and admissibility criteria, negotiations of bilateral and multilateral information sharing agreements and treaties, security updates to travel and immigration status documents, as well as revisions to identity management practices. Strategic partnership engagements with security and public safety-related departments are another essential component of this Program.

- **Program 4.2 — Health Protection**

This program aims to provide effective immigration health services to manage the health aspect of migrant access and settlement to Canada, and facilitate the arrival of resettled refugees to Canada and their integration while contributing to the protection of the health and safety of all Canadians and contributing to the maintenance of sustainable Canadian health and social services. The program aims to evaluate health risks related to immigration and coordinate with international and Canadian health partners to develop risk management strategies and processes to assess the health of applicants wishing to immigrate to Canada. The strategies, processes and interventions are intended to reduce the impact of the risks identified on the health of Canadians and on Canada's health and social services.

- **Program 4.3 — Canadian Influence in International Migration and Integration Agenda**

As part of its mandate, CIC aims to influence the international migration and integration policy agenda. This is done by developing and promoting, together with other public policy sectors, Canada's position on international migration, integration, and refugee protection issues and through participation in multilateral, regional and bilateral forums. CIC works closely with partner countries to ensure the effective administration of immigration laws through the exchange of information, including biometric data. This international migration policy development helps Canada advance its interests in the context of international migration as well as meet its international obligations and commitments. CIC supports international engagement and partnerships through membership in and contributions to such organizations as the International Organization for Migration, Regional Conference on Migration, Office of the United Nations High Commissioner for Refugees, Global Forum on Migration and Development, and Intergovernmental Consultations on Migration, Asylum and Refugees. The Program uses transfer payment funding from the following programs: Grant for Migration Policy Development; International Organization for Migration; and Task Force for International Cooperation on Holocaust Education, Remembrance and Research.

- **Program 4.4 — Passport**

CIC is accountable for the Passport Program, and collaborates with Service Canada and Foreign Affairs, Trade and Development Canada for the delivery of passport services. The Program is managed through the Passport Canada Revolving Fund. The Program enables the issuance of secure Canadian travel documents through authentication of identity and entitlement, facilitates travel and contributes to international and domestic security.

Strategic Outcome 5

The following program supports all strategic outcomes within this organization.

- **Program 5.1 — Internal services**

See introductory text.

Immigration and Refugee Board

Strategic Outcome 1

Resolve immigration and refugee cases before the Immigration and Refugee Board of Canada efficiently, fairly and in accordance with the law.

- **Program 1.1 — Refugee Protection**

Renders quality decisions and otherwise resolves cases in a timely manner regarding refugee protection claims made by persons in Canada, and pre-removal risk assessments of persons subject to a removal order.

- **Program 1.2 — Immigration Appeal**

Renders quality decisions and otherwise resolves cases in a timely manner regarding sponsorship applications refused by the Department of Citizenship and Immigration; certain removal orders made against permanent residents, refugees and other protected persons and holders of permanent resident visas; permanent residents outside of Canada who have been found not to have fulfilled their residency obligation; and appeals by the Minister of Public Safety against a decision of the Immigration Division on admissibility.

- **Program 1.3 — Refugee Appeal**

Renders quality decisions and otherwise resolves cases in a timely manner regarding appeals against a decision made on a refugee protection claim of the Refugee Protection Division.

- **Program 1.4 — Admissibility Hearings and Detention Reviews**

Renders quality decisions and otherwise resolves cases in a timely manner regarding foreign nationals or permanent residents who are alleged to be inadmissible to Canada pursuant to the *Immigration and Refugee Protection Act* (IRPA); and foreign nationals or permanent residents who are detained under IRPA authority.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Strategic Outcome 1

Quebec's regions have a growing economy.

- **Program 1.1** — Business Development

This program is designed to support development of enterprises throughout their life cycle so as to enhance Quebec's economic growth. Enterprises are recognized as generating a major share of economic activity and job creation. CED's aim is to foster the emergence of new businesses and the next generation of entrepreneurs. Its aim is also to enhance the competitiveness of existing businesses and help to ensure survival by improving their performance through development of production, innovation, commercialization and export capacities. In this program, CED targets mainly enterprises either directly or via organizations serving businesses and entrepreneurs. CED promotes the development of enterprises through a grants and contributions program.

- **Program 1.2** — Regional Economic Development

The purpose of this program is to support the economic development of the various regions in order to increase Quebec's economic growth. The regions of Quebec are not homogeneous and have different circumstances, with issues, challenges and strengths particular to their region. The regions generate prosperity, and their participation in the economy is essential for Quebec's economic growth. CED supports the strengthening of their economic base by encouraging stakeholder engagement in economic development and stimulating investment in all regions of Quebec. In this program, CED targets mainly organizations or enterprises. CED supports regional development through a grants and contributions program.

- **Program 1.3** — Strengthening Community Economies

In addition to its regular programs, CED is called upon to develop, administer and implement national programs or temporary, targeted initiatives intended to strengthen community economies and increase Quebec's economic growth. CED supports the economic development of rural communities and ensures the sound and effective management of infrastructure programs in Quebec. CED also supports economic activity in Quebec communities experiencing economic shocks or where there are major economic development issues or promising opportunities for development. This program is directed at businesses and organizations. In this program, CED receives dedicated, temporary supplementary funding from the Government of Canada, through the Agency's own special allocations or through the Community Futures Program (PFC).

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Income security, access to opportunities and well-being for individuals, families and communities.

- **Program 1.1** — Income Security

This Program ensures that Canadians are provided with retirement pensions, survivor pensions, disability benefits and benefits for children, through the Old Age Security program, the Canada Pension Plan (CPP), the Canada Disability Savings Program and the National Child Benefit program.

- **Program 1.2** — Social Development

This Program supports programs for the homeless or those individuals at risk of homelessness, as well as programs for children, families, seniors, communities, and people with disabilities. It provides these groups with the knowledge, information, and opportunities to move forward with their own solutions to social and economic challenges.

Strategic Outcome 2

A skilled, adaptable and inclusive labour force and an efficient labour market.

- **Program 2.1** — Learning

This Program helps Canadians participate in post-secondary education to acquire the skills and credentials that enable them to improve their labour market outcomes and adapt to changing labour market conditions. It reduces barriers to education by providing financial assistance to individuals as well as incentives to save for a child's post-secondary education. It also provides information and awareness about opportunities to acquire education and skills. The program contributes to the inclusiveness of the workforce by giving Canadians with the required academic abilities a more equal opportunity to participate in post-secondary education. The program works with the provinces and territories, voluntary sector, financial institutions, service providers and other key stakeholders to help Canadians pursue post-secondary education.

- **Program 2.2** — Skills and Employment

Skills and Employment is intended to ensure that Canadian labour market participants are able to access the supports that they need to enter or reposition themselves in the labour market to allow them to contribute to economic growth through full labour market participation. Initiatives within this program contribute to the common overall objectives of promoting skills development, labour market participation and ensuring labour market efficiency.

Strategic Outcome 3

Service Excellence for Canadians.

- **Program 3.1 — Integrity and Processing**

This Program enhances and strengthens the integrity of Service Canada services and programs to ensure that the right person receives the right service or benefit at the right time, and for the intended purpose.

- **Program 3.2 — Citizen-Centred Service**

This Program aims to improve and integrate government service delivery by providing Canadians with a one-stop, easy-to-access, personalized service in person, by telephone, Internet and via mail. This Program is supported by overarching client segment strategies and partnerships with other departments, levels of government and community-based partners. This Program also includes client feedback mechanisms and the responsibility for increasing public awareness of Service Canada.

Strategic Outcome 4

Safe, fair and productive workplaces and cooperative workplace relations.

- **Program 4.1 — Labour**

This Program seeks to promote and sustain stable industrial relations and safe, fair, healthy, equitable, and productive workplaces within the federal jurisdiction (transportation, post office and courier companies, communications, banking, grain and nuclear facilities, federal Crown corporations, companies who have major contracts with the federal government and Aboriginal governments, their employees, Aboriginal communities and certain Aboriginal undertakings). It develops labour legislation and regulations to achieve an effective balance between workers' and employers' rights and responsibilities. The program ensures that workplaces under the federal jurisdiction respect the rights and obligations established under labour legislation. The program also manages Canada's international and intergovernmental labour affairs, as well as Aboriginal labour affairs responsibilities.

Strategic Outcome 5

The following program supports all strategic outcomes within this organization.

- **Program 5.1 — Internal services**

See introductory text.

Canada Industrial Relations Board

Strategic Outcome 1

Effective dispute resolution services that support constructive labour management relations in sectors regulated by the *Canada Labour Code* and professional relations in sectors regulated by the *Status of the Artist Act*.

- **Program 1.1 — Adjudication and Dispute Resolution Program**

Through this program, the Canada Industrial Relations Board (CIRB) resolves labour relations issues by exercising its statutory powers relating to the application and interpretation of Part I (Industrial Relations) and certain provisions of Part II (Occupational Health and Safety) of the *Canada Labour Code*, as well as Part II of the *Status of the Artist Act*. Activities include the granting, modification and termination of bargaining rights; the investigation, mediation and adjudication of complaints alleging violation of Part I of the *Canada Labour Code* or of part II of the *Status of the Artist Act*. Activities also include the determination of levels of services required to be maintained during a work stoppage; the exercise of ancillary remedial authority; the exercise of cease and desist powers in cases of unlawful strikes or lockouts; the settlement of the terms of a first collective agreement; the provision of administrative services to these ends.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canada Mortgage and Housing Corporation

Strategic Outcome 1

Canadians in need have access to affordable housing.

- **Program 1.1 — Funding Under Long-Term Commitments for Existing Social Housing**

Financial assistance is provided for the existing social housing portfolio to fulfill obligations made between 1946 and 1993 under long-term subsidy agreements with various terms and conditions. Financial assistance is provided to provinces/territories and First Nations for the following programs: Social Housing Programs including Public Housing, Co-operative Housing Non-Profit and Urban native Housing Programs, Rent Supplement, and Rural and Native Housing. This includes funding provided to provinces/territories under Social Housing Agreements as well as financial assistance to First Nations under these long-term agreements.

- **Program 1.2 — Funding for New Commitments of Affordable Housing**

Includes expenditures to: increase the supply of affordable housing (through construction, conversion or assistance such as rent supplements); preserve the quality of existing affordable housing (through renovation); and, support new construction and modification to affordable housing to provide accommodations for victims of family violence or extend independent living for seniors or persons with disabilities. These commitments can serve all Canadians, including those living on-reserve.

- **Program 1.3 — Housing Support**

Other contractual commitments for housing and municipal infrastructure help to reduce affordability problems for low and moderate-income households, to provide accommodation for students and to provide production of moderately priced rental housing. The program also provides ancillary services to support Canada Mortgage and Housing Corporation's mandate. This includes the Affordable Housing Centre, the Housing Related Infrastructure Loans to Municipalities and Other Long Term Commitments such as the Market Housing Programs and the Community Services Program.

Strategic Outcome 2

Canada has a stable, competitive and innovative housing system.

- **Program 2.1 — Market Analysis Information**

Canada Mortgage and Housing Corporation (CMHC) collects, analyzes and disseminates housing market information that facilitates informed housing-related decisions by those in the industry, the public at large and CMHC. This includes the provision of housing market data, analysis and forecasts through publications, conferences, seminars, industry roundtables and custom data services. To meet client information needs, CMHC undertakes various surveys of: starts and completions; market absorption; and the rental market through Housing Market Surveys and Housing Market Information Dissemination.

- **Program 2.2 — Housing Policy, Research and Information Transfer**

Canada Mortgage and Housing Corporation (CMHC) develops policy, conducts research and disseminates information on matters related to housing finance and capital markets, housing conditions, and sustainable housing technologies and practices. This work is undertaken to support and strengthen the economic, technical, social and sustainable aspects of Canadian housing, as well as facilitate the development and implementation of federal housing policy. This includes the examination of housing finance trends and policy options for regulations, incentives and securitization tools in the primary and secondary markets; the analysis of distinct housing needs of specific populations such as Aboriginal people, seniors, persons with disabilities, and low-income households, and how these can be addressed; and the identification of practical approaches to advancing sustainable technologies and practices in the housing sector. CMHC undertakes this activity by funding research, demonstrations and technology assessments, and by developing and disseminating timely, useful and relevant information to target audiences. These activities increase awareness and understanding of housing matters and inform policies, practices and decision-making on the part of industry, consumers and government.

- **Program 2.3 — Insured Mortgage Purchase Program**

Canada Mortgage and Housing Corporation (CMHC) undertakes programs, as mandated by the Government of Canada, to provide support to the housing finance sector in Canada and its place within the Canadian economy. The Insured Mortgage Purchase Program (IMPP) was offered by the Government of Canada from October 2008 to March 2010, under CMHC's management. The IMPP helped maintain the availability of longer term credit in Canada during the global financial crisis by allowing Canadian financial institutions to sell NHA MBS to CMHC through competitive auctions. The availability of funds under IMPP closed as of March 2010, however the securities purchased under the program will amortize over a five-year period.

Canadian Centre for Occupational Health and Safety

Strategic Outcome 1

Improved workplace conditions and practices that enhance the health, safety, and well being of working Canadians.

- **Program 1.1 — Occupational health and safety information development, delivery services and tripartite collaboration**

The goal of this program is to provide free information on occupational health and safety to support Canadians in their efforts to improve workplace safety and health. Citizens are provided information through a free and impartial personalized service via telephone, e-mail, person-to-person, fax or mail. Alternatively they can independently access a broad range of electronic and print resources developed to support safety and health information needs of Canadians. This may include cost recovery products and services and is supported financially by contributions from various stakeholders. Through health and safety information development, the Canadian Centre for Occupational Health and Safety (CCOHS) collects, processes, analyzes, evaluates, creates and publishes authoritative information resources on occupational health and safety for the benefit of all working Canadians. This information is used for education and training, research, policy development, development of best practices, improvement of health and safety

programs, achieving compliance, and for personal use. Various levels of service are available from free to purchase of products and services. When the product or service provided by CCOHS is provided to identified external recipients with benefits beyond those enjoyed by the general taxpayer, a user fee is charged. CCOHS promotes and facilitates consultation and cooperation among federal, provincial and territorial jurisdictions and participation by labour, management and other stakeholders in the establishment and maintenance of high standards and occupational health and safety initiatives for the Canadian context. The sharing of resources results in the coordinated and mutually beneficial development of unique programs, products and services. Collaborative projects are usually supported with a combination of financial and non-financial contributions to the programs by stakeholders and result in advancement of the health and safety initiatives.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

National Capital Commission

Strategic Outcome 1

Canada's Capital Region is of national significance and is a source of pride for Canadians.

- **Program 1.1 — Capital Stewardship and Protection**

Through Capital Stewardship and Protection, the NCC aims to protect assets of national significance in Canada's Capital Region and to continue to enhance the Capital for future generations of Canadians. As steward of federal lands and assets in the region, the organization rehabilitates, manages, develops, maintains and safeguards the Capital's most treasured cultural, natural and heritage assets while ensuring safe, respectful and appropriate public access is maintained. The NCC also promotes and regulates public activities on federal lands and conserves natural resources through sound environmental management. Through its involvement in land development projects such as LeBreton Flats, its acquisition of national interest properties and its disposal of surplus properties, the NCC is further able to ensure that its vision for the Capital is reflected in Canada's Capital Region.

- **Program 1.2 — Capital Planning**

The National Capital Commission (NCC) guides and coordinates the use of federal lands to ensure that they inspire Canadians, meet the needs of government and reflect the role and significance of the Capital. Through long-term plans, the identification of a National Interest Land Mass (NILM) and review and approval processes, the NCC is able to ensure that land use in Canada's Capital Region reflects and respects the significance, natural environment, and heritage of the Capital. The organization also collaborates with federal, provincial and municipal governments on transportation issues.

- **Program 1.3 — Capital Experience**

The objective of Capital Experience is to generate pride through programming and other services in the Capital. This program produces a series of high-profile events and festivals (e.g. Canada Day and Winterlude), commemorations, interpretation, educational programs, visitor and recreational services and programs. In addition, through outreach activities that bring the Capital to Canadians across the country and national messaging, the NCC works toward increasing awareness of Canada's Capital Region as a place where Canadian heritage, culture and achievements can be experienced.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Co-ordinator, Status of Women

Strategic Outcome 1

Equality between women and men is promoted and advanced in Canada.

- **Program 1.1 — Advancing Equality for Women**

Through this Program, SWC supports action and innovation by investing in initiatives that work to bring about equality between women and men. The Program provides grant and contribution funding to Canadian organizations to support community-based action by carrying out projects that will lead to equality in communities across Canada. Funded projects occur at the national, regional, and local levels and work to help create conditions for success for women in Canada. Projects address the economic and social situation of women and their participation in democratic life. They are diverse in nature and scope and apply a variety of approaches and strategies to address the complexity of the issues affecting women. Specifically, the Program invests in projects that incorporate gender considerations, and increase and strengthen access to a range of opportunities, supports, information, resources and services, tools, etc. Projects work with stakeholders such as: women's and community organizations, public institutions and the private sector. The Program also facilitates collaboration, networking and partnerships to promote equality and the advancement of women in Canada. SWC facilitates networking; develops partnerships where needed to address horizontal issues impacting women and girls; shares knowledge; and assists organizations working to advance women's equality to gain access to expertise, resources, and tools.

- **Program 1.2 — Leadership, Expertise and Advice**

Canada, in line with domestic and international instruments, has committed to advancing gender equality. SWC promotes public understanding about the status of women in Canada and encourages Canadians to engage in efforts to advance equality between women and men. Communications' activities form a key aspect of this Program and commemorate important dates such as Women's History Month and the Persons Day. To further advance gender equality, the government requires federal organizations to take gender considerations into account in legislation, policies and programs. By providing information, tools, training and expert advice, SWC plays a lead role in building the capacity of federal organizations to use gender-based analysis+ (GBA+). GBA+ informs decision-making and increases the likelihood that legislation, policies and programs meet the needs of diverse groups of women and men. SWC also provides strategic policy analysis and advice and acts as a knowledge broker to support federal organizations and other stakeholders in advancing equality for women and girls. In addition, SWC explores gaps and emerging issues that continue to affect the status of women and girls in Canada. This is mainly done in collaboration with other federal organizations, provinces, territories and civil society.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

⁽¹⁾ Treasury Board Vote 5 — Government contingencies.

Treasury Board Vote 10 — Government-wide initiatives.

Treasury Board Vote 15 — Compensation adjustments.

Treasury Board Vote 25 — Operating budget carry forward.

Treasury Board Vote 30 — Paylist requirements.

Treasury Board Vote 33 — Capital budget carry forward.

⁽²⁾ Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

⁽³⁾ The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada (ATSSC), effective November 1, 2014. The ATSSC becomes the sole provider of resources and staff for eleven administrative tribunals, including Canada Industrial Relations Board.

⁽⁴⁾ Order in Council P.C. 2015-0194, designated the Minister of Employment and Social Development as the Minister for the purposes of the *National Capital Act*, effective February 9, 2015.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Canada's natural environment is conserved and restored for present and future generations.

- **Program 1.1** — Sustainable Ecosystems

This program aims to sustain Canada's ecosystems over the long term by providing Canadians, their governments and the private sector with the environmental information and tools required to incorporate social, economic and environmental considerations into decision-making and action. Environmental assessments are a large part of this program. The ecosystem approach to environmental management focuses on maintaining the capacity of a whole system to produce ecological goods and services, such as water resources, air and water quality, and genetic resources to support our economy, security, health and well-being. This program focuses on the development and implementation of Environment Canada's sustainability policies and strategies, information to support integrated, ecosystem-scale planning, community engagement in remediation of sites, youth engagement, and research and reporting on environmental status and trends. The program facilitates inter-disciplinary and cross-sectoral planning, and information sharing among partners. Contributions in support of Sustainable Ecosystems are used as a component of this program.

- **Program 1.2** — Biodiversity – Wildlife and Habitat

This program aims to prevent biodiversity loss while still enabling sustainable use by conserving and managing migratory birds; protecting and recovering species at risk; and monitoring, conserving, restoring and rehabilitating significant habitats. The program works toward these goals by establishing and maintaining a network of protected areas and stewardship programs. It also aims to ensure coordinated and coherent national assessment, planning and action to protect biodiversity, including viable populations of species, healthy and diverse ecosystems, and genetic resources. The program forms strategic partnerships for integrated management of Canada's natural capital, including stewardship and the sustainable management of landscapes. This program has responsibilities under the *Species at Risk Act*; the *Migratory Birds Convention Act, 1994*; the *Canada Wildlife Act*; and the *Wild Animal and Plant Protection and Regulation of International and Interprovincial Trade Act*. International responsibilities include the United Nations Convention on Biological Diversity (1992), the Migratory Birds Convention, the Convention on International Trade in Endangered Species of Wild Fauna and Flora, the Conservation of Arctic Flora and Fauna Working Group of the Arctic Council, and the Convention on Wetlands of International Importance, especially as Waterfowl Habitat (known as the Ramsar Convention). Contributions in support of Biodiversity – Wildlife and Habitat are used as a component of this program.

- **Program 1.3** — Water Resources

This program addresses the risks to and impacts on water resources from industrial activities, agriculture, climate change and other factors. Its goal is to ensure threats to Canada's water resources and aquatic ecosystems are minimized, and the sustainability of the resource is maintained. The program is delivered in collaboration with partners that include other federal departments, provinces and territories, and a range of non-governmental organizations. The program focuses on Environment Canada's contribution

to monitoring water quality and conducting water-related research and analysis, and its role in collaborating with other departments to determine priorities for water quality, quantity, and aquatic ecosystem monitoring and research. It provides scientific information and advice to decision makers. The program supports the implementation of the *Canada Water Act*, the Action Plan for Clean Water, the *Canadian Environmental Protection Act, 1999*, the *Fisheries Act*, the *International Boundary Waters Treaty Act*, and the *International River Improvements Act*. Contributions in support of Water Resources are used as a component of this program.

- **Program 1.4 — Compliance Promotion and Enforcement – Wildlife**

This program works to conserve and protect the natural environment through compliance promotion and enforcement of the *Species at Risk Act*, the *Migratory Birds Convention Act, 1994*, the *Wild Animal and Plant Protection and Regulation of International and Interprovincial Trade Act*, and the *Canada Wildlife Act*. The program promotes compliance through the communication of information, education and consultation with parties affected by the statutes. It maintains a contingent of enforcement officers, whose activities include verifying conformity and bringing back conformity with laws, regulations and permits pertaining to wildlife and Environment Canada Protected Areas, as well as gathering intelligence, conducting inspections and pursuing investigations regarding alleged offenders. The program also works with the United States and Mexico under the auspices of the Commission for Environmental Cooperation to strengthen wildlife enforcement. These actions ensure that damages and threats to biodiversity are reduced for the benefit of Canadians and the international community.

Strategic Outcome 2

Threats to Canadians and their environment from pollution are minimized.

- **Program 2.1 — Climate Change and Clean Air**

This program aims to protect the health of Canadians, the state of the environment and Canada's economy from the harmful effects of air pollutants and the impacts of greenhouse gas (GHG) emissions through the development and implementation of regulations and other control measures. Actions are based on sound scientific and economic analysis, and emissions monitoring and reporting. Work under this program involves continued collaboration with other governments and stakeholders; expert environmental science and technology advice, assessment, and program management in support of technology investment decisions, policy-making and regulations; and cooperation with the U.S. to align GHG regulations as appropriate, reduce transboundary air pollution and advance the development of clean technologies. It also involves participation, negotiations and contributions to international fora to address climate change and transboundary air pollution, and bilateral and multilateral processes in order to support Canada's positions and objectives. This program includes contributions in support of Climate Change and Clean Air, and grants for the implementation of the Montreal Protocol on Substances that Deplete the Ozone Layer.

- **Program 2.2 — Substances and Waste Management**

Activities in this program reduce threats to health and the environment posed by pollution and waste from human activities. The program assesses risks to the environment from substances that are already in commercial use (existing substances) and substances proposed for use in Canada (new substances). It also develops and implements measures to prevent or manage the risks from these substances and waste. Contributions in support of Substances and Waste Management are used as a component of this program.

- **Program 2.3 — Compliance Promotion and Enforcement – Pollution**

This program contributes to minimizing damage and threats to the natural environment and biodiversity through the promotion and enforcement of legislation administered by Environment Canada. Activities focus on pollution including toxic substances, their release to air, water or land, and the import and export of hazardous waste that presents a risk to the environment and/or human health. The program maintains a contingent of compliance promotion and enforcement officers. Compliance promotion officers deliver activities to increase regulatees' awareness, understanding and compliance with regulations and other risk management instruments under the *Canadian Environmental*

Protection Act, 1999, and the *Fisheries Act*. The goal is to increase the effectiveness in achieving desired environmental results. The officers also provide information on risk management instrument requirements, the benefits of compliance and the potential penalties of non-compliance, when applicable. Enforcement officers gather intelligence, conduct inspections to verify compliance with laws and regulations, and pursue investigations to take appropriate enforcement measures against offenders. The program works with the U.S. and Mexico through the North American Commission for Environmental Cooperation to strengthen transboundary environmental enforcement. The program also includes officer training, information management systems for new regulations and administration, and is informed by scientific analyses and expertise, including science advice to support compliance promotion and enforcement actions.

Strategic Outcome 3

Canadians are equipped to make informed decisions on changing weather, water and climate conditions.

- **Program 3.1 — Weather and Environmental Services for Canadians**

This program provides reliable, accurate and timely forecasts and warnings, as well as weather and environmental intelligence, to anticipate, manage and adapt to the risks and opportunities of changing weather, water, air quality and climate conditions. It involves monitoring, research, prediction and service delivery, based on sound science, to help Canadians make informed decisions to protect their health, safety, security and economic prosperity. Because a global effort is needed to monitor, understand and predict constantly changing weather, water, air quality, sea ice and climate conditions, the program works with various collaborators in Canada and around the world. Key partners include the World Meteorological Organization of the United Nations and its Intergovernmental Panel on Climate Change, as well as the news media, academia and all levels of government in Canada. The program meets the Department's responsibilities under the *Department of the Environment Act*, the *Weather Modification Information Act*, the *Emergency Management Act* (2007), the Convention of the World Meteorological Organization, and memoranda of agreement with national meteorological and space agencies. It provides forecasts and information in case of environmental emergencies associated with the release of toxic and radioactive material in the atmosphere. Grants and contributions in support of Weather and Environmental Services for Canadians are used as components of this program.

- **Program 3.2 — Weather and Environmental Services for Targeted Users**

Environment Canada provides specific predictions and services for targeted, weather sensitive sectors through formal arrangements and revenue contracts. Building on the core capabilities described under Program 2.1, this program provides reliable, accurate and timely weather, water, climate, air quality and ice observations, predictions and services to support the specific decision-making needs of the aviation, marine transportation, military, commercial and other sectors. The program delivers its services using various collaborations within Canada (including with other government departments), and internationally with the World Meteorological Organization, as well as other countries and international bodies such as the International Civil Aviation Organization. This program supports the Department in meeting obligations and responsibilities conferred by the *Department of the Environment Act* and the Convention of the World Meteorological Organization. It also helps other government departments meet their obligations under the *Aeronautics Act* and the Treaty in Support of International Civil Aviation, the *Oceans Act* and the *Fisheries Act*, and it supports memoranda of agreement with Transport Canada, National Defence and various provincial and territorial agencies.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

Canadian Environmental Assessment Agency

Strategic Outcome 1

High quality and timely environmental assessments of major projects to protect the environment and support economic growth.

- **Program 1.1 — Environmental Assessment Delivery Program**

This program ensures that high-quality environmental assessments of major projects are conducted and completed in a timely and predictable way, thereby supporting economic growth while preventing or reducing adverse environmental effects. The most appropriate means of avoiding duplication of assessment activities with other jurisdictions is applied, thereby, increasing efficiency and providing certainty for all participants in the process. The Agency will promote, monitor, and facilitate compliance with the *Canadian Environmental Assessment Act, 2012*. The environmental assessment provides for the meaningful participation of the public and Aboriginal groups. Aboriginal consultation obligations are integrated to the greatest extent possible with the federal environmental assessment process. As such, the Agency consults with Aboriginal groups during the environmental assessment process to assess how the proposed project may adversely impact potential or established Aboriginal or Treaty rights and related interests, and find ways to avoid or minimize these adverse impacts. This program uses funding from the following transfer payments: the Participant Funding Program, and the James Bay and Northern Quebec Agreement.

- **Program 1.2 — Environmental Assessment Policy Program**

The EA Policy program develops and promotes robust policies and practices for high quality environmental assessment (EA) in accordance with the *Canadian Environmental Assessment Act* (the Act). This is achieved by building and reinforcing policies, procedures and criteria for the conduct of federal EA, by promoting cooperation and coordinated action between the federal government and other jurisdictions, by promoting communication and cooperation with Aboriginal peoples, and by developing instruments and training for EA practitioners. EA Policy enables continuous improvement through research, monitoring, analysis and advice. Recommendations inform the development of new regulatory and policy approaches as well as the revision of guidance, training and knowledge-based instruments. The program also provides support for the conduct of EA through various means, such as federal-provincial agreements and policy criteria.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Parks Canada Agency

Strategic Outcome 1

Canadians have a strong sense of connection to their national parks, national historic sites, heritage canals, and national marine conservation areas and these protected places are experienced in ways that leave them unimpaired for the enjoyment of present and future generations.

- **Program 1.1 — Visitor Experience**

This program fosters opportunities for Canadians and international visitors to discover, experience, enjoy and develop a sense of personal connection to Canada's national urban park, national parks, national historic sites administered by Parks Canada, national marine conservation areas, and heritage canals. This program includes a range of activities, services and products associated with pre-visit planning, the on-site visit, and post visit communications. It includes tourism marketing, trip planning information, reception, orientation, interpretation, recreation, special events, merchandise, compliance and visitor safety services, and visitor facilities. The program is supported by market and visitor analytics, trend analysis, and performance measurement.

- **Program 1.2 — Heritage Places Conservation**

This program aims to protect and conserve the natural and cultural resources of heritage places managed by Parks Canada and to fulfill responsibilities assigned to Parks Canada under federal legislation. Protection and conservation activities in a national urban park, national parks, national marine conservation areas, heritage canals and Parks Canada administered national historic sites ensure that these heritage places are maintained and used in ways that leave them unimpaired for the benefit and enjoyment of present and future generations.

- **Program 1.3 — Heritage Canals, Highways and Townsite Management**

This program involves the management of infrastructure for Canadians and provides opportunities for socio-economic benefits to adjacent communities. It is related to the operation, maintenance and improvement of the Trans-Canada and provincially numbered highways within national parks and a national historic site; the water management of certain heritage canals; and, the provision of municipal services to certain national park townsites.

- **Program 1.4 — Heritage Places Promotion and Public Support**

This program aims to nurture a sense of pride in and support for Parks Canada administered places by increasing Canadians' awareness, appreciation of their value and the various ways to experience them. This is achieved through relevant and effective heritage places promotion initiatives delivered to Canadians, reaching them in their daily lives. Some of these promotion activities are done in collaboration with stakeholders and partners to reach and engage more Canadians.

- **Program 1.5 — Heritage Places Establishment**

This program aims to establish heritage places in order to conserve Canada's natural and cultural heritage and make it available to Canadians for their benefit and enjoyment, thus fostering a strong sense of connection to our natural heritage and history. This program also supports Canada's involvement in the internationally shared objective of protecting and commemorating the best of the world's natural and cultural heritage. By establishing national parks and national marine conservation areas in each of Canada's natural terrestrial and marine regions, this program ensures the protection of representative examples of Canada's natural diversity. Likewise, the designation and commemoration of historic places, persons and events in communities across Canada ensures our history remains a living legacy for all Canadians. Establishment or designation is achieved through feasibility studies, public nominations, research, consulting with Aboriginal peoples, stakeholders and the general public, negotiating with other governments and Aboriginal organizations, recommendations from advisory bodies and fulfilling legislative requirements. This process results in established national parks and national marine conservation areas and designated national historic sites, persons and events of Canada and other heritage places.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

A strong economy and sound public finances for Canadians.

- **Program 1.1** — Transfer and Taxation Payment Programs

The Department of Finance mandate includes the supervision, control and direction of all matters relating to the financial affairs of Canada that are not by law assigned to the Treasury Board or any other Minister. This Program includes the administration and payment of transfers to provinces and territories, including fiscal equalization, the Canada Health Transfer and the Canada Social Transfer, in support of health and social programs and other shared priorities. In addition, it includes the administration of taxation payments to provinces and territories as well as to Aboriginal governments in accordance with legislation and negotiated agreements. Also included in this Program are commitments and agreements with international financial organizations aimed at supporting the economic advancement of developing countries. In addition, from time to time, the federal government will enter into agreements or enact legislation to respond to unforeseen pressures. These commitments can result in payments, generally statutory transfer payments, to a variety of recipients, including individuals, organizations, and other levels of government.

- **Program 1.2** — Treasury and Financial Affairs

This Program contributes to the Government of Canada's effective debt and other cost management on behalf of Canadians. It provides direction for Canada's debt management activities, including the funding of interest costs for the debt and service costs for new borrowings. In addition, the Program manages investments in financial assets needed to establish a prudent liquidity position. This Program supports the ongoing refinancing of government debt coming to maturity, the execution of the budget plan, and other financial operations of the government, including governance of the borrowing activities of major government-backed entities, such as Crown corporations. This Program is also responsible for the system of circulating Canadian currency (bank notes and coins) to ensure efficient trade and commerce across Canada.

- **Program 1.3** — Economic and Fiscal Policy Framework

This Program is the primary source of advice and recommendations to the Minister of Finance on issues, policies and programs of the Government of Canada related to the areas of economic, fiscal and social policy; federal-provincial relations; financial affairs; taxation; and international trade and finance. The work conducted by this Program involves extensive research, analysis, and consultation and collaboration with partners in both the public and private sectors, including the Cabinet and the Treasury Board; Parliament and parliamentary committees; the public and Canadian interest groups; departments, agencies and Crown corporations; provincial and territorial governments; financial market participants; the international economic and finance community; and the international trade community. In addition, this Program includes policy advice on the development of Memoranda to Cabinet, negotiation of agreements, drafting of legislation and sponsoring of bills through the parliamentary process, which are subsequently administered by other programs within the Department and by other government departments and agencies. The aim of this Program is to create a sound and sustainable fiscal and economic framework that will generate sufficient revenues and provide for the management of expenditures in line with the Budget Plan and financial operations of the Government of Canada.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canada Deposit Insurance Corporation

Strategic Outcome 1

To provide, for the benefit of persons having deposits with member institutions, deposit insurance against loss of part or all of such deposits because of the insolvency of the member institution.

Canadian International Trade Tribunal

Strategic Outcome 1

Fair, timely and transparent disposition of international trade cases, procurement cases and government-mandated inquiries within the Tribunal's jurisdiction.

- **Program 1.1 — Adjudication of Trade Cases (quasi-judicial role)**

The Tribunal's adjudicative mandate is to provide a fair, timely and transparent trade remedies system to Canada's business sector, thereby preserving confidence in the Canadian market, to the benefit of Canadian businesses and consumers. The Tribunal acts as an independent, quasi-judicial, decision-making body that derives its adjudication authority from the *Canadian International Trade Tribunal Act*, the *Special Import Measures Act* (SIMA), the *Customs Act* and the *Excise Tax Act*. It operates within Canada's trade remedies system to apply existing policies and laws on trade agreements seeking to address unfair competition in the domestic market or provide emergency protection against imported items that are seen to cause injury to a domestic industry. The Tribunal also hears appeals from decisions of the Canada Revenue Agency (CRA) and Canada Border Services Agency (CBSA). It has also been designated as the bid challenge authority under the Agreement on Internal Trade (AIT), the North American Free Trade Agreement (NAFTA) and the World Trade Organization (WTO) Agreement on Government Procurement (AGP) against the federal government procurement process. In its quasi-judicial role, the Tribunal's caseload is comprised of the following: Unfair trade cases – inquiries under SIMA into whether dumped and/or subsidized imports have caused or are threatening to cause injury to a Canadian industry; Bid challenges – inquiries into complaints by potential suppliers concerning federal government procurement under NAFTA, the AIT and the AGP; Appeals of decisions of the CBSA made under the *Customs Act* and SIMA, and decisions of the CRA under the *Excise Tax Act*; and Safeguard cases – inquiries into whether the rapid build-up of imports from China, or from around the world, is causing injury to a Canadian industry.

- **Program 1.2 — General Economic Inquiries and References (advisory role)**

In its advisory role, the Tribunal's caseload is comprised of three types of cases. First, the Tribunal plays an advisory role when requested by Government to recommend measures to alleviate injury to domestic producers pursuant to a safeguard inquiry. Periodically, the Government may also direct the Tribunal to inquire into general economic, trade or tariff matters. In such inquiries, the Tribunal has the power to conduct research, receive submissions, hold hearings and report with recommendations, as required, to the Government or the Minister of Finance. When these requests arise, the Tribunal faces a strain on its resources and must meet very strict government imposed deadlines. Finally, the Tribunal has received a standing reference from the Minister of Finance to investigate requests from domestic producers for tariff (import tax) relief on imported textile inputs for use in their manufacturing operations and make recommendations to the Minister that would maximize the net economic benefits to Canada. In its advisory role, the

Tribunal's caseload is comprised of the following: Safeguard cases – where the Tribunal finds injury to a Canadian industry, the Governor in Council may request the Tribunal to recommend appropriate measures for dealing with the build-up of imports; General economic, trade and tariff inquiries referred by the Government – inquiries and advice on such economic, trade and tariff issues as are referred to the Tribunal by the Governor in Council or the Minister of Finance; and Standing tariff reference referred by the Minister of Finance – investigations into requests from Canadian producers for tariff relief on imported textile inputs that they use in their production.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Financial Consumer Agency of Canada

Strategic Outcome 1

The Financial Consumer Agency of Canada (FCAC) has five objectives:

- supervise financial institutions to ensure they comply with federal consumer protection measures (known as consumer provisions) that apply to them;
- promote the adoption by financial institutions of policies and procedures designed to implement the consumer provisions;
- monitor the compliance of financial institutions with voluntary codes of conduct and any other public commitments they have made to protect the interests of consumers;
- promote awareness of the obligations of financial institutions; and
- foster an understanding of financial services and issues relating to financial services.

- **Program 1.1** — Financial Consumer Agency of Canada

We provide consumer information and oversee financial institutions to ensure that they comply with federal consumer protection measures.

Financial Transactions and Reports Analysis Centre of Canada

Strategic Outcome 1

A Canadian financial system resistant to money laundering and terrorist financing.

- **Program 1.1** — Financial Intelligence Program

FINTRAC's Financial Intelligence Program, mandated by the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* (PCMLTFA), is a component of the broader national security and anti-crime agenda. The program strives to disrupt the ability of criminals and terrorist groups that seek to abuse Canada's financial system and to reduce the profit incentive of crime. The main method of intervention used by the program is to analyze reported financial transactions and other information the Centre is authorized to receive and collect under the PCMLTFA to produce financial intelligence products including tactical case disclosures and strategic intelligence products that are relevant to the investigation, prosecution or understanding of money laundering and terrorist financing activities.

- **Program 1.2 — Compliance Program**

FINTRAC's Compliance Program is responsible for ensuring compliance with Part 1 of the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* (PCMLTFA) and associated regulations. The compliance program utilizes a risk based approach to deliver enforcement, relations and support activities that help ensure compliance with legislative and regulatory obligations that apply to individuals and entities operating in Canada's financial system.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Auditor General

Strategic Outcome 1

Through legislative auditing, we contribute to a well-managed and accountable government for Canadians.

- **Program 1.1 — Legislative Auditing**

We conduct independent audits and studies that provide objective information, advice and assurance to Parliament, government and Canadians.

Office of the Superintendent of Financial Institutions

Strategic Outcome 1

A safe and sound Canadian financial system.

- **Program 1.1 — Regulation and Supervision of Federally Regulated Financial Institutions**

This program involves regulating and supervising federally regulated financial institutions (FRFIs) to determine whether they are in sound financial condition and are complying with their governing statute law and supervisory requirements; monitoring the financial and economic environment to identify issues that may impact these institutions negatively; and intervening in a timely manner to protect depositors and policyholders from undue loss, while recognizing that management and boards of directors are ultimately responsible, and that financial institutions can fail. Costs for this program are recovered through base assessments and user fees and charges paid by the federally regulated financial institutions covered under the *Bank Act*, *Trust and Loan Companies Act*, *Insurance Companies Act* and *Cooperative Credit Associations Act*. The Office of the Superintendent of Financial Institutions also receives revenues for cost-recovered services to provinces, for which it provides supervision of their institutions on a fee for service basis.

- **Program 1.2 — Regulation and Supervision of Federally Regulated Private Pension Plans**

This program involves regulating and supervising federally regulated private pension plans to determine whether they are meeting minimum plan funding requirements and are complying with their governing law and supervisory requirements. This program provides risk assessments of pension plans covering employees in federally regulated areas of employment; timely and effective intervention and feedback to protect the financial interests of plan members and beneficiaries from undue loss, while recognizing that plan administrators are ultimately responsible, and that plans can fail; a balanced relevant regulatory framework; and a prudentially effective and responsive approvals process. This program incorporates risk assessment and intervention, regulation and guidance, and approvals and precedents related to federally regulated private pension plans under the *Pension Benefits Standards Act, 1985*. The costs for this program are recovered from pension plan fees based on the number of members in each federally regulated pension plan.

Strategic Outcome 2

A financially sound and sustainable Canadian public retirement income system.

- **Program 2.1 — Actuarial Valuation and Advisory Services**

The federal government and the provinces, through the Canada Pension Plan (CPP), public sector pension arrangements and other social programs have made commitments to Canadians and have taken on emanated responsibility for the financing of these commitments. Some are long-term and it is important that decision-makers, Parliamentarians and the public understand these and the inherent risks. This program plays a vital and independent role in this process. It provides checks and balances on the future costs of the different pension plans under its responsibilities. This program provides a range of actuarial services, under legislation, to the CPP and some federal government departments. It conducts statutory actuarial valuations of the CPP, Old Age Security (OAS) and Canada Student Loans programs, and pension and benefits plans covering the Federal Public Service, the Canadian Forces, the Royal Canadian Mounted Police (RCMP), federally appointed judges, and Members of Parliament. The Office of the Chief Actuary (OCA) is funded by fees charged for its actuarial valuation and advisory services and by an annual parliamentary appropriation.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1 — Internal services**

See introductory text.

PPP Canada Inc.

Strategic Outcome 1

Transform Canada into a leader for public-private partnerships (P3).

- **Program 1.1 — Federal Public-Private Partnership Initiatives**

Through this program, PPP Canada Inc. will: – manage a Public-Private Partnerships Fund (P3 Fund), a unique infrastructure program designed to support innovative public-private partnerships projects; – assess public-private partnerships opportunities for contributions under other Government of Canada infrastructure programs to ensure consideration of such arrangements; – assess public-private partnership opportunities and advise on the execution of public-private partnership projects at the federal level; and – act as a source of expertise and advice for public-private partnership matters in order to encourage the further development of Canada's public-private partnerships market.

Royal Canadian Mint

Strategic Outcome 1

The strategic outcomes of the Royal Canadian Mint (RCM) are to:

- elevate the RCM into a world-class brand that is recognized for quality, innovation and exceeding customer's expectations;
- ensure that Canadian circulation products and services are cost-effective, accessible, relevant and inspire Canadians to celebrate their history, culture and values;
- ensure that foreign coinage, bullion and refinery services, collectible and other related and services are leaders in their respective markets;
- generate a profit and maintain long-term viability through an ongoing commitment to customer satisfaction, growth and efficiency;
- create an environment where all employees demonstrate the organization's values and celebrate their success;
- and ensure that health, safety and the environment are paramount considerations in providing an ideal workplace.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

(1) Treasury Board Vote 5 — Government contingencies.

Treasury Board Vote 10 — Government-wide initiatives.

Treasury Board Vote 15 — Compensation adjustments.

Treasury Board Vote 25 — Operating budget carry forward.

Treasury Board Vote 30 — Paylist requirements.

Treasury Board Vote 33 — Capital budget carry forward.

(2) The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada (ATSSC), effective November 1, 2014. The ATSSC becomes the sole provider of resources and staff for eleven administrative tribunals, including Canadian International Trade Tribunal.

(3) Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Safe and Secure Waters.

- **Program 1.1** — Fleet Operational Readiness

The Canadian Coast Guard Fleet Operational Readiness Program provides safe, reliable, available, and operationally capable vessels, air cushion vehicles, helicopters, and small craft with competent and professional crews ready to respond to on-water and maritime-related requirements. This Program involves fleet management and operations, fleet maintenance, and fleet asset procurement. Through the Fleet Operational Readiness Program, the Canadian Coast Guard ensures that the Government of Canada's civilian fleet meets the current and emerging needs and priorities of Canadians and the Government of Canada. The Fleet Operational Readiness Program supports Coast Guard programs, the science and fisheries and aquaculture management activities of Fisheries and Oceans Canada, and the activities of a number of other government departments needing on-water delivery in support of their mandates. The Canadian Coast Guard College is an important contributor to the delivery of this Program. The legal basis and authority for this Program and capability is found in the *Constitution Act, 1867*, and the *Oceans Act*.

- **Program 1.2** — Shore-Based Asset Readiness

The Canadian Coast Guard Shore-based Asset Readiness Program ensures that the Canadian Coast Guard's non-fleet assets are available and reliable to support the delivery of Canadian Coast Guard programs. These non-fleet assets include both fixed and floating aids, such as visual aids (e.g., lighthouses and buoys), aural aids (e.g., fog horns), radar aids (e.g., reflectors and beacons), and long-range marine aids, such as the Differential Global Positioning System, as well as electronic communication and navigation systems and over 300 radio towers. The Shore-based Asset Readiness Program ensures the availability and reliability of these assets through provision of life-cycle investment planning, engineering, acquisition, maintenance, and disposal services. The Canadian Coast Guard College is an important contributor to the delivery of this Program. As required, this program is delivered in coordination with Public Works and Government Services Canada. Activities associated with the life-cycle asset management of Canadian Coast Guard shore-based assets are legislated and guided by a number of legal instruments such as the *Financial Administration Act* and *Government Contracts Regulations*, as well as policies, directives, and guidelines provided by Treasury Board, Treasury Board Secretariat, Industry Canada, and Public Works and Government Services Canada. The legal basis or authority for this Program is found in the *Constitution Act, 1867*, and the *Oceans Act*.

- **Program 1.3** — Marine Communications and Traffic Services

The Marine Communications and Traffic Services Program is delivered by the Canadian Coast Guard. The safety of mariners and marine environmental protection in Canadian waters both depend on the efficient and timely communication of information. The Marine Communications and Traffic Services Program ensures a reliable communication system is available around the clock to contribute to the safety of life at sea, the protection of the marine environment, the safe and efficient navigation of shipping in Canadian waterways, and maritime domain awareness. Services include the provision of marine distress and general radio communications, the broadcasting of maritime safety information, the screening of vessels entering Canadian waters, the regulation of vessel traffic in selected Canadian waters, the provision of marine information to other federal

government departments and agencies, and a marine telephone call service on a cost-recovery basis. The Canadian Coast Guard's Shore-based Asset Readiness and Canadian Coast Guard College programs are integral contributors to the delivery of this Program. The legal basis or authority for the Marine Communications and Traffic Services Program is found in the *Constitution Act, 1867*, the *Oceans Act*, the *Canada Shipping Act, 2001*, and, by virtue of an agreement with Transport Canada, the *Arctic Waters Pollution Prevention Act, 2001*.

- **Program 1.4 — Search and Rescue Services**

The Canadian Coast Guard's maritime Search and Rescue Services Program leads, delivers, and maintains preparedness for the 5.3 million square kilometer maritime component of the federal search and rescue system; it does so with the support of multiple stakeholders and partners, including the Canadian Coast Guard Auxiliary and the Department of National Defence. Through communication, coordination, and the delivery of maritime search and rescue response and operational awareness, the Program increases the chances of rescue for people caught in dangerous on-water situations. Coast Guard's Fleet Operational Readiness and Marine Communications and Traffic Services are integral contributors to the delivery of this Program. The legal basis or authority for the Search and Rescue Services program is found in the *Constitution Act, 1867*, the *Oceans Act*, and the *Canada Shipping Act, 2001*.

- **Program 1.5 — Hydrographic Products and Services**

The safe use of Canadian waterways requires knowledge of the physical limitations to navigation. The Canadian Hydrographic Service contributes to safety on Canadian waterways by undertaking hydrographic surveys from primarily Canadian Coast Guard vessels to, measure, describe, and chart the physical features of Canada's oceans and navigable inland waters. As Canada's hydrographic authority, the Canadian Hydrographic Service uses these data to produce up-to-date, timely and accurate navigational products in support of domestic and international marine transportation in accordance with the requirements of the *Canada Shipping Act, 2001*, the *Arctic Waters Pollution Prevention Act, 2005* and the International Maritime Organization's Safety of Life At Sea Convention. In addition to supporting Safe and Secure Waters strategic objectives, hydrographic information is a foundational support for a spectrum of research and development applications in engineering, ocean research, maritime security, marine navigation, ocean management, ecosystem science and the renewable and non-renewable energy sectors.

- **Program 1.6 — Canadian Coast Guard College**

Operating as Coast Guard's national, bilingual, degree-conferring training institution, the Canadian Coast Guard College educates the marine professionals necessary to deliver programs in support of Coast Guard's mission and mandate in marine safety, security, and environmental protection. Coast Guard's Fleet Operational Readiness, Shore-based Asset Readiness, Marine Communications and Traffic Services, Search and Rescue, and Environmental Response are integral contributors to the delivery of this Program. The legal basis or authority for this Program is found in the *Constitution Act, 1867*, and the *Oceans Act*.

- **Program 1.7 — Maritime Security**

The Maritime Security Program is led by the Canadian Coast Guard. This Program collaborates with federal departments and agencies with maritime security responsibilities, including the Royal Canadian Mounted Police, Canadian Forces, Canada Border Services Agency, Public Safety Canada, and Transport Canada, by facilitating the provision of maritime expertise, vessel support, and information. The Maritime Security Program provides these agencies with relevant Coast Guard information in support of their maritime and national security mandates. Coast Guard's Fleet Operational Readiness, Marine Communications and Traffic Services, and Shore-based Asset Readiness programs are integral contributors to the delivery of this Program. This Program is delivered in coordination with the Department's Conservation and Enforcement Program. The legal basis or authority for the Maritime Security Program is found primarily in the *Oceans Act*.

- **Program 1.8 — Ocean Forecasting**

As a maritime nation bordered by three oceans and an extensive network of inland waters, Canada has a requirement to understand ocean processes to enable the prediction of ocean conditions and their influences on our environment, ecosystems, and coastal communities. This is accomplished through research and the long-term monitoring of key

ocean parameters (temperature, sea level, nutrients, tides, salinity, etc.) via space-based, aerial, autonomous vehicles, and vessel-based observations and the management of data to ensure its integrity and accessibility. This program is the foundation for marine information, including ocean prediction products and services that are used to support emergency preparedness (e.g. tsunami warnings, storm surges), adaptation to climatic change, search and rescue, the mitigation of oil spills, and at-sea operations such as fisheries and offshore energy. Clients of the program include internal users such as the Canadian Coast Guard, other federal government departments and agencies (e.g., Environment Canada, Department of National Defence, Transport Canada, Public Safety Canada), various maritime industries (e.g., commercial shipping, off-shore energy, fishing industry), the Canadian and international marine science community, and Canadians.

Strategic Outcome 2

Economically Prosperous Maritime Sectors and Fisheries.

- **Program 2.1 — Integrated Fisheries Management**

The role of Integrated Fisheries Management is to sustainably manage Canada's fishery resources in consultation with Aboriginal groups, other Federal Departments, other levels of government, industry and other stakeholders. This is accomplished through the delivery of policies, programs and plans (i.e. Integrated Fisheries Management Plans and Conservation and Harvesting Plans, Rebuilding Plans, Recovery Strategies and Action Plans) under the *Fisheries Act*, the *Species at Risk Act* and related regulations. The program is necessary to promote sustainability and provide for the allocation and distribution of harvestable resources among those dependent on the fishery (Aboriginal, aquaculture for seed, spat and broodstock, commercial harvesters and recreational anglers). The program is informed by scientific assessments of fish, invertebrates and marine mammals, and is supported by the development of fisheries policies and strategies.

- **Program 2.2 — Small Craft Harbours**

The Small Craft Harbours (SCH) Program operates and maintains a national network of harbours in support of the principal and evolving needs of the commercial fishing industry and the broader interests of coastal communities. Investment in small craft harbour infrastructure supports the economic prosperity of Canada's fisheries and maritime sectors and contributes to public safety. SCH focuses its resources on keeping fishing harbours that are critical to the commercial fishing industry in good repair. The Program is delivered in cooperation with Harbour Authorities, local not-for-profit organizations representing the interests of both commercial fish harvesters and the broader community, who manage the harbours under lease agreements with DFO. Low activity fishing harbours, as well as recreational harbours, are transferred to third parties through divestiture. The SCH Program is funded through an annual appropriation and is also supported by two component Transfer Payment Programs: the Small Craft Harbours Class Grant Program and the Small Craft Harbours Class Contribution Program. The SCH Program operates under the authority of the *Fishing and Recreational Harbours Act* and its regulations, as well as the *Federal Real Property and Federal Immovables Act*.

- **Program 2.3 — Aboriginal Strategies and Governance**

This is a complex departmental responsibility, with both program and policy elements. This program delivers contribution programs supporting the involvement of Aboriginal groups in the fishery, where DFO manages the fishery and where land claims agreements have not been concluded, specifically for three purposes: Food, Social and Ceremonial usage; shared management, by building the capacity required to engage in an integrated fishery; and, conservation, by building monitoring, policing and species at risk management capacities. Concurrently the program provides strategic guidance to the department in: the ongoing management of Aboriginal rights issues; the renewal of Aboriginal programs and policies; allocation policies; treaty negotiation mandates; frameworks for the implementation of treaties; and, fisheries related consultation and engagement. This program serves to build and maintain strong and stable relations with Aboriginal groups and to promote fisheries-related economic opportunities for Aboriginal communities; both are instrumental to maintaining a stable fisheries management regime with common and transparent rules for all.

- **Program 2.4 — Marine Navigation**

The Canadian Coast Guard program provides Canadian and international commercial marine transportation sectors, fishers, and pleasure craft operators with information and services that facilitate economical and efficient movement of maritime commerce in support of economic prosperity. Program services include providing survey and forecast information on certain commercial channels to identify available water depth, restrictions, or hazards to navigation; dredging services; marine structures contributing to the maintenance of certain waterway's ship channels; aids to navigation systems including short-range marine aids such as buoys and fixed aids to navigation and the Differential Global Positioning System, and information to mariners; assistance to beset vessels in ice; opening of tracks through shore-fast ice; harbour breakouts; ice routing advice and ice information and escorting service to ships in ice-covered waters; and risk management of flooding on the St. Lawrence River through the monitoring, prevention, and breaking up of ice jams. Program services also contribute to Arctic sovereignty by transporting goods/supplies to northern communities and being a visible federal government marine presence in the Canadian North. Marine Navigation supports economic prosperity by ensuring economical, efficient and safe access to the Canadian marine transportation networks. This Program is guided by various international organizations such as the International Association of Marine Aids and Lighthouse Authorities, which the Canadian Coast Guard is an active member. This Program is delivered in coordination with Coast Guard's Fleet Operational Readiness and Shore-based Asset Readiness programs, Canadian Hydrographic Services, Public Works and Government Services Canada, and Environment Canada. Legal authority for this Program is found in the *Constitution Act, 1867*; the *Oceans Act, 1996*; and the *Canada Shipping Act, 2001*.

- **Program 2.5 — Salmonid Enhancement Program**

The Salmonid Enhancement Program supports sustainable fisheries by enabling harvest opportunities through producing fish for harvest, stock assessment and conservation as well as supporting stewardship with partners. The program contributes directly and indirectly to sustainable harvest opportunities through the culture and release of Pacific salmon from its hatcheries and spawning channels. Through targeted enhancement efforts on key stocks SEP actively contributes directly to Canada's ability to meet its obligations under the Pacific Salmon Treaty and supports secure international market access objectives for Canadian salmon products. The Salmonid Enhancement Program has been highly successful in engaging communities and the public broadly in Salmon stewardship through its activities of education, community involvement, restoration and maintenance of critical salmon habitat. The program is a contributor to Integrated Fisheries Resource Management, particularly Commercial and Recreational Fisheries, Habitat Management, and the British Columbia Aquaculture Program and works with Aquatic Animal Health and Biotechnology and Genomics. Components of the program are coordinated with the Canadian Food Inspection Agency, and provincial, territorial and municipal governments.

- **Program 2.6 — Sustainable Aquaculture Program**

The mission of the Sustainable Aquaculture Program is to create the conditions for growth in the Canadian aquaculture sector by supporting a more attractive investment climate while ensuring the long term sustainability of the sector. The regulatory mandate of the program is derived from the *Fisheries Act*, the *Fisheries Development Act*, and the *Oceans Act*. Fisheries and Oceans Canada, as the lead federal organization for aquaculture, provides a horizontally managed and integrated intradepartmental approach to create the optimal conditions for the sector, mainly via the establishment of regulations and extensive collaboration with private and public sector stakeholders. The Program is delivered in collaboration with other federal departments, provincial and territorial governments, industry, the private sector, non-government organizations, and other stakeholders. The Department's scientific expertise plays an important role in supporting sustainable aquaculture production.

- **Program 2.7 — International Engagement**

Through multilateral and bilateral engagements, this program promotes and protects the interests of Canadians by ensuring access for Canadians to fish resources managed internationally, promoting and influencing sustainable regional fisheries management and healthy global marine ecosystems, and contributing to a stable international trade regime for Canadian fish and seafood products. This is achieved through a coordinated and proactive approach that reflects domestic positions and interests and the Government of Canada's international priorities, and that is grounded in the Department's scientific expertise and best management practices. The program's goals are also advanced through building broad and constructive relationships with international partners based upon common goals and strategies. Many Canadians directly benefit from internationally

managed fish stocks, and the Canadian seafood sector as a whole relies heavily on international trade. As Canada also shares three oceans, effective relations and collaboration with international, regional, and domestic partners are essential to addressing fisheries and ecosystem challenges and to advancing international standards, agreements, and management decisions that reflect Canadian approaches.

- **Program 2.8 — Aquatic Animal Health**

In collaboration with the Canadian Food Inspection Agency, Fisheries and Oceans Canada is responsible for co-delivering Canada's National Aquatic Animal Health Program. The objective of the program is to protect against the introduction or spread of serious infectious disease in wild and cultured aquatic animals. Detection and reporting of aquatic animal diseases of national and international importance in wild and cultured aquatic animals is imperative to prevent or control serious disease outbreaks. An integrated approach to aquatic animal health protects the health of Canada's aquatic resources, wild and farmed, and provides greater economic stability and potential for growth for the industries and regions that depend on these resources. Preventing the spread of aquatic animal diseases within Canada and guarding against the introduction of serious infectious aquatic animal diseases is critical to safeguarding the health of Canada's aquatic resources and our export markets for fish and seafood products. Fisheries and Oceans Canada's scientific expertise provides scientific advice, diagnostic testing and research. Knowledge derived through science informs the certification of aquatic animal health status in support of the Canadian fish/seafood trade, market access, and the delivery of federal responsibilities under the *Health of Animals Act* and the *Fisheries Act*.

- **Program 2.9 — Biotechnology and Genomics**

Both knowledge and its application through innovative technology are vital for fostering advances in the sustainable development of aquatic resources. The Department is responsible for developing the knowledge necessary to inform the federal government's responsibility for regulation and the assessment of risk associated with fish products of biotechnology. Through the adoption of leading-edge genomics research and biotechnology tools and techniques, the Department also improves Fisheries and Oceans Canada's ability to protect endangered species, manage the opening and closing of fisheries, avoid overexploitation of resources, prosecute poachers, improve aquaculture practices, control disease outbreaks, and remediate contaminated sites.

- **Program 2.10 — Climate Change Adaptation Program**

As a federal department contributing to the growth and sustainability of numerous maritime sectors, and with billions of dollars in associated infrastructure, Fisheries and Oceans Canada is positioning itself to adjust its decisions and activities to consider the vulnerabilities, risks, impacts, and opportunities associated with a changing climate. Through the program's assessment of risk, and the development of science-based knowledge and applied adaptation tools, the Climate Change Adaptation Program enables the integration of climate change considerations and adaptive management strategies into departmental decision-making on mandated areas of responsibility. Whether it is the management of the fisheries resource, Small Craft Harbours or marine navigation, decision-making within the Department and by Canadians must take into account a changing climate so that Canada can continue to derive socio-economic benefits from our oceans and inland waters. This program is one element of a horizontal program involving not only DFO but also Environment Canada, Transport Canada, Indian and Northern Affairs, Parks Canada and the Public Health Agency of Canada.

- **Program 2.11 — Territorial Delineation**

The definition and description of Canada's maritime boundaries is reliant on hydrographic data and marine geodetic expertise. Canada ratified the United Nations Convention on the Law of the Sea in 2003 and had until December 2013 to submit evidence in support of the establishment of the outer limits of Canada's continental shelf beyond the current 200-mile Exclusive Economic Zone. Fisheries and Oceans Canada is responsible for the provision of ongoing marine geodetic expertise and hydrographic data to defend Canada's evidence submission to the United Nations Commission on the Limits of the Continental Shelf (the Commission). The Department will continue to work closely with Foreign Affairs and International Trade Canada and Natural Resources Canada in this endeavour. In addition to its direct contribution to Canada's submission to the Commission, the program defines the geographic positions for all Canadian offshore maritime boundaries and provides the geodetic evidence to resolve boundary disputes (e.g., Beaufort Sea) and prosecutions related to the violation of international maritime law (e.g., foreign fishing). Through the international recognition of these limits and boundaries, Canada is able to assert its sovereign right to resources and secure its maritime boundaries. There is a linkage between this program and Maritime Security and Enforcement.

Strategic Outcome 3

Sustainable Aquatic Ecosystems.

- **Program 3.1 — Compliance and Enforcement**

The program promotes and maintains compliance with legislation, regulations, and management measures implemented to achieve the conservation and sustainable use of Canada's aquatic resources and the protection of species at risk, fish habitat, and oceans. The program is delivered through a balanced regulatory management and enforcement approach, including the promotion of compliance through education and shared stewardship; monitoring, control, and surveillance activities; and the management of major cases / special investigations related to complex compliance issues. The program also works closely with the Ecosystems and Fisheries Management Sector, the Royal Canadian Mounted Police, and industry partners to ensure peaceful and orderly fisheries. It makes a significant contribution, with the Canadian Coast Guard, to the protection of Canadian sovereignty and assists the Department of National Defence in the identification of potential marine security threats through extensive marine surveillance activities. It plays a key role along with Ecosystems and Fisheries Management, Environment Canada, and the Canadian Food Inspection Agency in the administration of the Canadian Shellfish Sanitation Program to help ensure that the public is protected from contaminated fisheries products.

- **Program 3.2 — Fisheries Protection**

Canada's freshwater and marine fish species and fish habitat play an important role in Canada's sustainable aquatic ecosystem and economic prosperity. Diverse activities undertaken in and near freshwater and marine fisheries waters such as oil and gas exploration and development, forestry, mining, hydroelectric power generation and agriculture have the potential to negatively impact fisheries by causing serious harm to the fish and fish habitat that support them. The Fisheries Protection Program (FPP) policy objective is to contribute to the ongoing productivity and sustainability of Canada's commercial, recreational and Aboriginal (CRA) fisheries by minimizing threats from works undertakings and activities taking place in and near Canadian waters. This policy objective will, to the extent that the FPP's mandate permits, contribute to goal that the fisheries resources they support are maintained to provide for the sustainability and productivity of Canadian fisheries and their use by Canadians now and in the future. This, in turn, is expected to maintain the related economic, social and other benefits that are derived from such efforts from the fisheries and from development. The Program's immediate goals are to: ensure that those conducting regulatory reviews of development projects have the necessary direction, guidance and training to respond to requests according to the legislative and regulatory framework; ensure that those undertaking development activities in or near CRA fisheries waters have the necessary direction to comply with legal and regulatory requirements under the *Fisheries Act*; and, provide organizations with resources, in cooperation with other funding partners to take remedial action on impacted habitat in areas that would improve Canada's recreational fisheries.

- **Program 3.3 — Oceans Management**

The *Oceans Act* and its supporting policy, Canada's Oceans Strategy, affirm DFO's mandate and role as the lead federal authority for the oceans and provide a framework for modern management of estuarine, coastal and marine ecosystems. Oceans Management involves an integrated and evidence-based approach to decisions and actions relating to the oceans. Oceans Management is interdisciplinary in nature and is conducted in collaboration with other federal departments, other levels of government, Aboriginal groups, users, and other non-government stakeholders. Building on a foundation of science, Oceans Management seeks to address a number of challenges facing Canada's oceans, such as oceans health, marine habitat loss, declining biodiversity and growing demands for access to ocean space and resources. Implementation of integrated decisions that consider ecological, social and economic impacts will result in the protection, conservation and sustainable use of Canada's oceans.

- **Program 3.4 — Species at Risk Management**

The *Species at Risk Act* is the legislative basis for the Government of Canada's strategy for the protection of wildlife species at risk. It establishes a process for conducting scientific assessments of the population status of individual wildlife species and a mechanism for listing extirpated, endangered, threatened and special concern wildlife species. The *Species at Risk Act* also includes provisions for the protection, recovery and management of listed wildlife species and their critical habitats and residences. As one of two

competent Ministers named under the *Species at Risk Act*, the Minister of Fisheries and Oceans has the legislated responsibility and mandate for the protection and recovery of all aquatic species in Canada (except those on federal lands under the responsibility of Parks Canada). Management of the program reflects key *Species at Risk Act* principles, such as: stewardship and engagement, consultation and cooperation, and compliance and enforcement. The program is informed by sound scientific research and considers socio-economic, stakeholder, and community knowledge in support of activities in the Species at Risk conservation cycle, including the assessment and listing of species; the recovery and protection of species at risk through the development of recovery strategies, action plans and management plans; the identification and protection of species' critical habitats; implementing recovery measures; and reporting on progress for the survival or recovery of species. The Species at Risk Program helps improve the ecological integrity of aquatic ecosystems so that they remain healthy and productive for future generations of Canadians.

- **Program 3.5 — Environmental Response Services**

The Canadian Coast Guard is the lead federal agency for ensuring an appropriate response to all ship-source and mystery pollution spills in Canadian waters and for the support of countries under international agreements. The objectives of the Environmental Response Services Program are to minimize the environmental, economic, and public safety impacts of marine pollution incidents. Through the Environmental Response Services Program, the Canadian Coast Guard establishes an appropriate and nationally consistent level of preparedness and response services in Canadian waters; monitors and investigates all reports of marine pollution in Canada in conjunction with other federal departments; and maintains communications with the Program's partners, including Transport Canada and Environment Canada, to ensure a consistent approach to the response to marine pollution incidents. Coast Guard's Fleet Operational Readiness is an integral contributor to the delivery of this Program. This Program is delivered in coordination with other federal departments for surveillance information and scientific advice. Within Canada's Marine Oil Spill Preparedness Response Regime, response capacity arrangements between ship owners and commercial Response Organizations are essential in support of the regime. The legal basis and authority for the Environmental Response Services Program is found in the *Oceans Act*, the *Canada Shipping Act, 2001*, the *Constitution Act, 1867*, and, by virtue of an agreement with Transport Canada, the *Arctic Waters Pollution Prevention Act, 2001*.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

Freshwater Fish marketing Corporation

Strategic Outcome 1

To regulate interprovincial and export trade in freshwater fish.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Reduction in poverty for those living in countries where Canada engages in international development.

- **Program 1.1** — Global engagement and strategic policy

Achieving international development outcomes requires engagement on the global stage and investments through international partners, as appropriate. Multilateral/international organizations and global initiatives tackle global problems (e.g., infectious diseases, climate change); provide a governance mechanism in areas such as humanitarian assistance or to set the development agenda (e.g., Millennium Development Goals); and provide economies of scale and of scope, as well as significant expertise and capacity on the ground. Activities under this program aim at delivering concrete results on the ground by: shaping and investing in multilateral and international institutions partners' policies and programs throughout the world; and, exerting policy influence to shape international development policy in Canada and globally, in line with the Government's priorities, in order to advance Canada's humanitarian and development assistance objectives through the fostering of effective partnerships and policy dialogue. Transfer payment programs over \$5m in this program include International Development Assistance; International Financial Institutions (IFIs), as per the *International Development (Financial Institutions) Assistance Act*; and the Advance Market Commitment (AMC) for pneumococcal vaccine.

- **Program 1.2** — Low-income countries

Countries within the World Bank low-income category face pervasive poverty and limited institutional capacity, but have broadly stable governance and public security. These countries generally have a high level of aid dependency, limited resilience to respond to number of vulnerabilities and external shocks, and limited ability to attend to the human development needs of their populations. Programming under this program features long-term engagement on country priorities, primarily to: strengthen education and health outcomes for children and youth; address the root causes of food insecurity; foster inclusive and sustainable economic growth; and, build the foundations for effective governance to ensure country institutions can sustain the benefits of development programs. The Department of Foreign Affairs, Trade and Development works with other donors, civil society organizations and ministries of recipient governments. Engagement is anchored in the partner government's development strategy and program, around which donors coordinate and harmonize their efforts. This may involve the pooling of funds or other forms of program-based approaches. Transfer payment programs over \$5m in this program include International Development Assistance.

- **Program 1.3** — Fragile states and crisis-affected communities

Fragile states and crisis-affected communities face particularly severe development challenges exacerbated by conflict, instability, man-made crisis or natural disasters within complex national and regional contexts. They have weak institutional capacity, poor governance, political instability, and ongoing violence or a legacy of past conflict. Canada's

engagement is often whole-of-government and subject to closely monitored and visible government strategies. This program features programming that is short-term to ensure delivery of, and access to, essential humanitarian services to crisis-affected populations in order to reduce immediate vulnerabilities of the population. It also features programming that is medium to long-term, to create conditions for sustainable economic growth and building the foundation for effective governance and delivery of basic services. It requires working with partners that have expertise and capacity to deliver in high-risk environments. Transfer payment programs over \$5m in this program include: International Development Assistance.

- **Program 1.4 — Middle-income countries**

Countries within the World Bank middle-income category face specific challenges in inclusive, sustainable economic growth and development. These countries exhibit a stronger economic and social foundation and a lower reliance on aid than low-income countries, but may still have a large proportion of their population facing inequality and poverty. These countries often have stark disparities along geographic, gender, ethnic, or urban-rural lines, as well as pockets of deep poverty. This is in large part due to low productivity and competitiveness, and weak political accountability that does not address discrimination and marginalization. Main areas of programming under this program focus on delivering targeted technical assistance to foster equal access to economic opportunities and to public services to create the conditions for more competitive and inclusive local economies; to expand service delivery to reach marginalized groups; and to build accountable democratic institutions. It requires working in partnership with government, civil society and the private sector to build capacity including knowledge and systems. Transfer payment programs over \$5m in this program include International Development Assistance.

- **Program 1.5 — Canadian engagement for development**

The Department of Foreign Affairs, Trade and Development (DFATD) achieves development results by focusing on purpose-driven, cost-effective initiatives that further the sustainability of Canada's efforts by drawing on the expertise, networks and opportunities available to Canadian organizations; and broadening Canadian engagement in international development through outreach and education activities. Programming under this program involves co-investment in the most meritorious development proposals that align with Canada's development priorities. Through calls for proposals, DFATD is able to draw upon the Canadian organizations such as civil society organizations, academic institutions, and professional associations that are best suited to help deliver on Canada's development objectives. Canadian organizations in turn work with partner country counterparts to deliver development results on the ground. Transfer payment programs over \$5m in this program include International Development Assistance.

Strategic Outcome 2

The international agenda is shaped to Canada's benefit and advantage in accordance with Canadian interests and values.

- **Program 2.1 — Diplomacy and Advocacy**

This program engages and influences international players and delivers international programs and diplomacy. It allows Canada to implement its international policies to foreign audiences inside and outside of Canada and thus fulfill the mandated roles and responsibilities that are associated with the diplomatic work of a foreign and international trade ministry. This work is done by liaising with decision makers at all levels in other countries and hosting events where key messages can be advocated. It includes utilizing provincial expertise in specific areas of interest to them to advance Canada's overall international policy. Additionally, it uses strategic promotion activities, including public diplomacy, as vehicles to promote Canadian views on issues of concern to Canadians and uses a number of discretionary grant and contribution programs to further Canada's interests abroad. The main target groups are foreign decision makers in Canada and abroad, foreign publics, other levels of government within Canada, key constituencies within other countries (e.g. security and defence-related communities) and legislators.

- **Program 2.2 — International Policy Advice and Integration**

This program provides strategic direction, intelligence and advice, including integration and coordination of Canada's foreign and international economic policies. It allows the department to plan and strategically coordinate its international activities with a view to integrating Canada's foreign and international economic policies. This is carried out by working to improve coordination within DFATD, with other government departments and relevant stakeholders, and by utilizing advice provided from missions to develop all-of-government approaches that integrate different organizational mandates and perspectives to advance Canadian interests and values. The main target groups are other government organizations, policy and program groups within DFATD, Heads of Mission and key mission personnel.

Strategic Outcome 3

The Department of Foreign Affairs, Trade and Development maintains a mission network of infrastructure and services to enable the Government of Canada to achieve its international priorities.

- **Program 3.1 — Governance, Strategic Direction and Common Service Delivery**

This program governs, provides strategic direction and leadership, manages change, delivers services and provides infrastructure to the mission platform. The work is done in coordination with various branches, bureaus and divisions within DFATD and with over 30 federal and provincial departments and agencies located at missions abroad. The main target group is DFATD's branches, bureaus and divisions, the Government of Canada's missions abroad, as well as federal and other partners operating at missions abroad.

- **Program 3.2 — Government of Canada Benefits**

This program is the vehicle through which the International Platform and central agencies manage whole-of-government statutory payments on behalf of the Crown. These payments are made on behalf of Canadian and local employees. DFATD manages the administration and payments for Foreign Service Directives as well as Locally Engaged Staff Pension Plans. This work is done through issuing timely benefit payments to Locally Engaged and to Canada-based staff. The main target group is Government of Canada staff at missions abroad.

Strategic Outcome 4

Canadians are satisfied with commercial and consular services.

- **Program 4.1 — International Commerce**

This program manages and delivers commerce services and advice to Canadian business. It helps Canadian business succeed in international markets by providing expert counsel and advice and managing and delivering value-added services to Canadian business pursuing international business opportunities. This work is conducted through support to qualified business clients. The main target groups are Canadian business clients who are currently operating abroad or who have demonstrated a capacity to do so.

- **Program 4.2 — Consular Services and Emergency Management**

This program manages and delivers consular services and advice to Canadians, and provides a coordinated Government of Canada response to emergencies abroad affecting Canadians. This work is done through consular agents and officers at missions abroad and through the use of the website, Voyage.gc.ca. The program exists because Canadians travel, work, live, and die outside of Canada. This program prepares Canadians for international travel by informing them about safe travel habits and providing them with credible and timely information and advice to enable them to make responsible decisions about travel to foreign countries. In addition to helping Canadians prepare for international travel, this program assists Canadians outside Canada (24 hours a day, seven days a week) in handling individual cases of distress and routine requests for service and, in cooperation with partners and missions, provide a coordinated Government of Canada response to emergencies (such as natural disasters) affecting Canadians abroad. The main target groups are Canadians travelling outside of Canada or Canadians planning to travel or live abroad.

Strategic Outcome 5

The following program supports all strategic outcomes within this organization.

- **Program 5.1 — Internal services**

See introductory text.

Canadian Commercial Corporation

Strategic Outcome 1

Enhanced market access for Canadian exporters to complex international public sector markets.

- **Program 1.1 — Defence**

This consists of export sales in the aerospace, defence and security sectors. These include sales to all levels of government.

- **Program 1.2 — Emerging and Developing Markets**

This is non-Defence Production Sharing Agreement (DPSA) and non-aerospace, defence and security business consisting of supply and construction projects in a variety of other sectors and can include sales to all levels of government, federal, state and municipal.

International Development Research Centre

Strategic Outcome 1

Stronger capacity in developing countries to research and propose solutions that support sustainable and equitable development and poverty reduction.

- **Program 1.1 — Research on Development Challenges**

IDRC supports research in developing countries to promote growth and development. The challenges facing international development are varied and complex. Research and innovation are vitally important to grapple with these challenges. Under the Strategic Framework 2010-2015, IDRC focuses on agriculture and the environment, science and innovation; social and economic policy; and health and health systems. Within each focus, programs define the specific development problem and identify the most promising approaches to address them. These programs support applied research as well as activities that strengthen the particular fields of knowledge. IDRC continually assesses why, where, and how to intervene to have the greatest impact. Program funding is allocated on an annual basis to reflect these changing priorities. IDRC works with researchers and innovators in the developing world, often in cooperation with researchers in Canada and elsewhere. Most projects are conducted by developing-world institutions themselves, including universities, research organizations, and civil society. IDRC also encourages sharing this knowledge with policymakers, other researchers, and communities around the world. The result is innovative, lasting local solutions that aim to bring choice and change to those who need it most.

- **Program 1.2 — Capacity to Do, Use and Manage Research**

IDRC also invests in research intended to assist the developing world to solve its own problems. To contribute to their societies, researchers and innovators in the developing world need to access global knowledge, engage their peers, and share their work. In short, they need opportunities to build their capacity to do, use and manage research. This program supports projects and technical assistance related to research design and methodology, communication and evaluation. Training and experts help researchers to develop their own ideas, communicate their results, and contribute to the larger efforts to reduce poverty. IDRC also works on evaluation methodologies and tools, and supports professional communities of evaluators in the developing world. This program works with research, media and evaluation professionals in the developing world. It does so using a “grants-plus” approach to supporting research for development. This approach combines financial support to create new opportunities for research, engagement with recipients in the research process, and brokering that helps strengthen research-to-policy linkages. The work of IDRC is part of Canada’s international assistance and is guided by the *International Development Research Centre Act*.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

International Joint Commission (Canadian Section)

Strategic Outcome 1

Prompt and effective prevention and/or resolution of potential disputes under the Boundary Water Treaty and Great Lakes Water Quality Agreement to ensure they have no negative impact on Canada-US relations.

- **Program 1.1 — Boundary Waters Treaty**

The issuing of Orders of Approval in response to applications for the use, obstruction or diversion of waters that flow along and/or across the boundary if such uses affect the natural water levels or flows on the other side; undertaking investigations of specific issues (references) when requested by governments; and the provision to make binding decisions on matters referred to it by the governments.

- **Program 1.2 — Great Lakes Water Quality Agreement**

To evaluate progress toward restoring and maintaining the chemical, physical and biological integrity of the waters of the Great Lakes basin ecosystem.

National Capital Commission

Strategic Outcome 1

Canada’s Capital Region is of national significance and is a source of pride for Canadians.

- **Program 1.1 — Capital Stewardship and Protection**

Through Capital Stewardship and Protection, the NCC aims to protect assets of national significance in Canada's Capital Region and to continue to enhance the Capital for future generations of Canadians. As steward of federal lands and assets in the region, the organization rehabilitates, manages, develops, maintains and safeguards the Capital's most treasured cultural, natural and heritage assets while ensuring safe, respectful and appropriate public access is maintained. The NCC also promotes and regulates public activities on federal lands and conserves natural resources through sound environmental management. Through its involvement in land development projects such as LeBreton Flats, its acquisition of national interest properties and its disposal of surplus properties, the NCC is further able to ensure that its vision for the Capital is reflected in Canada's Capital Region.

- **Program 1.2 — Capital Planning**

The National Capital Commission (NCC) guides and coordinates the use of federal lands to ensure that they inspire Canadians, meet the needs of government and reflect the role and significance of the Capital. Through long-term plans, the identification of a National Interest Land Mass (NILM) and review and approval processes, the NCC is able to ensure that land use in Canada's Capital Region reflects and respects the significance, natural environment, and heritage of the Capital. The organization also collaborates with federal, provincial and municipal governments on transportation issues.

- **Program 1.3 — Capital Experience**

The objective of Capital Experience is to generate pride through programming and other services in the Capital. This program produces a series of high-profile events and festivals (e.g. Canada Day and Winterlude), commemorations, interpretation, educational programs, visitor and recreational services and programs. In addition, through outreach activities that bring the Capital to Canadians across the country and national messaging, the NCC works toward increasing awareness of Canada's Capital Region as a place where Canadian heritage, culture and achievements can be experienced.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

- (i) Treasury Board Vote 5 — Government contingencies.
Treasury Board Vote 10 — Government-wide initiatives.
Treasury Board Vote 15 — Compensation adjustments.
Treasury Board Vote 25 — Operating budget carry forward.
Treasury Board Vote 30 — Paylist requirements.
Treasury Board Vote 33 — Capital budget carry forward.

(2) Vote 32c under the Canadian International Development Agency was approved by Parliament in *Appropriation Act No. 5, 2009-2010*. This vote provided legislative authority, pursuant to section 24.1 of the *Financial Administration Act*, to forgive an amount up to \$449,533,044 in subsequent years.

(3) Includes the equivalent in Canadian dollars of the total number of callable shares specified in all original agreements.

(4) The *Economic Action Plan 2013 Act, No 1* stated that the Canadian International Development Agency was to be amalgamated with Foreign Affairs, Trade and Development, effective June 26, 2013.

(5) Order in Council P.C. 2015-0194, designated the Minister of Employment and Social Development as the Minister for the purposes of the *National Capital Act*, effective February 9, 2015.

- **Program — Internal services**

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

First Nations and Inuit communities and individuals receive health services and benefits that are responsive to their needs so as to improve their health status.

- **Program 1.1 — Supplementary Health Benefits for First Nations and Inuit**

Under the Supplementary Health Benefits for First Nations and Inuit program, the Non-Insured Health Benefits (NIHB) Program provides registered First Nations and recognized Inuit residents in Canada with a specified range of medically necessary health-related goods and services, which are not otherwise provided to eligible clients through other private or provincial/territorial programs. NIHB include: pharmaceuticals; medical supplies and equipment; dental care; vision care; short term crisis intervention mental health counselling; and, medical transportation to access medically required health services not available on-reserve or in the community of residence. The NIHB Program also pays health premiums on behalf of eligible clients in British Columbia (as of July 2013, NIHB will no longer pay premiums for FN residents of BC, who will become clients of the FN Health Authority in accordance with the BC Tripartite Health Agreement and sub-agreements). Benefits are delivered through registered, private sector health benefits providers (e.g., pharmacists and dentists) and funded through NIHB's electronic claims processing system or through regional offices. Some benefits are also delivered via contribution agreements with First Nations and Inuit organizations and the territorial governments in Nunavut and Northwest Territories. The program objective is to provide non-insured health benefits to First Nations and Inuit people in a manner that contributes to improvements in their health status to be comparable to that of the Canadian population. This program uses funding from the following transfer payment: First Nations and Inuit Supplementary Health Benefits.

- **Program 1.2 — First Nations and Inuit Primary Health Care**

The *Department of Health Act*, 1996, and the Indian Health Policy (1979) provide the authority for the delivery of the First Nations and Inuit Primary Health Care program to First Nations and Inuit in Canada. Primary health care includes health promotion and disease prevention, public health protection (including surveillance), and primary care (where individuals are provided diagnostic, curative, rehabilitative, supportive, palliative/end-of-life care, and referral services). The department administers contribution agreements and direct departmental spending related to child development, mental wellness and healthy living, communicable disease control and management, environmental health, clinical and client care, as well as home and community care. The program objective is to improve the health and safety of First Nations and Inuit individuals, families, and communities.

- **Program 1.3 — Health Infrastructure Support for First Nations and Inuit**

The *Department of Health Act*, 1996, and the Indian Health Policy (1979) provide the authority for the Health Infrastructure Support for First Nations and Inuit program to administer contribution agreements and direct departmental spending to support the delivery of health programs and services. The program promotes First Nation and Inuit capacity to design, manage, deliver, and evaluate health programs and services. To better meet the unique health needs of First Nations and Inuit individuals, families, and communities this program also supports: innovation in health program and service delivery; health governance partnerships between Health Canada, the provinces, and First

Nation and provincial health services; and, improved integration of First Nation and provincial health services. The program objective is to help improve the health status of First Nations and Inuit people, to become comparable to that of the Canadian population over the long-term.

Strategic Outcome 2

Health risks and benefits associated with food, products, substances, and environmental factors are appropriately managed and communicated to Canadians.

- **Program 2.1 — Health Products**

The *Department of Health Act*, and the *Food and Drugs Act* and Regulations provide the authority for Health Canada to develop, maintain, and implement a regulatory framework associated with a broad range of health products that affect the everyday lives of Canadians, including pharmaceutical drugs, biologics and radiopharmaceuticals, medical devices, and natural health products. Health Canada verifies that the regulatory requirements for the safety, quality, and efficacy of health products are met through risk assessments, including monitoring and surveillance, compliance, and enforcement activities. In addition, Health Canada provides evidence-based, authoritative information to Canadians and key stakeholders, including health professionals such as physicians, pharmacists and natural health practitioners, to enable them to make informed decisions. The program objective is to ensure that health products are safe, effective, and of high quality for Canadians.

- **Program 2.2 — Environmental Risks to Health**

The *Canadian Environmental Protection Act*, 1999 and the *Department of Health Act* provide the authorities for the Environmental Risks to Health program to assess and manage the health risks associated with climate change, air quality, drinking water quality, and chemical substances. This program activity links closely with Health Canada's Health Products, Food Safety and Nutrition, Consumer Product Safety and Pesticides program activities, as the *Food and Drugs Act*, the *Pest Control Products Act*, and the *Canada Consumer Product Safety Act* provide the authority to manage the health risks associated with chemical substances in products in the purview of these program activities. Key activities include: risk assessment and management as well as research and bio-monitoring of chemical substances; provision of technical support for chemical emergencies that require a coordinated federal response; development of guidelines on indoor and outdoor air quality; development and dissemination of water quality guidelines; and, supporting the implementation of heat alert and response systems in Canadian communities. The program objective is to protect the health of Canadians through the assessment and management of health risks associated with chemical substances and to provide expert advice and guidelines to partners on the health impacts of environmental factors such as air and water contaminants and a changing climate.

- **Program 2.3 — Substance Use and Abuse**

Under the authority of several Acts, the Substance Use and Abuse program regulates tobacco products and controlled substances. Through the *Tobacco Act* and its regulations the program regulates the manufacture, sale, labelling and promotion of tobacco products. The program leads the Federal Tobacco Control Strategy, the goal of which is to further reduce the prevalence of smoking through regulatory, programming, educational and enforcement activities. Through the *Controlled Drugs and Substances Act* and its regulations, the program regulates access to controlled substances and precursor chemicals to support their legitimate use and minimize the risk of diversion for illicit use. As a partner department under the National Anti-Drug Strategy (NADS), the program supports prevention, health promotion, treatment initiatives, and enforcement with the goal of reducing substance use and abuse. In addition, the program provides timely, evidence-based information to key stakeholders including, but not limited to, law enforcement agencies, health professionals, provincial and territorial governments and Canadians. The program objective is to manage risks to the health of Canadians associated with the use of tobacco products, and the illicit use of controlled substances and precursor chemicals.

- **Program 2.4 — Food Safety and Nutrition**

The *Department of Health Act* and the *Food and Drugs Act* provide the authority for Health Canada to develop, maintain, and implement a regulatory framework associated with the safety and nutritional quality of food. Food safety standards are enforced by the Canadian Food Inspection Agency. Health Canada develops and promotes evidence-based, national healthy eating policies and standards for Canadians and key stakeholders, including non-governmental organizations, health professionals, and

industry associations to enable all stakeholders to make informed decisions about food and nutrition safety as well as healthy eating. The program objectives are to manage risks to the health and safety of Canadians associated with food and its consumption, and to enable Canadians to make informed decisions about healthy eating.

- **Program 2.5 — Pesticides**

The *Pest Control Products Act* provides Health Canada with the authority to regulate and register pesticides, under the Pesticides program. In the delivery of this program, Health Canada conducts activities that span the lifecycle of a pesticide, including: product assessment for health and environmental risks and product value; risk management; post market surveillance, compliance and enforcement; changes in use, cancellation, or phase out of products that do not meet current scientific standards; and, consultations and public awareness building. Health Canada is also an active partner in international efforts (e.g., North American Free Trade Agreement; Organization for Economic Cooperation and Development, Regulatory Cooperation Council) to align regulatory approaches. These engagements provide access to the best science available to support regulatory decisions and promote consistency in the assessment of pesticides. The program objective is to protect the health and safety of Canadians relating to the use of pesticides.

- **Program 2.6 — Consumer Product and Workplace Chemical Safety**

The Consumer Product and Workplace Chemical Safety program supports efforts to protect Canadians from unsafe products and chemicals. The Consumer Product Safety program supports industry's responsibility for the safety of their products and consumers' responsibility to make informed decisions about product purchase and use, under the authorities of the *Canada Consumer Product Safety Act* (CCPSA) and the *Food and Drugs Act* (F&DA) and its *Cosmetic Regulations*. Health Canada's efforts are focussed in three areas: active prevention; targeted oversight; and, rapid response. The *Hazardous Products Act* and the *Hazardous Materials Information Review Act* provide the authorities for the Workplace Chemical Safety program to maintain a national hazard communication standard of cautionary labelling and material safety data sheets for hazardous chemicals supplied for use in Canadian workplaces and to protect related confidential business information. The program objectives are to protect Canadians by managing the potential health and safety risks posed by consumer products and cosmetics in the Canadian marketplace and from hazardous chemicals in the workplace.

- **Program 2.7 — Radiation Protection**

The *Department of Health Act*, the *Radiation Emitting Devices Act*, and the *Comprehensive Nuclear-Test-Ban Treaty Implementation Act* provide the authority for the Radiation Protection program to monitor, regulate, advise, and report on exposure to radiation that occurs both naturally and from man-made sources. In addition, the program is licensed under the Canadian Nuclear Commission's *Nuclear Safety and Control Act* to deliver the National Dosimetry Service, which provides occupational radiation monitoring services. The key components of the program are environmental monitoring, provision of technical support for a radiological /nuclear emergency that requires a coordinated federal response, occupational safety, and regulation of radiation emitting devices. The program objective is to inform and advise other government departments, international partners, and Canadians in general about the health risks associated with radiation, and inform Canadians of strategies to manage associated risks.

Strategic Outcome 3

A health system responsive to the needs of Canadians.

- **Program 3.1 — Canadian Health System Policy**

The Canadian Health System Policy program provides strategic policy advice, research, and analysis to support decision-making on health care system issues, as well as program support to provinces and territories, partners, and stakeholders on health care system priorities. Mindful of equity, sustainability, and affordability Health Canada collaborates and targets its efforts in order to support improvements to the health care system such as improved access, quality, and integration of health care services. Through the management of grants and contributions agreements with key pan-Canadian health partners, the Canadian Health System Policy program contributes to priority health issues requiring national leadership and strong partnership. The program objective is to support innovative health care policy and programs to help Canadians maintain and improve their health.

- **Program 3.2 — Official Language Minority Community Development**

The Official Language Minority Community Development program involves the administration of Health Canada's responsibilities under Section 41 of the *Official Languages Act*. This Act commits the federal government to enhancing the vitality of official language minority communities and fostering the full recognition and use of English and French in Canadian society. This program includes: consulting with Canada's official language minority communities on a regular basis; supporting and enabling the delivery of contribution programs and services for official language minority communities; reporting to Parliament and Canadians on Health Canada's achievements under Section 41; and, coordinating Health Canada's activities and awareness in engaging and responding to the health needs of official language minority communities. The program objectives are to improve access to health services in the minority official language communities and to increase the use of both official languages in the provision of health care services. This program uses funding from the following transfer payment: Official Languages Health Contribution Program.

- **Program 3.3 — Specialized Health Services**

The Specialized Health Services program supports the Government of Canada's obligation to protect the health and safety of its employees and the health of visiting dignitaries. Health Canada delivers counselling, organizational development and critical incident support services to federal government departments through a network of contracted mental health professionals and also provides immediate response to employees following traumatic incidents in the workplace. Health Canada delivers medical services to federal public servants who may be exposed to specific health risks due to their type of work. By providing occupational and psycho-social health services to federal public servants, Health Canada pro-actively contributes towards reducing the number of work days lost to illness across the federal government. Health Canada also arranges for the provision of health services for Internationally Protected Persons (IPP) who have come to Canada for international events, such as meetings or official visits by government leaders or the Royal Family. An IPP is a representative of a State, usually Heads of State and/or Government, members of the Royal Family, or officials of an international organisation of an intergovernmental character. The program objective is to ensure continuity of services and the occupational health of federal public servants who can deliver results to Canadians in all circumstances and to arrange health services for IPPs.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

Canadian Food Inspection Agency

Strategic Outcome 1

A safe and accessible food supply and plant and animal resource base.

- **Program 1.1 — Food Safety Program**

The Food Safety Program aims to mitigate risks to public health associated with diseases and other health hazards in the food supply system and to manage food safety emergencies and incidents. The program achieves its objectives by promoting food safety awareness through public engagement and verification of compliance by industry with standards and science-based regulations. The program delivers initiatives to verify that consumers receive food safety and nutrition information and to mitigate unfair market practices targeting consumers and industry. Collaboration with other governments and stakeholders further enhances the Agency's ability to track, detect and mitigate risks associated with food and the food supply system, including food-borne illness. This program supports public health and instils confidence in Canada's food system.

- **Program 1.2 — Animal Health and Zoonotics Program**

The Animal Health and Zoonotics Program aims to mitigate risks to Canada's animal resource base, animal feeds and animal products, which are integral to a safe and accessible food supply system as well as to public health. The program achieves its objectives by mitigating risks to Canada's animals (including livestock and aquatic animals) from regulated diseases, managing animal disease emergencies and incidents, mitigating and managing risks to livestock and derived food products associated with feed, promoting animal welfare and guarding against deliberate threats to the animal resource base. The program helps to mitigate risks associated with animal diseases that can be transmitted to humans by controlling diseases within animal populations. This program supports the health of Canada's animal resources and instils confidence in the safety of Canada's animals, animal products and by-products, and production systems.

- **Program 1.3 — Plant Resources Program**

The Plant Resources Program aims to mitigate risks to Canada's plant resource base, which is integral to a safe and accessible food supply, as well as to public health and environmental sustainability. The program achieves its objectives by regulating agricultural and forestry products; mitigating risks to the plant resource base (including crops and forests) from regulated pests and diseases; regulating the safety and integrity of seeds, fertilizers and plant products; and managing plant health emergencies and incidents. The program also guards against deliberate threats to the plant resource base, facilitates the introduction of emerging plant technologies and protects the rights of plant breeders. Achieving the objectives of the program instils confidence in Canada's plants, plant production systems and plant products, and contributes to the health of Canada's plant resources.

- **Program 1.4 — International Collaboration and Technical Agreements**

The CFIA's International Collaboration and Technical Agreements program contributes to a coherent, predictable, and science-based international regulatory framework that facilitates meeting regulatory requirements of importing countries' food, animals and plants, and their products, resulting in the facilitation of multi-billion dollar trade for the Canadian economy. The program achieves its objectives through actively participating in international fora for the development of international science-based rules, standards, guidelines and policies and, the management of sanitary and phytosanitary committees established under international agreements. The CFIA's active promotion of the Canadian science-based regulatory system with foreign trading partners and negotiations to resolve scientific and technical issues contribute to market access.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Institutes of Health Research

Strategic Outcome 1

Canada is a world leader in the creation, dissemination and application of health research knowledge.

- **Program 1.1 — Investigator-Initiated Health Research**

To develop and support a well-trained base of world-class health researchers and trainees conducting research across all aspects of health, including biomedical research, clinical research, research respecting health systems, health services, the health of populations, societal and cultural dimensions of health and environmental influences on

health, and other research as required. The goal of this program is to advance health knowledge and to apply this knowledge in order to improve health systems and/or health outcomes. Grants and awards are disbursed to fund research or to provide career or training support. The specific area of research is identified by the researcher.

- **Program 1.2 — Priority-Driven Health Research**

CIHR provides funding to researchers for emergent and targeted research that responds to the changing health needs and priorities of Canadians across all aspects of health, including biomedical research, clinical research, research respecting health systems, health services, the health of populations, societal and cultural dimensions of health and environmental influences on health, and other research as required. The goal of this program is to advance health knowledge and its application, in specific areas of research identified by CIHR in consultation with other government departments, partners and stakeholders, in order to improve health systems and/or improve health outcomes in these priority areas. Grants are disbursed to fund research or to provide career or training support.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Patented Medicine Prices Review Board

Strategic Outcome 1

Canadians are protected from excessive prices for patented medicines sold in Canada and stakeholders are informed on pharmaceutical trends.

- **Program 1.1 — Patented Medicine Prices Regulation Program**

The Patented Medicine Prices Review Board (PMPRB) is an independent quasi-judicial body that is responsible for ensuring that the prices that patentees charge for patented medicines sold in Canada are not excessive based on the price review factors in the *Patent Act* (the Act). To make this determination the Board must consider each of the following factors: prices at which the medicine and other medicines in the same therapeutic class have been sold in Canada and in the seven comparator countries listed in the Patented Medicines Regulations (Regulations); changes in the Consumer Price Index (CPI); and in accordance with the Act, such other factors as may be specified in any regulations made for the purposes of the price review. Under the Act, and as per the Regulations, patentees are required to file price and sales information for each patented medicine sold in Canada, for the duration of the patent(s). Board Staff reviews the introductory and ongoing information filed by patentees, for all patented medicines sold in Canada. When it finds that the price of a patented medicine appears to be excessive, Board Staff will conduct an investigation into the price. An investigation could result in: its closure where it is concluded that the price was non-excessive; a Voluntary Compliance Undertaking (VCU) by the patentee to reduce the price and offset excess revenues obtained as a result of excessive prices through a payment and/or a price reduction of another patented drug product; or a public hearing to determine if the price is excessive, including any remedial order determined by the Board. In the event that the Board Hearing Panel finds, after a public hearing, that a price is or was excessive, it may order the patentee to reduce the price and take measures to offset any excess revenues. This program, by reviewing the prices charged by patentees for patented medicines sold in Canada, protects Canadians and the health care system from excessive prices.

- **Program 1.2 — Pharmaceutical Trends Program**

The PMPRB reports annually to Parliament through the Minister of Health on its price review activities, the prices of patented medicines and price trends for all drugs, and R and D expenditures as reported by pharmaceutical patentees. In supporting this requirement, the pharmaceutical trends program provides complete and accurate information on trends in manufacturers' prices of patented medicines sold in Canada and on patentees' research-and-development expenditures to interested stakeholders including: industry (i.e., brand-name, biotech, generic); federal, provincial and territorial (F/P/T) governments; consumer and patient advocacy groups; third party payers; and others. This information also provides assurance to Canadians that the prices of patented medicines are not excessive. In addition, as a result of the establishment of the National Prescription Drug Utilization Information System (NPDUIS) by F/P/T ministers of health the Minister of Health requested that the PMPRB conduct analysis of price, utilization and cost trends for patented and non-patented prescription drugs so that Canada's health system has more comprehensive, accurate information on how all prescription drugs are being used and on the sources of cost increases. This function is aimed at providing federal/provincial/territorial governments and other interested stakeholders with a centralized credible source of information on all prescription drug prices.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Public Health Agency of Canada

Strategic Outcome 1

Protecting Canadians and empowering them to improve their health.

- **Program 1.1 — Health Promotion and Disease Prevention**

The Health Promotion and Disease Prevention program aims to promote better overall health of the population — with additional focus on those that are most vulnerable — by promoting healthy development among children, adults and seniors, reducing health inequalities, and preventing and controlling chronic and infectious diseases. Working in collaboration with provinces and territories, the program develops and implements federal aspects of frameworks and strategies (e.g. Curbing Childhood Obesity: A Federal, Provincial and Territorial Framework for Action to Promote Healthy Weights, national approaches to addressing immunization, HIV/AIDS) geared toward promoting health and preventing disease. The program undertakes common primary public health functions of health promotion, surveillance, science and research on diseases and associated risk and protective factors to inform evidenced-based frameworks, strategies, and interventions. It also undertakes health promotion and prevention initiatives, working with stakeholders to prevent and mitigate chronic disease and injury, and to help prevent and control infectious disease.

- **Program 1.2 — Public Health Infrastructure**

The Public Health Infrastructure Program strengthens Canada's public health workforce capability, information exchange, federal/provincial/territorial networks, and scientific capacity. These infrastructure elements are necessary to support effective public health practice and decision-making in Canada. Working with federal, provincial and territorial stakeholders and within existing collaborative mechanisms, the program supports planning for and building consensus on strategic and targeted investments in public health infrastructure, including training, tools, best practices, standards, and mechanisms to facilitate information exchange and coordinated action. Public health laboratories provide leadership in research, technical innovation, reference laboratory services; surveillance; outbreak response capacity; and national laboratory coordination. Through these

capacity-building mechanisms and scientific expertise, the Government of Canada facilitates effective coordination and timely public health interventions which are essential to having an integrated and evidence-based national public health system. Key stakeholders include local, regional, provincial and national public health organizations, practitioners and policy makers, researchers and academics, professional associations and non-governmental organizations.

- **Program 1.3 — Health Security**

The Health Security Program takes an all hazards approach to the health security of Canada's population, which provides the Government of Canada with the ability to prepare for and respond to public health issues and events. This program seeks to bolster the resiliency of the population and communities, thereby enhancing the ability to cope and respond. To accomplish this, its main methods of intervention include actions taken through partnerships with key jurisdictions and international partners. These actions are carried out through the implementation and maintenance of International Health Regulations and through the administration and enforcement of legislation, including the *Emergency Management Act*, the *Quarantine Act*, the *Human Pathogens and Toxins Act*, the *Health of Animals Act*, and the *Human Pathogens Importation Regulations*.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

The People – Individual, family and community well-being for First Nations and Inuit.

- **Program 1.1** — Education

The Education program contributes to The People Strategic Outcome by supporting First Nation and Inuit students in achieving educational outcomes comparable to other Canadians. Aboriginal Affairs and Northern Development Canada (AANDC) has the principal role for elementary and secondary education for First Nation students ordinarily resident on reserve. The Education program also provides financial supports for post-secondary education to eligible First Nation and Inuit students. The overarching goal of AANDC's Education programming is to provide eligible First Nation and Inuit students with quality education, and ultimately, the opportunity to acquire the skills needed to enter the labour market and be full participants in a strong Canadian economy.

- **Program 1.2** — Social Development

The Social Development program contributes to The People Strategic Outcome by funding five social programs that assist First Nation individuals and communities to become more self-sufficient; protect individuals and families at risk of violence; provide prevention supports that allow individuals and families to better care for their children; and support greater participation in the labour market. The Program assists First Nation men, women and children to achieve greater independence and self-sufficiency in First Nation communities across Canada by providing funds to First Nations, First Nation organizations, provinces, and others that provide individual and family services to on-reserve residents (and Yukon First Nation residents). These services help First Nation communities to meet basic and special needs; support employability and an attachment to the workforce; and support the safety of individuals and families. Through these five social programs, First Nations are better able to advance their own development; leverage opportunities; and actively contribute to the broader Canadian economy and society.

- **Program 1.3** — Residential Schools Resolution

The Residential Schools Resolution Program contributes to The People Strategic Outcome by supporting a fair and lasting resolution to the legacy of Indian Residential Schools and promoting reconciliation with former students, their families and communities, and all Canadians. AANDC implements the Indian Residential Schools Settlement Agreement (IRSSA) – a multi-party negotiated settlement monitored by the courts – by administering the Common Experience Payment and the Personal Credits strategy, resolving claims of abuse under the Independent Assessment Process and meeting the Government of Canada's obligations vis-à-vis the Truth and Reconciliation Commission. In addition to its legal obligations under the IRSSA, AANDC funds and monitors the Advocacy and Public Information Program and promotes reconciliation between the Government of Canada and Aboriginal peoples, as well as between Aboriginal and non-Aboriginal people, through specific reconciliation initiatives. A fair resolution of the legacy of Indian Residential Schools contributes to improved relationships between Aboriginal people and all Canadians and strengthens Aboriginal communities.

Program 1.4 — First Nations Individual Affairs

The First Nations Individual Affairs Program contributes to ensuring federal stewardship of the legislative and administrative responsibilities of the federal government pertaining to Registration, Membership, Status Cards and Estates. Results are achieved through direct client-services and partnerships with First Nations to: determine eligibility for registration under the *Indian Act*; issue proof of registration documents, such as the Secure Certificate of Indian Status (SCIS), and administer estates under the *Indian Act*. Through excellence in client centric service delivery, the sound administration of individual affairs contributes to the well-being of First Nation individuals, families and communities.

Strategic Outcome 2

The Government – Support good governance, rights and interests of Aboriginal Peoples.

- **Program 2.1 — Aboriginal Rights and Interests**

The Aboriginal Rights and Interests Program contributes to The Government Strategic Outcome. It seeks to strengthen collaboration between governments and Aboriginal groups through mutual respect, trust, understanding, shared responsibilities, accountability, dialogue and negotiation concerning the rights and interests of Aboriginal peoples. Partnerships will be established helping to contribute to the strengthening of the social, economic and cultural well-being of Aboriginal communities which conditions support more active participation in Canadian society. The program also addresses constitutional and historic obligations and public policy by: negotiating agreements which achieve clarity with respect to law-making authority and the ownership, use and control of lands and resources; addressing specific claims; developing multi-partner processes in areas identified by Aboriginal groups and the federal government; and supporting effective and meaningful consultation with Aboriginal groups and their representation in federal policy and program development.

- **Program 2.2 — Management and Implementation of Agreements and Treaties**

The Management and Implementation of Agreement and Treaties Program contributes to the Government Strategic Outcome. It aims to create and maintain ongoing partnerships to support both historic and modern treaties to fulfill Canada's legal obligations while considering Aboriginal rights and interests. This program supports Aboriginal communities in articulating their interests, participating in economic activities, managing and developing land and resource development and management, where applicable, and demonstrating the importance of treaties and related partnerships between the Crown and Aboriginal people. This is achieved by honouring Canada's obligations as set out in final settlement agreements, and improving collaboration between Canada and Aboriginal peoples and between Canada and Historic and Modern Treaty Aboriginal groups. Creating and maintaining partnerships that honour historic and modern treaties contributes to strengthened, healthy, self-reliant and sustainable Aboriginal communities while promoting delivery of programs and services vital to health and advancement of Aboriginal citizens and self-governing communities. This program uses funding from the following transfer payment(s): (S) Indian Annuities Treaty payments; (S) Grants to Aboriginal organizations designated to receive claim settlement payments pursuant to Comprehensive Land Claim Settlement Acts; (S) Grant to the Nunatsiavut Government for the implementation of the Labrador Inuit Land Claims Agreement pursuant to the *Labrador Inuit Land Claims Agreement Act*; Grants to implement comprehensive land claims and self-government agreements; Grants to Participating First Nations and the First Nations Education Authority Pursuant to the *First Nations Jurisdiction over Education in British Columbia Act*; Contributions to support the negotiation and implementation of Treaties, Claims and self-government agreements or initiatives; Contributions for the purpose of consultation and policy development; and Contributions to support First Nations Elementary and Secondary Educational Advancement.

- **Program 2.3 — Governance and Institutions of Government**

The Governance and Institutions of Government Program contributes to The Government Strategic Outcome. This Program provides support to First Nation governments, as well as Aboriginal governance institutions and organizations. The intent of this support is to facilitate capacity development in the Aboriginal public service; the elected leadership; and entities that administer aggregate services on behalf of or to First Nation governments and their communities. Transparent and accountable First Nation

governments attract investment, create opportunities, and effectively support their citizens. Transparent and accountable institutions and organizations strengthen the fabric of Aboriginal governments across Canada; assist Aboriginal communities and their governments in attracting investment; and support Aboriginal participation in the Canadian economy. Ultimately, good governance practices are essential for active Aboriginal participation in Canadian society and the economy.

Strategic Outcome 3

The Land and Economy – Full participation of First Nations, Métis, Non-Status Indians and Inuit individuals and communities in the economy.

- **Program 3.1 — Infrastructure and Capacity**

This program contributes to The Land and Economy Strategic Outcome by supporting First Nation communities in acquiring, constructing, owning, operating and maintaining a base infrastructure that protects their health and safety and enables their engagement in the economy. The Emergency Management Assistance sub-program supports the four pillars of emergency management on-reserve: mitigation, preparedness, response and recovery. The Capital Facilities and Maintenance sub-program provides funding and advice to support housing, capacity building and community infrastructure, including water and wastewater systems, education facilities, roads and bridges, electrification, and community buildings. Ultimately, this program enables First Nations to participate more fully in the Canadian economy by establishing a base of safe infrastructure that meets established standards, and housing and infrastructure that meets the needs of First Nations communities as well as supporting the four pillars of emergency management.

- **Program 3.2 — Community Development**

Supporting community development leads to greater participation in the economy and improved economic prosperity for Aboriginal Canadians. Guided by the Federal Framework for Aboriginal Economic Development, and its vision of Enhancing the Value of Aboriginal Assets, AANDC's Community Development programming, through its sub-programs, contributes to The Land and Economy Strategic Outcome by providing support for activities that establish the conditions for economic development to take place. In playing this key support role, Community Development programming expects to influence greater self-reliance, and participation in the mainstream economy and community well-being.

- **Program 3.3 — Aboriginal Entrepreneurship**

Supporting Aboriginal entrepreneurship leads to greater participation in the economy and improved economic prosperity for Aboriginal Canadians. Guided by the Federal Framework for Aboriginal Economic Development, and its vision of strengthening Aboriginal entrepreneurship, AANDC's Aboriginal Entrepreneurship program contributes to The Land and Economy Strategic Outcome. The sub-programs within this program stream work together to support the creation and growth of viable Aboriginal businesses, by providing access to business capital, support services, and business opportunities. In playing this key support role, this Program expects to influence longer-term Aboriginal business viability, leading to improved economic prosperity for Aboriginal Canadians.

- **Program 3.4 — Urban Aboriginal Participation**

The Urban Aboriginal Participation Program contributes to the Land and Economy Strategic Outcome. The program supports the participation of urban Aboriginal individuals and communities in the economy. Through programs such as the Urban Aboriginal Strategy, the Aboriginal Friendship Centers Program, the Cultural Connections for Aboriginal Youth, and Young Canada Works, it provides a vehicle by which the federal government can work with other governments, the urban Aboriginal community, and other stakeholders to reduce or remove barriers, and enhance the life skills and knowledge of urban Aboriginal individuals and communities. These enhancements allow them to access economic opportunities. The program allows the federal government to facilitate partnerships with all levels of government to align expenditures directed toward urban Aboriginal individuals and communities in key centres, achieving more substantive outcomes. The program will expand local labour market pools, allowing for increased economic development, and assist in moving urban Aboriginal communities towards increased self-reliance and a reduced dependency on government, thus helping to strengthen Canada's economy as a whole. This program uses funding from the following transfer payment(s): Urban Aboriginal Participation; Contributions to support the Aboriginal Peoples' Program; and Contribution for Inuit counselling in the South.

- **Program 3.5 — Strategic Partnerships**

The Strategic Partnerships Initiative (SPI) is an innovative, horizontal program intended to align federal efforts to support Aboriginal participation in complex economic opportunities, particularly large regional opportunities and major resource developments. Given the nature of these developments, multiple federal departments and agencies have an interest and role with respect to their planning and implementation. There are more than twenty federal departments and agencies delivering programs and services that support Aboriginal economic development. In order to access support, communities must therefore work with several federal partners each with differing programs, application requirements and approval processes, thereby inhibiting a coordinated, timely and strategic approach to Aboriginal community participation. Recognizing the need to support community participation at the early stages of these developments, the program provides a mechanism for federal partners to collectively identify emerging opportunities, target investment decisions and streamline program application and approval processes. In doing so, the initiative also helps to build closer partnerships with non-federal partners, including provincial and territorial governments, the private sector and Aboriginal communities. The Aboriginal Economic Development Strategic Partnerships Initiative contributes to The Land and Economy Strategic Outcome by aligning federal efforts, leveraging investments from other levels of government and the private sector, and addressing gaps in programming to ensure that Aboriginal Canadians can participate in and benefit from priority regional opportunities and major resource developments. This program uses funding from the following transfer payment(s): Contributions to support the Aboriginal Economic Development Strategic Partnerships Initiative.

Strategic Outcome 4

The North – Self-reliance, prosperity and well-being for the people and communities of the North.

- **Program 4.1 — Northern Governance and People**

The Northern Governance and People Program supports The North Strategic Outcome. This program strengthens the North's communities and people by devolving to territorial governments responsibilities for lands and natural resources; by fostering effective intergovernmental relations with territorial governments and providing support to Territorial Commissioners; by subsidizing the costs of nutritious perishable foods and other essential items in isolated Northern communities; by providing grants for hospital and physician services in Nunavut and the Northwest Territories; by working with Northern communities to identify the risks and challenges posed by climate change and by advancing interests of Canadians and Northerners through circumpolar forums. Canadians and Northerners will benefit with territorial governments ultimately having more control over their own affairs.

- **Program 4.2 — Northern Land, Resources and Environmental Management**

The Northern Land, Resources and Environmental Management Program supports The North Strategic Outcome. It focuses on the management, sustainable development and regulatory oversight of the land, water, natural resources, and environment of the North, delivering on the Department's role as the Government of Canada's natural resource manager in Nunavut and the offshore, and its post-devolution responsibilities in the Northwest Territories and the Yukon. This program involves: managing oil and gas resources development; supporting the sustainable management of active mineral exploration and development; supporting the sound management of contaminated sites and of Nunavut and the few remaining AANDC-managed land and water areas in the North; and ensuring the completion of territorial land-use planning including zones for conservation, development and other uses. Northerners and Canadians will benefit from economic opportunities and sustainable development.

- **Program 4.3 — Northern Science and Technology**

The Northern Science and Technology Program contributes to The North Strategic Outcome. It aims to support scientific research and technology in the North by providing researchers and scientists with increased access to programs and infrastructure to further research science and technology. The focus of this program is: researching and monitoring contaminants and their impacts on the ecosystem through the Northern Contaminants Program; supporting initiatives to create, manage and disseminate scientific data and results that help inform public policy making; and supporting the work to establish the Canadian High Arctic Research Station (CHARS). Northerners and all Canadians will benefit from a knowledge base that supports health and sustainable development, and the positioning of Canada as an international leader in Arctic science and technology.

Strategic Outcome 5

The following program supports all strategic outcomes within this organization.

- **Program 5.1** — Internal services

See introductory text.

Canadian Polar Commission**Strategic Outcome 1**

Increased Canadian polar knowledge.

- **Program 1.1** — Research Facilitation and Communication

Research Facilitation and Communication.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Indian Residential Schools Truth and Reconciliation Commission**Strategic Outcome 1**

Disclosure and recognition of the truth regarding Indian Residential Schools furthers healing and reconciliation for the individuals and communities affected.

- **Program 1.1** — Truth and Reconciliation

This program supports the research, truth, healing and commemoration undertakings of the Truth and Reconciliation Commission. This program, which is part of Canada's obligations under the Indian Residential Schools Settlement Agreement, will include the creation of a historic record of the Indian Residential Schools system and legacy, as well as truth taking, healing and commemoration events. This program has funding for five years, after which it will wind down.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Registry of the Specific Claims Tribunal

Strategic Outcome 1

Efficient administration of the Specific Claims Tribunal.

- **Program 1.1** — Registry Services

Facilitates timely access to the Specific Claims Tribunal through client service, quality of advice, and efficient and timely processing, and unbiased service delivery.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

⁽¹⁾ Treasury Board Vote 5 — Government contingencies.

Treasury Board Vote 10 — Government-wide initiatives.

Treasury Board Vote 15 — Compensation adjustments.

Treasury Board Vote 25 — Operating budget carry forward.

Treasury Board Vote 30 — Paylist requirements.

Treasury Board Vote 33 — Capital budget carry forward.

⁽²⁾ The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada (ATSSC), effective November 1, 2014. The ATSSC becomes the sole provider of resources and staff for eleven administrative tribunals, including Registry of the Specific Claims Tribunal.

⁽³⁾ Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Advancements in science and technology, knowledge, and innovation strengthen the Canadian economy.

- **Program 1.1** — Science, Technology and Innovation Capacity

This program sets the strategic direction for policies and programs that support and stimulate research, development and innovation in Canada. In collaboration with Industry Portfolio partners, other government departments and external stakeholders from the private and public sectors, the program fosters an environment that is conducive to innovation and promotes scientific excellence.

- **Program 1.2** — Industrial Research and Development Financing

This program helps Canadian businesses increase research and development (R&D) activities by investing in innovative projects and collaborations through repayable and non-repayable contributions. Projects supported under this program are expected to produce benefits to Canada, including generating strategic R&D investment, developing new technologies and enhancing Canadian innovation capacity and expertise.

Strategic Outcome 2

The Canadian marketplace is efficient and competitive.

- **Program 2.1** — Spectrum, Telecommunications, and the Digital Economy

This program enables Canadians to benefit from a globally competitive digital economy that drives innovation, productivity and future prosperity. This includes developing and administering domestic regulations, procedures and standards that govern Canada's radiocommunication and telecommunications industries. The program sets legislative and policy frameworks to encourage competition, private sector investment in digital infrastructure, confidence in the online marketplace, and greater adoption of digital technologies by business. The program maximizes the public benefits of spectrum by managing it efficiently and effectively, through spectrum and radio licensing including auctions, compliance and enforcement. The program protects Canadian interests in the telecommunications industry globally and facilitates international online trade and commerce by negotiating international treaties and agreements. This program also performs research in advanced telecommunication and information technologies to promote innovation and assist in the development of policies, regulations and program delivery.

- **Program 2.2** — Marketplace Frameworks and Regulation

This program regulates and provides oversight over a number of aspects of the Canadian marketplace, including trade measurement, bankruptcy and insolvency, federal incorporation, intellectual property, market access, and consumer affairs. The program develops and administers framework statutes, regulations, policies and procedures; develops, sets and assures compliance with related standards; and holds meetings with a variety of stakeholders. Overall, the program benefits Canadian businesses and consumers by ensuring the integrity of the marketplace.

- **Program 2.3** — Marketplace Competition and Investments

This program applies federal laws relating to the investigation of anti-competitive conduct and the general regulation of trade and commerce in respect of business practices, including the review of mergers and significant foreign investments. It protects, promotes and advocates for efficient markets in a manner that encourages economic growth and innovation, providing consumers and businesses with competitive prices and increased product choices.

Strategic Outcome 3

Canadian businesses and communities are competitive.

- **Program 3.1** — Small Business Research, Financing and Services

This program enhances the growth and competitiveness of small business and encourages entrepreneurship. It raises awareness across government of the challenges facing small businesses; provides knowledge and expertise on small and medium-sized enterprises (SMEs) in a number of areas, including entrepreneurship, financing, innovation and growth firms; recommends policy options; and delivers programs that help support SMEs and entrepreneurial activity across Canada.

- **Program 3.2** — Community Economic Development

This program advances the economic development of Northern Ontario communities in the same manner that regional development agencies support similar activities in other regions of Canada. Its main goal is to strengthen the Northern Ontario economy by providing financial support, through contribution agreements, for economic and community development projects led by the private, not-for-profit and public sectors, including support for official language minority communities. This program also contributes to communities across Canada with programs to support access to the internet, as well as to provide computers for schools.

- **Program 3.3** — Industrial Competitiveness and Capacity

This program helps Canadian industries improve their industrial competitiveness and capacity for innovation and adapt to the changing economic landscape, including external shocks. The program develops expertise on Canadian firms and sectors through research and analysis and engagement with associations, governments and leading firms. It applies this expertise to develop and contribute to policy, legislation and regulations. This program collaborates with the private sector on industry development; attracts investment and promotes Canadian expertise; and invests in private sector initiatives that are aimed at maximizing productivity and facilitating access to capital.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1** — Internal services

See introductory text.

Canadian Space Agency

Strategic Outcome 1

Canada's exploration of space, provision of space services and development of its space capacity meet the nation's needs for scientific knowledge, innovation and information.

- **Program 1.1 — Space Data, Information and Services**

This program includes the provision of space-based solutions (data, information and services) and the progression of their utilization. It also serves to install and run ground infrastructure that processes the data and operates satellites. This program utilizes space-based solutions to assist Government of Canada organizations in delivering growing, diversified or cost-effective programs and services within their mandate, which is related to key national priorities, such as sovereignty, defence, safety and security, resource management, environmental monitoring and the North. It also provides academia with data required to perform its own research. The services delivered through this program are rendered, and the data and information are generated and processed, with the participation of the Canadian space industry, academia, Government of Canada organizations, national and international organizations, such as: foreign space agencies, not-for-profit organizations, as well as provincial and municipal governments. This collaborative effort is formalized under national and international partnership agreements, contracts, grants or contributions.

- **Program 1.2 — Space Exploration**

This program provides valuable Canadian science, signature technologies and qualified astronauts to international space exploration endeavours. This program contributes to the Government of Canada's Science and Technology Strategy. It fosters the generation of knowledge as well as technological spin-offs that contribute to a higher quality of life for Canadians. It generates excitement within the population in general and contributes to nation-building. This program appeals to the science and technology communities. It is targeted mostly towards Canadian academia and international space exploration partnerships. Canadian industry also benefits from the work generated within this program. This program is delivered with the participation of foreign space agencies and Government of Canada organizations. This collaborative effort is formalized under international partnership agreements, contracts, grants or contributions.

- **Program 1.3 — Future Canadian Space Capacity**

This program attracts, sustains and enhances the nation's critical mass of Canadian space specialists, fosters space-related innovation and know-how in Canada, and preserves the nation's space-related facilities capability. In doing so, it encourages private-public collaboration that requires a concerted approach to future space missions. This program secures the nation's strategic and ongoing presence in space in the future and to preserve Canada's capability to deliver internationally renowned space assets for future generations. It is targeted at Canadian academia, industry and youth, as well as users of Canadian space solutions (Government of Canada organizations) and international partners. This program is conducted with the participation of funding agencies, Government of Canada organizations along with government facilities and infrastructure, foreign space agencies, not-for-profit organizations and provincial governments. This collaborative effort is formalized under contracts or national and international partnership agreements. This program is funded through the Class Grant and Contribution Program to support Research, Awareness and Learning in Space Science and Technology.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Tourism Commission

Strategic Outcome 1

Canadian economy benefits from strong tourism demand from Canadian Tourism Commission's (CTC) markets.

- **Program 1.1 — Marketing and Sales**

The Marketing and Sales Program focuses on three major geographical market segments – the Americas, Europe and Asia/Pacific – in addition to targeting tourism activities associated with Meetings, Conventions, and Incentive Travel (MC&IT). Marketing and sales efforts are based on three channels: ‘direct to consumer’ advertising and marketing; travel trade; and media and public relations. This program is fundamental to CTC’s role as Canada’s national tourism marketing organization and directly supports CTC’s outcome of increasing awareness and consideration of Canada as a tourism destination in CTC markets and generating export revenues from the expenditures of international visitors to Canada.

- **Program 1.2 — Tourism Research and Communications**

The Tourism Research and Communications Program generates and communicates strategic business intelligence, market and consumer research, and tourism news and information that are vital to maintaining a competitive edge for Canada’s tourism industry. This program is necessary as the CTC is legislated to “provide information about Canadian tourism to the private sector and to the government of Canada, the provinces and the territories” (*CTC Act*, section 5d).

- **Program 1.3 — Experiential Product Development**

The Experiential Product Development Program influences the quality and quantity of diverse and competitive tourism experiences in Canada. This program is necessary for the Canadian Tourism Small and Medium Sizes Enterprises (SMEs), as it is the first point of entry for the SMEs to develop Canadian-branded, export ready, consumer relevant product experiences that are used in CTC sales, marketing and media relations initiatives. Products and tools developed under this program, such as Experiences Toolkit (practical insight such as moving from a tourism product to an experience and customer trends), Brand Toolkit (an in-depth branding resource) and Digital Assets (videos, photos), are free for SMEs use and help SMEs increase their market readiness, viability and competitiveness both domestically and internationally.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Copyright Board

Strategic Outcome 1

Fair decision-making to provide proper incentives for the creation and use of copyrighted works.

- **Program 1.1 — Copyright Tariff Setting and Issuance of Licences**

The Board is an economic regulatory body empowered to establish, either mandatorily or at the request of an interested party, fair and equitable tariffs that remunerate rights owners for the use of copyrighted works, when the administration of such copyright is entrusted to a collective-administration society. The Board also has the right to supervise agreements between users and licensing bodies and issues licences when the copyright owner cannot be located.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Federal Economic Development Agency for Southern Ontario

Strategic Outcome 1

A Competitive Southern Ontario Economy.

- **Program 1.1 — Technological Innovation**

This program is intended to support the southern Ontario economy to be more innovative by creating new products, services, processes and/or markets so as to contribute to the region's competitiveness. This will be achieved by: encouraging the region's labour force to be more innovative; focusing on key emerging sectors; and by strengthening linkages between the region's businesses (especially SMEs) and its post-secondary institutions. These are the elements necessary to improve the region's productivity, accelerate growth and maintain and enhance the region's living standards in the context of a global knowledge-based economy. Transfer payments in support of this program are made through a variety of initiatives under the authority of Southern Ontario Development Program (SODP), SODP through the administration of contribution agreements with businesses, not-for-profit organizations, and post-secondary institutions.

- **Program 1.2 — Business Development**

This program supports the 360,000 businesses (especially SMEs) in southern Ontario in their efforts to drive competitiveness by providing funding to encourage the creation of start-up companies, helping existing businesses to expand and helping companies improve their productivity. Transfer payments in support of this program are made through a variety of initiatives under the authority of Southern Ontario Development Program, SODP through the administration of contribution agreements with businesses, not-for-profit organizations, and post-secondary institutions.

- **Program 1.3 — Community Economic Development**

This program supports the 288 communities (small and large, rural and urban, Francophone and Aboriginal) in southern Ontario that are home to 12.4 million residents. These communities are key to enhancing southern Ontario's economic competitiveness and the long-term prosperity of the region. Southern Ontario depends on communities that can attract the best talent and compete for investment as dynamic centres of commerce and learning. Strong communities contribute to a prosperous southern Ontario. Through this program, the Agency will continue to support communities and regions throughout southern Ontario to identify local solutions to local challenges and opportunities. Strong, safe and modern communities are essential building blocks for the region's competitiveness and long-term prosperity. FedDev Ontario will continue to work with others, including Infrastructure Canada, the Province and communities, to support the infrastructure needs within southern Ontario. Transfer payments in support of this program are

made through a variety of initiatives under the authority of the Community Futures Program, the Economic Development Initiative, Eastern Ontario Development Program (TBC) and infrastructure programming like the Building Canada Fund. The Agency will support this program through the administration of contribution agreements with businesses, not-for-profit organizations, post-secondary institutions and municipalities.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

National Research Council of Canada

Strategic Outcome 1

Canadian businesses prosper from innovative technologies.

- **Program 1.1 — Technology Development and Advancement**

This program develops and advances technologies to enhance the prosperity of Canadian industries in support of federal priorities such as the federal Science and Technology Strategy. This includes national-scale flagship technology-development initiatives having sufficient critical mass to contribute demonstrably to national prosperity. To bring new and innovative products and processes to the marketplace, companies must advance the emerging and maturing technologies embodied in applied developments and prototypes to a level where the risk is sufficiently understood to be accepted from the business, investment, and regulatory perspectives. The program bridges this critical technology gap through mission-oriented research and development services, and specialized technical services such as custom design and fabrication, testing, prototyping, up-scaling, and demonstration in specialized facilities.

- **Program 1.2 — Industrial Research Assistance Program (IRAP)**

The program contributes to the growth and prosperity of Canadian small and medium sized enterprises (SMEs) by stimulating innovation, adoption and/or commercialization of technology-based products, services, or processes in Canada. This is done through: 1) technical and related business advice and networking facilitated by a cross-Canada network of field professional staff; 2) cost-shared merit-based contributions; and 3) contributions supporting employment of post-secondary graduates. This program uses funding from the following transfer payments: IRAP Contributions to Firms; IRAP Contributions to Youth Employment Strategy; Contributions to Organizations; and Contributions for the Digital Technology Adoption Pilot Program.

Strategic Outcome 2

R&D infrastructure for an innovative and knowledge-based economy.

- **Program 2.1 — Science Infrastructure and Measurement**

This program manages national science facilities and infrastructure critical to research, development and innovation by Canadian scientific and technological communities. This includes operating and administering Canada's astronomical observatories. It also fosters development and maintenance of Canada's metrological infrastructure system that provides industries and researchers access to reliable measurements that are traceable to recognized national standards maintained by the program. The program helps

clients make the most of this infrastructure by facilitating access to a wide range of Canadian and international user communities and by participating in networks. In addition, the program provides stewardship of the TRIUMF sub-atomic research facility. This program uses funding from the following transfer payment: TRIUMF (Canada's National Laboratory for Particle and Nuclear Physics).

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1 — Internal services**

See introductory text.

Natural Sciences and Engineering Research Council

Strategic Outcome 1

Canada is a world leader in advancing, connecting and applying new knowledge in the natural sciences and engineering.

- **Program 1.1 — Discovery: Advancement of Knowledge**

This program supports the creation of new knowledge and maintenance of a high quality Canadian-based research capacity in the natural sciences and engineering through grants to researchers and universities. The advancement of knowledge generated by these grants is necessary to fuel a strong research and innovation system in Canada that is globally competitive. Academic researchers and universities receive funding to support the timely acceleration of research programs, the purchase or development of research equipment, or which facilitates their effective access to major and unique research resources.

- **Program 1.2 — Innovation: Research Partnerships**

This program fosters partnerships in the natural sciences and engineering and facilitates the transfer of knowledge and skills to the user sector through awards that support research projects and network activities intended for socioeconomic impact. The partnerships encouraged and enabled by these awards increase the commercialization of Canada's excellent research into new products, services and processes for the benefit of all Canadians.

- **Program 1.3 — People: Research Talent**

This program supports the attraction, retention and development of highly qualified people in the natural sciences and engineering in Canada through Chairs programs, fellowships, scholarships and stipends. These activities are necessary to build the human capital required to enable a strong, globally competitive research and innovation system in Canada. Researchers, students and young people benefit from the grant funding which supports university research and outreach activities at universities, museums, science centres and community-based organizations.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Registry of the Competition Tribunal

Strategic Outcome 1

Open, fair, transparent and expeditious hearings related to the Tribunal's jurisdiction.

- **Program 1.1 — Process Cases**

The Registry of the Competition Tribunal provides all administrative support required for the proper conduct of the Competition Tribunal's business and for the Tribunal to hold hearings anywhere in Canada.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Social Sciences and Humanities Research Council

Strategic Outcome 1

Canada is a world leader in social sciences and humanities research and research training.

- **Program 1.1 — Talent: attraction, retention and development of students and researchers in the social sciences and humanities**

This program provides support to graduate students and postdoctoral fellows in the form of fellowships and to research chairs in postsecondary institutions that cover salary and research funding. This program is necessary in order to attract, retain and develop talent in the social sciences and humanities, to cultivate leaders within academia and across the public, private and not-for-profit sectors, and to build centres of world-class research excellence at Canadian postsecondary institutions. The program brands Canada as a top destination for research and research training.

- **Program 1.2 — Insight: new knowledge in the social sciences and humanities**

This program provides grants to support research in the social sciences and humanities conducted by scholars and researchers working as individuals, in teams, and in formal partnerships among the academic, public, private and/or not-for-profit sectors and to support the building of institutional research capacity. This program is necessary to build knowledge and understanding about people, societies and the world, as well as to inform the search for solutions to societal challenges. The objectives of the program are to build knowledge and understanding from disciplinary, interdisciplinary and/or cross-sector perspectives; support new approaches to research on complex and important topics; provide a high-quality research training experience for students; mobilize research knowledge to and from academic and non-academic audiences; and build institutional research capacity. Research supported by the program has the potential to lead to intellectual, cultural, social and economic influence, benefit and impact and increased institutional research capacity. International research initiatives that offer outstanding opportunities to advance Canadian research are encouraged. Partnerships can include both Canadian and international partners.

- **Program 1.3 — Connection:** mobilization of social sciences and humanities knowledge

This program provides funding (grants and operational) to support the multidirectional flow, exchange and co-creation of knowledge in the social sciences and humanities among researchers and diverse groups of policy makers, business leaders, community groups, educators and the media working as individuals, in teams, in formal partnerships and in networks. This program is necessary to help stimulate leading edge, internationally competitive research in areas critical to Canada, build multi-sectoral partnerships and accelerate the use of multidisciplinary research results by organizations that can harness them for Canadian economic and social development. The program increases the availability and use of social sciences and humanities research knowledge among academic and non-academic audiences; supports the building of reciprocal relationships, networks and tools designed to facilitate scholarly work; and makes such networks and tools more accessible to non-academic audiences. The funding opportunities offered in this program are intended to complement activities funded through the Talent and Insight programs.

Strategic Outcome 2

Canada has the institutional capacity to enable research and research-related activities in social sciences and humanities, natural sciences and engineering and health.

- **Program 2.1 — Indirect Costs of Research**

This program provides support to institutions in the form of grants in the social sciences and humanities, natural sciences and engineering and health. This program is necessary to build institutional capacity for the conduct of research and research-related activities to maximize the investment of publicly-funded academic research. This program helps to off-set the central and departmental administrative costs that institutions incur in supporting research, which are not attributable to specific research projects, such as lighting and heating, maintenance of libraries, laboratories and research networking spaces, or for the technical support required for an institution's website or library computer system, ultimately helping researchers concentrate on cutting-edge discoveries and scholarship excellence, and ensuring that federally-funded research projects are conducted in world-class facilities with the best equipment and administrative support available. The program is administered by the SSHRC-hosted Canada Research Chairs secretariat on behalf of the three research granting agencies. This program uses funding from the following transfer payment: Indirect Costs of Research.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1 — Internal services**

See introductory text.

Standards Council of Canada

Strategic Outcome 1

Canada has an effective and efficient National Standards System.

- **Program 1.1 — Standards and Conformity Assessment Policy**

The Standards Council of Canada (SCC) advises federal, provincial and territorial governments, industry organizations, and nongovernmental bodies on standards- and conformity assessment-related aspects of trade and regulatory policy. Through input and review of standardization issues in trade agreements, the SCC, is a significant

contributor to expanding international trade for Canada. Incorporating standardization practices into regulatory policy provides an added measure of protection for the health and safety of Canadians. SCC offers governments, businesses and consumers the latest and most comprehensive information on standards, technical regulations and conformity assessment in Canada and around the world through its Web site, Information and Research Service and Technical Document Centre. As the World Trade Organization North American Free Trade Agreement (WTO NAFTA) /Enquiry Point, SCC serves as the central point of contact in Canada for WTO member countries to obtain information on standardization-related market entry requirements.

- **Program 1.2 — Standards Program**

The Standards Council of Canada (SCC) accredits standards development organizations in Canada. The SCC determines conformity to accreditation requirements by performing oversight activities such as document review and on-site assessment. SCC also reviews standards submitted by standards development organizations for approval as National Standards of Canada (NSCs), a designation that indicates a standard is the official Canadian standard on a particular subject. NSCs may be developed in Canada or adopted, with or without changes, from international standards. Through its member program, SCC facilitates and coordinates Canadian participation in national, regional and international standards development and conformity assessment organizations. Through this program activity, SCC recruits individuals and organizations to participate in standards activities on Canada's behalf, in organizations such as: the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC), two of the world's largest voluntary standardization bodies. SCC also provides orientation, training and recognition for Canadian participants. Participation in these organizations provides Canadian government, industry and consumers with a competitive advantage.

- **Program 1.3 — Conformity Assessment Program**

Through its conformity assessment program, the Standards Council of Canada (SCC) provides accreditation services for: testing and calibration laboratories; management systems certification bodies; personnel certification bodies; product and service certification bodies; greenhouse gas validation and verification bodies; and inspection bodies. Through assessments, audits and follow-up visits, SCC ensures that these conformity assessment organizations are competent in meeting the requirements of a particular standard, for a product, service or system. Accreditation by SCC can increase an organization's competitiveness and ensure safer and more efficient methods and products are used in the Canadian marketplace. SCC's accreditation programs are based on internationally recognized guides and standards. SCC is also a member of several organizations that are developing agreements to ensure conformity assessment results are accepted internationally.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Statistics Canada

Strategic Outcome 1

Canadians have access to timely, relevant and quality statistical information on Canada's changing economy and society for informed debate, research and decision making on social and economic issues.

- **Program 1.1 — Economic and Environmental Statistics**

The Economic and Environmental Statistics program's purpose is to create a trusted, relevant and comprehensive source of information on the entire spectrum of Canada's economy in order to: inform public debate on economic issues; support economic policy development, implementation and evaluation; and guide business decision making. It is the primary source of information for developing the country's fiscal and monetary policies and for studying the economic evolution of Canadian industries and regions. These statistics support various statutory requirements, among others: the *Federal-Provincial Fiscal Arrangements Regulations*, the *Bretton Woods and Related Agreements Act*, Land Claims Settlements Agreements and the Comprehensive Integrated Tax Coordination Agreement related to the Harmonized Sales Tax. The outputs are also vital to research and to economic policy development, implementation and evaluation by a number of federal departments, such as the Bank of Canada, Finance Canada, Industry Canada, Foreign Affairs and International Trade, as well as by provincial and territorial governments. They are extensively used by the private sector for business planning and decision making and by international agencies such as the International Monetary Fund (IMF), the Organisation for Economic Co-operation and Development (OECD) and the United Nations (UN). Outputs include monthly and annual measures of Gross Domestic Product (GDP), the Consumer Price Index (CPI), current indicators of retail and wholesale trade, Canada's merchandise export and import statistics, estimates of agricultural income and expenditures, transportation statistics and statistics relevant for the analysis of relationships between human activity and the environment in Canada.

- **Program 1.2 — Statistical Infrastructure**

Statistical infrastructure comprises activities and services that are administered to support a strong statistical system. Professional and Statistical Services include the development of sound statistical methodology, standardized concepts and classifications (including geographic concepts), the development and provision of statistical metadata, the development and maintenance of registers of enterprises and addresses for statistical purposes, and the provision of advice with respect to the *Statistics Act* and data-sharing agreements. Operational Statistical Services provide support to data collection activities for Statistics Canada's surveys, such as data capture, coding, editing, interviewer hiring and training, and the provision of advice to clients regarding statistical products. It also includes the production of Statistics Canada's catalogued publications, on-line databases and the dissemination of Statistics Canada's official release vehicle *The Daily*. The Continuity and Quality Maintenance Program includes the co-ordination of the aspects of the Agency's Integrated Strategic Planning Process that ensure the continuity and quality maintenance of programs.

- **Program 1.3 — Socio-economic Statistics**

The Socio-economic Statistics program's purpose is to provide integrated information and relevant analysis on the social and socio-economic characteristics of individuals, families and households and on the major factors that affect their well-being. This information is used to inform public debate on socio-economic issues; support social policy development, implementation and evaluation; guide public and private decision making and is the primary source for assessing the impact of changing economic circumstances on Canadians. The information is used extensively to evaluate and cost economic and social policy options and alternatives by Federal departments such as Human Resources and Skills Development Canada, Industry Canada, Justice Canada, Public Safety Canada, Citizenship and Immigration Canada, Canadian Heritage, Aboriginal Affairs and Northern Development Canada, Transport Canada and Infrastructure Canada, as well as provincial governments. The Socio-economic Statistics program supports statistical requirements specified by legislation or regulations in the areas of labour, immigration and employment equity. The program also provides information, analysis and measures on publicly funded facilities, agencies and systems designed to meet the socio-economic and physical needs of Canadians, on the characteristics of the individual Canadians and families they serve, and on the outcomes of the services they provide, such as justice, health, and education.

- **Program 1.4 — Censuses**

The program's purpose is to provide statistical information, analyses and services that measure changes in the Canadian population, demographic characteristics, and the agricultural sector. It serves as a basis for public and private decision making, research and analysis in areas of concern to the people of Canada. The program includes the Censuses of Population and Agriculture. The Census of Population provides detailed information on population sub-groups and for small geographical levels required to assess the effects of specifically targeted policy initiatives and serves as a foundation for other statistical surveys. Population counts and estimates are used in determining electoral

boundaries, distribution of federal transfer payments, and the transfer and allocation of funds among regional and municipal governments, school boards and other locally-based agencies within provinces. The Census of Agriculture provides a comprehensive picture of the agriculture sector at the national, provincial and sub-provincial levels and is mandated by the *Statistics Act*. The program meets statistical requirements specified constitutionally, and supports those in statutory requirements and regulatory instruments. All per capita measures in fiscal policies and arrangements and other economic analysis, and in program and service planning, come from this program's statistical information.

Strategic Outcome 2

Specific client needs for high-quality and timely statistical services are met.

- **Program 2.1 — Cost-recovered Statistical Services.**

This activity produces high quality cost-recovered statistical services that meet the needs of specific federal and provincial institutions and other clients. The projects are grouped according to type, with the groupings comprising projects involving Economic and Environmental Statistics, Socio-economic Statistics, the Censuses, Statistical Infrastructure and Internal Services.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

A Fair, Relevant and Accessible Canadian Justice System.

- **Program 1.1** — Stewardship of the Canadian Legal Framework

The Department fulfils its stewardship role by ensuring a bilingual and bijural national legal framework for the administration of justice that contributes to a safe and just society for all Canadians and confidence in Canada's justice system. The Department develops and tests innovative approaches to strengthen the legal framework within the following domains: criminal law, youth criminal justice, sentencing, official languages, marriage and divorce, access to justice, legal dualism, and Aboriginal justice. In addition, in view of the federal government's shared interest in a sustainable justice system, the Department promotes and facilitates ongoing dialogues with the provinces and territories in the areas of shared jurisdiction and provides funding for the delivery of programs that directly support federal policy objectives.

- **Program 1.2** — Office of the Federal Ombudsman for Victims of Crime

The Office of the Federal Ombudsman for Victims of Crime (OFOVC) was created to provide a voice for victims of crime at the federal level and to ensure that the federal government meets its commitments to victims. The Office provides direct information, referral and complaint review services to its primary clients – victims, victims' family members or representatives, victim serving agencies, and other related stakeholders. The Office also helps raise awareness of systemic issues amongst all criminal justice and victim serving personnel as well as provides related recommendations and advice to the Government of Canada through the Minister of Justice. In order to fulfill its mandate, the Office promotes access by victims to existing federal programs and services for victims; addresses complaints of victims about compliance with the provisions of the *Corrections and Conditional Release Act*; promotes awareness of the needs and concerns of victims and the applicable laws that benefit victims of crime, including promoting the principles set out in the Canadian Statement of Basic Principles of Justice for Victims of Crime; identifies and reviews emerging and systemic issues that negatively impact victims of crime; and facilitates access by victims to existing federal programs and services by providing them with information and referrals. The Ombudsman reports directly to the Minister of Justice and, as such, the Office falls outside the Department's governance framework.

Strategic Outcome 2

A Federal Government that is Supported by High Quality Legal Services.

- **Program 2.1** — Legal Services to Government Program

The Department of Justice provides an integrated suite of high quality legal advisory, litigation and legislative services to the Minister of Justice and to all federal departments and agencies to support them in meeting the Government's policy and programming priorities and to advance the overall objectives of the government. Services are provided through a network of departmental legal services units co-located with client departments and agencies, specialized legal capacities within national headquarters, and a network of regional offices and sub-offices providing legal advisory and litigation services to federal departments and agencies across the country.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1 — Internal services**

See introductory text.

Administrative Tribunals Support Service of Canada

Strategic Outcome 1

Efficient and effective services which support tribunal chairs and members in exercising their statutory responsibilities and ensure that their independence is protected in a manner which promotes Canadians' confidence in the federal tribunal system.

- **Program 1.1 — Registry Services**

The Registry Services Program provides registry services in support of tribunals. The Program works closely with Tribunal Chairs and Members to ensure that matters before the Tribunals are heard and disposed of in a timely, fair, impartial and efficient manner and within statutory obligations. Services provided include: processing tribunal documents; maintaining and safeguarding tribunal records; providing information to the public regarding tribunal procedures; assisting in the scheduling and conduct of tribunal hearings and assisting in communicating tribunal decisions to the parties and the public. The Registry Services Program also is responsible for developing and monitoring service standards, assessing the performance of registry functions and implementing required improvements.

- **Program 1.2 — Payments to tribunal chairs and members**

The Program administers appropriations with respect to tribunal chairs' and members' salaries and other compensation pursuant to the terms of tribunals' enacting legislation and Governor-in-Council appointments.

- **Program 1.3 — Tribunal Specialized and Expert Support Services**

The Tribunal Specialized and Expert Support Services Program provides expert research, analysis, drafting support and advice as well as other support services including investigation and mediation to assist Tribunals in the discharge of their statutory responsibilities. These services are provided by ATSSC employees such as legal counsel, sectoral experts, tribunal assistants and research personnel.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Human Rights Commission

Strategic Outcome 1

Equality, respect for human rights and protection from discrimination by fostering understanding of, and compliance with, the *Canadian Human Rights Act* and the *Employment Equity Act* by federally regulated employers and service providers, as well as the public they serve.

- **Program 1.1 — Human Rights Dispute Resolution Program**

This program addresses discrimination by dealing with individual and systemic complaints and issues brought by individuals or groups of individuals against federally regulated employers and service providers. The Commission exercises its discretion in choosing the most appropriate dispute resolution method including investigation, mediation and conciliation. The Commission also serves as a screening body in determining whether further inquiry is warranted, participates in all pre-tribunal mediations and represents the public interest in appearing before the Tribunal.

- **Program 1.2 — Human Rights Knowledge Development and Dissemination Program**

This program helps foster both an understanding of and compliance with the *Canadian Human Rights Act* and the *Employment Equity Act*. Knowledge development also ensures that programs, interventions, and decisions are grounded in evidence and best practices. Knowledge products include research, policies, regulatory instruments, and special reports. Information and/or advice are provided to the Commission itself, Parliament, federal departments and agencies, crown corporations, federally regulated private sector organizations, and the public. Partnerships with other human rights commissions as well as governmental, non-governmental, research organizations and international organizations are formed and maintained to leverage knowledge development and dissemination activities in areas of common interest.

- **Program 1.3 — Discrimination Prevention Program**

This program helps foster and sustain a human rights culture in federally regulated organizations by promoting continuous improvement of an organization's human rights competencies. Prevention initiatives, employment equity audits, learning programs and events are among the program's tools to prevent discrimination, and achieve employment equity objectives. Stakeholder engagement involves federal departments and agencies, Crown corporations, private sector organizations, provincial and territorial government bodies, international agencies, unions and other non-governmental organizations.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Human Rights Tribunal

Strategic Outcome 1

Individuals have access, as determined by the *Canadian Human Rights Act* and the *Employment Equity Act*, to fair and equitable adjudication of human rights and employment equity cases that are brought before the Canadian Human Rights Tribunal.

- **Program 1.1** — Hearings of complaints before the Tribunal

This program inquires into complaints of discrimination to decide, following a hearing before Tribunal members, if particular practices have contravened the *Canadian Human Rights Act*. Tribunal members also conduct hearings into applications from the Canadian Human Rights Commission (CHRC) and requests from employers in order to adjudicate on decisions and directions given by the CHRC under the *Employment Equity Act*.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Courts Administration Service

Strategic Outcome 1

The public has timely and fair access to the litigation processes of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada.

- **Program 1.1** — Registry services

Registry Services are delivered under the jurisdiction of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada. The registries process legal documents; provide information to litigants on court procedures; maintain court records, participate in court hearings, support and assist in the enforcement of court orders, and work closely with the Offices of the four Chief Justices to ensure that matters are heard, and decisions are rendered in a timely manner. Registry Services are offered in every province and territory through a network of permanent offices, and agreements with provincial and territorial partners.

- **Program 1.2** — Judicial services

The Judicial Services program provides legal services and judicial administrative support to assist members of the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada in the discharge of their judicial functions. These services are provided by legal counsel, judicial administrators, law clerks, jurilinguists, judicial assistants, library personnel, and court attendants, under the direction of the four Chief Justices.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Office of the Commissioner for Federal Judicial Affairs**Strategic Outcome 1**

An independent and efficient Federal Judiciary.

- **Program 1.1 — Payments Pursuant to the *Judges Act***

Payments of salaries, allowances and annuities to federally appointed judges, and their survivors, in the superior courts and courts of appeal in Canada.

- **Program 1.2 — Office of the Commissioner for Federal Judicial Affairs Canada**

Provides services to federally appointed judges including compensation and pension services, financial services, information technology/information management, language training, editing of the Federal Courts Reports, services to the Minister of Justice through the Judicial Appointments Secretariat including the Supreme Court of Canada, and International Programs.

- **Program 1.3 — Canadian Judicial Council**

Administrative support to the various committees established by the Council which is composed of 39 Chief Justices and Associate Chief Justices in Canada as well as the Senior Judges from the superior courts in Nunavut, Yukon and the Northwest Territories.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Director of Public Prosecutions**Strategic Outcome 1**

Criminal and regulatory offences under federal law are prosecuted in an independent, impartial and fair manner.

- **Program 1.1 — Drug, *Criminal Code*, and terrorism prosecution program**

This program supports the protection of Canadian society against crime through the provision of legal advice and litigation support during police investigations, and the prosecution of: all drug offences under the *Controlled Drugs and Substances Act* and any related organized crime offences throughout Canada, except in Quebec and New Brunswick, where the Office of the Director of Public Prosecutions prosecutes such offences only where charges are laid by the Royal Canadian Mounted Police; proceeds of crime offences; pursuant to understandings with the provinces, *Criminal Code* offences where they are related to drug charges; all *Criminal Code* offences in the three territories; terrorism offences; and war crimes and crimes against humanity offences. This program activity also involves the promotion of federal/provincial/territorial cooperation on criminal justice issues of mutual concern.

- **Program 1.2** — Regulatory offences and economic crime prosecution program

This program supports the protection of Canadian society against crime through the provision of legal advice and litigation support to federal investigative agencies, and the prosecution of: offences under federal statutes aimed at protecting the environment and natural resources as well as the country's economic and social health (e.g., *Fisheries Act*; *Income Tax Act*; *Copyright Act*; *Canada Elections Act*; *Canadian Environmental Protection Act, 1999*; *Competition Act*; *Customs Act*; *Excise Act*; and the *Excise Tax Act*); offences involving fraud against the government; capital market fraud offences; and any organized crime offences related to the foregoing offences. This program also includes the recovery of outstanding federal fines and the promotion of federal/provincial/territorial cooperation on criminal justice issues of mutual concern.

- **Program 1.3** — Compliance

This program supports the integrity of Canada's electoral process by enabling the Commissioner of Canada Elections to ensure compliance with the *Canada Elections Act* and the *Referendum Act*. This includes the use of non-punitive and informal corrective measures in response to certain situations of non-compliance and the conclusion of compliance agreements with offenders.

- **Program 1.4** — Enforcement

This program supports the integrity of Canada's electoral process by enabling the Commissioner of Canada Elections to act in an independent manner in conducting investigations under the *Canada Elections Act* and the *Referendum Act*, and taking enforcement measures to respond to situations of non-compliance. This also includes deciding which matters will be referred to the Director of Public Prosecutions for possible prosecution and what charges will be recommended.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Offices of the Information and Privacy Commissioners of Canada

Strategic Outcome 1

The privacy rights of individuals are protected.

- **Program 1.1** — Compliance Activities

This program oversees compliance with federal privacy legislation for public- and private-sector organizations, thus contributing to the protection of Canadian's privacy rights. Through this Program, the OPC investigates privacy-related complaints and responds to inquiries from individuals and organizations, reviews breach reports and has the power to initiate its own investigations when warranted (Commissioner initiated complaints). Through audits and reviews, the OPC also assesses how well organizations are complying with requirements set out in the two federal privacy laws, and provides recommendations on Privacy Impact Assessments (PIAs), pursuant to the Treasury Board Directive on Privacy Practices. This program is supported by a legal team that provides specialized advice and litigation support, and a research team with senior technical and risk-assessment support.

- **Program 1.2 — Research and Policy Development**

This program advances privacy knowledge, develops policy positions and provides strategic advice on the full range of privacy issues to Parliamentarians, government institutions and private sector stakeholders. Through this program, the OPC serves as a centre of expertise on emerging privacy issues in Canada and abroad by researching trends and technological developments, monitoring and analysing legislative and regulatory initiatives, providing strategic legal, policy and technical advice on key issues, and developing policy positions that advance the protection of privacy rights in both the public and private sectors. An important part of the work involves supporting the Commissioner and senior officials in providing advice to Parliament on potential privacy implications of proposed legislation, government programs, and private-sector initiatives. Since 2004, the Program includes the administration of the *Personal Information Protection and Electronic Documents Act Contributions Program* that funds independent privacy research and related knowledge translation initiatives, to advance knowledge and promote the practical application of that knowledge in ways that enhance privacy protection for Canadians.

- **Program 1.3 — Public Outreach**

This program promotes public awareness and understanding of rights and obligations under federal privacy legislation. Through this program, the OPC delivers public education and communications activities, including speaking engagements and special events, exhibiting, media relations, and the production and distribution of promotional and educational material. Through public outreach activities, individuals are informed about privacy and personal data protection. Such activities also enable federal and private-sector organizations to better understand their obligations under federal privacy legislation.

Strategic Outcome 2

Requestors' rights under the *Access to Information Act* are safeguarded.

- **Program 2.1 — Compliance with access to information obligations**

The *Access to Information Act* is the legislative authority for the oversight activities of the Information Commissioner, which are: to investigate complaints from requestors and corporations; to review the performance of government institutions; to report the results of investigations/reviews and recommendations to complainants, government institutions, and Parliament; to pursue judicial enforcement; and to provide advice to Parliament on access to information matters. The Office of the Information Commissioner supports the Commissioner in carrying out these activities.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1 — Internal services – Office of the Privacy Commissioner**

See introductory text.

- **Program 3.2 — Internal services – Office of the Information Commissioner**

See introductory text.

Registrar of the Supreme Court of Canada

Strategic Outcome 1

The administration of Canada's final court of appeal is effective and independent.

- **Program 1.1 — Court Operations**

In order to render decisions, the Court requires the support of the Office of the Registrar in the management of cases from the receipt of an application for leave to appeal up to and including the release of a judgment on appeal. This support includes providing services to the litigants; reviewing applications for leave to appeal and preparing advice as to whether leave to appeal should be granted; preparing summaries of the leave applications; providing procedural advice; reviewing and summarizing factums where leave to appeal is granted; receiving, controlling and preserving all incoming case documentation; tracking various time periods to ensure compliance by the parties with the Rules of the Supreme Court of Canada; recording proceedings on appeals; answering queries with regard to cases; editing and summarizing decisions of the Court; publishing decisions in the Canada Supreme Court Reports, in accordance with the *Supreme Court Act*; and providing law library services with an extensive collection in both print and electronic formats to support legal research undertaken by users within the Court and members of the legal community.

- **Program 1.2 — Processing of payments to Judges of the Supreme Court of Canada pursuant to the *Judges Act***

The *Judges Act* is an Act respecting all federally appointed judges and thereby applies to the judges of the Supreme Court of Canada. With respect to the Office of the Registrar of the Supreme Court of Canada, the *Judges Act* specifies the salaries of the judges of the Supreme Court of Canada and prescribes other payments to be made to them, namely allowances for relocation, representation, incidentals, conferences, as well as annuities. The Office of the Registrar processes these payments, as required by the *Judges Act*.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(1) Treasury Board Vote 5 — Government contingencies.

Treasury Board Vote 10 — Government-wide initiatives.

Treasury Board Vote 15 — Compensation adjustments.

Treasury Board Vote 25 — Operating budget carry forward.

Treasury Board Vote 30 — Paylist requirements.

Treasury Board Vote 33 — Capital budget carry forward.

(2) The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada, effective November 1, 2014.

(3) Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

(4) The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada (ATSSC), effective November 1, 2014. The ATSSC becomes the sole provider of resources and staff for eleven administrative tribunals, including Canadian Human Rights Tribunal.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Defence Remains Continually Prepared to Deliver National Defence and Defence Services in Alignment with Canadian Interests and Values.

- **Program 1.1** — Defence Capability Element Production

The Defence Capability Elements Production program aims to sustain Defence by producing and maintaining portfolios of the fundamental Defence capability elements so that they are continuously available in the appropriate quantity, combination and condition to sustain the chain of programs delivered by Defence, from the Defence Capability Development and Research program through to the Defence Ready Force Elements Production program, which collectively give Defence the ability to conduct Defence Combat and Support Operations as well as deliver Defence Services and Contributions to Government. The primary elements of Defence capability are military personnel, materiel and information systems, information, and real property. A fundamental focus of the Defence Capability Elements Production program is to provide an adequate and sustained supply of individual military personnel and materiel in the near-term and over long-term time horizons so that they can be integrated to produce force elements within the Defence Ready Force Element Production program. Results are achieved through subordinate programs, each of which focuses on a separate portfolio: military personnel and organization; materiel; real property; or information systems. A lifecycle approach is used to manage each portfolio. The essential aspects of the lifecycle approach are sub-sub-programs that provide the principle lifecycle functions: introduction into service; maintenance, upgrade and supply; release from service; portfolio management; and overarching co-ordination and control. The character of activity that occurs within each of these primary functions depends on the portfolio of entities being produced and therefore the desegregation of the lifecycle functions into sub-sub-programs is unique to each portfolio. The authority for this program is derived from the *National Defence Act*.

- **Program 1.2** — Defence Ready Force Element Production

The Defence Ready Force Element Production program produces and renews force elements on a continual basis for use in Defence Combat and Support Operations, as well as for the delivery of Defence Services and Contributions to Government, in order to increase the likelihood of success and decrease risk of failure in the defence of Canada and promotion of Canadian interests. Results are delivered by assembling force elements from the fundamental elements of Defence capability (i.e., military personnel, materiel and information systems, information, and, in some cases, real property), and integrating them through various training and certification programs so that they have the requisite amount of readiness in order to fulfill predefined roles within the operations for which they are destined. The term readiness refers to the volume, endurance, responsiveness and capability attributes of force elements that are not employed. These attributes are used to determine the degree of risk that would be associated with assigning them to fulfill perspective role(s) within on-going or contingency operations. The force elements produced by the Defence Ready Force Elements Production program are organized into portfolios according to the land, aerospace, and maritime environments in which they operate. There are also portfolios for force elements that operate jointly across these domains and force elements that provide common support functions. Across these portfolios, force elements are produced to meet readiness targets. These readiness targets ensure that production can be sustained over short- and medium-term time horizons and that the number of force elements available for employment in on-going and contingency operations is in accordance with acceptable levels of operational risk.

- **Program 1.3 — Defence Capability Development and Research**

The Defence Capability Development and Research program seeks to provide the analytical bases and knowledge to anticipate foreseeable changes in the threat and security environment and to determine the associated demand for Defence capabilities across near- and long-term time horizons in order to enable evidence-based strategic decisions that align the introduction, modification and divestment of Defence capabilities and guide the application of existing capabilities with an acceptable levels of risk. Results are achieved by: establishing and monitoring the fulfillment of near-term targets for readying force elements and conducting Defence operations; identifying lessons from past operations; assessing defence and security trends; developing and integrating new knowledge and systems/methods for conducting operations; developing approaches and conducting Defence capability analyses at strategic, operational and tactical levels; present to future capability assessments; designing and assessing defence alternatives; providing Defence capability oversight and expertise; and Defence capability use planning for sustainable Defence capabilities in future time horizons. As such, this program sustains Defence by providing key products and services to the Defence Capability Elements Production program, the Defence Ready Force Element Production program and parts of the Defence Combat and Support Operations, and Defence Services and Contributions to Government programs. This program also directly enables the management and oversight of Defence as a whole.

Strategic Outcome 2

Defence Operations and Services Improve Stability and Security, and Promote Canadian Interests and Values.

- **Program 2.1 — Defence Combat and Support Operations**

The Defence Combat and Support Operations program delivers military power in combat, security, stability and surveillance operations in response to armed threats, or potential armed aggression, for the purpose of protecting Canadian sovereignty, upholding the values of Canadians, and defending the interests of the Government of Canada. Results are achieved through this program by the application of Defence capabilities in domestic, continental and international domains, either independently or in combination with allies, where the primary focus is to inflict military effects against threats. The term Defence capability is a collective term that refers to the ability of a military force to achieve a desired effect against a threat during the execution of a Defence operation (or the delivery of a Defence service) by executing tasks according to understood concepts, doctrine and standards. The military forces delivered by Defence are composed of force elements which are organizational entities that are in-turn composed of members of the Canadian Armed Forces (CAF), and in some cases personnel from the Department of National Defence (DND). Force elements integrate people, with specialized information, materiel (e.g., equipment, platforms, weapon systems) and in some cases real property, so that capabilities can be applied against threats. Force elements have different sizes and compositions according to the capabilities they must apply during an operation. This program is underpinned by the *National Defence Act*, defence policy, international treaties and agreements, membership in international organizations, and direction received by the Government of Canada. Sub-programs beneath this program target a range of threats across a variety of operational contexts via different delivery mechanisms in different geographic regions.

- **Program 2.2 — Defence Services and Contribution to Government**

The Defence Services and Contributions to Government program aims to support the delivery of Canadian Government safety and security initiatives and encourage recognition and pride in Canada and the Canadian military. This is accomplished through the provision of unique Defence services in support of other elements of Government or the Canadian public. To encourage and share pride and awareness of Canada's military heritage, contributions, and leadership, Defence provides unique services and opportunities for outreach, awareness, preservation and development. Defence unique services also include operations conducted to ensure or enhance the security, safety, stability and/or well-being of Canadians, or international populations in peril, in accordance with Canadian values and the interests of the Canadian Government, in situations where there may be a need to defend against armed threats but where this is not the primary focus. The operations are delivered through the employment of force elements to achieve a desired effect within specific contexts through execution of tasks according to understood concepts, doctrine and standards. The force elements delivered by Defence are organizational entities which are composed of members of the Canadian Armed Forces and in some cases personnel from the Department of National Defence. Force elements have different sizes and compositions according to the capabilities they must apply during an operation. Defence remains consistently ready to employ force elements under this program however significant operations do not always occur every fiscal year.

Strategic Outcome 3

The following program supports all strategic outcomes within this organization.

- **Program 3.1** — Internal services

See introductory text.

Communications Security Establishment

Strategic Outcome 1

CSE's foreign signals intelligence and technical security capabilities advance and protect Canada's vital interests.

- **Program 1.1** — Signals Intelligence

As mandated by section 273.64 of the *National Defence Act*, the Signals Intelligence program provides foreign intelligence that addresses the Government of Canada's vital interests in defence, security and international affairs through the collection, processing, analysis and reporting of intelligence. It also contributes to the protection of electronic information and information infrastructures of importance to the Government of Canada, and provides technical and operational assistance to federal law enforcement and security agencies.

- **Program 1.2** — Information Technology Security

The Information Technology Security Program provides advice, guidance and services to help ensure the protection of electronic information and information systems of importance to the Government of Canada, as mandated by the *National Defence Act* and in accordance with the Policy on Government Security.

Military Grievances External Review Committee

Strategic Outcome 1

The Chief of the Defence Staff and members of the Canadian Forces have access to a fair, independent and timely review of military grievances.

- **Program 1.1** — Review Canadian Forces grievances

The Military Grievances External Review Committee, an independent tribunal, reviews military grievances referred to it pursuant to section 29 of the *National Defence Act* which provides a statutory right for an officer or a non-commissioned member who has been aggrieved, to grieve a decision, an act or an omission in the administration of the affairs of the Canadian Forces; this is, with certain narrow exceptions, the only formal complaint process available to members of the Canadian Forces. The Committee provides findings and recommendations to the Chief of the Defence Staff and the member who submitted the grievance. The findings and recommendations may also identify issues with policies or other matters of broad concern. The Committee conducts its review as informally and expeditiously as the circumstances and the considerations of fairness permit. The Committee reports the results of its activities through its annual report and various publications.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Military Police Complaints Commission

Strategic Outcome 1

The Military Police Complaints Commission (MPCC) ensures that the Canadian Forces Military Police has the highest standard of conduct according to law and police best practices, and is free from interference in its investigations.

- **Program 1.1 — Complaints Resolution**

This program aims to successfully resolve complaints about the conduct of Military Police members as well as complaints of interference with Military Police investigations by overseeing and reviewing all complaints received. This program is necessary to help the Military Police to be as effective and as professional as possible in their policing duties and functions.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Communications Security Establishment Commissioner

Strategic Outcome 1

The Communications Security Establishment Canada performs its duties and functions in accordance with the laws of Canada and with due regard for the privacy of Canadians.

- **Program 1.1 — The Communications Security Establishment Canada review program**

The program provides independent review by the Office of the Communications Security Establishment Commissioner of the lawfulness of the activities of the Communications Security Establishment Canada. The core functions of this program consist in reviewing the Communications Security Establishment Canada's activities to ensure they comply with the laws of Canada in general and, in particular, the *Canadian Charter of Rights and Freedoms*, the *National Defence Act*, the *Criminal Code* and the *Privacy Act*. If the Commissioner believes that an activity of the Communications Security Establishment Canada carried out under its foreign intelligence or its information technology security mandates may not be in compliance with the law, he is required to inform the Minister of National Defence and the Attorney General of Canada,

accordingly. Through this program, and in response to any complaint filed by Canadian citizens and permanent residents of Canada, the Commissioner may undertake any investigation that he considers necessary. In addition, the Commissioner has a duty under the *Security of Information Act* to receive information from persons who are permanently bound to secrecy if they wish to claim a public interest defence for divulging classified information (referred to in the Act as special operational information) about the Communications Security Establishment Canada.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Canada's natural resource sectors are globally competitive.

- **Program 1.1** — Statutory Programs – Atlantic Offshore

Through this program, NRCan monitors and facilitates payment disbursal agreements and transfer payments under the Atlantic Offshore Accord Acts. The program includes the following programs: Canada Newfoundland Offshore Petroleum Board**; Payments to the Newfoundland Offshore Petroleum Resource Revenue Fund;** Payments to the Nova Scotia Offshore Revenue Account**; Nova Scotia Crown Share Adjustment Payment**; and Canada-Nova Scotia Offshore Petroleum Board**. (**Transfer payment program)

- **Program 1.2** — Innovation for New Products and Processes

Optimizing the use of Canada's natural resources and the processes by which they are developed would improve the productivity and competitiveness of natural resource sectors. The objective of this Program is to maximize productivity and competitiveness by encouraging the adoption of new technologies and processes and the development of new products. These objectives are achieved by conducting and supporting research and development and by delivering frameworks and policies for, and demonstrations of, new applications, technologies, processes, and products.

- **Program 1.3** — Market Access and Diversification

Canada's natural resource sectors face two key barriers to market access and diversification: 1) trade and policy barriers, and 2) lack of awareness of Canada's natural resource products. The objectives of this Program are to break down those barriers and support the development and expansion of markets for Canadian natural resource products by making information available to Canadians, supporting negotiations to reduce trade barriers, and ensuring that regulations are up to date. This helps maintain natural resource sectors' access to existing markets and increases their access to new market segments.

- **Program 1.4** — Investment in Natural Resource Sectors

Investing in the development of natural resources is costly and risky due to inherent uncertainties in the potential economic viability of natural resource projects. Many factors must be considered when deciding whether to develop a natural resource project. In some cases, limited information may make it difficult for investors and/or companies to assess potential opportunities. The objective of this Program is to encourage investment in the natural resource sectors by increasing industry's knowledge of opportunities, regulations and obligations. This ensures that a more accurate assessment of the expected benefits of an investment can be made and subsequently compared to its costs and risks, thereby allowing for a more comprehensive investment decision. This objective is achieved by providing funding and information on the factors that determine the potential economic viability of natural resource projects.

Strategic Outcome 2

Natural resource sectors and consumers are environmentally responsible.

- **Program 2.1 — Energy-efficient Practices and Lower-carbon Energy Sources**

Canada's energy markets are defined by the decisions of consumers and producers who do not necessarily make choices that minimize their impact on the environment. Multiple barriers exist, including a lack of awareness of available options and their benefits, insufficient capacity for adoption (e.g., regulatory frameworks, codes and standards), and financial risk. The objectives of this Program are to address these barriers by encouraging and enabling energy consumers and producers to adopt cleaner and more efficient technologies, products, services and practices. These objectives are achieved through education and outreach activities, targeted incentives, and regulatory interventions that keep pace with technological changes.

- **Program 2.2 — Responsible Natural Resource Management**

Greater knowledge of environmental risks and environmentally responsible practices help prevent and reduce the environmental impacts of past, present and future natural resource development. The objectives of this Program are to enable government departments, regulatory bodies and industry to assess these impacts, and to develop, monitor and maintain resources or clean up wastes responsibly. These objectives are achieved through the provision of assessments and knowledge rooted in sound science, and through waste management efforts that are undertaken in collaboration with provinces, federal agencies and municipalities.

- **Program 2.3 — Technology Innovation**

S&T is key to overcoming challenges confronted by natural resource sectors in pursuing responsible development. Through this Program, NRCan encourages academia, industry and the public sector to research, develop and demonstrate innovative solutions to environmental challenges. This objective is achieved through the generation and dissemination of scientific knowledge, and the development and demonstration of new technologies.

Strategic Outcome 3

Canadians have information to manage their lands and natural resources, and are protected from related risks.

- **Program 3.1 — Protection for Canadians and Natural Resources**

Natural resource development and changes in the environment pose risks to human, natural resource and infrastructure health. The objective of this Program is to enable other government departments, communities, and the private sector to manage these risks and to ensure the appropriate capacity is in place. NRCan achieves this objective by providing regulation, knowledge, tools and services and by fulfilling legislated responsibilities.

- **Program 3.2 — Landmass Information**

Public, academic and private sectors as well as Canadians rely on up-to-date, comprehensive and accessible landmass information to make sound socio-economic and environmental decisions. This Program provides open access to Canada's fundamental geomatics framework and information system, including accurate three-dimensional positioning, high-resolution satellite imagery and other remote sensing products, legal (boundary) surveys, mapping and other analysis applications. In addition, it delivers logistics support in the North and regulatory oversight for a robust property system framework on Canada Lands.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1** — Internal services

See introductory text.

Atomic Energy of Canada Limited

Strategic Outcome 1

Be the top worldwide nuclear products and services company. Protect the health and safety of the public, our employees and the environment. Minimize nuclear legacy obligations for future generations.

- **Program 1.1** — Facilities and Nuclear Operations

This program supports the operations of Atomic Energy of Canada Limited (AECL) and requires major facilities such as reactors, experimental loops, hot cells and waste management plants.

- **Program 1.2** — Research and Development

Research and Development undertaken to maintain and enhance Canada's scientific and technological expertise in support of the production of environmentally friendly and cost effective CANDU nuclear generated electricity as well as other important peaceful applications of nuclear technologies in areas such as medicine. In particular it involves the maintenance of the intellectual property that has been developed over a period of sixty years covering basic knowledge of: materials, reactor physics, chemistry, critical components, radiation, and the environment; that could have an impact on the safety, licensing and design basis of CANDU technology.

- **Program 1.3** — Commercial Business

The sale on a fully commercial basis of nuclear products and services. Commercial business activities leverage the investment in research and development on a full cost recovery basis and generates profits, which are returned to the corporation. Commercial profits assist in funding primarily the Nuclear Platform including the national research laboratories at Chalk River and also development of new reactor technologies including the next-generation Advanced CANDU Reactor. The various commercial business lines and related services/products provide innovative cost effective business solutions to customers. These sales primarily to nuclear generating facilities are required to optimize the production of a secure and safe energy supply worldwide. Nuclear energy is an essential component of the solution for clean air and climate change improvements worldwide.

- **Program 1.4** — Waste Management and Decommissioning

Decommissioning and waste management programs will need to be delivered at AECL sites over at least the next 70 to 100 years. Liabilities at AECL sites have arisen from a wide variety of sources, including wartime activities, wastes received from universities, medical facilities, government and industry from across Canada, and a variety of R&D programs carried out in support of Canada's nuclear power program. Activities provide for maintaining and surveillance of nuclear waste, decontamination and dismantling of surplus facilities as well as environmental restoration projects. Operational management of the facilities that have been turned over to decommissioning are also within this scope.

Canadian Nuclear Safety Commission

Strategic Outcome 1

Safe and secure nuclear installations and processes used solely for peaceful purposes and public confidence in the nuclear regulatory regime's effectiveness.

- Program 1.1 — Compliance Program**

The compliance program is in place to ensure that CNSC licensees exhibit a high level of compliance with the CNSC's regulatory framework. This program enables the CNSC to provide regulatory assurances to Canadians of the continuing compliance and safety performance of licensees. This program's funding is used to:

- ensure that licensees fully understand how to achieve compliance
- promote the development and fostering of a healthy safety culture and common safety values
- verify compliance through inspections and other assessments of licensee performance
- take necessary enforcement actions on observed non-compliance.

- Program 1.2 — Licensing and Certification Program**

The licensing and certification program is in place to issue licences or certify persons, and prescribed equipment for conducting nuclear-related activities in Canada. With this program's funding, the CNSC obtains evidence of an applicant's ability to operate safely and comply with all regulatory requirements. The CNSC undertakes this work to ensure that nuclear activities and facilities in Canada are managed with adequate provisions for the protection of the health, safety and security of Canadians and the environment, and for the fulfillment of international commitments to the peaceful use of nuclear energy.

- Program 1.3 — Regulatory Framework Program**

The regulatory framework program is in place to ensure that Canada has a clear and pragmatic regulatory framework for the nuclear industry in Canada. Funds are used to develop and make improvements to elements of the regulatory framework that protect the health, safety, security and environment for Canadians, while implementing Canada's international commitments on the non-proliferation of nuclear weapons and the peaceful use of nuclear energy. The CNSC's regulatory framework includes elements such as:

- the *Nuclear Safety and Control Act* and regulations under the Act
- regulatory documents, which outline requirements and guidance
- nuclear standards developed by the Canadian Standards Association
- safeguards agreements and additional protocol between Canada and the International Atomic Energy Agency
- Canada's bilateral nuclear cooperation agreements and supporting administrative arrangements.

The CNSC also designates installations under the *Nuclear Liability Act* and, as the sole responsible authority for nuclear projects under the *Canadian Environmental Assessment Act, 2012*, carries out environmental assessments for nuclear projects in accordance with both the NSCA and CEAA 2012.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- Program 2.1 — Internal services**

See introductory text.

National Energy Board

Strategic Outcome 1

The regulation of pipelines, power lines, energy development and energy trade contributes to the safety of Canadians, the protection of the environment and efficient energy infrastructure and markets, while respecting the rights and interests of those affected by NEB decisions and recommendations.

- **Program 1.1 — Energy Regulation**

This program provides the regulatory framework under which the NEB carries out its mandate and achieves part of its strategic outcome. Specifically, it enables Canadian federally regulated energy infrastructure to be developed and supervised throughout its lifecycle. The regulatory framework includes components such as setting expectations for industry and others, monitoring and enforcing compliance with requirements, measuring performance of the NEB's regulatory framework and focusing on continual improvement. The authority for this program is derived from the *National Energy Board Act*, the *Canada Oil and Gas Operations Act*, the *Canada Petroleum Resources Act*, the *Canada Labour Code* and other associated regulations and guidelines. Energy regulation provides Canadians with safe, reliable and efficient energy supply.

- **Program 1.2 — Energy Information Program**

Under this program, the supply, demand, production, development, transmission and trade of energy are analyzed to ensure the requirements of Canadians are appropriately met. Advice is provided on energy issues of interest. The Board uses energy information to inform its regulatory decisions and to produce publicly available assessments of energy trends, events and issues that may affect Canadian energy markets and the supply and demand for energy.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Northern Pipeline Agency

Strategic Outcome 1

The planning and construction of the Canadian portion of the Alaska Highway Gas Pipeline project is efficient and expeditious while ensuring environmental protection and social and economic benefits for Canadians.

- **Program 1.1 — Oversee the planning and construction of the Canadian portion of the Alaska Highway Gas Pipeline**

Regulate the planning and construction of the Canadian portion of the Alaska Highway Gas Pipeline.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section I of this volume.

(S) Statutory authority.

- (1) Treasury Board Vote 5 — Government contingencies.
- Treasury Board Vote 10 — Government-wide initiatives.
- Treasury Board Vote 15 — Compensation adjustments.
- Treasury Board Vote 25 — Operating budget carry forward.
- Treasury Board Vote 30 — Paylist requirements.
- Treasury Board Vote 33 — Capital budget carry forward.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Public Infrastructure for a More Prosperous Canada.

- **Program 1.1** — Permanent and Flexible Public Infrastructure Funding

In support of public infrastructure for Canadians, this program provides predictable and flexible funding for municipalities, allowing them to plan for the longer term in order to address infrastructure priorities. Funding is provided in order to build and rehabilitate public infrastructure based on overall compliance with the terms and conditions of the governing funding agreements. Federal funding is provided up-front and does not need to be utilized in the year it was provided. This program uses funding from the following transfer payment: the Gas Tax Fund, a component of the Government of Canada's Community Improvement Fund.

- **Program 1.2** — Large-Scale Infrastructure Investments

This program invests in infrastructure projects of national, regional and/or local significance. Funding through this program leverages additional contributions from other funding partners for eligible infrastructure projects. Funding may be jurisdictionally allocated. Actual payments are provided based on eligible costs incurred with respect to signed contribution agreements. This program uses funding from the following transfer payments: the Provincial-Territorial Infrastructure Component, Building Canada Fund-Major Infrastructure Component and the Canada Strategic Infrastructure Fund.

- **Program 1.3** — Investments in National Infrastructure Priorities

This program directs funding to infrastructure projects that help to advance national priorities that are important to all Canadians. Funding through this program typically leverages additional contributions from other funding partners for eligible infrastructure projects. Funding is merit-based and is provided on a competitive basis for most of these Transfer Payment programs. Payments are provided based on eligible costs incurred with respect to signed contribution agreements. This program uses funding from the following transfer payments: the Building Canada Fund-National Infrastructure Component, Green Infrastructure Fund, Border Infrastructure Fund and the Inuvik to Tuktoyaktuk Highway Fund.

- **Program 1.4** — Infrastructure Investments in Smaller Communities

This program invests in infrastructure projects in smaller communities in support of local and/or regional needs. Funding through this program leverages additional contributions from other funding partners for eligible infrastructure projects. Funding may be jurisdictionally allocated. Payments are provided based on eligible costs incurred with respect to signed contribution agreements. This program uses funding from the following transfer payments: the Building Canada Fund-Communities Component and the Municipal Rural Infrastructure Fund.

- **Program 1.5 — Funding for Provincial-Territorial Priorities**

This program provides predictable funding to each province and territory to enhance Canada's public infrastructure system. Federal payments to provinces and territories are made in accordance with the terms and conditions of signed funding agreements, including federal acceptance of Capital Plans and Expenditure Reports. Funding through this program leverages additional contributions from other funding partners to increase overall investment in public infrastructure for Canadians. Payments may be made up-front and cost-sharing provisions apply to a Capital Plan as a whole, and not the individual initiatives within a Capital Plan. This program uses funding from the following transfer payment: the Provincial-Territorial Infrastructure Base Fund.

- **Program 1.6 — New Bridge for the St. Lawrence Corridor Project**

In support of national, provincial and regional priorities and economies, this program provides funding for infrastructure projects for the Champlain trade corridor in Montreal, Quebec Infrastructure Canada is the project authority charged with delivering the New Bridge for the St. Lawrence Corridor project which will provide a safe, secure and efficient crossing for local residents and commuters and commercial traffic in the Montreal region. The new bridge will contribute to the increased capacity and efficiency of gateway and corridor infrastructure in the region, and nationally. The Project is to be carried out as a public-private partnership.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

The Jacques-Cartier and Champlain Bridges Inc.

Strategic Outcome 1

Safe and efficient transit on the infrastructure maintained, operated and managed by the Jacques-Cartier and Champlain Bridges Incorporated.

- **Program 1.1 — Management of federal bridge, highway and tunnel infrastructure, and properties in the Montreal area**

This program encompasses the operation and maintenance of the Jacques-Cartier and Champlain bridges, the federally-owned section of the Honoré-Mercier Bridge, a section of the Bonaventure Expressway, the Melocheville Tunnel, and the Champlain Bridge Ice Control Structure by carrying out regular and major maintenance work.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Strategic Outcome 1

The Governor General, representing The Queen in Canada, is enabled to fulfill constitutional, state, ceremonial and public duties.

- **Program 1.1** — Governor General Support

The Office of the Secretary to the Governor General provides support and advice to the Governor General of Canada in his/her unique role as the representative of The Queen in Canada as well as Commander-in-Chief. The Office assists the Governor General in carrying out constitutional responsibilities, in representing Canada internationally, and in encouraging excellence and achievement through the administration of the Canadian Honours System and in the granting of armorial bearings. The Office also supports the Governor General in bringing Canadians together. It manages a visitor services program at both of the Governor General's official residences and oversees the day-to-day operations of these residences. The Office also provides support to former Governors General.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

The Senate

Strategic Outcome 1

To provide the best possible environment for Senators to effectively contribute to federal legislation and public policy issues in the best interest of all Canadians.

- **Program 1.1** — Senators and their Offices

Provides Senators with the statutory services set out in the *Parliament of Canada Act* and the *Members of Parliament Retiring Allowances Act*. Operating costs of Senators' offices are provided in accordance with established policies and guidelines. Costs included under these two categories are: Senators' sessional indemnities and allowances as well as contributions to the Senators' pension plan; retiring allowances; travel and communication expenses; Senators' research and office expenses, including staff costs and the cost of goods and services incurred for the operations of Senators' offices; and Caucus research funds.

- **Program 1.2** — Administrative Support

Provide the ongoing support services required for the effective, efficient and economical delivery of operating programs outlined under the other two programs of the Senate. Administrative support provides accommodation and other facilities and tools, information, goods and services, and expert advice on all aspects of operations. Costs included in this program are: financial services and materiel management; human resources; protective services; communications and information services; information technology management; accommodation planning, maintenance and upkeep of premises; postal, messenger and printing services; repairs, trades and transportation services; corporate improvement including internal audit and strategic management.

- **Program 1.3** — Chamber, Committees and Associations

Provide the support and services Senators require for their work in the Senate Chamber; standing, special and joint committees; and parliamentary associations. This includes procedural, legislative, and information products such as Speaker's rulings, legislative drafting, official publications and broadcasting; and administrative services such as budgets and logistics for meetings. Costs included under this program are: salaries for additional duties of the Officers of the Senate; staff costs of operating the offices of Officers of the Senate; salaries of the Clerk's and Legislative Sectors; journals, reporting of debates and publications; committees, parliamentary associations and exchanges; broadcasting; and Senate Pages.

House of Commons

Strategic Outcome 1

Effective administrative and professional support for Members, both individually and collectively, in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in caucus.

- **Program 1.1 — Members and House Officers**

Members assume the roles of legislators and elected representatives of their constituency. In their constituencies, Members participate in events and activities and hold discussions with constituents about their concerns. In the Chamber, Members participate in debates and study and vote on legislation. Members sit on standing committees and special or joint committees, since the House of Commons delegates in-depth consideration of bills and the thorough scrutiny of the government's programs and policies to its committees. Members also participate in parliamentary associations and interparliamentary groups, and are members of delegations for parliamentary exchanges. Finally, in caucus, Members develop strategy, discuss policy and examine important issues with fellow party members, and direct the work of party research offices. Some Members also assume additional functions such as: the Speaker, Deputy Speaker, House Leaders and Chief Whips.

- **Program 1.2 — House Administration**

House employees are responsible for providing services to Members elected during a Parliament. They also serve the House as an institution on a permanent basis by ensuring continuity from one Parliament to another, access to parliamentary records, and a stable infrastructure to support Members in the democratic process. Advice and support are provided in a wide variety of areas such as: procedural, legislative and legal services; information technology and management; building management; security; food services; finance; human resources; and workplace health and safety. The staff of the House of Commons strives to support the institution and the Members in their roles as legislators and representatives of 308 constituencies, in the Chamber, in committee and in caucus.

Library of Parliament

Strategic Outcome 1

An Informed and Accessible Parliament.

- **Program 1.1 — Information Support for Parliament**

This program provides parliamentarians with information, documentation, research and analysis services to help them fulfil their roles as legislators and representatives and to support them in their efforts to make Parliament and information about Parliament accessible to the public.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Conflict of Interest and Ethics Commissioner

Strategic Outcome 1

The public can feel confident that public office holders and MPs are meeting the requirements of the conflict of interest compliance measures.

- **Program 1.1** — Administration of the *Conflict of Interest Act* and the *Conflict of Interest Code for Members of the House of Commons*

The Commissioner provides confidential advice to Public Office Holders (POHs) and MPs about how to comply with the *Conflict of Interest Act* and the MP's Code respectively. She is also mandated to provide confidential advice to the Prime Minister about conflict of interest and ethics issues. The Commissioner may conduct an inquiry into whether a MP has contravened the Code or a present or former POH has breached the Act. This program benefits Canadians by minimizing the possibility of conflicts arising between the private interests and public duties of POHs and MPs and provides for the resolution of those conflicts in the public interest should they arise.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Senate Ethics Officer

Strategic Outcome 1

Senators meet their obligations under the Conflict of Interest Code in a manner that contributes to the integrity of the Senate as an institution.

- **Program 1.1** — Administration

The mandate of the Senate Ethics Officer is to administer and interpret the Code for Senators that sets out standards of conduct for Members of the Senate. The primary functions of the Senate Ethics Officer are: • to provide confidential opinions and advice on any matter respecting Senators' obligations under the Code; • to review confidential annual disclosure statements (listing sources of income, assets, liabilities, government contracts, financial and other interests), advise Senators on possible conflicts and compliance measures, and prepare public disclosure summaries; • to conduct inquiries and investigations, if necessary, regarding compliance with the Code.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

The Government's agenda and decision making are supported and implemented and the institutions of government are supported and maintained.

- **Program 1.1** — Advice and support to the Prime Minister and portfolio ministers

PCO provides professional, non-partisan advice and support to the Prime Minister and portfolio ministers on the full spectrum of issues and policies they address on a daily basis. PCO also provides advice and support on: the structure and organization of government; government-wide communications; the Governor-in-Council appointments system; the development and implementation of parliamentary and legislative programs; democratic reform; and legal issues. In addition, PCO provides administrative advice and support pertaining to the budgets of the Prime Minister's Office and those of the offices of portfolio ministers.

- **Program 1.2** — Advice and support to Cabinet and Cabinet committees

PCO supports the efficient and effective functioning of Cabinet and Cabinet committees on a day-to-day basis. As part of this work, PCO coordinates departmental policy, legislative and government administration proposals going to Cabinet and its committees; performs a challenge function during the policy development process; and prepares briefing materials and accompanying policy analysis to facilitate Cabinet's decision-making process. PCO also provides a secretariat function for Cabinet and its committees, which includes scheduling and support services for meetings, as well as preparation and distribution of Cabinet documents. In addition, PCO supports effective policy integration across the federal government so that proposals take into account the full range of departmental perspectives and issues related to implementation, such as communications, parliamentary affairs, intergovernmental relations and budget impacts.

- **Program 1.3** — Public service leadership and direction

PCO supports the development and maintenance of a high-quality Public Service that meets the highest standards of accountability, transparency and efficiency. As part of this work, PCO provides advice to the Clerk of the Privy Council and the Prime Minister on the renewal of public service and government operations in order to position the Public Service workforce and workplace for the future as more adaptable, innovative and streamlined. PCO also supports the human resources management of senior leaders across the government, including performance management and leadership development.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Canadian Intergovernmental Conference Secretariat

Strategic Outcome 1

Senior-level intergovernmental conference services are professionally and successfully delivered.

- **Program 1.1 — Conference Services**

Provision of expert, impartial support services for the planning and conduct of First Ministers, Ministers and Deputy Ministers level federal-provincial-territorial and provincial-territorial conferences.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Transportation Accident Investigation and Safety Board

Strategic Outcome 1

Risks to the safety of the transportation system are reduced.

- **Program 1.1 — Air Investigations**

The Air Investigations Program conducts independent investigations into selected air transportation occurrences in or over Canada, and in certain circumstances internationally, to identify causes and contributing factors. This program also publishes investigation reports, formulates recommendations to improve safety, communicates safety information, undertakes outreach activities to advocate for changes, and follows up on responses to recommendations. The Air Investigations Program also fulfills Canada's obligations related to transportation safety as required by the International Civil Aviation Organization. This program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act*, the Transportation Safety Board Regulations, and the Annex 13 of the Convention on International Civil Aviation.

- **Program 1.2 — Rail Investigations**

The Rail Investigations Program conducts independent investigations into selected rail transportation occurrences to identify causes and contributing factors. This program also publishes investigation reports, formulates recommendations to improve safety, communicates safety information, undertakes outreach activities to advocate for change, and follows up on responses to recommendations. The Rail Investigations Program also provides assistance, upon request, to the provinces and territories for the investigation of short-line railway occurrences under provincial or territorial jurisdiction. This program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act* and the Transportation Safety Board Regulations.

- **Program 1.3 — Marine Investigations**

The Marine Investigations Program conducts independent investigations into selected marine transportation occurrences in Canada, and in certain circumstances internationally to identify causes and contributing factors. This program also publishes investigation reports, formulates recommendations to improve safety, communicates safety information, undertakes outreach activities to advocate for change, and follows up on responses to recommendations. The Marine Investigations Program also fulfills some of Canada's obligations related to transportation safety as required by the International Maritime Organization. This program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act*, the Transportation Safety Board Regulations, and the Casualty Investigation Code of the International Maritime Organization.

- **Program 1.4 — Pipeline Investigations**

The Pipeline Investigations Program conducts independent investigations into selected pipeline occurrences under federal jurisdiction within Canada to identify causes and contributing factors. This program also publishes investigation reports, formulates recommendations to improve safety, communicates safety information, undertakes outreach activities to advocate for change, and follows up on responses to recommendations. This program is governed by the *Canadian Transportation Accident Investigation and Safety Board Act* and the Transportation Safety Board Regulations.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Chief Electoral Officer

Strategic Outcome 1

An Accessible Electoral Framework that Canadians Trust and Use.

- **Program 1.1 — Electoral Operations**

This program allows Elections Canada to deliver fair and efficient electoral events whenever they may be required so that Canadians are able to exercise their democratic right to vote during a federal general election, by-election or referendum by providing an accessible and constantly improved electoral process responsive to the needs of electors.

- **Program 1.2 — Regulation of Electoral Activities**

This program provides Canadians with an electoral process that is fair, transparent and in compliance with the *Canada Elections Act*. Within this program, Elections Canada is responsible for administering the political financing provisions of the Act. This includes monitoring compliance, disclosure and reporting of financial activities, and enforcing electoral legislation.

- **Program 1.3 — Electoral Engagement**

This program promotes and sustains the Canadian electoral process. It provides Canadians with electoral education and information activities so that they can make informed decisions about their engagement in the electoral process. It also aims to improve the electoral framework by consulting and sharing electoral practices with other stakeholders.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Commissioner of Official Languages

Strategic Outcome 1

Rights guaranteed by the *Official Languages Act* are protected and linguistic duality is promoted as a fundamental value of Canadian society.

- **Program 1.1 — Protection of Language Rights**

Through this program, the Office of the Commissioner of Official Languages investigates complaints filed by citizens who believe their language rights have not been respected, evaluates compliance with the *Official Languages Act* by federal institutions and other organizations subject to the Act through performance measurements and audits, and intervenes proactively to prevent non-compliance with the Act. As well, the Commissioner may intervene before the courts in cases that deal with non-compliance to the *Official Languages Act*.

- **Program 1.2 — Promotion of Linguistic Duality**

Through this program, the Office of the Commissioner of Official Languages (OCOL) works with Parliamentarians, federal institutions and other organizations subject to the *Official Languages Act*, official language communities and the Canadian public in promoting linguistic duality. OCOL builds links between federal institutions, official language communities and the different levels of government to help them better understand the needs of official language communities, the importance of bilingualism and the value of respecting Canada's linguistic duality. To fulfill its role in that promotion, OCOL conducts research, studies and public awareness activities as well as intervenes with senior federal officials so that they instill a change in culture to fully integrate linguistic duality in their organizations.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Security Intelligence Review Committee

Strategic Outcome 1

Canadian Security Intelligence Service (CSIS) performs its duties and functions in accordance with the law, policy and Ministerial direction.

- **Program 1.1 — Reviews**

Conduct reviews of CSIS activities to ensure effectiveness, appropriateness and compliance. Develop annual research plan identifying reviews to be conducted each year, examine CSIS operations, provide a retrospective examination and assessment of specific CSIS investigations and functions, examine information concerning CSIS's activities, assess CSIS compliance, and issue findings and recommendations. The objective is to provide Parliament, the Minister of Public Safety and Canadians with a comprehensive picture of CSIS's operational activities, and assurance that CSIS is acting within its mandate.

- **Program 1.2 — Complaints**

Conduct investigations into complaints concerning CSIS made by either individuals or groups as per the *CSIS Act*. Under Section 41 of the *CSIS Act*, SIRC investigates “any act or thing done by the Service”; under Section 42, SIRC investigates complaints about denials of security clearances to federal government employees and contractors. SIRC may also conduct an investigation in relation to referrals from the Canadian Human Rights Commission and Minister’s reports in regards to the *Citizenship Act*. If jurisdiction is established, complaints are investigated through a quasi-judicial hearing presided over by one or more Committee members. The time to investigate and resolve a complaint will vary in length depending on the complexity of the file, the quantity of documents to be examined, the number of hearing days required and the availability of the participants. On completion of a Section 41 investigation, SIRC provides a report to the Director of CSIS and to the Minister of Public Safety, as well as a declassified version of the report to the complainant. On completion of a Section 42 investigation, SIRC reports its findings and any recommendations to the Minister of Public Safety, the Director of CSIS and the Deputy Head concerned, and provides a declassified version of the report to the complainant.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

A safe and resilient Canada.

- **Program 1.1** — Emergency Management

Public Safety Canada works to protect Canada and Canadians by exercising national leadership in emergency management and setting a clear direction for emergency management and critical infrastructure protection for the Government of Canada, pursuant to the *Emergency Management Act* of 2007. Working closely with federal institutions, provinces, territories, the first responder community, the private sector and international counterparts to address all hazards (natural, technological and human-induced), this program contributes to a safe and resilient Canada through policy and program development and coordination across the four functions of emergency management - prevention/mitigation, preparedness, response and recovery. The program develops and maintains the federal government's capacity to manage whole-of-government emergencies, monitors and coordinates federal responses and provides support to provinces and territories when federal assistance is needed. The program also promotes public awareness of emergency management to Canadians and businesses directly through outreach and various emergency management fora.

- **Program 1.2** — Countering Crime

Crime continues to be a significant preoccupation among Canadians and they recognize the importance of the federal government's role in responding to crime issues across the country. The Countering Crime Program provides federal policy leadership, coordination and program support on a continuum of activities related to the prevention of crime, the enforcement of law, and the rehabilitation of those who have committed criminal offences. The intent of this program is to reduce the likelihood of criminality by working in close collaboration with federal partners, and those in the provinces, territories and communities to design and deliver national programs that are specific and appropriate to regions and communities.

- **Program 1.3** — National Security

The National Security Program aims to ensure that Canada is prepared for and can respond to a range of national security threats. The National Security Program plays a coordinating role in the prevent, detect, deny and respond efforts of the Public Safety Portfolio and broader government departments and agencies on matters relevant to national security. In order to achieve this objective, the program works with operational and policy partners to provide the Government with strategic advice on rapidly evolving and often sensitive issues. The National Security Program also assists the Minister and Deputy Minister in fulfilling key statutory obligations, and seeks to identify and close gaps in Canada's ability to deal with National Security threats. It coordinates, analyses and develops policies, and implements processes related to issues such as critical infrastructure, cyber security, counter terrorism, the listing and delisting of terrorist entities, the review of foreign investments that raise national security concerns, radicalization leading to violence, and the proliferation of weapons of mass destruction. Because of their complexity, importance, and potential impact on individual rights, national security legislation,

programs and policies must be well founded, well governed, and well executed; this program plays a central role in supporting decision makers in achieving this goal on behalf of Canadians. To this end, the Minister, Deputy Minister, and policy-makers continue to benefit from the advice provided by the Cross-Cultural Roundtable on Security, a forum of Canadian citizens from diverse backgrounds that provides policy advice on emerging national security issues.

- **Program 1.4 — Border Strategies**

The Border Strategies Program provides federal policy leadership, coordination and coherence on a variety of border issues such as customs, immigration, refugees and citizenship, and cross-border law enforcement in order to ensure that security objectives are achieved in a manner that facilitates the flow of legitimate trade and travel and reduces security and fraud related risks. The intent of this program is to promote the safety and economic well-being of Canadians through supporting secure and efficient management of Canada's borders. This program also advances critical infrastructure objectives through effective coordination among federal departments and agencies and partnerships with industry sectors. In order to achieve this result, the program develops and supports a focused border management agenda, leads ongoing dialogue between Canada and the United States on strategic and operational border policy issues, including the implementation of the Beyond the Border Action plan. The program implements cross-border arrangements relating to the movement of goods and people during emergencies, and provides policy advice, leadership and horizontal coordination to Public Safety Portfolio agencies and other federal departments regarding border issues. It also ensures collaboration and integrated coordination of all public communications. This program plays a central role in supporting the Government in making fully informed decisions concerning border policy, border management and cross-border law enforcement for the benefit of Canadians.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canada Border Services Agency

Strategic Outcome 1

International trade and travel is facilitated across Canada's border and Canada's population is protected from border-related risks.

- **Program 1.1 — Admissibility Determination**

Through the Admissibility Determination program, the CBSA develops, maintains and administers the policies, regulations, procedures and partnerships that enable border services officers to intercept people and goods that are inadmissible to Canada and to process legitimate people and goods seeking entry into Canada within established service standards. In addition, the Agency develops, maintains and administers the policies, regulations, procedures and partnerships to control the export of goods from Canada. In the traveller stream, border services officers question people upon arrival to determine if they and their personal goods meet the requirements of applicable legislation and regulations to enter Canada. Border services officers will then make a decision to grant entry or refer a person for further processing (e.g. payment of duties and taxes, issuance of a document), and/or for a physical examination. In the commercial stream, carriers and importers are required to provide information to the CBSA at or prior to arrival in Canada. Border services officers review the status of pre-arrival decisions and/or the provided accompanying documentation to determine whether the goods meet the requirements of applicable legislation and regulations to enter Canada. Based on this determination, a border services officer may refer the goods for further processing, examination and/or scientific/engineering analysis. Upon further examination goods may be seized or penalties imposed. With some exceptions, stemming from the policies and legislative requirements of some of our partner departments and agencies, all goods being exported from Canada must be reported "in writing" to the CBSA.

- **Program 1.2 — Immigration Enforcement**

The Immigration Enforcement Program determines whether foreign nationals and permanent residents who are or may be inadmissible to Canada are identified and investigated, detained, monitored and/or removed from Canada. Foreign nationals and permanent residents of Canada believed to be inadmissible are investigated and may have a report written against them by a CBSA inland enforcement officer. Depending on the type of inadmissibility, the merits of the report are reviewed by either a Minister's Delegate or an independent decision maker at the Immigration and Refugee Board of Canada (IRB) where a CBSA hearings officer represents the Minister of Public Safety. Subsequent to this review, a removal order may be issued against the foreign national or permanent resident in question. Removal orders issued against refugee claimants are conditional and do not come into force until the claim against the removal order is abandoned, withdrawn or denied by the IRB.

- **Program 1.3 — Risk Assessment Program**

The Risk Assessment program “pushes the border out” by seeking to identify high-risk people, goods and conveyances as early as possible in the travel and trade continuum to prevent inadmissible people and goods from entering Canada. This benefits the travelling public and the trade community by enabling the Agency to focus its examination and interdiction activities on high-risk people and goods, thereby facilitating the entry of low-risk travellers and goods. The Agency uses a variety of threat and risk assessment methodologies, intelligence and supporting technologies to identify potential risks to the security and safety of people and goods.

- **Program 1.4 — Revenue and Trade Management**

The Revenue and Trade Management Program administers international and regional trade agreements and domestic legislation and regulations governing trade in commercial goods. The program ensures that appropriate trade data is collected and that the duties and taxes owed to the Government of Canada are remitted in accordance with Canadian trade laws and import requirements. Commercial importers must accurately report on their goods at the time of importation, and remit the required payment, or self-correct their entries, and pay any additional amounts owing, when they have reason to believe that trade-related reporting errors have occurred.

- **Program 1.5 — Secure and Trusted Partnerships**

Through the Secure and Trusted Partnerships program, the CBSA works closely with clients, other government departments and international border management partners to enhance trade chain and traveller security while providing pre-approved, low-risk travellers and traders with streamlined and efficient border processes. The CBSA develops and administers programs and cooperative agreements with its partners to ensure alignment with international standards (e.g. World Customs Organization SAFE Framework of Standards) and promote best practices in global border management. By increasing membership in trusted traveller and trader programs, the CBSA is able to improve its capacity to mitigate risk in advance and focus examination efforts on identifying travellers and traders of unknown or higher risk.

- **Program 1.6 — Criminal Investigations**

Under the Criminal Investigations program, the CBSA protects the integrity of border-related legislation and contributes to public safety and Canada’s economic security by investigating and pursuing the prosecution of travellers, importers, exporters and/or other persons who commit criminal offences in contravention of Canada’s border-related legislation. CBSA investigators review potential border legislation violations and gather evidence using a variety of investigative techniques, including search warrants, production orders and digital forensic analysis. These violations include criminal offences under the *Customs Act*, *Immigration and Refugee Protection Act*, various food, plant and animal legislation, and other border-related legislation. In conjunction with the Public Prosecution Service of Canada, the CBSA pursues the prosecution of individuals or business entities who violate Canada’s border-related legislation.

- **Program 1.7 — Recourse**

The Recourse program provides the business community and individuals with an accessible mechanism to seek an impartial review of service-related complaints, program decisions and enforcement actions taken by the CBSA. This program ensures that their decisions are fair, transparent and accurately reflect the Agency's policies and the Acts administered by the CBSA. Individuals can complete a written submission if they disagree with an enforcement action or a program decision made by the CBSA or wish to submit a complaint or compliment about services. Clients are provided with a timely acknowledgement of their correspondence, before CBSA officials conduct a thorough review, taking into consideration the legislation administered by the Agency, CBSA policies, the client's point of view and, where necessary, technical opinions from CBSA experts or legal advice from the Department of Justice. Individuals who are not satisfied with the CBSA's review can appeal to the appropriate court, tribunal or external review body. The Recourse Program also facilitates the review of external complaints of discrimination filed with the Canadian Human Rights Commission and assists the Department of Justice representing the Agency on appeals to the Federal Court, various tribunals and other external bodies.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Security Intelligence Service

Strategic Outcome 1

Intelligence is used to protect the security and safety of Canada and its citizens.

- **Program 1.1 — Intelligence Program**

This program includes the collection, processing and analysis of information and intelligence, respecting activities that may be suspected of constituting threats to the security of Canada and safety of Canadians and, in relation thereto, reporting and advising the Government of Canada. In accordance with *Canadian Security Intelligence Service Act*, s.16, in supporting the missions of National Defence and Foreign Affairs, this intelligence program also provides assistance to the Minister of National Defence and the Minister of Foreign Affairs, within Canada, in the collection of information or intelligence.

- **Program 1.2 — Security Screening Program**

The Security Screening program is one of the main responsibilities of CSIS and among its most visible functions. The goals of the Security Screening program are to prevent non-Canadians who pose security concerns or risks from entering or receiving permanent residence in Canada and to prevent anyone of concern from gaining access to sensitive government assets, locations or information. Through its foreign offices in Canadian missions abroad, CSIS performs in-depth examinations of applicants and prospective immigrants whose backgrounds present security concerns. CSIS also provides security assessments on behalf of all federal government departments and agencies (except the Royal Canadian Mounted Police (RCMP)) as part of the Government Security Policy (GSP). Security Assessments fall into the following program activities: Government Screening, Sensitive Sites Screening, Foreign Screening, Immigration and Citizenship Screening, and Refugee Screening.

Civilian Review and Complaints Commission for the Royal Canadian Mounted Police

Strategic Outcome 1

Public Confidence in the RCMP.

- **Program 1.1** — Civilian review of RCMP members' conduct in the performance of their duties

The Civilian Review and Complaints Commission for the RCMP (CRCC) is an independent agency created by Parliament to provide fair and independent civilian review of RCMP members' conduct in the performance of their duties. The CRCC accomplishes this by receiving complaints from the public about the conduct of RCMP members and monitoring the RCMP's investigation of such complaints. Where a complainant is not satisfied with the outcome of the RCMP's response to a complaint, a request can be made to the CRCC for an independently review of the members' conduct and the RCMP's handling of the matter. In reviewing complaints, the CRCC may find that it is satisfied with the RCMP handling of the complaint or it may make findings and recommendations to the RCMP Commissioner and the Minister of Public Safety with respect to matters addressed in the complaint. The CRCC also conducts reviews of specified RCMP activities, reports to provinces which contract RCMP services, conducts research, program outreach and public education, and provides independent observers to investigations of serious incidents involving RCMP members.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Correctional Service of Canada

Strategic Outcome 1

The custody, correctional interventions, and supervision of offenders in communities and in institutions, contribute to public safety.

- **Program 1.1** — Custody

This program includes providing for the day-to-day needs of offenders, including health and safety, food, clothing, mental health services, and physical health care. It also includes security measures within institutions such as drug interdiction, and appropriate control practices to prevent incidents.

- **Program 1.2** — Correctional Interventions

The Correctional Interventions program includes assessment activities and program interventions for federal offenders, as well as activities directed toward engaging Canadian citizens as partners in CSC's correctional mandate and outreach to victims of crime. Correctional Interventions are designed to assist the rehabilitation of offenders and facilitate their reintegration into the community as law abiding citizens.

- **Program 1.3** — Community Supervision

The Community Supervision program includes all program activities that protect society through the administration of community operations, including the provision of accommodation options, establishment of community partnerships and provision of community health services as necessary. Community supervision provides the structure to assist offenders to safely and successfully reintegrate into society.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Office of the Correctional Investigator of Canada

Strategic Outcome 1

The problems of offenders in the federal correctional system are identified and addressed in a timely and reasonable fashion.

- **Program 1.1** — Ombudsman for federal offenders

Through this program, the Office of the Correctional Investigator (OCI) conducts investigations of individual offender complaints regarding acts, omissions, decisions and recommendations of the Correctional Service of Canada (CSC). It also has a responsibility to review and make recommendations on CSC's policies and procedures associated with the areas of individual complaints, to ensure that systemic areas of complaint are identified and appropriately addressed, and to review all Section 19 investigations performed by CSC following the death of or serious injury to an inmate.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Parole Board of Canada

Strategic Outcome 1

Conditional release and record suspension decisions and decision processes that safeguard Canadian communities.

- **Program 1.1** — Conditional Release Decisions

This program aims to ensure public safety by making quality decisions on the timing and conditions of release of offenders into the community. Through this program, PBC staff provides timely, accurate information for Board member decision-making, and develops training and policies that are tools for risk assessment and decision-making.

- **Program 1.2** — Conditional Release Openness and Accountability

This program is designed to ensure that PBC operates in an open and accountable manner, consistent with the provisions of the *Corrections and Conditional Release Act* (CCRA). Therefore, this program consists of: the provision of information for victims of crime, assistance to observers at hearings and those who seek access to PBC's decision registry, dissemination of public information, encouragement of citizen engagement, investigation of tragic incidents in the community, as well as performance monitoring and reporting on conditional release decision processes.

- **Program 1.3** — Record Suspension Decisions/Clemency Recommendations

This program is designed to support rehabilitation by providing quality record suspension decisions and clemency recommendations. In support of quality decisions and recommendations, PBC screens applications for eligibility and completeness, collects appropriate information for decision-making and develops policy to guide decision processes.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Royal Canadian Mounted Police

Strategic Outcome 1

Criminal activity affecting Canadians is reduced.

- **Program 1.1** — Police Operations

Under the authority of the *RCMP Act*, this program provides Canadians with policing services at the federal, provincial and municipal levels and within Aboriginal communities. As described in the *RCMP Act*, these services include all duties that are assigned to peace officers in relation to the preservation of the peace, the prevention of crime and of offences against the laws of Canada and the laws in force in any province in which they may be employed, and the apprehension of criminals and offenders and others who may be lawfully taken into custody; the execution of all warrants, and performing all duties and services in relation thereto, that may, under the *RCMP Act* or the laws of Canada or the laws in force in any province, be lawfully executed and performed by peace officers; performing of all duties that may be lawfully performed by peace officers in relation to the escort and conveyance of convicts and other persons in custody to or from any courts, places of punishment or confinement, asylums or other places; and performing other duties and functions as are prescribed by the Governor in Council or the Commissioner. This program contributes to a safe and secure Canada by providing general law enforcement activities in addition to education and awareness activities delivered by employees of the RCMP to the public, businesses and other

agencies/organizations within Canada. The RCMP's education and awareness activities, for example information sessions on crime prevention, national security, financial crime, drugs and organized crime, are aimed at reducing victimization of Canadians. Additionally, this program ensures the protection of designated persons and security at major events which in turn mitigates any potential threats to Canada's population. The program also delivers a high level of technical and operational support to ensure that the RCMP reaches its overarching goal of reducing criminal activity which affects Canadians.

- **Program 1.2 — Canadian Law Enforcement Services**

This program provides the Canadian Law Enforcement community with the necessary scientific, technical, investigative and educational support to deliver proactive, intelligence based policing and law enforcement services to their respective communities and partners. Additionally, this program provides educational opportunities to members of the Canadian Law Enforcement community to enable them to develop their skills thus increasing their effectiveness in contributing to a safer Canada. This program ensures that Canadian law enforcement communities have access to the required tools, systems, technologies (i.e. forensic support and expertise, criminal intelligence and firearms registry and databases, etc) and education which in turn will contribute to the reduction of criminal activity affecting Canadians.

Strategic Outcome 2

Incomes are secure for RCMP members and their survivors affected by disability or death.

- **Program 2.1 — Transfer Payments**

This program ensures that RCMP employees and their families are provided income security in the event of disability or death. This program ensures that an appropriate level of support is afforded to those who are affected by circumstances beyond their control and as a result of their employment with the RCMP. The activities within this program are regulated by statutory payments, for example, the *RCMP Pension Continuation Act* payments.

Strategic Outcome 3

Canada's police provide international collaboration and assistance while maintaining a rich police heritage nationally.

- **Program 3.1 — International Policing Operations**

This program furthers Canada's global peace and security agenda through cooperation and support of the international law-enforcement community, thereby ensuring that both Canadians and the global community are safer. This program addresses the transnational scope of crime and terrorism by building relationships with international policing partners, participating in the INTERPOL global information sharing network and conducting extra-territorial criminal investigations. Additionally, the RCMP actively participates in multiple missions abroad in a peacekeeping role and by providing support to nations at risk in building their law enforcement capacity. Through this international cooperation and collaboration, this program contributes directly to a more secure world and Canada.

- **Program 3.2 — Canadian Police Culture and Heritage**

In order to protect the RCMP's internationally recognized image, reputation and rich heritage, this program works to promote the positive image of the RCMP while building relationships with domestic and international law enforcement, government and community partners. The program provides advice and analysis to internal and external clients, including federal, provincial and municipal partners, academic institutions, Royal Household representatives, and non-government organizations, regarding appropriate ceremonial features of special events and occurrences (e.g., Olympics, expos, summits, police officer funerals). Through the activities of this program, the RCMP contributes to Canada's vibrant culture and heritage.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1** — Internal services

See introductory text.

Royal Canadian Mounted Police External Review Committee

Strategic Outcome 1

Independent, impartial and thorough analysis, findings and recommendations for transparency in Royal Canadian Mounted Police (RCMP) grievances and appeals.

- **Program 1.1** — Independent and impartial case review

The Royal Canadian Mounted Police External Review Committee (ERC) conducts an independent review of appeals in disciplinary, and discharge and demotion matters, as well as certain categories of grievances that are referred to it by the Commissioner of the RCMP pursuant to s. 33 of the *RCMP Act* and s. 36 of the *RCMP Regulations*. The ERC ensures that the principles of administrative and labour law are respected and that the remedial approach indicated by the Act is followed. The ERC issues reports of its findings and recommendations in each case to the Commissioner of the RCMP and to the parties. Access to the ERC's reports is made available to all stakeholders (including the parties, RCMP adjudicators, supervisors, members' representatives, staff relations representatives, and labour and employment experts in other jurisdictions) by means of its website, publications and presentations.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

High quality, central programs and services that ensure sound stewardship on behalf of Canadians and meet the program needs of federal institutions.

- **Program 1.1** — Accommodation and Real Property Services

Public Works and Government Services (PWGSC) provides federal departments and agencies with affordable office and common use accommodation that supports the delivery of their programs and services. The department acts as steward for various public works such as buildings, bridges and dams, and national treasures such as the Parliamentary Precinct and other heritage assets across Canada. PWGSC also provides other federal departments, agencies, and the Parliament of Canada with responsive and cost-effective real property services.

- **Program 1.2** — Acquisitions

This program shows PWGSC as the government's primary procurement service provider offering federal organizations a broad base of procurement solutions such as specialized contracts, standing offers and supply arrangements. The role of PWGSC in this area is to provide timely value-added acquisitions and related common services to Canadians and the federal government.

- **Program 1.3** — Federal Pay and Pension Administration

This program provides reliable central systems and processes for pay and pension administration to other federal organizations. Through our pay and pension services, PWGSC ensure that federal government employees and pensioners are paid accurately and on time.

- **Program 1.4** — Receiver General for Canada

This program manages the operations of the federal treasury, produces the Public Accounts and maintains the Accounts of Canada. It provides federal departments with an optional financial and materiel management system offering and bill payments.

- **Program 1.5** — Linguistic Management and Services

This program defines the Translation Bureau of PWGSC as a key component of the federal government's service delivery infrastructure. The Bureau is the sole internal linguistic services provider and offers translation, revision, interpretation and other linguistic services for Parliament, the judiciary, and federal departments and agencies. It is also the terminology authority within the federal government and has been mandated to develop terminology standards to ensure clear, uniform and quality communications within government. The Linguistic Management and Services program is mandated under the *Translation Bureau Act*.

- **Program 1.6** — Specialized Programs and Services

This program provides federal organizations with high quality, timely and accessible specialized services and programs.

- **Program 1.7** — Integrity Programs and Services

This program provides the government of Canada with high quality, timely and accessible specialized services and programs in support of sound, prudent and ethical management and operations.

- **Program 1.8** — Procurement Ombudsman

This program, operating at arms-length from the government, reviews procurement practices across federal departments and agencies, investigates complaints from suppliers regarding the award and administration of contracts for goods and services, and ensures the provision of alternative dispute resolution services for existing contracts. This program helps to promote fairness, openness and transparency in the federal procurement process.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Shared Services Canada

Strategic Outcome 1

Modern, reliable, secure and cost-effective information technology infrastructure services to support government priorities and program delivery.

- **Program 1.1** — Information Technology Infrastructure Services

This program delivers Information Technology (IT) Infrastructure Services to Federal Government Departments to enable and support the management, coordination and delivery of government programs to Canadians and the achievement of Government of Canada priorities. The IT Infrastructure services consist of four main IT service groups: (a) Distributed Computing, (b) Production and Operations Computing, (c) Telecommunications (Data, Voice & Video) Services, and (d) Cyber and IT Security. This program establishes a centralized common IT Infrastructure service leading to consolidation and standardization in the management and delivery of IT services across the mandated 43 Partner Departments. This consolidation and standardization contributes to greater operational efficiencies and economies of scale resulting in forecasted cost-savings, enhanced reliability and security of the IT services, reduction in duplication of effort and managerial oversight, and development of harmonized response to Partner Departments' business requirements.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

(1) Treasury Board Vote 5 — Government contingencies.

Treasury Board Vote 10 — Government-wide initiatives.

Treasury Board Vote 15 — Compensation adjustments.

Treasury Board Vote 25 — Operating budget carry forward.

Treasury Board Vote 30 — Paylist requirements.

Treasury Board Vote 33 — Capital budget carry forward.

(2) The *Economic Action Plan 2014 Act, No. 1* dissolved the Enterprise Cape Breton Corporation and authorized the transfer of its assets and obligations, as well as those of its subsidiaries, to either Atlantic Canada Opportunities Agency or Her Majesty in right of Canada as represented by the Minister of Public Works and Government Services Canada, effective June 19, 2014.

(3) Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

(4) Order in Council P.C. 2012-1583 authorized the amalgamation of Old Port of Montreal Inc. with Canada Lands Company Limited.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

An Efficient Transportation System.

- **Program 1.1** — Gateways and Corridors

Canada is a trading nation, and the efficiency and reliability of the transportation system to support this trade impacts directly on the nation's prosperity and well being. For this reason, it is imperative that the federal government play a role in the development of an integrated transportation network linking importers and exporters to markets and suppliers in the increasingly complex global supply chains. Guided by the National Policy Framework for Strategic Gateways and Corridors, the Gateways and Corridors Program supports Canada's international commerce by creating a more efficient, reliable and seamless trade-related transport system in Canada. The Program: develops initiatives to improve and integrate transportation networks in key regions; fosters partnerships between all levels of government and the private sector; supports and oversees projects that contribute to the increased capacity and efficiency of gateway and corridor infrastructure; develops and puts in place measures that remove impediments to the effective development of gateways and corridors; and markets the use of gateways and corridors within Canada and internationally.

- **Program 1.2** — Transportation Infrastructure

The Transportation Infrastructure Program oversees, funds and manages multimodal transportation infrastructure under Transport Canada's mandate to improve efficiency and service delivery for the benefit of Canadian taxpayers. The Program acts as the steward of certain commercial transportation assets operated by third parties on behalf of the federal government (airport authorities, port authorities, federal bridges, VIA Rail, Seaway, Marine Atlantic) provides funding for Canada's strategic transportation infrastructure, to support federal objectives, develops transportation infrastructure policy through consultation with stakeholders. It also manages Transport Canada ports and airports, supports essential services in remote communities, manages legacy commitments, and divests assets where possible.

- **Program 1.3** — Transportation Marketplace Frameworks

The Transportation Marketplace Framework program encourages transportation efficiency by fostering a competitive and viable transportation sector. The Program: sets regimes governing the economic behaviour of carriers in all modes of transportation; sets the rules of governance for all the transportation infrastructure providers falling under federal authority; monitors, analyzes, researches, and reports on the transportation system; promotes innovation in transportation; enables access to transportation for Canadians; represents the interests of Canada in trade negotiations, international transportation fora and other international bodies; promotes access to markets in the context of international trade and fulfills certain federal responsibilities with regard to the *International Bridges and Tunnels Act*.

Strategic Outcome 2

A Safe and Secure Transportation System.

- **Program 2.1 — Aviation Safety**

The Aviation Safety Program, under the authority of the *Aeronautics Act* develops, administers and oversees the policies, regulations and standards necessary for the safe conduct of civil aviation within Canada's borders in a manner harmonized with international standards. The Program fosters the safety of the aviation system, provides oversight of the aviation sector and enforces international conventions signed by Canada. It also provides air transport services to support Transport Canada and other government department operations

- **Program 2.2 — Marine Safety**

The Marine Safety Program, under the authority of the *Canada Shipping Act, 2001*, the *Navigation Protection Act*, the *Safe Containers Act*, the *Pilotage Act*, the *Coasting Trade Act* and the *Arctic Waters Pollution Prevention Act*, develops, implements and administers policies, regulations, and standards necessary for the safe conduct of marine activities in a manner harmonized with international standards. The Program fosters the safety of the marine transportation system, provides oversight of, the marine industry including domestic and foreign vessels (both non-pleasure craft and pleasure craft); enforces international conventions signed by Canada; and protects the public right to navigate on Canadian waterways; regulating lights or markers required for safe navigation during and/or on completion of certain works; regulating the placement of private buoys as per the Private Buoy Regulations of the *Canada Shipping Act, 2001*; and, acting as Receiver of Wreck as per the *Canada Shipping Act, 2001*, Part 7.

- **Program 2.3 — Rail Safety**

The Rail Safety Program, under the authority of the *Railway Safety Act*, develops, administers and oversees the policies, regulatory instruments necessary for the safety of railway operations in a manner consistent with North American and International safety standards/levels. The Program fosters safety within the rail transportation system and provides oversight of the rail industry. It also promotes public safety at crossings, identifies the risks of trespassing, and provides funds to improve safety at grade crossings.

- **Program 2.4 — Aviation Security**

The Aviation Security Program develops, administers and oversees the policies, regulations and standards to support the secure conduct of aviation activities in a manner harmonized with international standards. The Program is risked-based and fosters security within the aviation transportation system and, provides security oversight of the aviation industry while ensuring that Canada complies with international standards.

- **Program 2.5 — Motor Vehicle Safety**

The Motor Vehicle Safety Program, under the authority of the *Motor Vehicle Safety Act*, develops, administers and oversees the policies, regulations and standards necessary for the safety of motor vehicles and commercial vehicle operations in a manner that is harmonized with international and national standards. The Program contributes to reduced road deaths and injuries and provides safety oversight of the motor vehicle industry. This program uses funding from the following transfer payment: Road Safety Transfer Payment Program.

- **Program 2.6 — Transportation of Dangerous Goods**

The Transportation of Dangerous Goods Program, under the authority of the *Transportation of Dangerous Goods Act, 1992*, develops, administers and oversees the policies, regulations and standards necessary for the safe transportation of dangerous goods by all modes of transport in Canada in a manner harmonized with the international standards, and provides expertise in emergency response in the event of release of dangerous goods. This program also works to prepare for and coordinate the response to safety and

security threats and incidents that may impact the national transportation system or the department with regards to Chemical, Radiological, Biological, Nuclear or Explosive substances. The Program fosters safety in the transport of dangerous goods, provides oversight of the transportation industry, enforces international conventions signed by Canada and responds to emergency situations that affect the safety of Canadians.

- **Program 2.7 — Marine Security**

The Marine Security Program, under the authority of the *Marine Transportation Security Act*, develops, administers and oversees the policies, regulations and standards necessary for the secure conduct of marine activities in a manner consistent with international standards. The Program promotes security within the marine transportation system, provides oversight of the regulated marine transportation industry and enforces international conventions signed by Canada. The Program coordinates marine security policy and regulatory development across the Government of Canada through its leadership of the Interdepartmental Marine Security Working Group and associated activities.

- **Program 2.8 — Multimodal Safety and Security**

The Multimodal Safety and Security Program contributes to policies and standards that enhance safety and/or security in more than one transportation mode (e.g., through integrated management systems and intelligence assessments). It also provides common technical training to employees and system inspectors, ensuring the Department's capacity to inspect operators, enforce regulations, and respond to emergency situations that affect Canada's national transportation system. Lastly, this Program works to prepare for and coordinate the response to emerging safety and security threats and situations that may impact the national transportation system or the department.

- **Program 2.9 — Surface and Intermodal Security**

The Surface and Intermodal Security Program, guided by the *Railway Safety Act*, the *International Bridges and Tunnels Act*, and the *Transportation of Dangerous Goods Act* develops, administers and oversees the policies, regulations/voluntary frameworks, standards and guidance material necessary for the secure conduct of Surface and Intermodal activities. The Program fosters the security of the surface and intermodal transportation system across Canada.

Strategic Outcome 3

A Clean Transportation System.

- **Program 3.1 — Clean Air from Transportation**

Transport Canada's Clean Air from Transportation Program advances the federal government's environmental agenda in the transportation sector and complements other federal programs designed to reduce air emissions for improving the health of Canadians and the environment for generations to come. The Program: regulates air emissions from the transportation sector; and oversees TC clean air program obligations and commitments.

- **Program 3.2 — Environmental Stewardship of Transportation**

The Environmental Stewardship Program fulfills Transport Canada's responsibilities in working towards an environmentally responsible national transportation system for Canadians by ensuring compliance with the department's environmental obligations in relation to Acts, Regulations, Policies and Guidelines, and meeting legal obligations with respect to Aboriginal consultation. The Program: fulfills Transport Canada's responsibilities to implement a Departmental Sustainable Development Strategy under the *Federal Sustainable Development Act*; ensures that Transport Canada's lands and facilities are managed in an environmentally responsible manner in compliance with federal legislation and policies; provides functional support for environmental assessments, including for major resource projects; manages contaminated sites; and advises on Aboriginal consultation.

- **Program 3.3 — Clean Water from Transportation**

The Clean Water from Transportation Program protects the marine environment by reducing the pollution of water from transportation sources. This Program regulates and monitors the release and impact of discharges from marine vessels into the marine environment, regulates ballast water, and contributes to setting domestic and international rules that govern limits to liability of marine pollution incidents. This Program advances the federal government's clean water agenda in the transportation sector and complements other federal programs designed to protect the marine environment for the health of Canadians and the environment for generations to come. This Program also represents Canada in discussions to set international standards to prevent pollution from vessels operating in Canada's waters and address the threat of aquatic invasive species.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

Canada Post Corporation

Strategic Outcome 1

Compensation for the provision of Parliamentary mail and Materials for the use of the blind services, which are sent free of postage under the *Canada Post Corporation Act*.

- **Program 1.1 — Concessionary Governmental Services**

Payment associated with services provided at rates free of postage by the Corporation in support of government policy programs: Government Free Mail and Materials for the use of the Blind.

- **Program 1.2 — Transition Funding for Canada Post pension plan**

Payment for transitional support for the implementation of the Canada Post Corporation pension plan.

Canadian Air Transport Security Authority

Strategic Outcome 1

Screening programs at designated Canadian airports protect the travelling public.

- **Program 1.1 — Pre-Boarding Screening**

Pre-Board Screening (PBS) is the most public and visible of CATSA's mandate. At airport checkpoints across the country, security screening of passengers and their belongings are conducted by CATSA's Screening Officers. Passengers are screened before they enter the secure area of an airport terminal. Screening Officers use a variety of screening

technologies and procedures to examine passengers and their belongings, making sure that they are not carrying potentially dangerous items, such as firearms, incendiary devices and explosives. No objects or materials that are on Transport Canada's Prohibited Items List are allowed on board an aircraft to eliminate the possibility that they could be used to cause harm. Investments in new leading-edge technology and training of the Screening Officer workforce, combined with continuously improving operational procedures, ensure that CATSA's PBS remains compatible with its international partners in aviation security.

- **Program 1.2 — Hold Baggage Screening**

In addition to screening passengers and their carry-on baggage, Screening Officers use specialized equipment to screen passengers' checked baggage (or hold baggage) to prevent the boarding of items such as explosives that could cause a potential threat to air transportation, adding a vital layer of security protecting the travelling public. CATSA purchases and integrates the equipment into the airport's baggage handling system, oversees equipment operation and maintenance, and manages Screening Officer training on the detection equipment. CATSA also conducts ongoing testing and evaluation of new equipment and technologies, and performance measuring and monitoring of its HBS processes and systems.

- **Program 1.3 — Non-Passenger Screening**

As per direction from Transport Canada, CATSA's Screening Officers conduct, on a random basis, screening of individuals accessing restricted areas at Class I and II airports, providing an additional layer of security. Non-passengers include flight and cabin crews, airline customer service personnel, caterers, maintenance personnel, baggage handlers, vendors and concession and other airport service staff.

- **Program 1.4 — Restricted Area Identity Card**

The Restricted Area Identity Card (RAIC) Program is the world's first dual biometric (iris and fingerprint) airport identification program for non-passengers accessing restricted areas of air terminal buildings. The identity cards include a built-in computer chip with a microprocessor and memory to store biometric data of fingerprint and iris templates. The RAIC Program includes the cards, fingerprint and iris readers installed in airport terminals and a network infrastructure linking airports to a secure central database. Fully operational since January 31, 2007, the RAIC Program covers Class I and II airports and has the ability to interface with the airports' access control systems.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canadian Transportation Agency

Strategic Outcome 1

Transparent, fair and timely dispute resolution and economic regulation of the national transportation system.

- **Program 1.1 — Economic Regulation**

The Agency supports an efficient and accessible federal transportation system for users, service providers and other stakeholders through economic regulation of federal air, rail and marine transportation. It regulates air transportation by enforcing the *Canada Transportation Act* and related regulations, administering a licensing and charter permit system, helping to negotiate air bilateral agreements, and ensuring that terms and conditions of carriage of air carriers are consistent with Canadian legislation. It develops regulations, codes of practice, and educational and outreach programs to ensure that undue obstacles to the mobility of persons with disabilities are removed from the federal transportation network. It regulates the federal rail system by issuing certificates of fitness allowing carriers to operate, approving rail line construction, overseeing the discontinuance of service, establishing the net salvage value of rail lines, and it determines interswitching rates and administers the revenue cap for the movement of Western grain. It acts as an economic regulator in marine transportation by determining whether suitable Canadian vessels are available when applications are made to use foreign vessels.

- **Program 1.2 — Adjudication and Alternative Dispute Resolution**

The Agency provides formal and informal dispute resolution services to users, service providers and others affected by the federal transportation network. As a quasi-judicial tribunal, the Agency has the authority to issue adjudicative decisions and orders on matters within its jurisdiction over federal rail, air and marine modes of transportation and, in respect of the Agency's accessibility mandate, extra-provincial bus operations. It resolves disputes between: air travellers and air carriers regarding terms and conditions of air carriage; persons with disabilities and service providers regarding undue obstacles to the mobility of such persons within the federal transportation network; rail shippers and railway companies regarding level of service and other matters; municipalities, road authorities, landowners and railways regarding rail infrastructure; individuals and communities affected by rail noise and vibration and railways; Canadian ship owners and other interested persons regarding coasting trade and pilotage and port authorities regarding charges for pilotage services or port fees.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Marine Atlantic Inc.

Strategic Outcome 1

A safe, reliable, efficient, affordable and environmentally responsible ferry service between the Island of Newfoundland and the Province of Nova Scotia.

- **Program 1.1 — Ferry Services**

Marine Atlantic Inc. is a parent Crown Corporation that fulfills Canada's constitutional obligation to Newfoundland and Labrador (NL) to provide a year-round ferry service between North Sydney, Nova Scotia and Port aux Basques, NL. It also operates a non-constitutional seasonal service between North Sydney and Argentia, NL.

The Federal Bridge Corporation Limited**Strategic Outcome 1**

Safe and efficient transit on the infrastructure maintained, operated and managed by The Federal Bridge Corporation Limited.

- **Program 1.1** — Construction of a new low-level bridge in Cornwall, Ontario as well as related infrastructure improvements

This program encompasses the construction of a new low-level bridge in Cornwall, to replace the deteriorating North Channel Span of the Seaway International Bridge, as well as related infrastructure improvements on Cornwall Island.

Transportation Appeal Tribunal of Canada**Strategic Outcome 1**

The Canadian transportation community is provided with the opportunity to have enforcement and licensing decisions of the Minister of Transport reviewed in a fair manner by unbiased hearing officers.

- **Program 1.1** — Review and Appeal Hearings

Provides for the operation of an independent Tribunal to respond to requests from the transportation community for review of enforcement and licensing decisions taken by the Minister of Transport under various transportation Acts; and to conduct hearings into such appeals. At the conclusion of a hearing, the Tribunal may confirm the Minister's decision, substitute its own decision, or refer the matter back to the Minister for reconsideration.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1** — Internal services

See introductory text.

VIA Rail Canada Inc.**Strategic Outcome 1**

A national passenger rail transportation service that is safe, secure, efficient, reliable, and environmentally sustainable and that meets the needs of travellers in Canada.

- **Program 1.1** — Operation of a national network of rail passenger services

Provision of year-round services in the Quebec City-Windsor Corridor, transcontinental passenger services between Halifax and Montreal and between Toronto and Vancouver, and the regional and remote services in northern and outlying areas of the country.

Windsor-Detroit Bridge Authority

Strategic Outcome 1

A safe, secure, and efficient international crossing for commercial and passenger traffic across the Windsor-Detroit Bridge.

- **Program 1.1 — Detroit River International Crossing**

The Windsor-Detroit Bridge Authority is charged with delivering the Detroit River International Crossing project which will provide a safe, secure and efficient crossing for passenger and commercial traffic in the Windsor-Detroit region. The Detroit River International Crossing will address problems with regard to border crossings in the region, namely accommodating future traffic projections and providing sufficient capacity in the event of any disruptions at the existing Windsor-Detroit Crossings. The Windsor-Detroit Bridge Authority will procure the project on behalf of Canada and Michigan. As per the Canada-Michigan Crossing Agreement, the Windsor-Detroit Bridge Authority will have several responsibilities. It will manage and oversee the construction of the entire project, other than the operation and maintenance of the Interstate-75 interchange; develop a public-private partnership procurement documentation for the design, construction, operation, maintenance and partial financing of the project through a public-private partnership; conduct the public-private partnership procurement process and selection of the preferred bidder; sign the public-private partnership concession agreement; pay Michigan to undertake property acquisition in Michigan; lease or license properties from Michigan; lease or license from Canada the properties that the Canada is in the process of acquiring in Windsor; and manage and oversee the public-private partnership concessionaire for the duration of the concession agreement.

Note: The full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted / repealed in the current year, and of all authorities available from previous years is given in Section 1 of this volume.

(S) Statutory authority.

(L) Non-budgetary authority (loan, investment or advance).

(1) Treasury Board Vote 5 — Government contingencies.

Treasury Board Vote 10 — Government-wide initiatives.

Treasury Board Vote 15 — Compensation adjustments.

Treasury Board Vote 25 — Operating budget carry forward.

Treasury Board Vote 30 — Paylist requirements.

Treasury Board Vote 33 — Capital budget carry forward.

(2) Order in Council P.C. 2014-0144 transferred the control and supervision of that portion of the federal public administration in the Department of Transport known as the Unit Responsible for Federal Bridges in the Region of Montreal, from the Department of Transport to the Office of Infrastructure of Canada, effective February 13, 2014.

(3) The *Economic Action Plan 2014 Act, No. 1* and Order in Council P.C. 2014-1106 established the Administrative Tribunals Support Service of Canada (ATSSC), effective November 1, 2014. The ATSSC becomes the sole provider of resources and staff for eleven administrative tribunals, including Transportation Appeal Tribunal of Canada.

(4) Deemed appropriations pursuant to section 31.1 of the *Financial Administration Act*.

(5) Order in Council P.C. 2012-1352, designated the Minister of Transport as the appropriate Minister for the Windsor-Detroit Bridge Authority, effective October 09, 2012.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Secretariat

Strategic Outcome 1

Government is well managed and accountable, and resources are allocated to achieve results.

- **Program 1.1** — Government-wide Funds and Public Service Employer Payments

The Government-Wide Funds and Public Service Employer Payments program accounts for funds that are held centrally to supplement other appropriations, from which allocations are made to, or payments and receipts are made on behalf of, other federal organizations. These funds supplement the standard appropriations process and meet certain responsibilities of the Treasury Board as the employer of the core public administration, including employer obligations under the public service pension and benefits plans. The administration of these funds falls under the Expenditure Management program and the People Management program, but their financial resources are shown separately in the Program Alignment Architecture (PAA) for visibility and reporting purposes. This program includes funding for the following other transfer payments: Payments for Survivors of Employees Slain on Duty, and Special Indemnity for Spouses of Canadian Forces Attachés.

- **Program 1.2** — People Management

The People Management program supports activities of the Treasury Board in its role as the employer of the core public administration. The program's primary objectives are to lead people management and leadership excellence, to support human resources infrastructure and to ensure the appropriate degree of consistency in people management across the public service. In certain instances, activities extend beyond the core public administration to separate agencies, members of the Royal Canadian Mounted Police and the Canadian Forces, locally engaged staff, students and appropriation-dependent Crown corporations. To support deputy heads and to provide Parliament and Canadians with a clear view of the overall state of people management, this program enables the development and implementation of direction-setting strategic frameworks and policies such as classification, executive management, official languages, and values and ethics; the establishment of people management indicators, measures, oversight and monitoring; and the collection and analysis of reliable and consistent data regarding the public service. The program also enables prudent fiscal management of resources in the areas of classification, total compensation (collective bargaining, wages and salaries, terms and conditions of employment, pensions and benefits) and labour relations, and supports departments as they implement Government of Canada decisions regarding expenditures and programs. Responsibilities in areas other than classification and labour relations are shared with the Expenditure Management program. The People Management program is underpinned by a number of pieces of legislation, which are identified in the Policy Framework for People Management and the Policy Framework for the Management of Compensation.

- **Program 1.3** — Management Frameworks

The Management Frameworks program establishes principles for sound governance and management in the Government of Canada by helping ministers set government-wide policy direction in targeted areas. These areas include service and program modernization, information management, information technology, security, communications and regulatory management. This program achieves its results by communicating clear expectations for deputy heads and by adopting principles-based approaches and risk-informed oversight. Working with departments, agencies and functional communities (e.g., regulation, information technology, security), the Secretariat provides

leadership, oversight, assessment and guidance in areas related to management policy and regulatory development, compliance, and performance reporting. This work also includes responding to emerging public sector management issues and promoting informed risk-taking, innovation, cost-effectiveness, efficiency, transparency, and accountability. This program is underpinned by a broad set of enabling legislation, including the *Financial Administration Act* and the *Federal Accountability Act*.

- **Program 1.4 — Financial Management**

The Financial Management program provides oversight and direction to federal organizations to improve the stewardship of taxpayers' dollars and government assets. The program works to strengthen financial management, internal audit, management of real property and materiel, investment planning, project management and procurement across the federal public service. This is accomplished by providing direction to departments; demonstrating leadership; developing and maintaining policies, guidance and practices; nurturing sustainable and professional communities (e.g., finance, procurement, audit); and helping improve government operations. The primary legislation issuing the authority to this program is the *Financial Administration Act*.

- **Program 1.5 — Expenditure Management**

The Expenditure Management program helps align resources to achieve government priorities in a way that maximizes value for money and provides a whole-of-government perspective on matters related to direct program spending. Working with all federal organizations that are subject to budget appropriation, the Secretariat undertakes the review, analysis, and challenge of plans and proposals that involve departmental spending, expenditure forecasting and strategies, expenditure management of total compensation and results-based management. This work, as well as the production of government Estimates documents and reporting to Parliament, forms part of the Expenditure Management System, which is the framework for developing and implementing the government's spending plans and priorities within the limits established by the budget, implemented in coordination with the Department of Finance Canada and the Privy Council Office. The primary pieces of legislation underpinning the program's activities are the *Financial Administration Act* and the *Public Sector Equitable Compensation Act*.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Canada School of Public Service

Strategic Outcome 1

Public Servants have the common knowledge and the leadership and management competencies they require to fulfill their responsibilities in serving Canadians.

- **Program 1.1 — Foundational Learning**

Contribute to building a professional workforce by enabling public servants to perform in their current job and take on the challenges of the next job in a dynamic, bilingual environment through the provision of foundational learning activities. Developing and delivering training aligned with Public Service management priorities and which meets the requirements of the Policy on Learning, Training and Development and associated knowledge standards.

- **Program 1.2 — Organizational Leadership Development**

Strengthening the public service and contributing to Public Service Renewal by building strong leadership competencies for existing and emerging leaders through the provision of leadership development activities such as targeted courses, programs, seminars, and events.

- **Program 1.3 — Public Sector Management Innovation**

Enhance the performance and effectiveness of the public service by integrating individual development of public servants with organization-focussed solutions for learning, change management and management innovation. Documenting and disseminating innovations and best practices in public management, and providing public service organizations with services for advice and support for learning, change management and innovation in public sector management.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Commissioner of Lobbying

Strategic Outcome 1

Transparency and accountability in the lobbying of public office holders contribute to confidence in the integrity of government decision-making.

- **Program 1.1 — Reviews and Investigations under the *Lobbying Act* and the *Lobbyists' Code of Conduct***

The Office validates information provided by registered lobbyists to ensure accuracy. Allegations of non-registration or misconduct by lobbyists are reviewed and formal investigations are carried out when required.

- **Program 1.2— Registration of Lobbyists**

Lobbying the federal government is a legitimate activity but it must be done transparently. The *Lobbying Act* requires that individuals who are paid to lobby public office holders must disclose certain details of their lobbying activities. The Office of the Commissioner of Lobbying approves lobbyists' registrations and makes them available for searching in an electronic registry that is accessible on the Internet.

- **Program 1.3 — Education and Research**

The Office develops and implements educational and research programs to foster awareness of the requirements of the *Lobbying Act* and the *Lobbyists' Code of Conduct*. The primary audiences for programs are lobbyists, their clients and public office holders.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1 — Internal services**

See introductory text.

Office of the Public Sector Integrity Commissioner

Strategic Outcome 1

Wrongdoing in the federal public sector is addressed and public servants are protected in case of reprisal.

- **Program 1.1 — Disclosure and Reprisal Management Program**

The objective of the program is to address disclosures of wrongdoing and complaints of reprisal and contribute to increasing confidence in federal public institutions. It aims to provide advice to federal public sector employees and members of the public who are considering making a disclosure and to accept, investigate and report on disclosures of information concerning possible wrongdoing. Based on this activity, the Public Sector Integrity Commissioner will exercise exclusive jurisdiction over the review, conciliation and settlement of complaints of reprisal, including making applications to the Public Servants Disclosure Protection Tribunal to determine if reprisals have taken place and to order appropriate remedial and disciplinary action.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Department

Strategic Outcome 1

Financial, physical and mental well being of eligible Veterans.

- **Program 1.1** — Disability and Death Compensation

This program supports eligible Veterans, Canadian Armed Forces members, survivors, spouses/common-law partners, dependents and civilians whose lives have been permanently affected as a result of service to their country. In recognition of the effects of service-related disabilities or death, compensation is provided in the form of: monthly disability pensions; disability awards paid as a lump sum, annual payment or a combination of both; and monthly allowances. The amount of benefit awarded is dependent on the severity of the disability and its impact on daily functioning. This program is delivered through grants.

- **Program 1.2** — Health Care Program and Re-establishment Services

This program is designed to improve or maintain the physical, mental and social well-being of eligible Veterans, Reserve force personnel on a period of Class A service or on a period of 180 days or less of Class B service in the Canadian Armed Forces, civilians, and their survivors and dependants and other individuals, promote independence, and assist in keeping them at home and in their own communities by providing a continuum of care. The program provides access to rehabilitation services, employment support, health benefits, home care and long-term care. This program is delivered through operating funds, grants and contributions.

- **Program 1.3** — Financial Support Program

This program provides income support to eligible Veterans, qualified civilians and their survivors. The intent of the support is to ensure that recipients have income which is adequate to meet their basic needs. In recognition of the effects of war time service in the case of War Service Veterans, income support may be paid in the form of a monthly War Veterans Allowance. The program also provides economic support to Canadian Armed Forces Veterans, survivors, spouses/common-law partners and dependents for the economic impact that a career ending and/or service related injury or death can have on a Veteran's ability to earn income, advance in a career or save for retirement. Compensation is provided in the form of a monthly income support payment. A lump sum supplementary retirement benefit is available to those who are totally and permanently incapacitated. There is also an allowance available for those with severe and permanent impairments. This program is delivered through grants.

Strategic Outcome 2

Canadians remember and demonstrate their recognition of all those who served in Canada's efforts during war, military conflict and peace.

- **Program 2.1 — Canada Remembers Program**

Canadian Veterans and those who died in service have made valuable contributions to the development of Canada. Under the authority of P.C. Order 1965-688, this program ensures that Veterans and those who died in service are honoured and the memory of their sacrifices and achievements are preserved. Canada Remembers activities promote the following outcomes: Canadians are knowledgeable about the efforts of Veterans and those who died in service to Canada; Canadian military milestones and the Veterans who participated in them are publicly recognized; communities and other groups lead remembrance activities; symbols erected to honour Veterans and those who served are maintained in perpetuity on behalf of Canadians; and, the estates of eligible Veterans receive funeral and burial assistance. Encouraging pride in our shared military history, celebrating the contributions and acknowledging the sacrifices of those who served, and preserving symbols to mark their courage all contribute to the Government of Canada's outcome of a vibrant Canadian culture and heritage. This program is delivered through operating funds and grants and contributions.

Strategic Outcome 3

Veterans' rights to services and benefits that address their needs are considered by the Veterans Affairs Portfolio.

- **Program 3.1 — Veterans Ombudsman**

This program provides an independent and impartial opportunity to review complaints submitted by Veterans and other individuals (War Service Veterans, Veterans and serving members of the Canadian Forces (Regular and Reserve), members and former members of the Royal Canadian Mounted Police, spouses, common-law partners, survivors and primary caregivers, other eligible dependants and family members, other eligible individuals and representatives of the afore-mentioned groups). It promotes fair and equitable treatment in accessing the services, benefits and programs from Veterans Affairs Canada. This is accomplished by: providing them with information and referrals to facilitate their access to programs and services; reviewing and addressing complaints arising from the Veterans Bill of Rights and decisions on benefits and services for which there is no right to appeal to the Veterans Review and Appeal Board; reviewing systemic issues related to the Veterans Review and Appeal Board; and identifying and reviewing emerging and systemic issues related to the provisions of the Department's programs and services and providing information and recommendations to the Minister in relation to those issues. This program is delivered through operating funds.

Strategic Outcome 4

The following program supports all strategic outcomes within this organization.

- **Program 4.1 — Internal services**

See introductory text.

Veterans Review and Appeal Board

Strategic Outcome 1

An independent and fair appeal process for disability pension, award and allowance decisions made by Veterans Affairs Canada.

- **Program 1.1 — Review and Appeal**

The Veterans Review and Appeal Board's program delivers the independent review and appeal process for disability pension and disability award decisions made by Veterans Affairs Canada. It provides two levels of appeal for Veterans, Canadian Armed Forces members, Royal Canadian Mounted Police applicants, and their families who are dissatisfied with their disability pension and disability award decisions. The Board conducts hearings and issues written decisions. The Board's other key functions include hearing reviews and appeals of special award decisions made by Veterans Affairs Canada relating to attendance allowances, exceptional incapacity allowances and clothing allowances; hearing the final level of appeal for War Veterans Allowance decisions; and adjudicating compassionate award applications.

- **Program** — Internal services

The Internal services program supports all strategic outcomes and is common across government. Internal services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and oversight services; Communications services; Legal services; Human resources management services; Financial management services; Information management services; Information technology services; Real property services; Materiel services; Acquisition services; and Travel and Other administrative services. Internal services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Strategic Outcome 1

A growing and diversified western Canadian economy.

- **Program 1.1** — Business Development and Innovation

Business Development and Innovation supports western Canadian businesses, industry, and research organizations to enhance business innovation, productivity, and global engagement. Value-added production is strengthened through the introduction of new products, technologies, or innovations to existing processes, as well as through efforts to pursue global markets and increase investment in Western Canada. Additionally, this program supports some members of the Western Canada Business Service Network and related partners to provide business services and access to capital in Western Canada in support of increased entrepreneurship. Transfer payments in support of this program are made under the authority of the Women's Enterprise Initiative and the Western Diversification Program. Funding support of the Canada Business Network is comprised of operations and maintenance funding.

- **Program 1.2** — Community Economic Growth

Community Economic Growth involves economic development initiatives that support communities to advance their economies, adjust to changing and challenging economic circumstances, and recover from depressed economic circumstances. This is achieved through both direct funding of projects, as well as funding support of the Community Futures (CF) organizations. Additionally, this program assists communities to assess community strengths, weaknesses, opportunities, and potential for new economic activity, and to develop and implement community plans. Transfer payments in support of this program are made under the authority of the Western Diversification Program and the Community Futures Program.

- **Program 1.3** — Policy, Advocacy and Coordination

Policy, Advocacy, and Coordination arises from the *Western Economic Diversification Act* (1985) and empowers the Minister to advance the interests of Western Canada through policies and programs and by establishing cooperative relationships with key stakeholders. Policy, Advocacy and Coordination efforts enable WD to: provide a strong voice for Western Canada, which results in effective strategies, policies, and programs that address economic development needs; lead federal and intergovernmental collaboration to pursue key opportunities for long-term growth and diversification in areas of federal or shared federal-provincial jurisdiction; and, enable economic analysis activities to be carried out, which ultimately assist with informing policy and program decisions. Transfer payments in support of this program are made under the authority of the Western Diversification Program.

Strategic Outcome 2

The following program supports all strategic outcomes within this organization.

- **Program 2.1**— Internal services

See introductory text.

Ministry Summary

Source of authorities							Disposition of authorities
